Proposed Consent Agenda (Items 1-13)

Items for Discussion

Public Comment.
Note: The Town's Public Comment Period shall be reserved for those citizens that have signed up to address the Town Council, or a Board or Committee, at least 24 hours in advance of the meeting, pursuant to the Town's Public Comment Policy. Speakers are limited to 3 minutes. Additional comments may be submitted in writing.

1. Approval of the terms of, and authorization for the Mayor to execute, a contract amendment with Thomas and Hutton for permitting services relative to Cedar Stone Park Phase II.

2. Approval of the terms of, and authorization for the Mayor to execute, a Rental Agreement for the "From Here to There" Exhibit for the Smyrna Outdoor Adventure Center.

3. Approval of the terms of, and authorization for the Mayor to execute, an agreement with CBRE relative to the Stewart's Creek Gravity Sewer project re-appraisals.

4. Approval of the terms of, and authorization for the Mayor to execute, an agreement with the City of LaVergne for the Blair Road Project Gas Relocation project.

5. Approval of the terms of, and authorization for the Mayor to execute, an agreement with James N. Bush Construction, Inc. relative to the Enon Springs Water Line Replacement project.

6. Approval of the terms of, and authorization for the Mayor to execute, an agreement with Jarrett Builders, Inc. relative to Golf Course Water Line Extension/Connection.

7. Approval of the Fire Department Administrative Policies and Procedures Manual.

8. Approval of the terms of, an authorization for the Mayor to execute, a federal contract with the U.S. Department of Housing and Urban Development (HUD) for FY2025 CDBG Entitlement funds for a new playground at Rosenwald Hill Top Park.

9. Approval of the terms of, and authorization for the Mayor to execute, Amendment No. 1 with Gresham Smith relative to Rock Springs Road.

10. Approval of the terms of, and authorization for the Mayor to execute, Amendment No. 2 with Energy Land and Infrastructure relative to Lee Road Phase 1.

11. Approval of the terms of, and authorization for the Mayor to execute, a contract with S&W Contracting Company LLC for construction of pedestrian buttons at the intersection of Old Nashville Highway and Hazelwood Drive.

12. Approval of the terms of, and authorization for the Mayor to execute, a quote from CDWG for a 3-year renewal of the Google Workspace agreement

13. Approval of and authorization of a list of items to be auctioned through online surplus sale with GovDeals.

14. Consideration of an Ordinance relative to a Budget Amendment for Fiscal Year 2026.

15. Consideration of an Ordinance relative to the annexation and PUD zoning of property on Tax Map 11, Parcel 5.00 requested by Fall Creek Commerce, LLC containing 225.25 acres. The property is located on Mona Road east of I-840.

16. Consideration of an Ordinance relative to the rezoning of Tax Map 28J, Group A, Parcel 1.00, from R-3 to C-4 requested by Tracye Mayolo. The property requested to be rezoned contains approximately .71 acre and is located at 1191 Rock Springs Road. Second Reading.

17. Consideration of an Ordinance amending Title 1 "General Administration" Section 1-104 "Order of Business" of the Municipal Code relative to Public Comment at meetings. Second Reading.

18. Consideration of an Ordinance amending the Smyrna Municipal Code Title 5, Chapter 2 relative to Privilege and Business Taxes.

19. Consideration of an Ordinance amending the 2025-2026 Fiscal Year Fee Schedule to add a late penalty for delinquent business privilege taxes.

20. Consideration of a Resolution in support of a new Air Traffic Control Tower at Smyrna Airport.

21. Consideration of an amendment to the By-Laws of the Sister City Relations Committee.

22. Discussion relative to the renaming of the bridge on Morton Lane.

23. Citizens Academy Update.

Town of Smyrna
Town Council Meeting
Agenda Summary

Agenda Item Number 1.
Department: Parks
Date: January 6, 2026

Subject:
Approval of the terms of, and authorization for the Mayor to execute, a contract amendment with Thomas and Hutton for permitting services relative to Cedar Stone Park Phase II.

Fiscal Impact:
$35,701 - Expense to be covered by the Cedar Stone Park Phase II Capital Budget item (320-44700-992)

Contract Type:
Contract Change Order /Amendment

Contract Term (if applicable):

Background:
Staff took plans for Cedar Stone Park Phase II to the Planning Commission for review. During this process, staff requested that an updated Hydraulic Determination (HD) be performed, as the last HD was completed more than five years ago. Staff coordinated this work to be completed through Thomas & Hutton, who proceeded to use S&ME, Inc. for the work. The work determined the delineated wetland area was more than .5 acres, resulting in more permit work. S&ME and staff will meet with the Corps of Engineers to discuss the scope of work and the bidding timeline.

Summary:
Staff have worked closely with Thomas and Hutton, who determined that a contract amendment would be required for additional permitting services. As a result of the initial work, it was determined that some of the wetland areas that have US Corps of Army Engineers (USACE) jurisdiction were delineated, requiring additional permitting. The permitting work will be subject to USACE and TDEC permitting, as detailed in the contract amendment. The cost of the permitting work is $25,251, with an option for additional archaeological work for $10,450. We request approval of the total amount of $35,701 to ensure the additional archaeological work can be performed if required. This will only be invoiced if the work is performed. The goal is to get this project to bid as soon as possible.

Recommended Council Action:
Staff recommends approval of the contract amendment with Thomas and Hutton for permitting services relative to Cedar Stone Park Phase II.

1. Smyrna Cedar Stone Park Phase 2 - Contract Amendment - USACE Permit 12182025
2. Cedar Stone Park Phase II Engineering Service Proposal

CONTRACT AMENDMENT

12/18/2025

Town of Smyrna
Cedar Stone Park Phase 2
USACE and TDEC Permitting

T&H Project Number: 28299.0030

The Town of Smyrna (Owner) and Thomas & Hutton Engineering Co. (Consultant) amend their contract dated April 13, 2021 (Engineering Design) for work, materials, or services as described in the attached signed agreements and Exhibit A – Scope of Services.

As requested by the Planning Commission, the Hydrologic Determination for the site is out of date and needs to be made current. This required work was performed by personnel certified by the TDEC Hydrologic Determination Training (HDT). As a result, wetlands having U.S. Army Corp of Engineers (USACE) jurisdiction were delineated, requiring additional permitting. A detailed summary of the work performed and correspondence with the permitting agencies is provided in the attached Scope of Work.

The fee for the additional services will be the subconsultant's lump sum rate plus 10% pass through, (reduction of 5% of the rate) as outlined in the original contract for outside services, for the tasks listed below.

Phase	**Fee Structure**	**Expense Budget**
Environmental Permitting:		
Task 1 – USACE Individual Permit Application	Lump Sum	$ 9,435.50
Task 2 – TDEC Individual ARAP Application	Lump Sum	$ 9,435.50
Task 3 – TRAM Study	Lump Sum	$ 1,650.00
Task 4 – Protected Species Assessment	Lump Sum	$ 2,530.00
Task 5 – Archeological Study	Lump Sum	$ 2,200.00
Total		$ 25,251.00
Additional Services (Archaeological Reconnaissance) (If requested)	Lump Sum	$ 10,450.00

EXHIBIT A- SCOPE OF SERVICES

Thomas & Hutton will utilize the services of S&ME, Inc. (Sub-Consultant) to environmental permitting services required as a result of the Hydrologic Determination (HD) findings from the Tennessee Department of Environment and Conservation (TDEC) and a jurisdictional determination (JD) from the U.S. Army Corps of Engineers (USACE) regarding the subject property.

The Sub-Consultant completed a Jurisdictional Waters Assessment of the site and issued a report of findings dated August 4, 2025. During the verification site visit on September 22, 2025, with the U.S. Army Corps of Engineers (USACE), additional information and revisions to identified features was requested. In response to this request, S&ME issued a Request for Additional Information Letter to the USACE and Tennessee Department of Environment and Conservation (TDEC) dated October 21, 2025. In an email dated November 24, 2025, Brandon Yates with the TDEC indicated that the TDEC agrees with the delineation of the site represented in the Request for Additional Information Letter.

Based on plans for the park's Phase 2 Expansion the project will impact the jurisdictional water resources listed in the table below.

Table 1. Jurisdictional Water Resources with Proposed Impacts

ID	HD/Federal Classification	Approximate Impact Acreage
W-D	Non-Isolated Wetland	435 Square Feet / 0.010 acre
W-G	Non-Isolated Wetland	22,089 Square Feet / 0.507 acre

To meet requirements to allow the project to move forward with bidding and construction the following Scop of Services is recommended.

1. SCOPE OF SERVICES

Engineering Consulting Services

A. Environmental Permitting

1. USACE Individual Permit Application

The Sub-Consultant will prepare and submit a permit application to the USACE. The scope of this proposal assumes that the project will qualify for coverage under an Individual Permit (IP) as the wetland impacts are anticipated to be over the 0.5-acre threshold for NWP No. 43 (Recreational Facilities).

The Sub-Consultant will prepare one permit application package to address the USACE Section 404 IP requirements. The application will be based on information collected by the sub-consultant, additional research, and information provided by the project team or other designated parties. Following coordination with the applicant, the Sub-Consultant will submit the necessary written documentation to support the permit application, which includes application drawings, surveys, and construction details. The

Consultant will provide site plans and construction drawings as required by the USACE for inclusion in the application package.

This task includes time for the project scientist to track the permit, answer questions that may arise, and communication both verbally and in writing with the USACE. If a specific task is requested by the regulatory agency, beyond the Scope of Services described herein, the Consultant will submit a change order describing the additional scope of work and the associated costs. It should be noted that final approval from USACE may require modifications to the permit application. The Sub-Consultant will work with the project team and the USACE to assist in addressing the regulatory issues that may arise during the permitting process.

2. TDEC Individual Aquatic Resources Alteration Permit (ARAP) Application

Upon client approval, the Sub-Consultant will prepare and submit a permit application to TDEC that will include a narrative discussion of the existing site conditions and proposed impacts. The Consultant will provide site plans to the Sub-Consultant for the permit package. The Sub-Consultant will submit copies of the permit application to TDEC once the application form has been reviewed and signed by the applicant. The Consultant has not included the Individual ARAP application fee of $2,500 in the proposed fee. The scope of this proposal assumes that the project will qualify for coverage under an Individual ARAP as the wetland impacts are anticipated to exceed the 0.25-acre of wetlands that are degraded and of low resource value, and 0.10-acre of wetlands representing moderate-to-high resource value thresholds for General ARAP No. 11 (Minor Alterations to Non-isolated Wetlands).

This task includes time for the project scientist to track the permit, answer questions that may arise, and communication both verbally and in writing with TDEC. If a specific task is requested by the regulatory agency, beyond the Scope of Services described herein, the Consultant will submit a change order describing the additional scope of work and the associated costs. It should be noted that final approval from TDEC may require modifications to the permit application. The Sub-Consultant will work with the Consultant and TDEC to assist in addressing the regulatory issues that may arise during the permitting process.

3. Tennessee Rapid Assessment Method Studies

The Tennessee Rapid Assessment Method (TRAM) is a set of procedures used by the TDEC for determining wetland quality within the state of Tennessee. The TRAM assesses wetlands of different Hydrogeomorphic (HGM) classes and assigns a numeric score to quantify the quality of a wetland. Generally, wetlands scoring at 75 or above are considered to be high resource value wetlands, those scoring between 45-74 points are considered moderate resource value wetlands, and those scoring under 44 points are considered low resource value wetlands.

Based on the Sub-Consultant's knowledge of W-D and W-G, the wetlands are considered to be Slope Wetlands, and as such, will be assessed for the following characteristics:

- Wetland area

- Hydroperiod
- Watershed Integrity
- Vegetation Cover
- Vegetation Composition and Diversity
- Soil Organic Matter
- Buffer Quality and Width

The result of the TRAM study will be shared with the project team in an email. The TRAM worksheets and a summary of the findings will be incorporated into the permit application packages.

4. Rare, Threatened, and Endangered Species Habitat Assessment

Under this permitting subtask, the Sub-Consultant will secure correspondence from the U.S. Fish and Wildlife Service (USFWS) and the TN Wildlife Resources Agency (TWRA) regarding the proposed development. The TDEC Division of Natural Areas (DNA) has streamlined their consultation process through the Environmental Review Tool (ERT). S&ME will use the ERT to generate a report of local known occurrences of federal and/or state protected species within 1 mile and 4 miles of the project site. The fee for the ERT report is $275 and is included in this Scope of Services.

A qualified Sub-Consultant scientist will perform a database review and assess the property conditions at the project site for habitat suitable for listed federal and/or state-listed species. The scientist will perform a site visit and take photographic documentation of the site. The scientist will capture the location of trees that have suitable habitat using a differential GPS receiver. If larger areas of potential habitat are observed, individual trees may not be located; rather these habitat areas will be designated on a map.

Upon completion of the habitat assessment, the Sub-Consultant will prepare a letter for the TWRA and USFWS with detailed information regarding the site and the potential for the presence of the Indiana bat, northern long-eared bat (NLEB), and other Rare, Threatened, or Endangered (RTE) species. In the letter, existing and proposed site conditions will be discussed, and an aerial photograph will also be included defining the limits of potential bat habitat, if present. The letter for TWRA and USFWS will include a statement explaining that this is a site anticipated for future construction activities. The agencies will then perform an internal desktop review and make an assessment as to the likelihood of any RTE species being affected in the development of this site.

The TDEC DNA requires consultants to use the Natural Heritage Program (NHP) Self-Certification process to complete their consultation process. This RTE Species Habitat Assessment Scope will provide documentation for Step 1 in the NHP Self-Certification.

If the TWRA, USFWS, and the results of the NHP Self-Certification determine that no additional investigation is required, then the RTE species review is concluded.

If TWRA and/or USFWS responses and/or the results of the NHP Self-Certification require additional surveys and agency coordination under Steps 2 and 3, then

additional services may be necessary. The Scope of Services does not include presence/absence surveys for RTE species. After coordination with the TWRA and USFWS, the desktop review, and the NHP Self-Certification have been completed, and if other species are identified as a concern on the site, the Sub-Consultant will contact the project team to discuss the additional services that may be required under a change order.

5. Archaeological and Historic Resources Background Review

The purpose of the investigation will be to document the cultural resources sensitivity of the Project Area and to identify previously recorded archaeological and historic resources that might be affected by proposed development activities. Significant resources are archaeological sites and historic structures that are listed on, or eligible for listing on, the National Register of Historic Places (NRHP).

The Sub-Consultant will conduct a background literature and records search for the Project Area. The Sub-Consultant will conduct the background research to develop an archaeological and historical context of the property. This information, documented using previously identified resources in the vicinity of the Project Area, will help us understand the likely nature and distribution of resources that may be encountered, and provide a comparative basis for the evaluation of resources identified during the fieldwork. Records made available by the Office of State Archaeology, the Tennessee Historical Commission in Nashville, and the National Register of Historic Places, maintained by the U.S. National Park Service, relevant client-provided information, and readily available historic maps will be examined.

The task deliverable will consist of a letter report documenting the background research, results, and recommendations for additional work that may be required under applicable Federal or State laws.

6. Archaeological Survey and Historic Resources Reconnaissance (If requested)

After review of the Archaeological and Historic Resources Background Review results or if required by a permitting agency, the client and/or the SHPO may determine that additional investigations are necessary to identify resources that may be present but are not currently documented.

The second phase of the project will involve an archaeological survey of the Project Area. At least 72 hours before conducting the fieldwork, the Sub-Consultant will submit a request to Tennessee 811 so that underground utilities will be marked.

The archaeological survey will be conducted primarily by excavating shovel test pits. Shovel test pits will be at least 35 cm in diameter and excavated to 80 cm below surface, the water table, or until culturally sterile subsoil is reached. Soil recovered from shovel tests will be screened through ¼-inch wire mesh. While the exact number of shovel test pits excavated during the study will depend on field conditions and results, for the purposes of developing this scope of service and the associated fees, we estimated no more than 150 shovel test pits will be sufficient to examine areas not covered in hardscape surfaces, fulfill the goals outlined in this scope of service, and to provide preliminary delineation of site boundaries, if necessary. Shovel testing will be supplemented by the surface inspection of roads, firebreaks, and other areas

with adequate ground surface exposure.

Artifacts recovered during the survey will be segregated and bagged by site and relative provenience within each site. Sites will be documented using state archaeological site forms that will be submitted to the appropriate repository at the conclusion of fieldwork. The Field Director will maintain notes on survey methods, sites identified during the survey, and relevant environmental factors such as soil types associated with specific sites. Identified sites will be photographed using a digital camera and plotted using a Global Positioning System (GPS) receiver. The artifacts, notes, photographs, maps, and other project-related materials will be returned to the laboratory for processing upon completion of the field studies. Artifacts will be returned to you for transfer to the property owner after completion of this study.

In addition to the archaeological survey, a limited architectural resource reconnaissance will be conducted to locate historic architectural resources on or adjacent to the Project Area. The location of each identified resource will be plotted on a project base map and digital photographs will be taken. Information regarding historical value, appearance, and integrity will aid in the determination of NRHP eligibility. This scope of service does not include a formal evaluation of the significance of the structures, or documentation sufficient to meet the standards of the Historic American Buildings Survey/Historic American Engineering Record (HABS/HAER).

Archaeological and Historic Resources Report. The report will document the project methods, background research, fieldwork, analyses, results, and recommendations for additional work that may be required under applicable Federal or State laws.

Exclusions

Items not included in the survey scope of services are as follows:

- USACE and/or TDEC- Division of Water Resources (DWR) mitigation, and fees;
- Phase I and Phase II Environmental Site Assessments;
- Civil surveying;
- Additional regulatory interactions, other than those described above, that may be required;
- RTE Species Presence/Absence Surveys;
- Environmental sampling and analysis.

  These items may be completed as additional services if requested by the Client.

2. PERIODS OF SERVICE

A. Environmental Permitting

After receipt of a written notice to proceed from Client, Consultant's Sub-Consultant will commence work within seven (7) calendar days after receipt and task 3 (TRAM Studies) will be completed within ten (10) calendar days. Tasks 1 and 2 will be dependent upon the responsiveness of the reviewing agencies, but packages will be completed withing thirty (30) calendar days.

Smyrna, Tennessee 37167

March 4, 2021

RE: TOWN OF SMYRNA, TENNESSEE
CEDAR STONE PARK PHASE 2 - ENGINEERING SERVICES PROPOSAL

Dear Mr. Moss:

As requested, Dempsey, Dilling & Associates (DDA), an affiliate of Thomas and Hutton is pleased to submit a contract proposal for providing engineering services for the proposed Cedar Stone Park Phase 2 under our existing contract with the Town. Our proposal is based on developing Bid Documents (plans and specifications) for Phase 2 of the park. DDA proposes to perform the following tasks:

1. Schedule a project kick-off meeting with the Project Team to discuss the Town's preferences and goals associated with the Cedar Stone Park Phase 2. The attached phase outline plan will be utilized during the meeting and design process to discuss the potential location of the various elements. Additional meetings will be scheduled as necessary to adequately address the entire scope of the Phase 2.

2. Utilize the overall master plan of the park to develop the layout and design for Phase 2.

3. Prepare Plans, Specifications, and Bid Documents for Phase 2 Base Bid Elements and Additive Alternate Elements. DDA will submit the entire Bid Document package (Plans and Specifications) to the Town of Smyrna for review and input. Once the review is completed by the Town of Smyrna, the necessary revisions will be incorporated into the plans and specifications. DDA will provide both hard and electronic copies of the Final Plans, Specifications, and Bid Contract Documents to the Town of Smyrna.

4. Assist in receiving competitive bids.

5. Prepare the necessary permits for the project that will include revising the TVA easement encroachment permit and the TDEC NPDES Permit for the Storm Water Pollution Prevention Plan (SWPPP).

It is anticipated the following park elements will be included within Phase 2.

BASE BID - PHASE 2 ELEMENTS	
Grading and Drainage	Concessions/Restrooms
Perimeter Connector Road	North Shelter (50' hexagon 1,620 sf)
Parking Area to Serve East Quad	Walking Trail (8' wide x 3,000')
East Quad Baseball Fields (4-225' fields)	Pedestrian Bridge (50' long)
Fields to Be Synthetic Turf	Maintenance Shop (4,000 sf) with parking
Black Chain Link Fencing Around the Fields	Utility Extensions
Musco Field Lighting	Bleachers, Trash Receptacles, Benches and Picnic Tables by the Town
LED Lighting at Parking Area	Concrete Walkways
Landscaping	Storm Water Pollution Prevention Plan
TVA Coordination	
ADDITIVE ALTERNATE BID - PHASE 2 ELEMENTS	
Regulation Baseball Field	Bleachers, Trash Receptacles, Benches and Picnic Tables by the Town
Field to Be Synthetic Turf	Concrete Walkways
Black Chain Link Fencing Around the Field	Concessions/Restrooms
Musco Field Lighting	Tennis Courts with Lighting and Fencing
Parking Area	Landscaping
LED Lighting at Parking Area	TVA Coordination

DDA proposes to perform tasks 1 through 5 for a lump sum cost of $421,715.00. Our proposed fee includes the geotechnical study and topographic/boundary survey.

If approved, DDA monthly billing will be based on the percent complete of the project. Should additional tasks be requested by the Town, the hourly fees and associated additional services costs as outlined in the attached terms and conditions will apply. DDA-TH anticipates tasks 1 through 5 to be completed within 210 days. The completion time is based on no delays incurred by DDA during the preliminary layout, design phase, and review comments from Town staff. If delays are experienced, DDA would respectfully ask the Town take these into consideration as to allow the necessary adjustment to the project completion deadline.

If the Town agrees with the proposal, we ask both the original copies be signed by an approved representative of the Town of Smyrna. One copy should be retained by the Town of Smyrna and one copy returned to DDA as authorization to proceed. Please note the attached "Terms and Conditions" are an integral part of the proposal. DDA appreciates the opportunity to provide professional engineering services to the Town of Smyrna Parks and Recreation Department for this project. Should you need a proposal for CEI services or have any questions please give me a call.

Sincerely,
DEMPSEY, DILLING & ASSOCIATES

DEMPSEY, DILLING & ASSOCIATES
TERMS AND CONDITIONS

Access to the Site/Job Site Safety
Unless otherwise stated, Dempsey, Dilling & Associates (DDA), *an affiliate of* Thomas and Hutton, will have access to the site for activities necessary for the performance of the services. The Client/Owner understands that DDA is not responsible, in any way, for the means, methods, sequence, procedures, techniques, scheduling of construction, or job site safety. DDA will not be responsible for any losses or injuries that occur at the project site.

The Owner's Responsibilities:
Designate, in writing, a single person to act as the Client's/Owner's representative.

Provide DDA with all available information, which is pertinent to the project.

Guarantee access to the work and make all provisions for DDA to enter upon public lands as required to perform work essential to the development of the project.

Give thorough consideration to all reports and other documents presented by DDA and inform DDA of all decisions within a reasonable time so as not to delay the work of DDA.

Furnish DDA with any standards to be required to follow.

Furnish approvals from all government authorities having jurisdiction over the project and such approvals and consents from others as may be necessary for the completion of the project.

Provide all legal, accounting, independent cost estimating, and insurance counseling services as may be required for the project.

Give prompt written notice to DDA whenever it is observed or otherwise becomes apparent that any defects exist in the Project.

Fees

Hourly rate charges will be as follows:

Classification	Standard Hourly Charge
Principal Engineer	130.00
Engineer	120.00
Engineering Intern	100.00
Sr. CADD Designer	85.00
CADD Technician	65.00
Construction Representative	65.00
Administrative Assistant	50.00
Clerical	45.00

Outside services contracted for a specific project, such as professional or technical consultants, laboratory testing, reproduction, photography, etc., will be invoiced at the amount of the sub-consultant's statement plus 15% for overhead.

Other expenses which are properly chargeable to the work will be invoiced as follows:

a) Travel by private vehicle: standard IRS mileage rate (currently $0.575/mile)
b) In-house printing and reproduction.

Lump sum fees, when applicable for certain projects, shall be understood to be an estimate and shall not be exceeded without written approval of the Client/Owner. DDA's hourly fee rates may be adjusted during the extent of this contract according to annual review by DDA.

Termination of Services

This Agreement may be terminated by the Client/Owner or DDA should the other fail to perform its obligations hereunder. The Client/Owner may also, at any time, terminate the Contract for the Client/Owner's convenience, with or without cause. Upon receipt of written notice from the Town of such termination for the Client/Owner's convenience, DDA shall cease work on this matter. In the event of termination, the Owner shall pay for all services rendered to the date of termination, all-reimbursable expenses, and reimbursable termination expenses. The Client/Owner shall have the right to terminate this Agreement by giving written notice to DDA of such termination and specifying the effective date thereof, at least five days before the effective date of such termination.

Insurance

DDA shall secure and maintain such insurance as will protect it from claims of bodily injury, death, or property damage, which may arise from the performance of service under this Agreement.

Indemnification

Should DDA become involved in third party litigation as a result of its performance of work for the Client/Owner under this Agreement, If any claim is brought against either the Client/Owner or DDA's sub-consultants by any third party, relating in whole or in part to the negligence of the Client/Owner or DDA's sub-consultants, each party shall indemnify the other against any loss or judgment, to the extent that such loss or expense is caused by the party's negligence. The Client/Owner will reimburse DDA for expenses related with claims if the Owner/Client is proven to be negligent. In addition, the Owner agrees to defend, indemnify and hold harmless DDA, its officers, directors, employees, agents and representatives, to the extent permitted by Tennessee law for municipalities of the sovereign, from and against all liabilities, claims, demands, losses, costs, damages, actions, suits, or other proceedings by whomsoever made arising out of or in connection with DDA's performance of work hereunder made or brought against DDA (other than any employee, officer, director, agent or other representative of DDA) for any environmental pollution or contamination, including without limitation, any actual or threatened release of toxins, irritants or pollutants, or waste gases, liquids, or solid materials, provided that DDA performs hereunder without neglect and does not negligently create, cause, contribute to, or aggravate any such pollution or contamination in existence at the Project site.

Limitation of Liability

For each Project, the limitation of liability to the Owner/Client of DDA, its employees, agents, and sub-consultants, for claims of loss, injury, death, damage or expense, including third party claims, shall not exceed the total sum of DDA's fee as set forth in the Agreement or $50,000.00, whichever is

greater, for any claims arising out of DDA's or it's sub-consultants' negligence. If this Project concerns the removal of asbestos, hazardous materials or toxins and/or surveys related to asbestos, hazardous materials and toxins, the Owner specifically agrees to indemnify and hold DDA harmless from any and all claims, liabilities or damages, to the extent permitted by Tennessee law for municipalities of the sovereign, related to any claim for asbestos, hazardous materials and toxins contamination, including but not limited to, personal injury or wrongful death associated with asbestos, hazardous materials and toxins in regard to the Project without limitation.

Ownership of Documents

All documents, including, but not limited to, drawings, specifications, and computer software prepared by DDA pursuant to this Agreement are instruments of service in respect to the Project. They are not intended or represented to be suitable for reuse by Client/Owner or others on modifications or extensions of the Project or on any other project. Any reuse without prior written approval by DDA for the specific purpose intended will be at the Client/Owner's sole risk and without liability or legal exposure to DDA. Client/Owner shall defend, indemnify, and hold harmless DDA and its sub-consultants against all judgments, losses, damages, injuries, and expenses, including reasonable attorney's fees, arising out of or as a result from such reuse to the extent permitted by law. Any verification for another purpose or adaptation of documents will entitle DDA to additional compensation at rates to be agreed upon by Client/Owner and DDA. Except as otherwise provided herein, documents, drawings, and specifications prepared by DDA and furnished to Client/Owner as part of the services under this Agreement shall become the property of the Client/Owner, provided, however, that DDA shall have the unrestricted right to their use. DDA shall retain any copyright and ownership rights in its design, drawing details, specifications, databases, computer software, and other proprietary property. Intellectual property developed, utilized, or modified in the performance of the services under this Agreement shall remain the property of DDA.

Changes

The Client/Owner may request changes in the Scope of Services of the Agreement to be performed hereunder. Such changes, including any increase or decrease in the amount of compensation, which are mutually agreed upon by and between the Client/Owner and DDA shall be incorporated into this Agreement by written amendment. Any changes made to the construction documents by the Client/Owner or the Client's/Owner's representatives are strictly prohibited without the knowledge and written consent of DDA. DDA shall be released from any liability resulting from damages, injuries, and or death resulting from the unauthorized alteration of construction documents.

Applicable Laws

Unless otherwise indicated, this Agreement shall be governed by the laws of the State of Tennessee.

Opinion of Construction Cost

Any opinion of probable construction cost or estimates prepared by DDA represents DDA's judgment as design professionals and is supplied for general guidance of the Client/Owner. Since DDA has no control over the construction marketplace, DDA does not guarantee the accuracy of such opinions as compared to contractor bids or actual cost to Client/Owner.

Date: January 6, 2026

Subject:
Approval of the terms of, and authorization for the Mayor to execute, a Rental Agreement for the "From Here to There" Exhibit for the Smyrna Outdoor Adventure Center.

Fiscal Impact:
$29,500 plus shipping - from Capital Improvements Budget number 320-44700-997

Contract Type:
Original Contract

Contract Term (if applicable):

Background:
The SOAC continues to rent approximately three educational exhibits per year for placement in the exhibit hall. The exhibits have educational and STEM value, making them attractive for school field trips. The exhibits also provide additional activities for SOAC members, party room attendees, and the general admission visitors. The rotation of exhibits provides a new experience for visitors every three to six months, depending on the rental length. Staff continues to target exhibits that meet the school curriculum.

Summary:
Staff has again coordinated the rental of the popular *From Here to There* exhibit for the summer of 2026 (May - September). The hands-on exhibit explores how to transport by land, sea, and air while also learning about gravity, friction, and the laws of motion. The cost of the exhibit is $29,500 for a three-month display period. The exhibit rental budget is included in our Capital Improvement Budget. The exhibit targets students, visitors, and families. This particular exhibit will be on display during the summer months, which gives our summer campers additional activities during the camp season.

Recommended Council Action:
Staff recommends approval of renting the From Here to There exhibit from the Sciencenter.

townofsmyrna.org/departments/smyrna_outdoor_adventure_center/index.php

The **Sciencenter** (Lending Institution) enters into this Agreement with the Smyrna Outdoor Adventure Center (Borrowing Institution) for the following scope of work and terms and conditions.

Exhibition Development and Ownership
From Here To There (Exhibition) was developed by Sciencenter and Rochester Museum & Science Center as part of the TEAMS Collaborative with funding from the National Science Foundation (NSF). The Exhibition is owned and toured by Sciencenter (Owning Institution).

Exhibition Description
From Here to There (Exhibition) is a 1,800- 2,500 square feet exhibition that consists of fun, interactive exhibits that are color-coded and divided into three main categories: transportation by land, sea and air. Each exhibit is designed to spark conversation and encourage interaction among families, friends and other museum visitors.

Visitors can turn up the heat to launch a colorful hot air balloon, operate an authentic canal lock system to move a boat from one water level to the next, and experiment with pneumatics, pulleys, hydraulics and levers to see what kind of mechanical advantage works best. One

hundred feet of Air Tubes allow visitors to send colored balls in a rushing channel of air from one station to another and watch the balls as they dart across walls, over their heads, and appear at the other station in record time. Ride a hovercraft to experience air pressure. Lift, launch and levitate your way through hands- on exhibits to explore how things move by land, sea and air. Experiment with hands-on exhibits that make learning about gravity, friction, and the laws of motion fun!

Descriptions of each individual exhibit are included in Attachment F.

Exhibition Rental Dates

Loan Term: Borrowing Institution shall have the right to display the Exhibition during the period **Summer 2026**

Commencing on:	**Inbound shipping date: Wednesday, May 13, 2026**
And	
Ending on:	**Outbound shipping date: Friday, September 11, 2026**

Display Site: Borrowing Institution shall have the right to display the Exhibition at the following location:

Display Site Name: Smyrna Outdoor Adventure Center
Address: 100 Sam Ridley Pkwy E, Smyrna, TN 37167

The Loan Term shall commence at the time of delivery of the Exhibition to the Display Site and shall terminate at the time the Shipping Agent, as defined below, takes possession of the Exhibition upon pickup from Borrowing Institution.

Specific in-bound shipping and out-bound shipping dates will be coordinated between the Lending Institution and the Borrowing Institution to allow adequate time for unpacking, installation and repacking of the Exhibition and to accommodate the schedules of prior and subsequent venues. The dates may need to be adjusted due to shipping availability or unforeseen circumstances.

Contract Period

The Contract shall extend from the date it is signed until the end of the Loan Term, as specified above. Any change in dates must be an amendment to this contract.

Booking Policy

To reserve the Exhibition for the Loan Term, the Borrowing Institution must sign and return this Agreement to the Lending Institution **along with a non-refundable deposit**. Upon receiving the signed contract and deposit, the Lending Institution will acknowledge receipt of the contract and the deposit.

Deposits and Payments

Borrowing Institution will pay Lending Institution for the rental of the Exhibition **for a three-month Loan Term** for a total of **$29,500** plus applicable taxes, if any.

An advance non-refundable deposit of $6,000 must be paid to the Lending Institution within twenty-one (21) days of signing of this Agreement in order to reserve the Exhibition.

The balance of the rental fee ($23,500) must be paid in full 45 days prior to the shipping of the Exhibition to the Borrowing Institution.

If the Borrowing Institution cancels a booking after the loan agreement has been signed, the deposit will not be refunded.

Shipping Costs

In addition to the Rental Fee, the Borrowing Institution is required to pay for inbound shipping.

- If the Borrowing Institution is **within the contiguous 48 states,**
    - And the Previous Venue is located within the contiguous 48 states or within 250 miles of a border crossing, the Borrowing Institution pays for shipping from the Previous Venue.
    - And the Previous Venue is outside of the contiguous 48 states and further than 250 miles from a US border crossing, the Borrowing Institution will pay for shipping from the port of entry or border crossing that is closest to the Previous Venue.

- If the Borrowing Institution is **outside of the contiguous 48 states,** including venues in Hawaii and Alaska, Borrowing Institution will be required to pay for incoming shipping from the previous venue, AND outgoing shipping to the nearest port of entry or border crossing in the contiguous 48 US states.
    - Borrowing Institution will be required to make the **necessary arrangements** in advance, and pay any **associated fees**, for import or export requirements associated with the Exhibition's inbound transport and outbound transport to the contiguous 48 states. Associated fees include but are not limited to customs documentation, sea freight or airfreight shipments, for both incoming and outgoing shipping. Lending Institution will provide any necessary information, such as the values and origins of the exhibits, as requested.

The Lending Institution will work with the Borrowing Institution to make shipping arrangements with a shipping carrier in conjunction with the prior and subsequent venues. The shipping carrier will bill the Lending Institution directly for **In-Bound Shipping.** The Lending Institution will then invoice the Borrowing Institution for the cost of shipping, which will be due upon receipt.

The Lending Institution will be responsible for **Shipping Insurance**.

Borrowing Institution shall pay all costs of inbound shipping of the Exhibition to the Display Site as outlined above. Borrowing Institution hereby agrees to indemnify Lending Institution from and against any and all liability, loss, claims, suits, fees, damages, and expenses, including reasonable attorney's fees, for such shipping charges. Borrowing Institution further agrees to pay any additional shipping, handling, or storage charges arising from Borrowing Institution's failure to meet conditions of this Agreement.

The Borrowing Institution will **not** be required to pay for **Out-bound Shipping** within the contiguous 48 states**.**

Shipping

Lending Institution or Shipping Agent will work with Borrowing Institution to coordinate and notify Borrowing Institution of the time and date of delivery to and pickup from the Display Site.

Borrowing Institution shall cooperate fully with Lending Institution and the Shipping Agent to ensure that the Exhibition is packed in shipping materials (which can include rolling platforms, rolling crates, pallets, etc.) according to the instructions in the Technical Manual and with provided straps and blankets to protect components and cabinets, and is otherwise ready and available for scheduled pickup at the conclusion of the Loan Term. Borrowing Institution acknowledges that Lending Institution may have the obligation to deliver the Exhibition to another borrower following the Loan Term, and agrees that time is of the essence in connection with pickup of the Exhibition.

Lending Institution will attempt to assure timely delivery of the Exhibition to Borrowing Institution. Lending Institution shall not, however, be responsible for any damages or liability the Borrowing Institution may incur or suffer as a result of any delay in delivery or failure to deliver the Exhibition due to circumstances beyond Lending Institution's control.

Exhibition Display Conditions

1. The Borrowing Institution must agree to meet the minimum display conditions included in Attachment A.

2. The Borrowing Institution shall not have the right to modify or alter the Exhibition in any manner, except following direct communication and approval from the Lending Institution.

3. The Borrowing Institution shall have indoor space to receive the Exhibition when it is delivered, and to have it repacked and ready to ship by the agreed upon shipping date. The Borrowing Institution shall have safe storage for crates and blankets, and for any unused modules. Borrowing Institution shall have safe storage for the Exhibition for any portion of the Loan Term that the Exhibition is not on display, under such conditions as to prevent loss, vandalism, damage, or deterioration thereto.

4. The Borrowing Institution shall use the Exhibition for educational purposes only.

Exhibition Technical Characteristics

The Exhibition technical characteristics are included in Attachment C.

Component Handling, Setup and Takedown, Repacking and Truck loading Conditions

The Borrowing Institution shall install and repack the Exhibition in a professional manner, and must agree to follow the component handling, setup and takedown, repacking and truck loading instructions included in the Technical Manual provided by the Lending Institution.

An on-site supervisor from the Lending Institution is available for an additional fee.

The setup and installation of this Exhibition is designed to be performed by the Borrowing Institution, therefore no staff from the Lending Institution will be required to be on-site.

Upon delivery of the Exhibition from the Shipping Agent, Borrowing Institution shall promptly unpack the Exhibition in a professional manner. Borrowing Institution shall not sign the Shipping Agent's bill of lading to indicate receipt unless and until the contents of the Crates and blanket-wrapped components have been examined. Alternatively the Borrowing Institution may sign the bill of lading indicating thereon that acceptance is "SUBJECT TO INSPECTION." Any damage or loss to the Exhibition or shipping materials shall be indicated on the Shipping Agent's shipping documents. If any damage to the Exhibition or shipping materials is revealed or is capable of being discovered at the time of unpacking, Borrowing Institution shall immediately contact Lending Institution by telephone to report such damage, and shall retain all packing material and other items relating to the damage, pending instructions from Lending Institution. Borrowing Institution shall be liable for any and all liability, loss, claims, suits, fees, damages and expenses arising from a failure to comply with any of the provisions of this paragraph.

During installation, Borrowing Institution shall fill out an **Exhibition Condition Report** and **Artifact Condition Report** (where applicable). Copies of both reports should be submitted electronically to the Lending Institution within 48 hours of receipt of the Exhibition. A paper copy of the **Artifact Condition Report** shall be placed into the Artifact Condition Report Binder that travels with the Exhibition.

During deinstallation, Borrowing Institution shall again fill out an **Exhibition Condition Report** and an **Artifact Condition Report** (where applicable), submitting copies of the reports electronically to the Lending Institution 48 hours prior to the Exhibition's ship out date. A paper copy of the **Artifact Condition Report** shall be placed into the Artifact Condition Report Binder that travels with the Exhibition.

Insurance and Protection

All damage must be reported immediately to the Lending Institution.

Borrowing Institution Responsibilities

1. The Borrowing Institution accepts responsibility for the Exhibition of the items, and for their packing, security, transport, unpacking and Exhibition at the exhibiting venue(s). Borrowing Institution shall comply with all the provisions of this Agreement and the Attachments, and shall take all other precautions reasonably necessary to ensure that the Exhibition is handled, installed, displayed, maintained, packed, and stored in a manner that will protect against damage or loss.

2. Borrower agrees to provide, at Borrower's expense, equipment and staff or other qualified persons to unpack, install, and repack the Exhibition within the specified time period or otherwise determined jointly by Borrower and Lending Institution. A qualified installation crew consists of dedicated exhibit technicians or other staff experienced in the handling and installation of museum exhibits; trusted and skilled temporary help or volunteers may assist with supervision by Borrower's experienced personnel.

3. The Borrowing Institution will be held responsible for repairs and/or replacement parts if it does not follow instructions provided in Attachment A of this Agreement, the Technical Manual, or by communication with the Lending Institution, or if appropriate security standards are not met. Replacement or repair of Exhibition components damaged due to visitor abuse beyond normal wear and tear, or by negligence of the Borrowing Institution shall be the responsibility of the Borrowing Institution. Borrowing Institution is responsible for repairs/replacement costs made to standards determined by the Lending Institution.

4. The Borrowing Institution will be held responsible for any additional fees or charges incurred by Lending Institution in the event the Exhibition is not fully packed and ready for shipping to the next venue at the agreed upon date and time.

5. The Borrowing Institution will be held responsible for lost rental income incurred by Lending Institution in the event the Exhibition is damaged by the Borrowing Institution and is not readily available and in good working order for the subsequent Borrowing Institution.

Insurance Provided by Lending Institution
The Lending Institution will provide shipping insurance, which covers the Exhibition during transit.

Insurance Provided by Borrowing Institution

1. For the term of the Rental Agreement, Lending Institution will require the Borrowing Institution to maintain, at its own expense, the following insurance with a reputable licensed insurer and acceptable to the Lending Institution, in full force and effect:

Coverage	Minimum Limits
Workers' Compensation	Statutory Limits
	Employers Liability
	$500,000 each accident bodily injury
	$500,000 bodily injury by disease each employee
Commercial General Liability	$1,000,000 per occurrence bodily injury and property
	$1,000,000 per occurrence personal and advertising injury
	$2,000,000 general aggregate

2. The Worker's Compensation and Employer's Liability coverages set forth above must be maintained by Borrowing Institution to the extent required by law. This liability insurance policy shall have a limit of at least $1,000,000 per occurrence that covers this Exhibition.

3. Borrowing Institution shall provide Lending Institution with a certificate of liability insurance naming the Lending Institution and Owning Institution (if different from Lending Institution) as an additional insured on a primary and non-contributory basis, with respect to the Exhibition, not later than 30 days prior to the delivery of the Exhibition to Borrowing Institution. In addition to the Certificate of Insurance naming the Lending Institution as an Additional Insured, the Borrowing Institution shall provide a copy of the Additional Insured Endorsement.

4. A waiver of subrogation endorsement in favor of Lending Institution and Owning Institution (if different from Lending Institution) shall be provided on all policies.

5. Borrowing Institution will notify the Lending Institution of any change in coverage within ten days. The Borrowing Institution's Insurance company shall provide thirty (30) days notice to the Lending Institution for cancellation of coverage.

Indemnification

In consideration of Lending Institution's agreement to arrange for the loan of the Exhibition, Borrowing Institution agrees to:

1. Indemnify and hold the Lending Institution and the Owning Institution (if different from Lending Institution), their officers, directors, employees, or agents from and against any and all liability, loss, damage, claim, action, liability, and expense, including reasonable attorneys' fees, in contract or in tort, in connection with the shipping and delivery, handling, installation, display, maintenance, packing, or storage of the Exhibition during the Loan Term, including loss of life, bodily injury, and/or property damage from or in connection with the acts or omissions of Borrowing Institution, its officers, directors, employees, or agents in connection with this Agreement.

2. Promptly notify the Lending Institution of any damage to the property of others, and of injuries sustained by any persons, including employees of the Borrowing Institution, in any manner relating directly or indirectly to the loaned exhibit(s).

3. Waive all claims for recovery from the Lending Institution or Owning Institution for any loss or damage to Borrowing Institution's own property caused by fire or other insured casualty. This waiver shall apply, however, only where the insurance covering the loss or damage to Borrowing Institution's own property will not be prejudiced by reason of such waiver.

Repairs and Parts and Technical Assistance

The Borrowing Institution must contact the Lending Institution prior to undertaking any repairs.

At least one month before the Exhibition is scheduled to arrive, the Lending Institution will send the Borrowing Institution a **Technical Manual**. The Technical Manual will include clear instructions for space planning, component handling, setup and takedown of the Exhibition, packing, and loading of the truck, including packing checklists. Storage requirements will be included. In addition, the Technical Manual will include daily and routine maintenance and cleaning instructions, along with operating and troubleshooting guidelines. The Technical Manual will also include suggestions for materials to have on hand for the Exhibition.

Borrowing Institution shall provide routine maintenance and cleaning services in order to assure that the Exhibition is clean, operational, safe, and in good condition during the Loan Term, in conformance with the highest standards of the museum industry and in accordance with the Technical Manual.

Spare parts for expected normal maintenance and use will be provided with the Exhibition. Some additional spare parts will be kept in storage at the Lending Institution.

The Lending Institution will provide replacement parts resulting from normal wear and tear of the exhibits, provided that daily operating and maintenance instructions are followed.

Exhibit parts that are missing or lost, will be the responsibility of the Borrowing institution; contact the Lending Institution for more information about replacements.

The Borrowing Institution must report any loss or damage that occurs while the Exhibition, packing materials, or unused components are under its control.

Reimbursable Expenses

Reimbursable expenses include: repairs approved by the Lending Institution.

All reimbursable expenses must be approved in advance by the Lending Institution.

Reimbursable expenses **do not include** cleaning supplies, consumable supplies, or labor for routine maintenance.

The Borrowing Institution is responsible for the following maintenance costs: janitorial care and cleaning of the Exhibition per the instructions in the Technical Manual, or ongoing maintenance of a minor nature such as replacing standard light bulbs.

Borrowing Institution will invoice the Lending Institution once a month for any reimbursable expenses. Payment for approved allowable expenses will be made within 30 days upon the receipt of invoice.

Promotional Materials

At least one month before the Exhibition is scheduled to arrive, the Lending Institution will provide the following resources: a Technical Manual and publicity materials and Educator Guide (see Attachment D).

Admission Charge
The Borrowing Institution has the right to establish its own admission policy and fees.

Key Lending Institution Personnel
The Borrowing Institution shall work directly with the following Lending Institution staff who are under the direction of the Executive Director, Michelle Kortenaar:

Traveling Exhibitions Rental Manager (for contracts & scheduling)
607-272-0600 ext 128
travelingexhibitions@sciencenter.org

Sciencenter Help Desk (for technical support such as non-routine maintenance, requests for replacement spare parts, etc.)
travelingexhibitions@sciencenter.org

For urgent issues call 607-272-0600 and ask for the "Operator" who can reach out to the Exhibits Team.

Assignment, Subcontractors
The Borrowing Institution may not assign, transfer, or subcontract any part of this Agreement to other independent subcontractors without prior written approval from the Lending Institution.

Web Site
The Lending Institution will maintain the **www.sciencenter.org** website. The Borrowing Institution can promote and link to this website.

Intellectual Property

1. The Exhibition was produced by the Owning Institution.

2. The Owning Institution shall retain all legal rights to the Exhibition designs, drawings, videos, and documents. All rights to exhibit video and graphics, and exhibit development, belong to the Owning Institution. Duplication is NOT permitted.

3. The Borrowing Institution has the right to use all provided photos, promotional materials and images for the purpose of promoting the Exhibition.

Promotion and Credits
The Borrowing Institution should acknowledge National Science Foundation funding in publicity about the Exhibition whenever possible. The Borrowing Institution should give credit to the

Sciencenter and Rochester Museum & Science Center as creators of the exhibition where appropriate.

Independent Contractor

In the performance of this agreement, the Borrowing Institution shall be deemed to be and shall be an independent contractor and, as such, shall not be entitled to any benefits applicable to employees of the Lending Institution. Borrowing Institution will provide his/her own personal, medical, workers compensation, liability, property, and automotive insurance for any person who participates in the handling, installation, display, maintenance, packing, or storage of the Exhibition

Failure to Meet Conditions

Acceptance of all requirements is a condition of renting this Exhibition from the Lending Institution.

The Lending Institution reserves the right to withdraw any exhibit components or Exhibition from the Borrowing Institution, if the Borrowing Institution has been negligent in the handling, display, maintenance, protection, or storage of the exhibit items or packing materials, or fails to fulfill any of the rental conditions stipulated in this contract.

The Lending Institution is under no obligation to return a deposit or fees to the Borrowing Institution if exhibit items or Exhibition are removed due to the Borrowing Institution's negligence for failure to properly handle, display, maintain, protect, or store exhibit items or packing materials. In such an event, Borrowing Institution shall be responsible for storing items securely until the Exhibition is packed up and loaded on trucks for the next venue, and any costs incurred doing so.

Termination

A. This agreement may be terminated by either the Borrowing Institution or the Lending Institution upon 30 days written notice.

B. The Lending Institution shall have the right to cancel the Loan upon the occurrence of any of the following:

1. The Exhibition is damaged, destroyed, or has become unavailable for any reason.

2. The Borrowing Institution fails to pay the Fees set forth in this Agreement.

3. The Borrowing Institution has misrepresented its ability to handle, install, display, maintain, protect, or store Exhibition in accordance with the conditions of this Agreement.

4. The Borrowing Institution fails to handle, install, display, maintain, protect, or store Exhibition in accordance with the conditions of this Agreement.

C. Termination by the Borrowing Institution

The Borrowing Institution shall have the right to cancel the Loan by submitting a cancellation request to the Lending Institution in writing. The Lending Institution shall promptly acknowledge the cancellation request and will retain the non-refundable deposit.

In addition:

1. If the cancellation request is received more than 180 days prior to the scheduled delivery date of the Exhibition to the Borrowing Institution, the Borrowing Institution will pay the Lending Institution a cancellation fee of $10,000.

2. If the cancellation request is received between 180 days and 90 days prior to the scheduled delivery date of the Exhibition to the Borrowing Institution, the Borrowing Institution will pay the Lending Institution 50% of the remaining balance due of the rental fee.

3) If the cancellation request is received less than 90 days prior to the scheduled delivery date of the Exhibition to the Borrowing Institution, the Borrowing Institution will pay the Lending Institution 100% of the remaining balance due of the rental fee.

In all cases, the Borrowing Institution shall be financially liable for any shipping, storage and any other expenses resulting from or related to the cancellation.

D. Termination by the Lending Institution

1. In the event of termination by the Lending Institution, pursuant to Termination Paragraph B(1), the Lending Institution will return the deposit and other payments in full.

2. In the event of termination by the Lending Institution, pursuant to Termination Paragraph B(2), B(3), or B(4), the Borrowing Institution shall remain liable for the full Fee.

3. In the event of termination by the Lending Institution, pursuant to Termination Paragraph B(1), B(2), B(3), or B(4), the Lending Institution shall not be liable for any costs, expenses, damages, or liability the Borrowing Institution may incur as a result of such cancellation.

Force Majeure

1. A party to this Contract shall not be liable for a failure or delay in performing any of its obligations hereunder (excluding obligations to make payments to the other party hereto, if and to the extent that such party's (the "Impacted Party") failure or delay is directly caused by or results from one or more of the following (each a "Force Majeure Event"): (i) storms and other unusual, severe weather conditions, (ii) floods, (iii) fire, (iv) explosion, (v) riot, (vi) war, (vii) terrorist act, (viii) pandemics, (ix) epidemics, (x) change in the requirements of applicable law after the date of the Contract, (xi) nationwide or regional labor strikes, or (xii) other cause beyond a Party's reasonable anticipation and control; provided, however, that no relief shall be afforded to an Impacted Party by this Section unless: (A) the act or event is beyond the reasonable control of the Impacted

Party and that of other persons and entities for whom the Impacted Party is responsible; (B) the Impacted Party uses commercially reasonable efforts (and any other efforts as may be specifically required under this Contract for the specific type of act or event) to prevent, avoid, and/or mitigate the effects of the Force Majeure Event; and (C) prompt notice (within two (2) business days of discovery by the Impacted Party) is given by the Impacted Party to the other Party identifying the Force Majeure Event and describing in reasonable detail the extent to which the Impacted Party's performance is delayed or prevented by the same.

2. The time for performance of an Impacted Party's obligation delayed or prevented by a Force Majeure Event will be extended for a period of time reasonably necessary to overcome the effect of the Force Majeure Event. An Impacted Party will provide regular updates and more frequent updates as the other party may require of the status, impact, and resolution of a Force Majeure Event until the same has been resolved.

3. Notwithstanding the foregoing, the following events and circumstances will not constitute Force Majeure Events: (i) general economic conditions; (ii) unavailability of utilities at any location of the Borrowing Institution; (iii) events or circumstances arising out of an Impacted Party's breach of this Contract or a third party's breach of its contract with the Impacted Party; or (iv) changes in any labor and employment, tax, or other law that may generally impact the activities, operations, and financial condition of the Borrowing Institution, but does not directly pertain to the terms and condition of this Contract or the Impacted Party's performance of its obligations hereunder.

4. An Impacted Party will not be excused by a Force Majeure Event from performance of any obligation that is not directly affected by such Force Majeure Event or a resulting impact on performance by the Impacted Party. Failure of an Impacted Party to provide the other party with timely notice of a Force Majeure Event will constitute a waiver of the Impacted Party's right to invoke the application of this Section to excuse the delay of the Impacted Party's performance of any obligation of this Agreement on account of such Force Majeure Event only for the period of time that the timely notice was not provided.

5. In the event that an Impacted Party's performance of one or more of its obligations under this Contract is prevented or delayed in material part for a period of thirty (30) or more consecutive days or for an aggregate of sixty (60) or more days in any twelve-month period by one or more Force Majeure Events, the other party hereto may, in its discretion, terminate this Contract upon notice to the Impacted Party.

Jurisdiction and Governing Law

This Agreement, and the interpretation and enforcement hereof, shall be governed by and construed in accordance with the laws of the State of New York, without regard to New York's conflicts of law provisions. All actions, suits or claims brought under, pursuant to or arising from or in connection with this Agreement, or any materials, work or services provided hereunder, shall be venued in New York state courts having territorial jurisdiction in or over the County of Tompkins. Borrowing Institution shall waive any and all jurisdictional and venue defenses Borrowing Institution may have in connection with any such action, suit or claim.

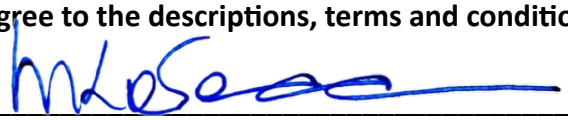

Changes

By mutual agreement, the Borrowing Institution and the Lending Institution may make changes to the scope of work and terms of this agreement. Any such changes shall be in the form of a written amendment signed by the Borrowing Institution and the Executive Director of the Lending Institution.

Completeness

This written contract is the complete agreement and represents the entire understanding between the Borrowing Institution and the Lending Institution and supersedes all prior understandings regarding the project.

We the undersigned parties have executed this agreement on the dates indicated below and agree to the descriptions, terms and conditions of this contract.

Exhibition Display Conditions

Borrowing Institution must agree to meet the following minimum display conditions.

Completeness

- Exhibition must be shown intact and in its entirety when possible, without any alteration, or modification to existing components or graphics, unless prior written consent is obtained from the Lending Institution in advance (such as bilingual signage); however, the Borrowing Institution has discretion to not include one or more individual exhibits. The Borrowing Institution can add additional freestanding components or graphics or enhancements to the Exhibition (and please send us photos!). Exhibition credit signage must be included, or alternative arrangements made with the Lending Institution, to be sure appropriate credit is given.

- The individual exhibits and signage must not be altered or changed in any way.

- All the Exhibition items and materials must remain in the possession of and be the responsibility of the Borrowing Institution during the Loan Term.

- Ensure that all staff, volunteers, groups and organizations involved with the Exhibition follow the provisions in this agreement.

- Borrowing Institution shall display the Exhibition at the Display site only.

- Borrowing Institution may not lend the Exhibition to any other person or entity, or display the Exhibition during any time other than the contract period, unless prior written consent is obtained from the Lending Institution.

General Facility Criteria:

- Borrowing Institution shall provide an appropriate display space for the Exhibition, and fire prevention conditions and related equipment for the Exhibition in accordance with applicable local fire regulations and as are reasonably necessary.

- Adequate space (at least 3-4 feet) between individual exhibits to provide for safe access of visitors.

- Smoking is not permitted, and food and beverages may not be served in the Exhibition area.

Lighting

- Adequate lighting must be provided.

- Direct sunlight is allowed.

Atmospheric Controls:

- Exhibition space must have temperature and humidity controls to guarantee an environment of 66 to 76 degrees Fahrenheit and 45 to 65% relative humidity.
- No temperature extremes.
- No humidity extremes.

Security:

- Borrowing Institution shall provide such security services as are reasonably necessary to protect the Exhibition against theft, vandalism, damage or other abuse and to prevent injury to persons at all times that the Exhibition is in its possession.
- Responsible supervision at all times to prevent damage to Exhibition.
- Exhibition or Display location must be locked after hours to prevent damage to Exhibition.
- Fire protection according to local ordinance to prevent damage to Exhibition.
- Alarms or night guards are not required.

Care and Maintenance

- Careful handling of exhibits at all times to prevent damage to Exhibition.
- Provide responsible upkeep and care of the Exhibition.
- Daily maintenance checks, cleaning, and re-setting of loose parts per Technical Manual.
- Ensure the Exhibition remains in the condition in which it was received.
- Qualified staff to perform standard replacement of parts, and mechanical and electrical repairs.
- Repairs are not permitted without permission from the Lending Institution.
- Exhibition area should receive adequate janitorial services.

Shipping, Packing, and Installation and Storage

- Borrowing Institution shall follow the Technical Manual for proper truck unloading & loading and Handling instructions, Installation, Takedown and Packing, and Storage procedures
- Maximum 2-4 days estimate for installation & takedown with a minimum 2 skilled exhibit technicians for install and takedown. See Attachment C.

- Handling, installation, takedown, etc. by skilled, trusted volunteers or temporary workers is acceptable only with supervision by experienced, trained personnel.

- Temperature and humidity extremes must be minimized prior to and after installation.

- If the Exhibition is stored by the Borrowing Institution prior to or after installation, it must be stored in a dry, secure and climate-controlled building.

- Empty shipping materials (which can include rolling platforms, rolling crates, custom pallets, etc.) and blankets must be stored indoors in a dry, secure facility; temperature and humidity-control is not required for empty shipping materials.

Attachment B
Unpacking, Installation, and Repacking Conditions

Borrowing Institution must agree to meet the following minimum conditions:

The Lending Institution will provide the Borrowing Institution with a **Technical Manual** detailing component handling instructions, how to unpack, setup and take down the exhibits, and repack the Exhibition, and load on trucks. Exhibition crates and packing containers are custom-designed for both easy handling and maximum protection of the objects inside. Packing containers will be clearly labeled.

Unpacking
It is the responsibility of the Borrowing Institution to ensure the Exhibition is **unloaded and handled properly.**

- Follow the detailed component handling and setup instructions by the Lending Institution
- Supervise the unloading and unpacking of the Exhibition by qualified individuals
- Report any deviations or omissions immediately to the Lending Institution
- Set up the Exhibition following the Technical Manual
- Complete an **Incoming Exhibition Condition Report** and an **Incoming Artifact Condition Report** and submit it to the Lending Institution within 48 hours of receipt of the Exhibition, including inventory of key exhibit parts and spare parts.

Setup
The setup and installation of this Exhibition is designed to be performed by the Borrowing Institution, therefore no staff from the Lending Institution will be required to be on-site. However, an on-site supervisor from the Lending Institution is available for an additional fee.

Repacking
It is the responsibility of the Borrowing Institution to ensure the Exhibition is **shipped in good condition.** The Borrowing Institution will be responsible to:

- Thoroughly clean all visible surfaces, clear and reflective surfaces, and mechanical parts in detail to remove dust, lint, moisture, water spots, shoe marks, scuffs, body oils, and any other foreign matter.
- Properly repack the Exhibition in its original shipping containers.
- Follow the detailed instructions provided by the Lending Institution to dismantle and pack the components.

- Supervise the dismantling and repacking of the Exhibition by qualified individuals, in original packing materials.

- Repair any damaged crates.

- Supervise the handling and loading of the components of the Exhibition in semi-trailer per component handling instructions in Technical Manual, checking component packing list, and using sample truck loading plans if provided. Driver is normally responsible for securing the components once in place inside semi-trailer; Borrowing Institution staff should supervise and also make sure the load is well secured, protected with blankets, etc.

- Report any deviations or omissions in the packing process to the Lending Institution.

- Complete an **Outgoing Exhibition Condition Report** and **Outgoing Artifact Condition Report** (if applicable) and submit them to the Lending Institution within 48 hours of the shipment of the Exhibition, including inventory of exhibit parts and spare parts.

- **Submit an Evaluation Report** to the Lending Institution on the Exhibition within one month of its departure. The Evaluation Report will include the following:

    a) Attendance during the Loan Term. If the Exhibition was not separately ticketed, the Borrowing Institution should also include their attendance figure from the same period during the previous year for reference.

    b) Revenue generated during the Loan Term

    c) Related events run during the Loan Term

    d) Publicity generated during the Loan Term

    e) Program details related to the Exhibition.

Attachment C

Technical Requirements

Exhibition Space Requirements

- Recommended exhibition area: 1,800-2,500 square feet

- Ceiling height considerations:
  - *Air Transport & Simple Machines Wall:* 8'4" (tubing for balls between stations)
  - *Hot Air Balloon* is 9' 11" tall, requiring 10' ceiling for metal posts

- Doorway/hallway/elevator clearance of individual components: all components can be moved from truck to gallery space in an elevator with at least 4' wide x 7' tall doors, at least 8' 3" inches deep.
  - Railings for *Hot Air Balloon* and *Hovercraft* are 10-11' long and can be hand carried.
  - Components will all fit under standard 6' 8" doorway (lift off title for *Airplane Wing*).

Electrical supply

- Voltage: 110-120Volt AC (60Hz) power; several separate circuits needed (*Hot Air Balloon* & *Hovercraft* each need to be on different circuits)

- **Almost all of the exhibits require electricity**
  - *Air Transport:* balls go between the two cabinets that are connected with pipe/tubing. Very long (50') cords are built into each cabinet, so you can extend the cord as much as ~40' from the opening in the top of cabinet and across the pipes to the Simple Machines (ball pit) area to a ceiling outlet if desired, depending on layout
  - *Carry that Weight* (boat cabinet only; can bring extension cord to opening near bottom of outside end of cabinet, or from ceiling through pipe in center of sign tower)
  - *Hot Air Balloon* (bring extension cord to bottom back of main cabinet)
  - *Hovercraft*– bring extension cord to large cabinet at back (cord from small cabinet feeds into large cabinet)
  - *How Do Airplanes Fly?* (airplane wing)
  - *Right Engine for the Job* (all four exhibits powered from single power strip under Diesel Engine; can bring extension cord to cabinet through hole at end of cabinet under sign tower, or from ceiling through pipe in center of sign tower)
  - *How do Boats Sail Into the Wind?*
  - *Water Locks*

- The *Hovercraft* exhibits and *Hot Air Balloon* exhibit are best located on separate circuit breakers; the remaining exhibits do not draw much power.

- **The following exhibits do not require electricity**
  - *Simple Machines*
  - *Heavy Lifting*
  - *Mag-Lev*

Transport

- The Exhibition fits in **one** semi-trailer at least 48' long x 8' wide, with air ride suspension and vertical e-clip track; e-clip ratchet straps included with exhibition.

- Exhibition can be unloaded or loaded with a forklift. Otherwise, semi-trailers with lift gates are necessary 1) to unload the exhibition if either Borrowing Institution's or previous Borrowing Institution's loading dock are not a standard height, or 2) to load the exhibition if either Borrowing Institution's or subsequent Borrowing Institution's loading dock are not a standard height.

- Loading: Borrowing Institution staff are responsible for bringing components into place in the semi-trailer, and ensuring that components are protected from damage. Driver is responsible for securing the load as components are brought into place in the semi-trailer, but Borrowing Institution staff must oversee and double-check that components are secured for transport, and immediately contact Sciencenter staff if there are inadequate materials for loading the exhibition, or any other safety concerns.

- The exhibition weighs about 6,000 pounds.

Unloading/loading/set-up requirements

- Much of the exhibition is shipped wrapped in blankets.

- Exhibition travels with a number of dollies for moving cabinets.

- Individual parts can be moved by 2 strong people onto dollies, and set up by 2 to 3 competent, strong people.

- Heaviest cabinets to be handled are *Water Locks* (which moves on 2 dollies) and *How Do Planes Fly*? (which has casters).

- Unloading & Installation requirements:
  - 3-4 exhibit handlers; an additional 1 to 2 exhibit handlers will speed up unloading.

- Take Down, Packing, & Loading requirements:
  - 3-4 exhibit handlers; an additional 1 to 2 exhibit handlers will speed up loading.
  - Stretch wrap (included with exhibition) for securing blankets around cabinets.

- Necessary hand tools (hex keys, wrenches, etc.) included with exhibition.

Truck Loading List

21 cabinets, wrapped in blankets ● Air Tubes station 1 ● Air Tubes station 2 ● Airplane Wing cabinet ON CASTERS ● Carry That Weight: roadway with cart ● Carry That Weight: train track with train car ● Carry That Weight: boat ● Carry That Weight: center triangle with title ● Heavy Lifting: pneumatics ● Heavy Lifting: hydraulic pump ● Heavy Lifting: lever ● Heavy Lifting: block and tackle ● Hot Air Balloon: blower cabinet ● Hovercraft: cabinet with large blower ● Hovercraft: cabinet with small blower and disk ● Maglev cabinet ● Right Engine for the Job: 2-cycle ● Right Engine for the Job: 4 cycle ● Right Engine for the Job: Wankel ● Right Engine for the Job: Diesel ● Sailing cabinet ● Water Lock (canal) cabinet		Longest cabinet is 7’ long, widest is 3’ 9” wide
2	long benches with backs with backs	8’ 3” long
2	short L-shaped benches with backs	
1	large wall with PVC pipe attached (4’ x 8’) (Intro Wall with PVC pipe)	
1	cart on casters (hovercraft railing base sections, 2 metal frames, 1 spacer board)	
4	10’ long wooden railing sections (Hot Air balloon)	
1	4’ dia disk with chair (for Hovercraft)	
1	11’ long railing assembly for Hovercraft	
1	bundle of 3 sections of pipe for Sailing (~5’ long each)	
1	10 ½’- long cardboard tube with 1” aluminum railing (2- 10’ long, 2- 6’ long, 2- 3’ long)	
1	10’-long piece of aluminum railing (2 3/8” OD) for *Hot Air Balloon*	

Small wooden assemblies 2 square center tower units with signs and titles, ~5' tall including center pipe 1 inclined ramp (~3' long) for *Simple Machines* 1 winch and bucket assembly (~3' tall) for *Simple Machines* 1 8' long wooden board (2x4) for lever activity 1 wooden base for lever activity (~3' tall)	
Tubs, buckets, boxes 1 large white plastic drum on rolling base (hose and pump ship inside) 2 5 gallon buckets for water changes 1 wet-dry vac for water changes 1 large plastic rectangular tub (with filter etc.) for Water Lock (canal)--- may be shipped inside cabinet 2 medium sized tubs with materials for educator's programs 2 medium tubs with e-clip ratchet straps 1 5-gallon bucket with concrete blocks for lever activity 1 Large black rolling Job box (with spare hardware, tools, spare parts) 1 cardboard box with 20 foam floor tiles	
Miscellaneous 1 stack of 4 blue/white plastic stepstools (nestled together); *may be packed in WaterLock or other cabinet* 6 black metal stools (Stacking) 3 black rubber mats (may be rolled up together) 3 mesh bags with gray plastic balls 4 pieces of gray plastic (Hovercraft floor)	
4 furniture dollies (with purple stripes)	

Signage

- All signage text is printed in American English only.

Access

- Many of the exhibits are designed to be as accessible to the physically, visually, and hearing impaired.

Floorplan

- Sample floorplan, and layout suggestions, to optimize visitor flow are included in the Technical Manual.

Health & Safety requirements

- *Water Locks, How Do Boats Sail Into the Wind?,* and *Carry that Weight* water cabinet are all water exhibits. All three have the same kind of UV filter system, and will need to have their water topped off regularly and changed every 1-2 weeks for *Water Locks*, and less

often for *How Do Boats Sail into the Wind*? or *Carry That* Weight water cabinet.. Details are included in the Technical Manual.

- All components should be maintained and kept clean following the cleaning instructions in the Technical Manual.

Attachment D

Marketing and Educational Programming materials

The Sciencenter will provide the Borrowing Institution with the following materials. The Sciencenter grants the Borrowing Institution the right to use these materials to promote the exhibition.

- Exhibition logo (in a variety of formats)
- Sample press release
- Publicity photos
- Detailed exhibit descriptions
- Video footage

Education materials: A dozen activity guides for educators and several guides for school groups are included. A binder with all the guides is included with the exhibition and available in the Supplementary Materials.

Two tubs of specialized materials travel with the exhibition for hydraulics and other activities.

Attachment E
Value of Exhibits

Water Locks	$25,000
Simple Machines	$15,000
How Do Boats Sail Into the Wind?	$15,000
Hovercraft (including Mini Hovercraft)	$25,000
Hot Air Balloon	$20,000
How Do Planes Fly?	$20,000
Heavy Lifting	$30,000
Mag-Lev	$12,000
Air Transport	$20,000
Carry That Weight	$25,000
The Right Engine for the Job	$30,000
Packing and Moving Materials	$2,000
TOTAL	**$239,000**

Attachment F
Exhibition Description

Overview:

Ride a hovercraft to experience air pressure; float a boat to experiment with air flow. Lift, launch and levitate your way through hands-on exhibits to explore how things move by land, sea and air. Experiment with hands-on exhibits that make learning about gravity, friction, and the laws of motion fun!

From Here to There consists of fun, interactive exhibits that are color-coded and divided into three main categories: transportation by land, sea and air. Each exhibit is designed to spark conversation and encourage interaction among families, friends and other museum visitors.

Visitors can turn up the heat to launch a colorful hot air balloon, operate an authentic canal lock system to move a boat from one water level to the next, and experiment with pneumatics, pulleys, hydraulics and levers to see what kind of mechanical advantage works best.

One hundred feet of Air Tubes allow visitors to send colored balls in a rushing channel of air from one station to another. Visitors can watch the balls as they dart across walls, over their heads, and appear at the other station in record time.

Designed to spark conversation and encourage interaction among children and families.

This 1,800- 2,500 square foot exhibition was developed by the Sciencenter and Rochester Museum & Science Center as part of the TEAMS Collaborative with funding from the National Science Foundation (NSF).

Individual Components:

Water Locks
Operate an authentic canal lock system as you move your boat through different water levels. Can you adjust the valves to raise and lower water levels?

Simple Machines
Discover how simple machines help move things in this ball-pit construction site. Use ramps, buckets and scoops to lift and load balls into a dump truck and move them around! Designed for toddlers and preschoolers.

How Do Sailboats Sail Into the Wind?
Adjust the rudder and sail positions to send your boat across the windy lake. Change the wind direction for a new challenge as you try to reach the next port.

Hovercraft
Sit down, settle in and fly through the air on this amazing hovercraft. Ride on a cushion of air that lets you twist, turn and travel with ease across the floor.

Mini Hovercraft
Explore how air pressure makes a hovercraft work in this accompanying interactive component.

Hot Air Balloon
Turn up the heat to see how hot air balloons inflate and take to the skies.

How do Planes Fly?
See how changing air flow affects the movement of wings. Challenge yourself to make the "wing" hover, flutter or soar.

Heavy Lifting
Experiment with different forms of mechanical advantage as you lift identical weights. First lift the weights with no help. Then try the four methods to see how they make your job easier:

- pulleys
- levers
- pneumatics
- hydraulics

Mag-Lev
Discover how trains float in the air and travel at amazing speeds through magnetic levitation. Explore the potential of transportation using magnetic forces, and decide for yourself if this is the future of travel!

Air Transport
Send colored balls through tubes from one station to the other in a rushing channel of air. Watch balls zoom up the walls and over your head to your friends at the other station. *(Flexible layout; tubing can be extended.)*

Carry That Weight
Experience the forces that affect how we move things across land and water. Which takes less effort:

- a boat on water?
- a train on tracks?
- a cart on a rough road?

What happens when you try different weights?

The Right Engine for the Job
Explore the insides of four important machines that power our cars, airplanes, lawnmowers and snowblowers:

- 2-stroke engine
- 4-stroke engine
- Diesel engine
- Wankel engine

STANDARD ADDENDUM TO AGREEMENT

This standard contract addendum is executed on the _____ day of _____ , 20_____ by and between **THE TOWN OF SMYRNA, TENNESSEE,** a municipal corporation in the State of Tennessee, herein further referenced and identified as ("The Town") and Sciencenter Discovery Museum herein further referenced and identified as ("Vendor") in order to amend the terms of the Agreement, including all attachments, exhibits, or any actual or virtual documents or writing, including, but not limited to, all any "clickwrap," "clickthrough" or "click and accept" agreement or other Terms of Service scheduled for presentation to the Town Council for approval on the ____ day of , 20_____.

WITNESSETH

WHEREAS, the parties wish to execute this addendum to the Agreement for the purposes of substituting, clarifying or inserting certain terms of or into their original Agreement executed on the _____ day of _____, 20_____; and

WHEREAS, the terms of this addendum to the Agreement shall take precedence over all other terms, conditions or language to the contrary or in conflict with the language contained in the Agreement; however, any term or clause not modified by the provisions herein shall be governed by the original agreement. The parties agree that this addendum shall not be construed to create any ambiguity, it being the expressed intent of the parties that this addendum shall control;

THEREFORE, In consideration of using Vendor's form Agreement, the mutual promises set out herein, and other good and valuable consideration, the sufficiency of which is hereby acknowledged by Vendor the parties hereto agree to the following:

1. VENUE: The parties agree that venue for any legal or other dispute arising under the terms of the original agreement or this addendum to agreement shall lie exclusively in the courts of Rutherford County, Tennessee or the United States District Court, for the Middle District of Tennessee. The parties hereby waive their right to a jury trial;

2. CHOICE OF LAW: The Agreement shall be deemed to be entered into under Tennessee law, and the rights and obligation of the parties are governed by the laws of the State of Tennessee, without regard to its conflict of laws principles, and all obligations of the parties are performable in Smyrna, Tennessee.

3. INDEMNIFICATION: The parties hereto agree that Vendor shall indemnify The Town for any and all claims of negligence, tortious conduct or otherwise unlawful acts committed by Vendor in the performance of their obligations under the terms of the original agreement or this addendum to agreement and Vendor agrees to pay any and all costs associated with the enforcement of the terms of this indemnity agreement by The Town, including but not limited to, court costs, civil judgments, assessments or any other reasonable fees associated therewith. In addition, Article II, Section 29 of the Tennessee Constitution prohibits municipalities from lending their credit to private or public entities and, therefore, prohibits an agreement by the Town to indemnify a third party or agree to a limitation of liability provision. Any indemnity or hold harmless provision contained in the Agreement requiring the Town to indemnify or hold harmless Vendor or any other person or entity or any limitation of liability in favor of Vendor shall be deemed null, void and unenforceable against the Town under any and all circumstances.

4. NON-APPROPRIATION: Vendor acknowledges that the Town is a governmental entity, and the validity of the Agreement is based upon the availability of public funding under its authority. In the event the Town fails to appropriate funds or make monies available for any fiscal year covered by the term of the Agreement for services to be provided, the Agreement shall be terminated on the last day of the fiscal year for which funds were appropriated or monies made available for such purposes without liability to the Town, and such termination shall not be a breach of the Agreement, and any unused payment made to Vendor shall be returned to the Town.

5. TAX EXEMPTION: As a tax-exempt entity, the Town shall not be responsible for sales or use taxes incurred for products or services. The Town shall supply Vendor with its Sales and Use Tax Exemption Certificate upon Vendor's request. Vendor shall bear the burden of providing its suppliers with a copy of the Town's tax

exemption certificate and Vendor shall assume all liability for such taxes, if any, that should be incurred.

6. NO ATTORNEY'S FEES: The parties hereto agree that The Town shall be in no event liable for any attorney's fees which Vendor may incur due to breach of the original agreement or this addendum agreement by either party; and further, The Town shall not acquiesce to any term of the original contract/agreement that indicates or infers The Town may or shall be responsible for the fees of another party or the Vendor's attorney fees.

7. MEDIATION: The Town may, at its option, require the attempted resolution of any dispute arising under the original contract or this addendum to agreement by mediation prior to the filing of any lawsuit or other claim. Should any dispute arise, Vendor shall provide the Town notice of any intent to file suit by certified mail. The Town shall notify the Vendor of its intent to exercise its right to mediation within thirty (30) days of receiving such notice. If the Town does not exercise its right to mediation, Vendor may file suit. Any mediator selected under this clause shall be agreed upon by the parties and the costs of such mediation shall be divided and paid equally between the parties.

8. FAILURE TO PERFORM: The parties agree, in the event Vendor fails to perform any obligation, other than with regards to the date of delivery, set out in the Agreement/Contract, the Town shall be reimbursed by Vendor for any and all expenses associated with having to obtain a new provider to finish out the contracted term, including, but in no way limited to, any charges/fees, which are above and beyond the amount the Town would have paid to Vendor to complete the same task; provided, however, that if the failure, by its nature, is one that can be cured, the Vendor shall have fifteen (15) business days after receipt of written notice from the Town to cure said failure to perform. The parties hereby agree, unless a specific date of delivery is provided in the Agreement/Contract all deliveries shall be made to the Town no later than ninety (90) days from the date of the Agreement/Contract. The parties further agree that if Vendor, in good faith, is not able to meet this ninety (90) day deadline of delivery due to forces beyond his, her or its control, that were unforeseeable at the time

of signing the Agreement/Contract, then the entire Agreement/Contract shall be voidable at the sole discretion of the Town. Should the Town elect to void the Agreement/Contract due to Vendor's good faith inability, due to forces beyond his, her or its control, and which were unforeseeable at the time of signing the Agreement/Contract to meet the delivery deadline, then neither party shall be deemed to have breached the Agreement/Contract, and Vendor shall return all monies, within seven (7) business days, paid by the Town for the products/items that could not be delivered in the allotted time. This provision shall take propriety over any Force Majeure Clause contained within the Agreement/Contract.

9. USE OF TOWN's LOGO OR NAME: Vendor shall not use the Town's name or any logo in marketing or publicity materials or for marketing or publicity purposes without the prior written authorization from the Town. Vendor shall not issue, publish, or divulge any materials developed or used in the performance of this Agreement or make any statement to the media relating to this Agreement without the prior written consent of the Town.

10. WARRANTY: Vendor warrants that the product(s) herein, when used in accordance with the documentation, shall operate and conform in all material respects in conformity with this Agreement and the written representations of Vendor, including applicable user manuals and guides supplied by Vendor or with Vendor's Software. If it does not perform as warranted, Vendor shall use all commercially reasonable efforts to correct the product(s) so that it operates in all material respects in conformity with the written representations of Vendor. If Vendor cannot correct the product(s) within a reasonable period of time, Vendor shall refund the purchase price of the product(s).

11. SOFTWARE DEADLINE, TESTING AND ACCEPTANCE: If applicable to the Agreement, software provided by Vendor shall be installed for the purposes of testing, as stated herein below, no later than one hundred twenty (120) days from the effective date of the Agreement and this Addendum thereto, unless the Agreement states a specific date which is before or after said deadline. In Addition, software provided by Vendor to the Town is subject to inspection and testing to verify that the software conforms to its written specifications and to ensure it meets the Town's needs.

The Town shall have seven (7) business days after the software is installed to perform testing of the software using the Town's data. The Town shall provide Vendor with written notice of acceptance or rejection of the software five (5) business days or less after the end of the testing period. If the Town does not provide timely written notice of acceptance or rejection to Vendor, the software shall be deemed to be accepted by the Town. If the software is rejected, the Town may, at its sole discretion, either (1) return the software and receive a refund of all fees paid with respect thereto, or (2) allow Vendor to repair or replace the software, without charge, in a timely manner. In the event the Town elects to allow the Vendor to repair or replace the software, the Town shall have an additional (7) business days in which to accept or reject the software as laid out hereinabove.

12. NO AUTOMATIC RENEWAL: The term of the Agreement shall not be renewed or extended beyond the initial term and any provision providing for automatic or continuing renewal of the Agreement is not applicable.

13. UNILATERAL MODIFICATION OF AGREEMENT NOT PERMITTED: Vendor may make unilateral changes to its Privacy Policy, provided any such changes are subject to the provisions of this Addendum, shall not alter this Addendum, and shall not materially alter the use of the service or reduce the level of protection provided to the Town at the time of the execution of this Agreement. Except as provided in the preceding sentence, notwithstanding anything in the Agreement to the contrary, any change to the Agreement made by Vendor that is not in writing and that is not properly executed by the signatures of authorized representatives of the parties hereto, including attestation by the Town's Clerk and approved as to form by the Town Attorney are subject to the terms and conditions of this Addendum, and shall not alter this Addendum and shall not materially alter the use of the service or reduce the level of protection provided to the Town at the time of the execution of this Agreement.

14. CHANGES TO TERMS. Except as provided in Paragraph No. 13 above pertaining to Vendor's Privacy Policy, Vendor shall provide the Town written notice, sent in care of Town Attorney's Office, Smyrna, Tennessee, 315 South Lowry Street, Tennessee 37167, of any proposed change to the Agreement at least ninety (90) days

prior to being effective to the Town. The Town shall have thirty (30) days after receiving the written notice to terminate this Agreement, and such cancellation shall not be a breach of this Agreement. Vendor will refund to the Town any payment made by the Town to Vendor equal to the difference between the number of months the payment was intended for and the number of months remaining on Agreement that the fee was intended to cover.

15. PRICE ASSURANCE: Unless specifically stated in the Agreement, the price shall be valid for the full term of the Agreement. If Vendor, specifically states, in the Agreement that he, she or it cannot honor the price for the full term of the Agreement; the Agreement is voidable at the sole discretion of the Town, if at any time during the full term of the Agreement, Vendor requests to raise the contract price. If the Town elects to void the Agreement, at its sole discretion, it shall not be deemed to be a breach of the contract by either party.

16. CONFIDENTIALITY: The Town, as a Tennessee Municipal Corporation is subject to the Tennessee Open Records Act, set out in T.C.A. §10-7-503 et seq; therefore, this Addendum, the Agreement and all documents or materials, in any format, including, but not limited to paper, electronic or virtual, that are public records pursuant to law, are not confidential and are subject to disclosure, without regard to any provision contained in the Agreement declaring information confidential. The Town will respond to all proper Open Records Requests in the time allowed by law, without any requirement to disclose such request to Vendor or provide Vendor with notice or the time to obtain a protective order. The Town does not have the burden of establishing that information is not confidential information or that its release is authorized to release the records. This section 16 serves to meet such burden and authorization of disclosure.

17. BOYCOTT OF ISRAEL: The Vendor certifies that it is not currently engaged in, and covenants that it will not, for the duration of the Contract, engage in a Boycott of Israel, as that term is defined in Tenn. Code Ann. § 12-4-127.

18. NO PRESUMPTION AGAINST DRAFTER: The parties are both business entities having substantial experience with the subject matter of this

addendum, and each has fully participated in the negotiation and drafting of this addendum. Accordingly, this addendum shall be construed without regard to the rule that ambiguities in a document are to be construed against the draftsman. No inferences shall be drawn from the fact that the final, duly executed addendum differs in any respect from any previous draft hereof.

19. SURVIVAL: This entire addendum shall survive the completion of or any termination of the Agreement or other document which may accompany the Agreement or be incorporated by reference and shall remain in full force and effect until the expiration of any applicable statute of limitation.

20. EFFECTIVE DATE: This addendum shall be deemed to have the same effective date of the Agreement.

IN WITNESS WHEREOF, the parties hereto warrant and represent that the individual who has signed this addendum on behalf of such party is duly authorized by all necessary and appropriate corporate action to sign this addendum.

How do we move things on land, sea & air?

Explore the exciting world of movement on land, sea, and air. Through 20 hands-on, interactive exhibit stations including a hovercraft chair, a canal lock system, pneumatic air tubes, pulleys, levers, and hydraulics, visitors can learn more about the science of how we get *from here to there*.

SIZE
1,800-2,500 sf

SHIPPING
Inbound only | 1 truck
Accompanied by technical manual, educational materials, and marketing kit

From Here to There was developed by the Sciencenter, the Rochester Museum and Science Center and TEAMS collaborative. It was funded by the National Science Foundation (NSF)

LEARNING GOALS

- Gravity and motion affect transportation
- Simple machines help us accomplish work faster and more efficiently
- People can leverage the principles of physics to move aircraft, vehicles, and vessels

Town of Smyrna
Town Council Meeting
Agenda Summary

Agenda Item Number 3.
Department: Utilities
Date: January 6, 2026

Subject:
Approval of the terms of, and authorization for the Mayor to execute, an agreement with CBRE relative to the Stewart's Creek Gravity Sewer project re-appraisals.

Fiscal Impact:
$41,400

Contract Type:
Original Contract

Contract Term (if applicable):
N/A

Background:
Easement acquisition is required for the gravity sewer extension project down Stewart's Creek along Almaville Road to serve the Lyndwood development. This contract with CBRE is for re-appraisals for 23 easements that were previously completed. After meeting with TDEC environmental, significant changes to the original design were made, causing the need for re-appraisals of the 23 lots,

Summary:
CBRE to re-appraise 23 lots for the Stewart's Creek sewer expansion project due to significant plan revisions.

Recommended Council Action:
Staff recommends approval of the re-appraisal contract with CBRE.

RE: Assignment Agreement:
Stewart Creek Gravity Sewer Project - Update Appraisals
Multiple Parcels
Smyrna, Rutherford, Tennessee 37167

Dear Mr. Strange:

We are pleased to submit this proposal and our Terms and Conditions for this assignment. It is our understanding that the appraisals are intended to be used for the acquisition of real estate in conjunction with the Stewart Creek Gravity Sewer Project. This proposal is for update appraisals to 23 of the properties due to significant plan revisions.

PROPOSAL SPECIFICATIONS

Client	Town of Smyrna
Purpose:	Market Value of real estate affected by the Stewart Creek Gravity Sewer Project.
Premise:	As-Is, current market value, excepting any increase or decrease on the fair market value of the subject created by the project in the valuation of the whole property before the acquisition (per Project Influence/Scope of the Project Rule). The acquisitions to be appraised are part of larger parcels.
Rights Appraised:	Fee Simple, Easement Rights, and Temporary Easement Rights, as needed, subject to existing encumbrances and restrictions. Unified Fee will be valued, meaning there will be no allocation of compensation between the landowner and potential tenants or estates.
Intended Use:	Negotiation and Acquisition for Public Project for the Stewart Creek Gravity Sewer Project.
Intended User:	Town of Smyrna, and such other parties and entities (if any) expressly recognized by CBRE as "Intended Users" (as further defined herein).
Reliance:	Reliance on any reports produced by CBRE under this Agreement is extended solely to parties and entities expressly acknowledged in signed writing by CBRE as Intended Users of the respective reports, provided that any conditions to such acknowledgment required by CBRE or hereunder have been satisfied.

 ©2025 CBRE, INC.

	Parties or entities other than Intended Users who obtain a copy of the report or any portion thereof (including Client if it is not named as an Intended User), whether as a result of its direct dissemination or by any other means, may not rely upon any opinions or conclusions contained in the report or such portions thereof, and CBRE will not be responsible for any unpermitted use of the report, its conclusions or contents or have any liability in connection therewith.
Inspection:	Contact with the property owner was attempted during the prior appraisals of the subject tracts. Contact with the property owner will not be attempted as part of the update process. The appraiser will conduct a physical inspection of the exterior of the subject property from the nearest public right of way.
Valuation Approaches:	Only the sales comparison approach for land and the cost approach for the affected improvements will be developed.
Valuation Scope:	Given the nature of the acquisition only land and affected improvements will be valued.
Report Type:	Standard Appraisal Report
Appraisal Standards:	USPAP, State Statutes, and Uniform Relocation Act
Appraisal Fee:	Total Fee: $41,400 If cancelled by either party before a completion, the fee will be based on CBRE's hourly rates for the time expended; plus actual expenses. This fee is applicable only to the number of parcels quoted in this engagement letter. Should the number of parcels in the project change this engagement must be supplemented. Any appraisal updates needed within 6 months of the effective date of the appraisal will require a supplemental engagement at a fee not to exceed 50% of the original fee. Any appraisal update beyond 6 months will require a supplemental engagement at a fee not to exceed the original fee.
Expenses:	Includes Expenses
Retainer:	No retainer fee is required
Payment Terms:	Final payment is due upon delivery of the final report or within thirty (30) days of your receipt of the draft report, whichever is sooner. The full appraisal fee is considered earned upon delivery of the draft report. **The engagement will be invoiced for each portion of the assignment which has been** completed in each calendar month.
Delivery Instructions:	CBRE encourages our clients to join in our environmental sustainability efforts by accepting an electronic copy of the report.

©2025 CBRE, INC.

An Adobe PDF file via email will be delivered to melissa.scott@townofsmyrna.org. The client has requested no hard copies.

Delivery Schedule:

Final Report: On or before January 31, 2026. This delivery date assumes receipt of the updated easement exhibits by December 31, 2025.

The client is on notice that delay of inspections or failure to provide the requested documentation can substantially delay delivery. An invoice will be submitted monthly for appraisals completed within each calendar month.

Start Date: The appraisal process will start upon receipt of your signed agreement and required data.

Acceptance Date: These specifications are subject to modification or withdrawal if this proposal is not accepted within **30** business days of the date of this letter.

Updates of Appraisals and Testimony: If expert witness testimony services are required, the current hourly rate for update of the appraisal report may be required. Testimony services will also be charged at the hourly rate of $300 per hour or the hourly rate applicable at that time. New engagements will be required for those services, if required.

The client is on notice that prior appraisal reports which were not developed for the intended use of condemnation, eminent domain, or acquisition for a public project are not suitable for use in a litigation setting and do not meet the intended use requirements for such assignments. Prior appraisal reports prepared by CBRE for other uses cannot be "readdressed" or "recertified" and a new appraisal assignment must be engaged.

Special Assumptions: The following assumptions are required for this assignment and approved by signing this engagement letter:

- The value of the real property before the acquisition shall not include value changes caused by the Project.
- The appraisal of the remainder after the acquisition is conducted under the hypothetical condition that the project is complete as of the effective date of the appraisal.

©2025 CBRE, INC.

When executed and delivered by all parties, this letter, together with the Terms and Conditions and the Specific Property Data Request attached hereto and incorporated herein, will serve as the Agreement for appraisal services by and between CBRE and Client. Each person signing below represents that it is authorized to enter into this Agreement and to bind the respective parties, including all intended users, hereto.

We appreciate this opportunity to be of service to you on this assignment. If you have additional questions, please contact us.

Sincerely,
CBRE, Inc.

TERMS AND CONDITIONS

1. The Terms and Conditions herein are part of an assignment agreement (the "Agreement") for appraisal services ("Services") between CBRE, Inc. ("CBRE") and the client signing this Agreement and for whom the Services will be performed (the "Client") for the property identified herein (the "Property") and shall be deemed a part of such Agreement as though fully set forth therein. In addition, with respect to any appraisal report prepared by CBRE pursuant to the Agreement (the "Report"), any use of, or reliance on, the Report by any Intended User constitutes acceptance of these Terms and Conditions as well as acceptance of all qualifying statements, limiting conditions, and assumptions stated in the Report. The Agreement shall be governed and construed by the laws of the state where the CBRE office executing this Agreement is located without regard to conflicts of laws principles.

2. Client shall be responsible for the payment of all fees stipulated in this Agreement. Payment of the fees and preparation of the Report are not contingent upon any predetermined value or on any action or event resulting from the analyses, opinions, conclusions, or use of the Report. Final payment is due as provided in the Proposal Specifications Section of this Agreement. If a draft Report is requested, the fee is considered earned upon delivery of the draft Report. It is understood that the Client may cancel this assignment in writing at any time prior to delivery of the completed Report. In such event, the Client is obligated to pay CBRE for the time and expenses incurred (including, but not limited to, travel expenses to and from the job site) prior to the effective date of cancellation, with a minimum charge of N/A. Hard copies of the Reports are available at a cost of $250 per original color copy and $100 per photocopy (black and white), plus shipping fees of $30 per Report.

3. If CBRE is subpoenaed or ordered to give testimony, produce documents or information, or otherwise required or requested by Client or a third party to participate in meetings, phone calls and conferences (except routine meetings, phone calls and conferences with the Client for the sole purpose of preparing the Report), litigation, or other legal proceedings (including preparation for such proceedings) because of, connected with or in any way pertaining to this assignment, the Report, CBRE's expertise, or the Property, Client shall pay CBRE's additional out-of-pocket costs and expenses, including but not limited to CBRE's reasonable attorneys' fees, and additional time incurred by CBRE based on CBRE's then-prevailing hourly rates and related fees. Such charges include and pertain to, but are not limited to, time spent in preparing for and providing court room testimony, depositions, travel time, mileage and related travel expenses, waiting time, document review and production, and preparation time (excluding preparation of the Report), meeting participation, and CBRE's other related commitment of time and expertise. Hourly charges and other fees for such participation will be provided upon request. In the event Client requests additional Services beyond the scope and purpose stated in the Agreement, Client agrees to pay additional fees for such services and to reimburse related expenses, whether or not the completed Report has been delivered to Client at the time of such request.

4. CBRE shall have the right to terminate this Agreement at any time for cause effective immediately upon written notice to Client on the occurrence of fraud or the willful misconduct of Client, its employees or agents, or without cause upon 5 days written notice.

5. In the event Client fails to make payments when due then, from the date due until paid, the amount due and payable shall bear interest at the maximum rate permitted in the state where the CBRE office executing this Agreement is located. **EACH PARTY, AFTER HAVING THE OPPORTUNITY TO CONSULT WITH COUNSEL OF ITS CHOICE, KNOWINGLY AND VOLUNTARILY, WAIVES ANY RIGHT TO TRIAL BY JURY IN THE EVENT OF LITIGATION IN ANY WAY RELATED TO THIS AGREEMENT.**

6. CBRE assumes there are no major or significant items or issues affecting the Property that would require the expertise of a professional building contractor, engineer, or environmental consultant for CBRE to prepare a valid Report hereunder. Client acknowledges that such additional expertise is not covered in the fee and agrees that, if such additional expertise is required, it shall be provided by others at the discretion and direction of the Client, and solely at Client's additional cost and expense.

 ©2025 CBRE, INC.

7. Client acknowledges that CBRE is being retained hereunder as an independent contractor to perform the Services described herein and nothing in this Agreement shall be deemed to create any other relationship between Client and CBRE. Unless otherwise stated in this Agreement, Client shall not designate or disclose CBRE or any of its agents or employees as an expert or opinion witness in any court, arbitration, or other legal proceedings without the prior written consent of CBRE.

8. This assignment shall be deemed concluded and the Services hereunder completed upon delivery to Client of the Report discussed herein.

9. All statements of fact in the Report which are used as the basis of CBRE's analyses, opinions, and conclusions will be true and correct to CBRE's actual knowledge and belief. CBRE does not make any representation or warranty, express or implied, as to the accuracy or completeness of the information or the condition of the Property furnished to CBRE by Client or others. TO THE FULLEST EXTENT PERMITTED BY LAW, CBRE DISCLAIMS ANY GUARANTEE OR WARRANTY AS TO THE OPINIONS AND CONCLUSIONS PRESENTED ORALLY OR IN ANY REPORT, INCLUDING WITHOUT LIMITATION ANY WARRANTY OF FITNESS FOR ANY PARTICULAR PURPOSE EVEN IF KNOWN TO CBRE. Furthermore, the conclusions and any permitted reliance on and use of the Report shall be subject to the assumptions, limitations, and qualifying statements contained in the Report.

10. CBRE shall have no responsibility for legal matters, including zoning, or questions of survey or title, soil or subsoil conditions, engineering, or other similar technical matters. The Report will not constitute a survey of the Property analyzed.

11. Client shall provide CBRE with such materials with respect to the assignment as are requested by CBRE and in the possession or under the control of Client. Client shall provide CBRE with sufficient access to the Property to be analyzed, and hereby grants permission for entry unless discussed in advance to the contrary.

12. The data gathered in the course of the assignment (except data furnished by Client, "Client Information") and the Report prepared pursuant to the Agreement are, and will remain, the property of CBRE. With respect to Client Information provided by Client, CBRE shall not violate the confidential nature of the appraiser-client relationship by improperly disclosing any confidential and proprietary Client Information furnished to CBRE. Notwithstanding the foregoing to the contrary, CBRE is authorized by Client to disclose all or any portion of the Report and related data as may be required by applicable law, statute, government regulation, legal process, or judicial decree, including to appropriate representatives of the Appraisal Institute if such disclosure is required to enable CBRE or its employees and agents to comply with the Bylaws and Regulations of the Appraisal Institute as now or hereafter in effect.

13. Unless specifically noted, in preparing the Report CBRE will not be considering the possible existence of asbestos, PCB transformers, or other toxic, hazardous, or contaminated substances and/or underground storage tanks (collectively, "Hazardous Materials") on or affecting the Property, or the cost of encapsulation or removal thereof. Further, Client represents that there are no major or significant repairs, improvements or deferred maintenance of the Property that would require the expertise of a professional cost estimator, engineer, architect or contractor. If any such repairs, improvements or maintenance are needed, the estimates for such repairs, improvements or maintenance are to be prepared by other parties pursuant to a separate written agreement in Client's sole discretion and direction, and are not deemed part of the Services or otherwise covered as part of the fee hereunder.

14. In the event Client intends to use the Report in connection with a tax matter, Client acknowledges that CBRE provides no warranty, representation or prediction as to the outcome of such tax matter. Client understands and acknowledges that any relevant taxing authority (whether the Internal Revenue Service or any other federal, state or local taxing authority) may disagree with or reject the Report or otherwise disagree with Client's tax position, and further understands and acknowledges that the taxing authority may seek to collect additional taxes, interest, penalties or fees from Client beyond what may be suggested by the Report. Client agrees that CBRE shall have no responsibility or liability to Client or any other party for any such taxes, interest, penalties or fees and that Client will not seek damages

©2025 CBRE, INC.

or other compensation from CBRE relating to any such taxes, interest, penalties or fees imposed on Client, or for any attorneys' fees, costs or other expenses relating to Client's tax matters.

15. **LIMITATION OF LIABILITY**. NOTWITHSTANDING ANY PROVISION OF THIS AGREEMENT TO THE CONTRARY:

(A) EXCEPT TO THE EXTENT ARISING FROM SECTION 16, OR SECTION 17 IF APPLICABLE, IN NO EVENT SHALL EITHER PARTY OR ANY OF ITS AFFILIATES, OFFICERS, DIRECTORS, EMPLOYEES, AGENTS, OR CONTRACTORS BE LIABLE TO THE OTHER PARTY, FOR ANY LOST OR PROSPECTIVE PROFITS OR ANY OTHER INDIRECT, CONSEQUENTIAL, SPECIAL, INCIDENTAL, PUNITIVE, INDIRECT OR OTHER EXEMPLARY LOSSES OR DAMAGES, WHETHER BASED IN CONTRACT, WARRANTY, INDEMNITY, NEGLIGENCE, STRICT LIABILITY OR OTHER TORT OR OTHERWISE, REGARDLESS OF THE FORESEEABILITY OR THE CAUSE THEREOF.

(B) EXCEPT TO THE EXTENT ARISING FROM SECTION 16, OR SECTION 17 IF APPLICABLE, AGGREGATE DAMAGES IN CONNECTION WITH THIS AGREEMENT FOR EITHER PARTY (EXCLUDING THE OBLIGATION TO PAY THE FEES AND COSTS REQUIRED HEREUNDER) SHALL NOT EXCEED THE GREATER OF THE TOTAL FEES PAYABLE TO CBRE UNDER THIS AGREEMENT OR TEN THOUSAND DOLLARS ($10,000).

(C) CBRE SHALL HAVE NO LIABILITY WITH RESPECT TO ANY LOSS, DAMAGE, CLAIM OR EXPENSE INCURRED BY OR ASSERTED AGAINST CLIENT ARISING OUT OF, BASED UPON OR RESULTING FROM CLIENT'S OR ANY INTENDED USER'S FAILURE TO PROVIDE ACCURATE OR COMPLETE INFORMATION OR DOCUMENTATION PERTAINING TO ANY SERVICES OR REPORT ORDERED UNDER OR IN CONNECTION WITH THIS AGREEMENT, INCLUDING CLIENT'S OR ANY INTENDED USER'S FAILURE, OR THE FAILURE OF ANY OF CLIENT'S OR ANY INTENDER USER'S RESPECTIVE OFFICERS, DIRECTORS, MEMBERS, PRINCIPALS, AGENTS OR EMPLOYEES, TO PROVIDE A COMPLETE AND ACCURATE COPY OF THE REPORT TO ANY THIRD PARTY. CBRE SHALL HAVE NO LIABILITY WHATSOEVER FOR REPORTS OR DELIVERABLES THAT ARE SUBMITTED IN DRAFT FORM.

(D) THE LIMITATIONS OF LIABILITY IN SUBSECTIONS 15(A) AND 15(B) ABOVE SHALL NOT APPLY IN THE EVENT OF A FINAL FINDING BY A COURT OF COMPETENT JURISDICTION THAT SUCH LIABILITY IS THE RESULT OF A PARTY'S FRAUD OR WILLFUL MISCONDUCT.

16. (a) Client shall not disseminate, distribute, make available or otherwise provide any Report prepared hereunder to any third party (including without limitation, incorporating or referencing the Report, in whole or in part, in any offering, including, but not limited to any offering of the Property or any securities offering as defined by applicable law, or other material intended for review by other third parties) except (i) to any third party (a) identified in the Agreement as an Intended User subject to the terms and conditions of this Agreement or (b) otherwise expressly acknowledged in a separate writing executed by CBRE, such third party and Client, setting forth that such third party is an "Intended User" of the Report and providing CBRE with an acceptable release from such third party with respect to such Report or wherein Client provides acceptable indemnity protections to CBRE against any claims resulting directly from the distribution of the Report to such third party; (ii) to any third party service provider (including accountants, attorneys, rating agencies and auditors) using the Report in the course of providing Services for the sole benefit of an Intended User and limited to the Intended Use of the Report as defined in this Agreement, or (iii) to the extent required by applicable law, statute, government regulation, legal process, or judicial decree.

(b) In the event CBRE consents, in writing, to Client incorporating or referencing the Report in any offering or other materials intended for review by other parties, Client shall not distribute, file, or otherwise make such other materials available to any such parties unless and until Client has provided CBRE with complete copies of such offering or other materials and CBRE has approved the inclusion of the Report, or reference to the Report and/or CBRE, in such offering and other materials in writing. Further, CBRE's consent to such inclusion of the Report, or reference to the Report and/or CBRE, in any securities offering is subject to (i) CBRE's and CBRE's securities counsel's review and approval, in writing, of any inclusion of the Report, or reference to the Report and/or CBRE, in such securities offering; (ii) Client shall not modify the Report, any such inclusion of or reference to the Report and/or CBRE in such securities offering

 ©2025 CBRE, INC.

once approved by CBRE and its securities counsel in writing; and (iii) Client shall reimburse CBRE for its out-of-pocket costs and expenses, including attorneys' fees, arising from legal review of such securities offering and related materials on CBRE's behalf.

(c) In the absence of satisfying the conditions of this Section 16 with respect to any party who is not designated as an Intended User, in no event shall the receipt of a Report by such party extend any right to the party to use and rely on such Report, and CBRE shall have no liability for such unauthorized use and reliance on any Report.

(d) In the event Client breaches the provisions of this Section 16, Client shall indemnify, defend and hold CBRE and its affiliates and their officers, directors, employees, contractors, agents and other representatives (CBRE and each of the foregoing an "Indemnified Party" and collectively the "Indemnified Parties"), fully harmless from and against all losses, liabilities, damages and expenses (collectively, "Damages") claimed against, sustained or incurred by any Indemnified Party arising out of or in connection with such breach, regardless of any negligence on the part of any Indemnified Party in preparing the Report.

17. In the event Client incorporates or references the Report or Summary Data, in whole or in part, in any offering, including, but not limited to any offering of the Property or any securities offering as defined by applicable law, or other material intended for review by other parties, Client shall indemnify, defend and hold each of the Indemnified Parties harmless from and against any Damages in connection with (i) any transaction contemplated by this Agreement or in connection with the Report or the engagement of or performance of Services by any Indemnified Party hereunder, (ii) any Damages claimed by any user or recipient of the Report or Summary Data, whether or not an Intended User, (iii) any actual or alleged untrue statement of a material fact, or the actual or alleged failure to state a material fact necessary to make a statement not misleading in light of the circumstances under which it was made with respect to all information furnished to any Indemnified Party or made available to a prospective party to a transaction, or (iv) an actual or alleged violation of applicable law by an Intended User (including, without limitation, securities laws) or the negligent or intentional acts or omissions of an Intended User (including the failure to perform any duty imposed by law); and will reimburse each Indemnified Party for all reasonable fees and expenses (including fees and expenses of counsel) (collectively, "Expenses") as incurred in connection with investigating, preparing, pursuing or defending any threatened or pending claim, action, proceeding or investigation (collectively, "Proceedings") arising therefrom, and regardless of whether such Indemnified Party is a formal party to such Proceeding. Client agrees not to enter into any waiver, release or settlement of any Proceeding (whether or not any Indemnified Party is a formal party to such Proceeding) without the prior written consent of CBRE (which consent will not be unreasonably withheld or delayed) unless such waiver, release or settlement includes an unconditional release of each Indemnified Party from all liability arising out of such Proceeding.

18. Time Period for Legal Action. Unless the time period is shorter under applicable law, except in connection with Section16 and Section 17, CBRE and Client agree that any legal action or lawsuit by one party against the other party or its affiliates, officers, directors, employees, contractors, agents, or other representatives, whether based in contract, warranty, indemnity, negligence, strict liability or other tort or otherwise, relating to (a) this Agreement, (b) any Services or Reports under this Agreement or (c) any acts or conduct relating to such Services or Reports, shall be filed within two (2) years from the date of delivery to Client of the Report to which the claims or causes of action in the legal action or lawsuit relate. The time period stated in this section shall not be extended by any incapacity of a party or any delay in the discovery or accrual of the underlying claims, causes of action or damages.

 ©2025 CBRE, INC.

19. Miscellaneous.

(a) This Agreement contains the entire agreement and understanding of the parties with respect to the subject matter hereof. This Agreement may not be amended, modified or discharged, nor may any of its terms be waived except by written agreement of both parties. This Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which shall constitute one and the same instrument. A signed copy of this Agreement transmitted by facsimile, email, or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original executed copy of this Agreement for all purposes.

(b) Neither party shall assign this Agreement in whole or in part (other than by operation of law) to any person or entity without the prior written consent of the other party. Subject to the foregoing, this Agreement and all of its provisions shall be binding upon and shall inure to the benefit of the parties and their respective successors and permitted assigns.

(c) No consent or waiver, either expressed or implied, by a party to or of any breach or default, shall be construed to be a consent or waiver to or of any other breach or default in the performance of any obligations hereunder. Failure of a party to complain or declare the other party in default shall not constitute a waiver by such party of rights and remedies hereunder.

(d) Except as hereinafter provided, no delay or failure in performance by a party shall constitute a default hereunder to the extent caused by Force Majeure. Unless the Force Majeure substantially frustrates performance of the Services, Force Majeure shall not operate to excuse, but only to delay, performance of the Services. If Services are delayed by reason of Force Majeure, CBRE promptly shall notify Client. Once the Force Majeure event ceases, CBRE shall resume performance of the Services as soon as possible. As used herein, "Force Majeure" means any event beyond the control of the Party claiming inability to perform its obligations and which such Party is unable to prevent by the exercise of reasonable diligence, including, without limitation, the combined action of workers, fire, acts of terrorism, catastrophes, changes in laws, condemnation of property, governmental actions or delays, national emergency, war, civil disturbance, floods, unusually severe weather conditions, endemic or pandemic, or other acts of God. Inability to pay or financial hardship shall not constitute Force Majeure regardless of the cause thereof and whether the reason is outside a party's control.

(e) Any provision of this Agreement that, by its language, contemplates performance or observation subsequent to any termination or expiration of this Agreement shall survive such termination or expiration and shall continue in full force and effect.

(f) If any provision of this Agreement, or application thereof to any person or circumstance, shall to any extent be invalid, then such provision shall be modified, if possible, to fulfill the intent of the parties reflected in the original provision. The remainder of this Agreement, or the application of such provision to person or circumstance other than those as to which it is held invalid, shall not be affected thereby, and each provision of this Agreement shall be valid and enforced to the fullest extent permitted by law.

Town of Smyrna
Town Council Meeting
Agenda Summary

Agenda Item Number 4.
Department: Utilities
Date: January 6, 2026

Subject:
Approval of the terms of, and authorization for the Mayor to execute, an agreement with the City of LaVergne for the Blair Road Project Gas Relocation project.

Fiscal Impact:
$272,111

Contract Type:
Original Contract

Contract Term (if applicable):

Background:
LaVergne is constructing a road widening project on Blair Road. Smyrna has gas facilities that will have to be relocated within the road project. Mr. Peach worked on the agreement with LaVergne's attorney and the agreement has already been approved by LaVergne's council. The cost of $272,111 is already covered under the current FY26 capital budget.

Summary:
The attached contract with LaVergne is to relocate gas facilities within the road project.

Recommended Council Action:
Staff recommends approval of the agreement with LaVergne.

Mr. Mark Parker
Smyrna Utilities
315 Lowry Street
Smyrna, TN 37167

Dear Mark:

Attached is the Natural Gas Installation agreement which has been signed by La Vergne's mayor. Please have Mayor Reed sign it and call me when I can pick up a copy.

Y'all apparently have shut off our ability to swap e-mails since our cybersecurity incident.

Sincerely,
City of La Vergne

Gary Lide PE
City Engineer

NATURAL GAS INSTALLATION

AGREEMENT FOR INSTALLATION AND CONSTRUCTION OF NATURAL GAS UTILITY LINES AND FACILITIES

WHEREAS, the Town of Smyrna is responsible for the relocation of natural gas facilities within the city limits of La Vergne, Tennessee, for utility purposes as a result of improvements to Blair Road; and

WHEREAS, the City of La Vergne agrees to facilitate the installation and construction of natural gas utility lines and facilities on Blair Rd. in La Vergne, Tennessee; and

WHEREAS, the Town of Smyrna agrees to reimburse the City of La Vergne for the costs incurred in installing and constructing the natural gas lines relocation on Blair Road;

NOW, THEREFORE, in consideration of the mutual covenants and promises contained herein, the parties agree as follows:

This Agreement ("Agreement") is entered into as of _____ by and between the Town of Smyrna, a municipal corporation organized under the laws of the State of Tennessee ("Smyrna"), and the City of La Vergne, a municipal corporation organized under the laws of the State of Tennessee ("La Vergne").

RECITALS

1. Scope of Work

The City of La Vergne shall oversee the installation and construction of natural gas utility lines and facilities on Blair Rd. in La Vergne, Tennessee. The work shall be performed by a third-party contractor selected by La Vergne. The Town of Smyrna shall provide inspections for all gas utility work performed under this Agreement.

2. Project Payment

2.2 The City of La Vergne shall invoice the Town of Smyrna. Each invoice shall include detailed documentation of costs for materials, labor, installation and construction associated.

2.3 The Town of Smyrna shall pay each invoice within thirty (30) days of receipt, contingent upon the invoice containing adequate supporting documentation and Smyrna's reasonable satisfaction with the completed work covered by such invoice.

2.4 The total cost of the project shall not exceed Two Hundred Seventy-Two Thousand One Hundred Eleven Dollars ($272,111), which includes the base bid amount of $259,153 and a five percent (5%) contingency of $12,958.

3. Additional Costs

In the event that the actual costs exceed the projected costs such that the total project cost would exceed $272,111, the City of La Vergne shall obtain prior written approval from the Town of Smyrna before proceeding with any additional work.

4. Timeline

All work shall be completed in accordance with the timelines established by the third-party contractor, subject to any force majeure events, which shall include, but not be limited to, acts of God, war, terrorism, pandemics, epidemics, government orders, labor strikes, material shortages, and other circumstances beyond La Vergne's reasonable control.

5. Governing Law / Venue

This Agreement shall be governed by and construed in accordance with the laws of the State of Tennessee. Any legal action or proceeding arising out of or relating to this Agreement shall be brought exclusively in the courts of competent jurisdiction located in Rutherford County, Tennessee. Each party hereby irrevocably submits to the jurisdiction of such courts for purposes of any such action or proceeding and waives any objection to venue laid therein.

6. Entire Agreement

This Agreement, including all exhibits and attachments hereto, constitutes the entire agreement between Smyrna and La Vergne regarding the subject matter hereof and supersedes all prior agreements and understandings, whether written or oral, relating to such subject matter.

7. Amendments

No amendment or modification of this Agreement shall be valid unless in writing and signed by both parties.

----------Intentionally Left Blank----------

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the date first above written.

Agenda Summary

Agenda Item Number 5.
Department: Utilities
Date: January 6, 2026

Subject:
Approval of the terms of, and authorization for the Mayor to execute, an agreement with James N. Bush Construction, Inc. relative to the Enon Springs Water Line Replacement project.

Fiscal Impact:
$315,614

Contract Type:
Original Contract

Contract Term (if applicable):

Background:
This project for water line replacement on Enon Springs Road is a result of multiple leaks on Enon Springs from Old Nashville Hwy to Mason Tucker. This was bid on December 11, 2025, and the low bidder was Bush Construction. The amount in the FY26 capital budget is $1,000,000. References have been verified by Thomas & Hutton, and they have recommended the low bidder for the work. This is a 120-day project and would begin in early February, pending council approval.

Summary:
Replace water line on Enon Springs from Old Nashville Hwy to Mason Tucker because of numerous leaks on the old line.

Recommended Council Action:
Staff recommends approval of Bush Construction as the low bidder for the project.

BID REVIEW AND AWARD RECOMMENDATION

Dear Mr. Parker:

As you are aware, bids for the construction of the above-referenced project were received by the Town of Smyrna, on December 11, 2025, at 9:30 A.M. (CST). Six contractors submitted bids for the project, including Hawkins & Price Construction LLC, Jarrett Builders Inc, John T. Hall Construction Inc, TBU Tenn LLC, West Farms & Construction LLC, and James N. Bush Construction, Inc. After reviewing the submitted bids, Thomas & Hutton (T&H) has developed the attached bid tabulation of the submitted bids.

James N. Bush Construction, Inc. of Silver Point, Tennessee, submitted an apparent low bid in the amount of $315,614.00. T&H has reviewed the “Project Bid Package” as submitted by James N. Bush Construction, Inc. and finds it to be in good order. T&H has called project references and received positive feedback on the contractor’s work performance and work history.

Therefore, T&H recommends the award of this project to James N. Bush Construction, Inc. in the amount of $315,614.00. Should you have any questions or comments please give me a call.

Sincerely
THOMAS & HUTTON

Town of Smyrna
Town Council Meeting
Agenda Summary

Agenda Item Number 6.
Department: Utilities
Date: January 6, 2026

Subject:
Approval of the terms of, and authorization for the Mayor to execute, an agreement with Jarrett Builders, Inc. relative to Golf Course Water Line Extension/Connection.

Fiscal Impact:
$206,702

Contract Type:
Original Contract

Contract Term (if applicable):
45 days

Background:
This project originated with work the Airport Authority was conducting on one of its runways, and it was determined that the location of the water line created a utility conflict with the runway. The existing water line feeds directly across the end of their runway to the front 9 of the golf course.

Summary:
The project will tie to the 24" water line on Sam Ridley and run through the golf course, set a meter, and tie to the existing line. The contractor will also disconnect the line feeding from the airbase and at the golf course fence, removing any issues with the runway. There will be no impacts to the airbase. This is not budgeted but can be absorbed with the $684,386 in savings from budget v. actual costs for the Enon Springs water line project. References have been verified by Thomas & Hutton and they recommend awarding the construction contract to Jarrett Builders.

Recommended Council Action:
Staff recommends approval of Jarrett Builders, Inc as the low bidder.

RE: TOWN OF SMYRNA, TENNESSEE
GOLF COURSE WATER LINE
BID REVIEW AND AWARD RECOMMENDATION

Dear Mr. Parker:

As you are aware, bids for the construction of the above-referenced project were received by the Town of Smyrna, on December 11, 2025, at 10:00 A.M. (CST). Five contractors submitted bids for the project, including Hawkins & Price Construction LLC, Jarrett Builders Inc, John T. Hall Construction Inc, TBU Tenn LLC, and West Farms & Construction LLC. After reviewing the submitted bids, Thomas & Hutton (T&H) has developed the attached bid tabulation of the submitted bids.

Jarrett Builders, Inc. of Nashville, Tennessee, submitted an apparent low bid in the amount of $206,702.00. T&H has reviewed the “Project Bid Package” as submitted by Jarrett Builder, Inc. and finds it to be in good order. Along with submitted project history and references, T&H is currently the engineer of record for a project in the City of Spring Hill being constructed by Jarrett Builders, Inc. The Contractor has performed satisfactory work with good attention to detail, keeping a clean project area to reduce impacts to property owners.

Therefore, T&H recommends the award of this project to Jarrett Builders, Inc. in the amount of $206,702.00. Should you have any questions or comments please give me a call.

Sincerely
THOMAS & HUTTON

TOWN OF SMYRNA
FIRE DEPARTMENT

ADMINISTRATIVE
POLICIES AND PROCEDURES
MANUAL

Version 1
January, 2026

Introduction

A Fire Department is judged by the performance and conduct of each individual firefighter. Therefore, all firefighters shall strive to provide the highest level of service possible.

One of the many responsibilities undertaken is the enforcement of Town ordinances and the laws of the State of Tennessee. In accepting a position as firefighter, one becomes a part of Municipal and State government.

It shall be the responsibility of all Smyrna Firefighters to familiarize themselves with, and conform to, the policies, procedures, rules and regulations contained within this manual. This will not only make the employee a valuable asset to the Department and to the community, but will also prove to be a valuable asset to the firefighter who is seeking promotion to a higher rank in the department.

Oath of Office

I, [Name], do solemnly swear (or affirm) to serve with integrity, honor, and courage as a firefighter with the Smyrna Fire Department. That I will uphold the values of professionalism, compassion, and accountability; to respect my fellow firefighters; to collaborate with all public safety partners; and to remain committed to continuous improvement and excellence in the fire service.

I will place the needs of the community above my own, to protect life and property, and to serve the people of Smyrna with dedication, empathy, and an unwavering commitment.

I will support and uphold the Constitution and laws of the United States, the State of Tennessee, and the ordinances of the Town of Smyrna, and I will faithfully discharge the duties of my position.

Code of Ethics

To recognize and adhere to the obligations, duties and honor of my chosen profession as a firefighter.

To encourage the prevention of fires and other tragedies by practicing a high level of code enforcement and public safety education.

To protect life and property from the ravages of fire and other tragedies and avoid jeopardizing the safety of my fellow firefighters.

To have a personal obligation to maintain the highest level of training and personal physical fitness, which will enable me to effectively and efficiently perform the duties of my job as a Firefighter.

To set high standards for myself, refrain from destructive criticism, and be a team player.

To conduct my personal and official affairs so as to inspire public confidence and avoid disfavor to myself and the Smyrna Fire Department.

To always speak the truth and to keep my personal beliefs from influencing my decisions or activities.

To avoid participation in illegal activities and avoid affiliations that will conflict with my position as a firefighter.

To pledge my loyalty to the Town of Smyrna, the Smyrna Fire Department, my supervisors, and fellow firefighters.

SECTION 1

1 Administrative Policies

1.1 Purpose

The purpose of this manual is to provide a standard written source of policies and procedures which will promote the safe, effective and efficient operation of the Smyrna Fire Department (Fire Department or Department). These are not intended to provide a solution to every question or problem which may arise in an emergency service organization, however it does provide comprehensive standards to cover the most common obligations, duties, and responsibilities of departmental personnel.

Additionally, these policies are not intended to limit personnel from exercising rational judgment or initiative in extraordinary situations. Much is left to the loyalty, integrity and discretion of line personnel; and the degree to which they demonstrate these qualities will determine whether the Department meets the high standard required of the fire service.

1.2 Authority

Pursuant to the authority vested in the Fire Chief by Tennessee State Law and Local Ordinance, this Administrative Policy & Procedure Manual is hereby established as one of the official sources of departmental policies, procedures, rules, and regulations.

Due to the emergent and paramilitary nature of the work, the Fire Department may have supplemental rules and regulations which are more stringent than those applied to other departments.

1.3 Enforcement

The company officer or designee shall carry out the enforcement of these rules and regulations as established by Town and Departmental policies, or as designated by the Fire Chief.

The responsibility for such enforcement shall be as designated by the job descriptions, departmental policy, or as delegated by the Fire Chief.

2 Definitions

2.1 Accountability **-** Line personnel are answerable to their supervisor for proper execution of assigned duties, individual conduct, and performance.

2.2 Acting - Serving temporarily in a position to which the member ordinarily is not assigned, usually in a position of higher responsibility. The acting officer

shall have the full authority and responsibility of the assigned position.

2.3 Administrative Instruction - An order issued by an officer establishing a principle, policy, or procedure concerning a given subject not covered by a general order, special order or a manual.

2.4 Administrative Leave - Relieved from duty, either with or without pay, for a specified period of time as designated by the Fire Chief.

2.5 Dispatch - The communications center for the Smyrna Fire Department.

2.6 Authority - Power granted to a member to act, behave or perform, or to cause others to act, behave or perform necessary duties or activities.

2.7 Chain of Command - A series of positions in order of authority. The line of authority within the Department extending from the firefighter through each level of the ranks.

2.8 Department - The Smyrna Fire Department.

2.9 Departmental Order - An inclusive term embracing fire regulations, general orders, special orders, and administration instructions.

2.10 Duty - A service or activity that a member is obligated to perform when assigned to do so by a job description, established policy or supervisor.

2.11 Duty Hours - 0600 hours until 0615 hours the following morning (24.25 hours).

2.12 Fire Chief – Department head. Director of the Smyrna Fire Department.

2.13 General Operating Guidelines (GOGs) - A written collection of administrative policies, procedures, or rules authorized by an order of the Fire Chief that establish a general course of action to be followed either on the emergency scene or during non-emergency activities to increase the safety and effectiveness of the Fire Department. Directives (if so noted) are considered orders and specific policy that must be adhered to. The Fire Department GOGs are not designed nor intended to limit any member or employee in the exercise of his or her judgment in taking the actions a reasonable person would take during extraordinary situations which routinely arise in the fire service. Much, by necessity, must be left to the professionalism, integrity and discretion of the line personnel and employees. To the degree which individual Line personnel and employees demonstrate these qualities in the application of a conscientious discharge of their duty, and to that degree alone, will the Fire Department measure up to the highest standard required and expected of the fire service.

2.14 General Order - A published directive, originated by a Chief Officer, and binding upon all personnel under his/her command, the purpose of which is to enforce a policy or procedure unique to his department's situation which is not otherwise addressed in applicable Town policies, ordinances or GOGs. A general order has the force of policy; to disobey one is an offense punishable by discipline. What makes it a general order (as opposed to a direct order), is that the actor is not explicitly named, nor precisely that (or whom) which is to be acted upon. A general order of indefinite duration may be referred to as a *standing order*. Standing orders are necessarily general and vague since the exact circumstances for execution occur in the future under unknown conditions. For example, in most agencies there is a standing order for line personnel to refer to officers by rank; however, the name of each firefighter is not explicitly named in the order, nor is the name of each officer.

2.15 Insubordination - A member's refusal to obey a lawful order, habitual uncooperative behavior, or insolent behavior toward a member of a higher rank or position.

2.16 Lawful Order - Any instruction or request given either verbal or written, by a ranking officer to a subordinate. Example: If the Fire Chief or a fire officer asks, requests, tells, instructs, directs, or gives a member an order that is lawful and does not put the Member or others in an unsafe situation, the member shall follow the instructions.

2.17 Line personnel – Shift personnel who are normally assigned to work 24.25-hour shifts.

2.18 May or Should – Permissiveness.

2.19 Member - All line personnel of the department, which includes Battalion Chief, Fire Lieutenant, Engineer, and Firefighter.

2.20 Memorandum – Written directive by a member of the senior staff. It may be informational in nature or introduce new policy.

2.21 Off Duty - The time when a member is not serving in a specified assignment as a department employee.

2.22 Officer - Any person having the rank of Chief, Captain, or Fire Lieutenant, or one who has been assigned to those positions in an acting capacity.

2.23 On Duty - A member is on duty during the period when actively engaged in the performance of regularly assigned duties, when performing a special

mission for the Department, while traveling either to or from an assignment away from the station, or when directed by a supervisor to perform in the service of the Department at other than regularly assigned duty hours.

2.24 Paid Experience – Duration of full-time status with another fire department.

2.25 Personal Project - Project not related to regular job responsibilities.

2.26 Personnel – All Line personnel of the Fire Department.

2.27 Procedure - The official method for dealing with any given situation.

2.28 Report - A written communication in the appropriate form.

2.29 Reside - The place where a member actually lives, sleeps, and regularly stays.

2.30 Responsibility - A designated obligation that is established and can only be transferred by the governing body. Responsibility cannot be transferred on one's own initiative.

2.31 Rule - A prescribed guide for conduct or action. A regulation controlling conduct issued by the Fire Chief.

2.32 Senior Staff Personnel – The Fire Chief, Assistant Fire Chief, Division Chiefs, Battalion Chiefs, Administrative Captain(s), Office Coordinator, and Administrative Assistant.

2.33 Shall or Will – Mandatory.

2.34 Shift - Assigned duty hours.

2.35 Special Orders - A published directive, originated by a Chief Officer, and binding upon all personnel under his/her command, the purpose of which is to define or alter a policy or procedure *for a limited period of time in order to address a unique situation or circumstance.* A special order has the force of policy; to disobey one is an offense punishable by discipline. What makes it a special order (as opposed to a general order), is the temporal nature of the situation addressed. For instance, a special order may be issued to alter response protocols to an area experiencing a temporary bridge outage or to address operations at unique and special events. The special order may include a rescission date on the order itself or be defined by terms such as "until further notice (UFN)". In cases where UFN is used, the special order is assumed to be in place until official rescission occurs or until the event or situation causing the order has passed.

2.36 Special Project - temporary project assigned to Member(s) by a supervisor.

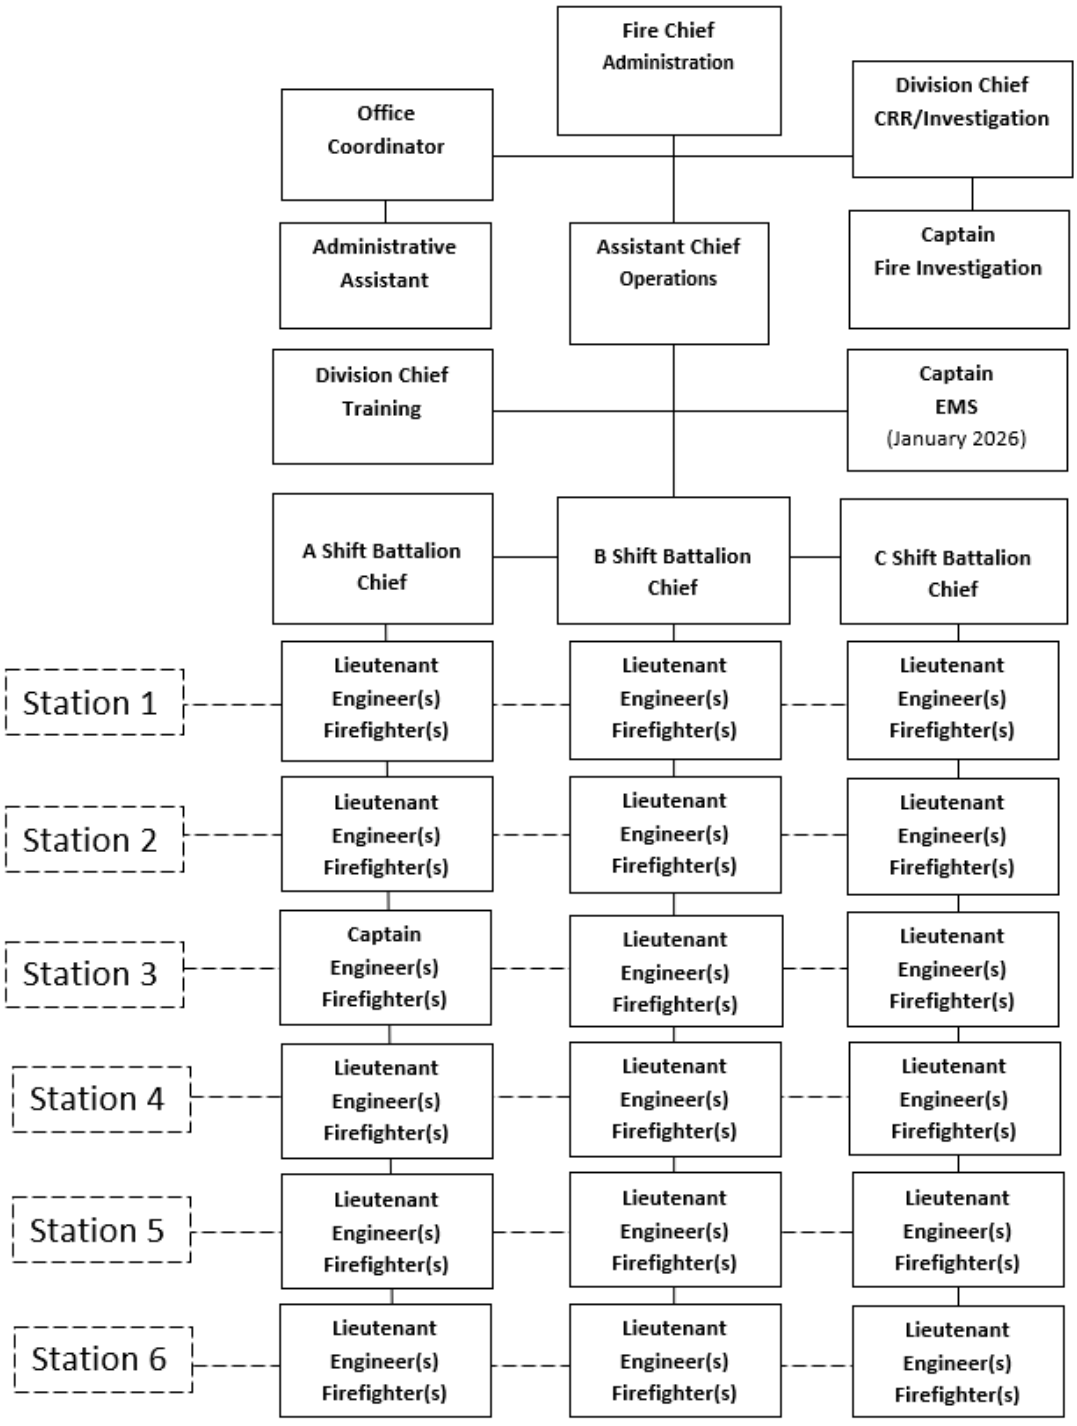

2.37 Supervisor - An officer or member who has been assigned by the Fire Chief or by job description to supervise the work of others.

2.38 Suspension - The act of temporarily denying a member the rights and compensation of performing duties as a member of the Department.

2.39 Town – The governing body of, and area within, the town limits of Smyrna, Tennessee.

2.40 Chief Officer - Any person holding the rank of Fire Chief, Assistant Fire Chief, Division Chief, or Battalion Chief, or one who has been assigned to those positions in an acting capacity.

3 Organizational Chart

4 Updating Manual

4.1 The procedure for updating this manual is as follows:

4.2 Each time a policy is updated, added, or deleted, the Fire Chief or designee shall notify each member of the department electronically that a change has occurred.

4.3 The updated, added, or deleted section will be placed in, or removed from, the most recent version of the SFD Administrative Policy and Procedure Manual. The date on the front cover of the manual will note the most recent revision.

4.4 It will be the responsibility of the company officer to review the updates with his/her crew. The officer shall also ensure that the update is communicated to subsequent incoming officers at shift change.

4.5 It is no longer required that a hard copy of the manual be kept in the station. Copies of the Manual are available on the shared drive.

SECTION 2

5 Reserved

6 Job Requirements for all Uniformed Personnel

6.1 Basic Certification Requirements

All line personnel shall be certified EMR within 18 months of hire and Tennessee State Firefighter II within 24 months from date of employment. All company officers and the Division Chief of CRR and Fire Investigator shall be licensed as Fire Inspectors by the Fire Marshal's office of the State of Tennessee within 18 months of their promotion/appointment. Line personnel are responsible for maintaining current, valid licenses and certifications, and shall notify their supervisor at least 60 days in advance of lapses in certifications in order to plan for training and testing. A Member's failure to meet certification requirements will demonstrate inability to perform the duties of a firefighter or fire officer and may result in demotion or termination.

6.2 Promotion

Promotional steps and associated requirements are found in the Smyrna Fire Department Training Standards and Competencies Manual.

Line personnel testing for promotion will be required to pass a promotional process as established by the Fire Chief and/or Assistant Chief. All promotions are subject to final approval by the Fire Chief.

6.3 In-Service Training Requirements

The State of Tennessee provides an Educational Incentive supplemental bonus paid to career or volunteer firefighters for completing the required program hours of Commission-approved training annually and acquiring firefighter certification through the Commission. The training program is submitted to the Commission for approval and is conducted by the department. All line Personnel must meet the minimum standards as stated in the Rules of the Tennessee Commission on Firefighting Personnel Standards and Education Chapter 0360-07-01 to be considered eligible to receive the State of Tennessee educational incentive pay.

6.4 Physical Fitness Requirements

All line personnel are required to participate in a minimum of sixty (60) minutes of physical exercise per duty day. This activity may be completed either as a crew or individually, at the crew’s discretion. The purpose of this requirement is to promote health, wellness, and operational readiness. The company officer shall ensure that adequate time is provided each shift for all members to meet this standard and that participation is consistent and documented as part of the daily schedule. Documentation of physical fitness activities shall include the type of activity and approximate duration. Personnel unable to participate due to injury or medical

restriction shall notify their company officer and provide medical documentation if the limitation extends beyond one shift. Alternative wellness activities may be substituted with Battalion Chief approval for personnel with temporary medical restrictions.

6.5 Living Radius Requirements

There are no longer any requirements related to a living radius for Smyrna Fire personnel.

6.6 Off-Duty (Secondary) Employment Requirements

Personnel wishing to engage in outside work activities shall receive prior approval by submitting an Application for Secondary Employment. If any change occurs in work status during the year, the member shall immediately notify the Fire Chief in writing.

Personnel shall not engage in outside work that could bring discredit to the Department or that could be deemed a conflict of interest. Outside employment shall not interfere with a member's performance, assigned duties or work hours.

Secondary employment may not be performed while the employee is on the following work status:

- Sick leave
- Military leave (other than activities related to the military assignment)

Secondary employment is prohibited during Medical Leave, FMLA, Disability Leave, or Workers' Compensation if:

- The secondary employment is inconsistent with medical restrictions provided by the treating physician, or
- The secondary employment would impede recovery or rehabilitation, or
- Performance of secondary employment duties contradicts the medical certification supporting the leave or workers' compensation claim.

Employees found performing secondary employment in violation of this policy may be subject to discipline up to and including termination and may forfeit benefits associated with the leave."

6.7 Media Statements

To ensure accurate, effective dissemination of news releases and information, these guidelines will be used in communicating with the news media.

- On the scene of an emergency, media representatives will be referred to the Incident Commander, Fire Chief, Assistant Fire Chief, or the Public Information Officer (PIO).
- The Fire Chief will act as the default PIO. In matters concerning the Department, the City, or emergencies after the fact, all news media shall be referred to the Fire Chief, designated PIO, or Captain of Investigation. The Fire Chief will be informed prior to all media interviews or press releases.
- If a representative of the media attempts to contact an individual employee directly at the work location or home, requesting information concerning the Fire Department, an emergency incident, or specific departmental actions, the employee shall refer the media representative to the Fire Chief's office or the designated PIO.
- The on- duty Battalion Chief shall be responsible for informing the Fire Chief's office of any potentially newsworthy events or activity within their respective divisions or sections.

6.8 Work Schedule Requirements

According to the needs of the Department, work schedules, transfers, and assignment to equipment or stations of Line personnel will be determined by the Battalion Chief and approved by the Fire Chief or Assistant Fire Chief. The normal work shift for line personnel shall be from 6:00 AM until 6:15 AM the second day. However, line personnel may not leave their assigned station, even at 6:15 AM until they have been properly relieved by someone from the on-coming shift and the supervisor has been informed. A designated sleep period of 7.25 hours (2200 hours until 0515 hours) is non-compensable unless interrupted by calls for service.

7 Rules of Conduct

7.1 Line personnel shall familiarize themselves with and adhere to the Town of Smyrna Employee Handbook, Departmental Administrative Policies and Procedures, and General Operating Guidelines.

7.2 Fire Officers or Acting Fire Officers will be responsible for the enforcement of Town policies, Departmental Administrative Policies and Procedures, and General Operating Guidelines. Officers are responsible for supervision, evaluation, and discipline of personnel.

7.3 Line personnel shall keep themselves physically and mentally prepared to perform their duties and respond to all emergency calls while on duty.

7.4 Line personnel shall obey any lawful order issued by a superior officer and be respectful and courteous to officers and those performing the duties of a higher rank.

7.5 All personnel shall be courteous and respectful when dealing with the public.

7.6 Inefficiency or indifference of personnel in the performance of their duties shall be sufficient cause for disciplinary action.

7.7 When temporarily assigned to act in a position of higher rank, line personnel shall accept responsibility for the performance of the duties and possess the full authority of that position.

7.8 Line personnel shall participate in all drills, training, and fitness activities. Line personnel shall be familiar with apparatus, equipment, street locations, fire hydrants, current firefighting strategy and tactics, fire codes, public education and other activities that may be required in the performance of their duties.

7.9 Line personnel shall be punctual in reporting for duty, special assignments, etc.; report in proper uniform for duty or place of assignment at the time specified; and shall not leave their place of assignment without permission from their Battalion Chief.

7.10 Line personnel shall use the proper chain of command to carry out official Department business, written or verbal.

7.11 Line personnel shall keep their persons, uniforms, beds, and lockers in a neat, clean, and orderly condition. Line personnel shall maintain a clean, pressed Class C uniform at their assigned station at all times.

7.12 When being relieved from duty, line personnel shall acquaint their successors with details of the preceding tour of duty, giving the successor any equipment or information necessary for the continued efficient operation of the Department.

7.13 Personnel shall be familiar with safety policies and exercise good judgment to avoid injuries to themselves and others while in the performance of their duty.

7.14 Personnel shall be responsible for the proper care and maintenance of all Department property in their charge. Line personnel shall avoid unnecessary damage to City property and practice economy in the use of supplies and utilities.

7.15 Personnel shall immediately report to their supervisor any accidents, injuries, or illness occurring to themselves while on duty.

7.16 Personnel shall immediately report to their supervisors any accident resulting in possible damage to Town owned property or to property owned by the public, whether on an emergency call or during the daily routine. Such incidents should also be reported on the Smyrna Fire Department Workplace Incident Report.

7.17 All personnel are required to have a home and/or cell phone with the current number on file with the department so that contact can be made in the event of an emergency.

7.18 When requested, all off-duty line personnel shall respond to emergency recalls (except as outlined in section 7.28). Dispatch shall page line personnel as requested by the Incident Commander.

7.19 Line personnel recalled to duty are to obey all traffic laws while returning to their assigned station.

7.20 No member recalled to duty is authorized to operate any form of emergency equipment they may have on personal vehicles.

7.21 The willful falsification or mutilation of department records, documents, or logbooks; deception in interviews, internal investigations, etc., by any member will be considered a major offense.

7.22 The Fire Officers shall keep the Fire Chief and Assistant Fire Chief informed of the occurrences of day-to-day and emergency operations; injury to personnel; major equipment breakdowns, and damage to or loss of equipment.

7.23 The fire officer shall ensure notification of the Fire Chief and Assistant Fire Chief, regardless of time of day, of all significant fires, accidents involving Fire Department equipment, multiple fatality accidents, and all other incidents of significance.

7.24 Line personnel will be required to perform special projects and duties as circumstance demands. The Fire Chief shall approve departmental involvement for all projects outside the Department.

7.25 Personnel shall not engage in any activity or belong to any organization that will be a conflict of interest to the Department and/or the Town of Smyrna.

7.26 Personnel shall not be a party to malicious gossip, frivolous charges, or other activity that would tend to disrupt the operation and/or morale of the Department.

7.27 Personnel shall inform their supervisor when they are experiencing side effects from prescribed drugs that inhibit or interfere with their ability to operate equipment.

7.28 Personnel shall not report for, or be on duty under the influence of alcohol, drugs, or mind-altering substances. Line personnel shall not bring onto Town property any alcohol, illegal drug, or illegal substance.

7.29 Personnel shall not use employment with the department for the purpose of personal gain; nor shall they solicit any person to affect their promotion or transfer.

7.30 Personnel shall not borrow, loan, sell, give away, or appropriate for personal use, any public property, city-owned supplies, property, etc.; nor shall Line personnel pilfer or steal at the scene of emergencies or elsewhere. This is considered a major offense.

7.31 Personnel shall not engage in any rough or boisterous conduct that would interrupt the normal operation of the department. Engagements in altercations or fighting shall be considered a major offense.

7.32 Personnel shall not use obscene, uncivil, sexist, racial, or boisterous language at any time.

7.33 Personnel shall not use tobacco products on fire apparatus, on the scene of an emergency, building inspections, public education activities, or in no-smoking areas. The officer in charge may make reasonable exceptions on the scene of extended emergencies if it is determined that a hazard does not exist.

7.34 Personnel shall receive prior approval from their supervisor for compensatory time off or extra time worked.

7.35 Suggestions for improvements are welcome. All such recommendations shall be presented in writing to the officer in charge and forwarded to the Fire Chief's office, with comments from the supervisor.

7.36 Personnel shall not bring any type of firearm, weapon, etc. onto Town-owned property unless duly authorized to do so.

7.37 Line personnel shall park personal vehicles in designated parking places only and shall not park on the ramp by the bay doors or park in or drive through fire apparatus bays for any reason. Pulling onto the back ramp *briefly* for loading and unloading of gear and equipment will be permitted, but this should not exceed a few minutes' time and keys must be left in the vehicle. Abuse will result in the elimination of this privilege.

7.38 Cleaning, waxing, or working on personal vehicles while on duty is not permitted. An exception is emergency repairs necessary for the crew member to operate their vehicle.

7.39 Meals should routinely be prepared and consumed in the fire station. However, it is understood that inspections, hydrant maintenance, alarms, and other activities can present challenges to meal preparation. Companies returning to the station from official business may stop to purchase food to bring back to the station or may take the time to eat their meal in the restaurant, providing that the following conditions are met:

- Crews shall be neat and clean in appearance with the proper UOD being worn (no T-shirts alone). If activities have left the crew dirty, sweaty, etc., then the food shall be taken back to the station to be eaten.
- The restaurant must be in the crew's response district, or within the district they are currently working in or providing coverage for.
- This policy only applies to restaurants where the food is ordered at the counter and taken to the table. Crews should not patronize sit-down restaurants requiring wait staff and menus.

- Conversation and demeanor shall always be kept professional and appropriate.
- Take advantage of opportunities to interact with the public, answer questions, and even show the apparatus if practical.
- Tip appropriately; you are representing all of us.

7.40 Fire companies or individuals are not permitted to shop for personal needs while on duty.

8 Attendance/Leave

8.1 Vacation

8.11 Bid Process

- The vacation bid will be held live on a designated day on each of the three shifts, A, B, and C.
- A Google Meet invite will be sent out in advance of the draw with further instructions regarding draw times and login procedures.
- At the pre-determined time, all stations will log into Google Meet.
- Once connection has been made to all stations, selections will begin live, by department seniority.
- If an employee is scheduled to be absent on the date of their shift's draw, they may
  - Give their selections to a coworker, in order of preference, so that someone may bid for them, OR
  - Log into the Google Meet link remotely, OR
  - Call an on-duty coworker (not station phone) to monitor the draw via cell phone.
- If a crew is dispatched to an incident during the draw, the draw will pause once it reaches one of the assigned crew members, unless they have passed along their picks to a coworker, and will resume upon their return.
- As selections are made, selected PTO will be added to the shared Google Calendar to track those draws in real-time.
- A total of **six (6) personnel per shift** may be on leave at a time unless approved by the Fire Chief or designee. **This includes *prescheduled* Military, Education, FMLA, Administrative, and other approved leave(s), which will count toward the six vacancies for the purposes of vacation draw.**
- The six approved positions will be placed on the calendar in green.
- After the maximum number of leave spots (6) have been filled, up to two additional personnel may select those dates as **"alternates"**. Alternates will be posted on the calendar in gold and will be labeled in the order selected (A-1, A-2).
- If a guaranteed (green) day is cancelled by an employee and becomes available, the Battalion Chief may move the first alternate to green status providing that doing so does not result in a callback to maintain minimum staffing at the time the substitution is made. It should be emphasized that

vacation drawn as alternate is not guaranteed. Individuals classified as alternates must report to work on the date requested unless they have been reclassified to one of the guaranteed green positions.

8.12 Eligibility

- All full-time suppression personnel are eligible to participate in the annual vacation selection process.
- Personnel may only draw PTO hours that they have amassed at the time of the selection process.

8.13 Annual Vacation Selection Period

- The primary annual vacation selection process will begin on or near **November 1** for the following calendar year.
- Outside of this selection period, additional available vacation may be requested on a first-come, first-served basis through your Battalion Chief.

8.14 Seniority Determination

- Selection order will be based on **departmental seniority** (date of hire as a full-time firefighter).
- In cases of identical hire dates, order will be determined by badge/employee number.
- Seniority applies **within each shift** (A, B, or C) for the purpose of vacation selection.

8.15 Vacation Blocks and Limitations

- A vacation "block" is defined as **three (3) consecutive work shifts** for a total of **eleven (11) consecutive calendar days.**
- Less than three consecutive days may be drawn by an employee during a given round, but that selection will be considered as a full "block" for the purposes of the draw.
- No more than **six (6) firefighters per shift** may be on PTO at a time unless approved by the Fire Chief or Assistant Fire Chief. *Prescheduled Military, Education, FMLA, Administrative, and other approved leave(s) will count toward the six days for the purposes of vacation draw.*

8.16 Rounds of Selection

- Vacation selections will be made in **rounds**, allowing all personnel equitable opportunity to choose desirable dates.

  Round 1: Each crew member may select **up to two vacation blocks** (maximum of six shifts off). These may be consecutive or non-consecutive.
  Round 2: After all members have made their selections in Round 1, a second round will begin in the same seniority order, allowing selection of additional blocks as available following the same rules as Round 1.
  Subsequent Rounds: This process will continue until all desired selections have been made. When an employee has exhausted all of his

or her desired draws, they will declare “my draws are complete”. This will enable staff to continue the rounds without repeatedly calling their name.

- During each round, employees may select:
  - **Two blocks outside of prime time (as defined below).**
  - **One block inside of prime time and one block outside of prime time.**

- After all rounds are complete and documented on the leave calendar, remaining open vacation slots will be available on a first-come, first-served basis throughout the year, subject to staffing approval.

8.17 New Hires and Mid-Year Changes

- Employees hired after the annual selection process will select from remaining available vacation slots.
- Every effort will be made to honor equivalent vacation block selections for personnel being transferred between shifts involuntarily or due to promotion.
- Staff will attempt to honor equivalent vacation blocks for employees requesting voluntary transfers, but leave in this case cannot be guaranteed.

8.18 Exceptions and Adjustments

- The Fire Chief and/or Assistant Chief reserves the authority to adjust approved vacation schedules in the event of emergencies, significant staffing shortages, or operational necessity. Any such adjustments will be communicated as early as possible and alternative arrangements offered where feasible.

8.19 Prime Time Definitions

- “**Prime Time**” refers to the period of highest vacation demand, typically coinciding with school breaks, holidays, and summer months. For the purpose of this policy, **Prime Time** includes:
  - Memorial Day weekend through Labor Day (inclusive)
  - Thanksgiving week (Monday–Sunday)
  - Christmas week (December 20–27)
  - New Year’s week (December 28–January 3)
  - Spring Break week (dates designated annually by Rutherford County Schools)
  - Fall Break week (dates designated annually by Rutherford County Schools)

8.2 <u>Educational Leave Policy</u>

Time off to attend any outside training will be dependent upon maintaining minimum daily staffing. When staffing permits, the policy shall be as follows:

- All requests for educational leave must be submitted on the proper

electronic form to the Division Chief of Training at least **two weeks prior** to the first day of requested training.

- The minimum registration requirement established by TFACA is 15 days prior to the course start date. After this point, registration will no longer be available through TFACA. To ensure adequate processing time for approvals, and scheduling, Smyrna Fire Department personnel must submit all training requests no later than 30 days prior to the course start date. Exceptions to this policy may be granted only with Chief's approval, and must include justification for the late request This would follow our training standard request form.

New hires will not be granted educational leave for outside training during their first year of employment except for:

- Training necessary to acquire mandatory certifications required by Section 6.1 (EMR and Firefighter II), or
- Training to maintain required skills and certifications as determined by the Division Chief of Training, or
- Training specifically required as part of the new hire's onboarding and probationary development plan.
- This restriction does not apply to mandatory department training, state-required continuing education, or certifications that must be obtained to meet minimum job requirements.
- Educational leave requests will be reviewed on a case-by-case basis with final approval to be determined by the Division Chief of Training and Assistant Fire Chief.
- Educational leave requests will be considered after vacation leave is posted and will only be granted as one of the guaranteed leave positions.
- Anyone attending a local class on their regularly scheduled workday must return to work after class to work the remaining hours of their shift or charge them to vacation leave if staffing permits.
- Request for classes other than those related to the current or next higher job position may be denied, i.e., a firefighter requesting pump school would be considered while a request for officer training may be denied.
- Line personnel who are accepted by the National Fire Academy (NFA) in Emmitsburg, Maryland for an on-campus job related class will be allowed to attend one (1) one-week class, one (1) two-week class, or two (2) consecutive one-week classes each year. For the purposes of NFA coursework, "year" shall mean the federal government's fiscal year which runs October 1st to September 30th. Only first time NFA attendees will be approved to attend Tennessee Weekend courses.
- Approval of educational leave to attend a class does not ensure that the department will pay all costs associated with the class (with the exception of NFA classes).

8.3 Educational Payment Policy

All costs associated with approved NFA classes that are not covered by NFA will be paid by the department.

Time spent attending a class while off duty will be paid in accordance with the Fair Labor Standards Act as determined by the Fire Chief and Human Resource Department.

Line personnel failing classes required for promotional consideration will be responsible for all expenses associated with makeup classes.

All costs incurred by the department for requested training must be reimbursed by a member who fails to attend the class without an acceptable reason.

8.4 Sick Leave Procedures

Line personnel taking sick leave are to personally notify the Battalion Chief by 0500 on the day for which he/she will miss work. If unable to personally make contact due to incapacitation, a family member or other responsible party may notify the Battalion Chief on the employee's behalf, provided the employee personally contacts the Battalion Chief as soon as reasonably possible to confirm the absence and provide necessary information. In cases of hospitalization or serious medical emergency where personal contact is impossible, documentation from the treating facility will satisfy the notification requirement. The Battalion Chief will document the nature of the problem (time called, reason for absence, etc.) in the daily shift report. In the event the fire companies are on a call, the member will leave voice mail for the Battalion Chief.

Only doctor's statements in advance excuse the above call-in requirements. Line personnel absent for more than two (2) consecutive shifts, or who habitually use sick leave tied to vacation leave, weekends, etc. may be required to bring a written statement from a licensed physician.

Individuals are not allowed to work their part-time job while on sick leave.

8.5 Bereavement Leave Procedures

Line personnel shall notify the Battalion Chief when requesting bereavement leave. The Battalion Chief shall document leave taken in the daily shift report and relay information to the appropriate supervisor. Personnel will be charged PTO for such leave in accordance with Town policy.

8.6 Administrative Leave Procedures

On rare occasions, circumstances may arise which require an employee to be absent for a shift, or portion of a shift, for a personal emergency or administrative assignment when no vacation leave is available. A detailed explanation of the reason for absence shall be included in the comment section of the time sheet. A Chief Officer will review the documentation and determine, based on the information provided, whether *Paid* or *Unpaid Administrative Leave* will be granted. Paid Administrative Leave will be deducted from the employee's PTO balance unless the employee specifically requests leave without pay. Unpaid Administrative Leave will simply be recorded as leave without pay. Each situation

will be evaluated on a case-by-case basis.

8.7 Tardiness

Tardiness for the purpose of this policy is defined as absence without permission from 1 to 120 minutes after the scheduled time to report to duty.

Disciplinary Schedule for Tardiness:

Time reference:	Within a 12-month period.
First occurrence:	Verbal reprimand.
Second occurrence:	Written reprimand.
Third occurrence:	Minor suspension without pay.
Fourth occurrence:	Major suspension without pay, or termination.
Fifth occurrence:	Termination.

This section is intended to guide supervisors in responding to an employee's tardiness problem. However, supervisors are not restricted from evaluating an employee's tardiness record for a period of time beyond the most recent twelve (12) month period in cases where an employee has demonstrated a habitual pattern of tardiness over an extended period of time without recording five occurrences in a single twelve (12) month period.

8.8 Absent-Without-Leave

Absent without leave (A.W.O.L.) for the purpose of this policy is defined as:

- Unexcused absence of greater than 120 minutes after the scheduled time to report to duty without notification to the Battalion Chief, OR
- Failure to report for duty without any communication to the Department, OR
- Failure to report for duty after making contact but without an acceptable reason.

Mitigating Circumstances: Supervisors shall consider whether the employee made good faith efforts to notify the Department and the reasons for the delay. Situations involving accidents, medical emergencies, or other extraordinary circumstances may warrant treating the absence as tardiness rather than AWOL, at the discretion of the Fire Chief.

A.W.O.L. shall be considered a major offense.

Disciplinary Schedule for A.W.O.L.: Time reference: Within a 12-month period. First occurrence: Written reprimand up to suspension without pay, depending on circumstances Second occurrence: Suspension without pay or termination Third occurrence: Termination

8.9 Abuse of Leave

Line personnel shall not falsely report illness or injury, use sick leave for personal gain, or abuse sick leave. Past attendance record will be considered in the disciplinary process; termination may result if the member's personnel records reflect a history of excessive sick leave, tardiness, or A.W.O.L. The suspension schedule will be at the discretion of the Department Head. An employee who is absent two (2) consecutive work shifts without personally notifying his/her Battalion Chief will be considered to have terminated employment and "voluntarily resigned."

8.10 Absence During Sleep Period

During a 24.25-hour tour of duty, a member shall not be permitted to be absent from duty during any portion of the designated sleep period, except in the event of extreme illness or emergency. The Battalion Chief on duty shall approve any such absence. A Member who is absent during the designated sleep period portion of his tour of duty for two (2) or more occasions during a twelve (12) month period may be subject to disciplinary action.

9 Workers' Compensation

9.1 On Duty Injury

Line personnel injured in the line of duty may be eligible to receive workers' compensation as regulated by the State of Tennessee. Workers' compensation pays 66-2/3% of the Member's salary after a specified time off, and line personnel have the option to supplement the other 1/3 of their regular straight-time salary with accumulated PTO from the Town. Line personnel found falsely reporting injury, using supplemental leave for personal gain, or abusing supplemental leave may be terminated.

9.2 Alternative (Light) Duty Schedule

When suitable alternative duty work exists and is available, and after a doctor has released a member for light duty with specific restrictions, the Fire Chief may, at the Department's sole discretion, assign an alternative duty schedule with varying hours. Alternative duty assignments are temporary and may be modified or discontinued based on operational needs. The availability of alternative duty is not guaranteed, and the Department reserves the right to determine whether suitable work exists that accommodates the medical restrictions while meeting legitimate operational requirements

10 Exchange of Duty Policy

Exchange of duty shall be initiated using the appropriate form. Exchange of duty should be made between people of equal rank. Out-of-rank duty exchanges will only be allowed with approval of a shift commander, and only if the exchange does not result in the need to call back personnel.

All exchanges must be approved at least seven (7) days in advance of the first half of the exchange, including signatures from both parties involved and their assigned shift commander(s). Exemptions to the seven-day requirement may be made in rare circumstances with the approval of the Battalion Chief.

Exchanges are not approved until all signatures appear on the Exchange of Duty Request Form and the exchange is posted on the leave calendar. Once an exchange is agreed on by both parties, the date(s) swapped then becomes the sole responsibility of the person agreeing to work. If a member “forgets” they had an exchange and does not report for duty when scheduled, it is no different than forgetting to report to work for any other scheduled work day.

The number of exchanges is unlimited, however, an employee’s ability to swap time may be suspended if it is determined that abuse of the privilege has occurred. This determination will be made by the shift commanders with the guidance of the Assistant Chief.

The Department will not become involved in disputes between employees regarding the personal arrangement of exchange paybacks. However, once an exchange is approved and posted on the leave calendar, the person scheduled to work that shift is fully responsible for reporting to duty. Failure to report as scheduled after an approved exchange will be treated as tardiness or AWOL under Sections 8.7 and 8.8, regardless of any dispute about whether a payback is owed. Employees who believe another employee has not honored an exchange agreement may request supervisor mediation, but the Department does not guarantee enforcement of payback arrangements.. If applicable, sleep time will be included in the daily shift report and recorded as a shift swap. This time will be reflected as straight time (S/T) on the time sheet.

11 **Overtime/Compensatory Time** (Agreement)

This policy identifies the use and management of overtime and compensatory time by Smyrna Fire Department employees.

The work period shall be fourteen (14) consecutive days in length.

A shift (tour of duty) will consist of:

(a) Twenty-four and one quarter (24.25) hours on duty (6:00 a.m. until 6:15 a.m. the following day).
(b) Seventeen (17) hours of compensable work time.
(c) A designated sleep period of seven and one quarter (7.25) hours (10:00 p.m. until 5:15 a.m. each day) which is non-compensable time unless interrupted.

Interruptions, to answer emergency calls or to perform other duties as instructed by the supervisor or designee during the designated sleep period, shall be considered compensable work time and the employee shall be compensated in

accordance with the Fair Labor Standards Act (FLSA) regulations. If the employee is provided with less than five (5) hours of sleep time per night during the designated sleep period due to interruptions, the full seven (7.25) hour designated sleep period shall be considered compensable work time. If the employee is provided with five (5) or more hours of sleep time per night, whether consecutive or non-consecutive, only the actual time spent on callouts shall be compensable.

Compensation at one and one-half (1-1/2) times the regular rate of pay or compensatory time off at a one and one-half (1-1/2) time rate shall be granted for:

(a) all calls from a supervisor or designee requesting that the employee respond to an emergency situation when the employee is off duty (recalls), or
(b) all compensable time worked in excess of one-hundred and six (106) hours in the fourteen (14) day period as required by FLSA.

Compensatory time off for Firefighters and Fire Officers may be granted for meetings, training, non-emergency callbacks or special projects as designated in advance by the Chief. An employee must have reached the 106-hour threshold in a fourteen-day period before qualifying for comp time.

Regular rate of pay shall be calculated by the following formula:

Hourly Rate for 24/48
Shifts worked per year (avg. each of 3 shifts)…….121.66 shifts
Hours on duty per year (24.25/shift)……..2,950 hours
Sleep time deduction (7.25 hours/shift)…….882 hours
Compensable hours per year……..…….....2,074 hours
Annual salary divided by compensable per year hours = hourly rate

In accordance with FLSA, all hours for which pay is received but for which work is not actually performed, such as sick time, bereavement time, military time, etc., shall not be considered as work time and shall not be counted in arriving at the aggregate hours for overtime purposes. Note when an employee uses PTO or Paid Family Leave for time off, those days do not count as time worked and therefore are not included in the computation for overtime per Town policy.

PTO shall accrue in accordance with current Town policy, except that leave shall be accumulated in hourly units. For purposes of PTO accrual for Line personnel, the following schedule will be followed (per pay period):

- 0-4 years: 9.38 hours
- 5-9 years: 10.6 hours
- 10-14 years: 12.23 hours
- 15+ years: 13.05 hours

Smyrna Fire Department personnel on the twenty-four and one-quarter (24.25) hours tour of duty shall have 17 hours deducted from accrued PTO time for each twenty-four and one-quarter (24.25) hour tour of duty taken as leave.

12 Performance Evaluations

12.1 Evaluation Guidelines:

To ensure an effective evaluation program, it is necessary for supervisors to be consistent and equitable in evaluating line personnel. It is essential that all supervisors use common performance standards that relate to line personnel's observable performance, conduct and behavior. The following guidelines shall be considered:

The Town desires to have a productive and efficient workforce. The Town's performance management process is designed to monitor, evaluate, and provide feedback regarding the job performance of employees. Management staff evaluate employees' work behavior by comparing it with preset standards of performance. On an annual basis, supervisors and or management staff complete a formal written performance evaluation and meet with their subordinates to provide feedback on how they compare to these performance standards. In some cases, where there are significant deficiencies, employees may be placed on a Performance Improvement Plan (PIP) in an effort to bring their performance up to an acceptable level. The PIP specifically addresses problem areas and provides detailed explanation for how the employee's performance should improve. Employees with poor job performance are subject to disciplinary action up to and including termination. Supervisors are responsible for completing evaluations in a timely manner.

13 Employee Discipline

Line personnel are required to conduct themselves in a highly self-disciplined manner, obeying the Town and Departmental policies, procedures, rules, regulations, and General Operating Guidelines. In situations where Line personnel do not adhere to these expectations, demonstrating misconduct or unsatisfactory performance, supervisors will take the necessary disciplinary action to correct the problem. The following procedures will guide supervisors in dealing with disciplinary problems that they may encounter. Supervisors with questions concerning employee discipline should contact the Fire Chief.

13.1 Policy

It is the policy of the Department that supervisors administer discipline in a corrective, progressive and lawful manner. Disciplinary steps may be altered, depending on the severity of the infraction and/or the past record of the Member.

Corrective: The supervisor should come to an understanding about the causes and/or reasons for a member's deficiencies, communicate those deficiencies to the member and actions needed to correct the problem, and attempt to restore the member to a productive and positive employment status.

Progressive: Minor discipline will begin with a verbal reprimand. When circumstances warrant, proceed to a written reprimand or short-term suspension. Major infractions may call for suspension or demotion. Finally, the infraction may be considered to warrant termination. When appropriate, denial of privileges may be used as disciplinary action by supervisors.

Lawful: Discipline and the procedure by which it is administered shall not violate local, State or Federal law.

The principal objective of disciplinary action is to improve or correct the performance, conduct, and morale of the member receiving discipline. Fire officers shall be responsible for the administration of consistent, impartial discipline and maintaining appropriate confidentiality.

13.2 Investigative Process

Accusations of misconduct involving line personnel shall be investigated before formal action is taken. The investigation will be considered a fact-finding process. Supervisors will be cautious not to make premature decisions of guilt or innocence until the investigation is completed. For serious accusations, a written report of the investigation will be completed. The Supervisor will keep the Fire Chief informed concerning the events throughout the investigation and recommend appropriate disciplinary action. Pending the outcome of the investigation, the Fire Chief may place the member on administrative leave, with or without pay. Line personnel about to be suspended shall be given 24-hour notice unless the circumstances are severe enough to warrant immediate suspension. A formal investigative report will include the following information:

Interviews conducted - This will include the name of the interviewee, date, location, those present, and what was discussed. A signed statement by the interviewee shall also be obtained.

Employee history - The member's personnel file will be reviewed and a summary compiled. This may include performance evaluations, commendations, and previous disciplinary actions of the member.

Summary of the incident - Forward a brief written statement of findings to the Fire Chief concerning events of the investigation. If the investigation involves criminal activity, a Police Report will be requested through the Fire Chief.

Conclusions - From the information available, the supervisor will make a determination of innocence or guilt. Also, any extenuating circumstances will be discussed in this section.

Recommendations - This section includes the recommended disciplinary action or alternate course of action, if any.

Attachments - Additional documents that the supervisor feels should be a part of the investigative report.

The completed report shall be forwarded to the Fire Chief. The investigative report shall remain **CONFIDENTIAL** to the extent allowed by the State Open Record Laws.

13.3 Disciplinary Action Procedures

In general, progressive discipline involves the following steps:

Verbal Reprimands: The least serious form of disciplinary action used is a verbal reprimand, considered to be a form of guidance for Line personnel and effective in dealing with minor infractions. If unsatisfactory conduct or performance occurs after the Member has been properly trained or informed, a verbal reprimand will be administered. A verbal reprimand shall be documented and prepared in duplicate. The Department retains the original document, and a copy is given to the Member.

Written Reprimands: Written reprimands will be administered to document a repeat offense of a minor infraction, or a more serious single infraction for which a suspension, demotion or dismissal is not appropriate. The original reprimand will be forwarded to the Fire Chief for placement in the member's permanent personnel file, and one copy will be given to the employee.

Suspension, Demotion or Dismissal Suspensions: Demotions and dismissals will be used as punishment for repeated incidents of rule infractions, or a single major infraction by an employee. It is the responsibility of the supervisor to stabilize a situation in which immediate action is necessary. This may require relieving the employee from duty until a decision is made concerning the official action to be taken. Supervisors should not commit themselves to a particular form of disciplinary action before consulting with the Fire Chief.

Preparation of Disciplinary Action Memo: A memo documenting any disciplinary action will be addressed from a supervisor to an employee. The supervisor will explain the contents of the memo and answer any questions. The member or a witness will sign the document as an indication that the member received a copy of the memo. The member's signature does not imply that the member agrees with the content of the memo.

Additional information regarding discipline can be found in the Town’s Employee Handbook.

14 Town Vehicle Use

- Town owned vehicles are only to be used for Town business with personnel following these rules (additional information can be found in the Town’s Employee Handbook under *Use of Town Vehicles and Equipment*):

- Town owned vehicles are only to be used for Town business.
- Before using a Town vehicle to attend training, meetings, conferences, etc. or for any other business-related reason that is out of the city, you must first obtain permission from the Division Chief of Training for training related travel, or from the Fire Chief for any other reason.
- A vehicle may be taken home with you only when approved in advance by the Fire Chief or Assistant Fire Chief and only when your travel destination is closer to where you live than it is to the Town.
- When authorized to take a vehicle home, the employee is not to stop for any personal business on the way home except as necessary in the performance of his/her duties. The vehicle is to remain parked at home until the employee leaves for the authorized destination.
- When driving a Town vehicle, the employee shall take the most direct route to his/her destination.
- The employee driving is responsible for following all laws and posted speed limits.
- Fines related to an employee's failure to obey the law will be the employee's responsibility.
- The employee shall limit the travel while away from the Town to that which is necessary and shall not park the vehicle at any location that would draw discredit to the Town.
- Any accident involving Town-owned vehicles is to be immediately reported to the on-duty Battalion Chief.

SECTION 3

15 Daily Schedule/Rules

15.1 Station/Apparatus/Equipment Maintenance

Oncoming line personnel shall, as a team, first thoroughly check and maintain all assigned personal gear, apparatus, and equipment. The daily apparatus checklist shall be completed at the beginning of each shift for all front-line apparatus. Reserve apparatus and staff vehicles shall be checked on a weekly basis provided it (reserve apparatus) has not been placed in service. If a reserve apparatus has been placed in service or has had equipment removed, it is to be checked daily as a front-line unit until returned to reserve status with all equipment intact. Equipment found broken or missing shall be reported to the Battalion Chief. If Line personnel are unable to make minor repairs, they will complete a formal maintenance request. The Fire Chief or Assistant Fire Chief shall be notified immediately if any apparatus is taken out of service and/or major repairs are necessary.

15.2 Station/Apparatus Cleaning

The apparatus and station will be thoroughly cleaned each day by the oncoming shift. The Company Officer or Acting Officer will be responsible for the maintenance and cleanliness of the apparatus, equipment, stations, and grounds, and shall be kept in excellent condition at all times. Each member shall be assigned daily duties. The kitchen shall be cleaned after each meal. Apparatus are not required to be cleaned when an incident occurs after 2100 hours or during periods of inclement weather when additional calls are likely. However, during normal working hours when station visitors are likely, the apparatus is to be rinsed off at a minimum when returning from a call to remove road grime.

15.3 In-Service/Physical Fitness Training

The Company Officer or Acting Officer will be responsible for ensuring that Line personnel receive the required daily in-service training and daily physical fitness training.

15.4 Visitors

Visitation by civilians, including family of line personnel, may be permitted at the convenience of the Department and with the knowledge of the officer in charge. Guests who are minors shall be accompanied by a parent or guardian at all times, and minor children of employees shall be accompanied by an off-duty parent or guardian with possible exceptions for career day or similar events as approved by a Chief Officer. Visitation shall not interfere with the operation of the department and shall take place in public areas only. Visitation shall be limited to a reasonable period and no guests shall remain in the fire station past 10:00 p.m. without prior approval of the Fire Chief or his/her designee.

15.5 Downtime Activities

Line personnel shall limit TV time between the hours of 0700 and 1600 hours. Exceptions are Town designated holidays and weekends, only after completion of all duties, and at lunchtime during local news from 12:00 noon until 12:30 p.m. Exceptions can be made during events of local or national significance such as breaking news, extreme weather, etc. It is the responsibility of the station officer to make sure that these times are adhered to. Abuse will result in the elimination of this privilege.

15.6 Security

The Station Officers shall be responsible for ensuring that their station is secured before retiring. Bay doors are to remain closed when personnel are not in quarters but may remain open during favorable weather when the station is occupied and personnel are either working outdoors or in the bay.

15.7 Sleep Time

Line personnel are not permitted to be in bed before 2100 hours and shall be out of bed by 0530 hours. The Company Officer may authorize a member who becomes ill while on duty to lie down for a period of time to see if they can continue to work or need to be relieved of duty.

15.8 Telephone Procedures

Telephones shall be answered in a professional manner. The member shall answer the phone by stating: “Smyrna Fire Station (1, 2, 3, etc.), firefighter name” (Engineer, Lt., etc.). Line personnel shall limit personal phone use as appropriate during work hours.

15.9 Record Keeping

A record of all pertinent information for each shift shall be recorded by the Battalion Chief in the Daily Shift Report. Hours worked shall be tracked for each member by the Battalion Chief using the appropriate timekeeping method. All incident reports shall be completed by the end of shift with the exception of significant fires or other major incidents where additional information must be collected.

15.10 General Operating Guidelines

In addition to these Administrative Rules and Regulations, a set of General Operational Guidelines (GOG’s) have been established to provide guidance in the day-to-day activities in the fire station and on the scene of emergencies. All personnel are responsible for being familiar with these guidelines and following their direction unless there are special circumstances that would justify deviation from these guidelines.

15.11 Social Media

The use of social media and blog sites by individuals, industry, and municipalities has grown tremendously in recent years. This increased use and participation has created virtually limitless opportunities for communication and sharing between individuals and groups, but it has also lent itself to a new array of problems. Stories are published nearly every day recounting how the broadcasting or posting of personal information, confidential or protected material, inappropriate photographs, and the like have resulted in persons being embarrassed, disciplined, terminated, or even charged in a court of law. The policies and recommendations found in this guideline are designed to help employees avoid facing a similar circumstance.

Posting or Sharing of Materials via Social Media, Blogs, and Personal Websites:

- The Employee Shall adhere to:
    - The Rules of Conduct in the SFD Administrative Policies and Procedures Manual.
    - The provisions of GOG #111, Use of Station Computers and Email.
    - The provisions of GOG #112, Social Media.
    - The General Policies and Procedures and Code of Ethics as contained in the TOS Employee Handbook.
    - Town of Smyrna Social Media Policy.

Any postings which are deemed in violation of these rules may result in formal discipline up to and including termination.

- The sharing of materials obtained using personal cell phones, cameras, and other recording devices on the scene of an incident is strictly prohibited without the expressed consent of a Chief Officer. Materials obtained on the scene of an incident become the property of the Smyrna Fire Department, regardless of how they are obtained.
- No photos obtained from SFD's shared computer drives may be posted without the expressed consent of a Chief Officer.
- Internet postings shall not disclose any information that is confidential or proprietary to the Town, the Department, or to any third party that has disclosed information to the organization.
- The employee must never characterize themselves as representing the Town or the Department when expressing his/her opinions, or claim to be acting or speaking on the Town's behalf.
- No Smyrna Fire Department insignias, logos or trademarks shall be used without the expressed consent of a Chief Officer. Respectful images featuring insignias on apparatus or uniforms are exempt from this rule as long as prior approval is granted.
- Internet postings must respect copyright, privacy, fair use, HIPAA, and other applicable laws.

Social Media Quick Guidelines:

✓ Think before you post - would you say this to a citizen's face?

✓ Respect patient privacy (HIPAA applies)

✓ Keep work issues at work - don't air departmental grievances online

✓ Don't use SFD logos/insignias without approval

✓ Don't post scene photos without Chief Officer approval

✓ Remember you represent SFD 24/7

✗ Never claim to speak for the Town or Department

✗ Never post confidential/proprietary information

* When in doubt, don't post - ask a Chief Officer first

SECTION 4

16 Uniforms/Grooming

The intent of this policy is to ensure that personnel present a professional image when in public and to establish consistency among the crews regarding their appearance while allowing some flexibility under certain conditions as described herein. There are four classes of uniforms within the Smyrna Fire Department lettered A, B, C, and E. The standard Uniform of the Day (UOD) will most generally be Class C. In some cases, a chief officer may designate a department-wide UOD when multi-company activities are planned. Any discrepancy regarding the appropriate UOD will be settled by the on-duty Battalion Chief.

16.1 Class A (Dress)

The Class A uniform (when provided) will be worn at official formal functions such as funerals, weddings, ceremonies, or other department sanctioned events at the discretion of the Fire Chief or his/her designee.

The Class A uniform will consist of:

- Dark navy double-breasted dress coat and trousers.
- White uniform shirt and dark navy trousers for chief officers and lieutenants, light blue uniform shirt and dark navy trousers for engineers and firefighters, with sleeve patches dressed out as described in bullet point 5 below.
- Metal badge, service or award ribbons, collar pins, and nameplate.
- Officers will wear rank pins on their collars; firefighters and engineers will wear SFD pins on their collars.
- Class A coats will have the department patch on the left sleeve and an American flag on the right.
- Class A coats will have one silver stripe on each sleeve for engineers and one gold stripe on each sleeve for officers, equal to the number of bugles for each rank.
- Maltese cross patches, one for every 5 completed years of total time served in in the fire service, may be sewn above the upper most stripe on the left sleeve in the same color as the rank stripe.
- White undershirt T-shirts (with no lettering) for all personnel.
- Dark navy or black tie.
- Black uniform shoes with black or navy calf socks.
- Black leather uniform belt.
- White hats for officers, blue caps for firefighters and engineers. Hats are optional depending upon the event as determined by a chief officer.
- No other device or pin may be worn on any uniform without the approval of the Fire Chief or his/her designee.

16.2 Class B (Brass)

The Class B uniform will serve as an optional UOD for administrative personnel or worn by line personnel for special events as deemed appropriate. For line personnel, Class B is the same as Class A with removal of the coat and relocation of brass from the coat to the shirt*.

The Class B uniform will consist of:

- White uniform shirt and dark navy trousers for chief officers and lieutenants, light blue uniform shirt and dark navy trousers for firefighters and engineers, with sleeve patches as described previously.
- Metal badge, collar pins, and nameplate.
- White undershirt T-shirts (with no lettering) for all personnel.
- Black tactical or uniform boots or shoes with black or navy calf socks.
- Black leather uniform belt
- Tie is optional as determined by a chief officer.
- No hat will be worn.
    - *Award ribbons are optional on Class B shirt.

Brass: Nameplate will be centered above the right pocket, flush with top edge of pocket flap. Service or award bars, if worn, will be centered ¼" above the nameplate. SFD collar brass will be placed parallel with the bottom edge of the collar approximately ½" from the point of the collar. Officer rank collar brass will be centered 1 inch from the front and lower edges of the collar, with the vertical axis of the collar brass positioned along an imaginary line bisecting the angle of the collar point. No other device or pin may be worn on any uniform without the approval of the Fire Chief or his/her designee.

The Class B uniform shirt may be removed during training, hydrant servicing, at fires, and other work details at the officer's discretion, or after 1800 hours around the station, providing that a department-issued or approved company T-shirt is worn.

16.3 Class C (Cloth)

The Class C uniform will be considered the standard UOD for line personnel and an optional UOD for administrative staff. It is to be worn under routine circumstances and whenever the person or crew represents the department in a business or professional setting such as meetings, inspections, public education events, and other times when exposure to the public is high.

The Class C uniform will consist of:

- White or navy uniform shirt with name strips, embroidered name, and sleeve patches for chief officers
- Dark navy uniform shirt with red and gold embroidered name and rank, sleeve patches, and EMS certification level for lieutenants

- Dark navy uniform shirt with red and white embroidered name and rank, sleeve patches, and EMS certification level for engineers and firefighters.
- Dark navy uniform pants.
- Appropriately colored T-shirts for chief officers (white; no lettering) and line personnel (dark navy).
- Black tactical or uniform boots or shoes with black or navy calf socks; white socks may be worn with boots.
- Black uniform belt
- Department-issued ball cap optional.

The Class C uniform shirt may be removed during training, hydrant servicing, at fires, and other work details at the officer's discretion, or after 1800 hours around the station, providing that a department-issued or approved company T-shirt is worn.

16.4 Class E (Exercise)

The Class E uniform will be worn while participating in daily physical fitness training. The Class E uniform consists of:

- Dark navy or white department issued t-shirt
- Dark navy athletic shorts or sweatpants
- Athletic shoes
- White or black socks
- All workout wear must be appropriate and modest in nature as determined by the company officer.

The employee would be expected to change back to the UOD following a brief cool down period not to exceed 30 minutes after completing their daily physical fitness training. Bunker pants must be donned prior to responding to a call if shorts are being worn.

16.5 Training Dress Code

All personnel, while attending department-sponsored training (any training where time or costs are compensated such as extra time, educational leave, registration, lodging, transportation, food, city vehicle use, et cetera) will comply with the following dress code during class hours:

- Class C uniform ***or***
- An appropriate golf style shirt and dress/tactical pants ***or***
- Collared shirts, dress/tactical pants
- Appropriate shoes and socks.

Specifically excluded attire include jeans, shorts, t-shirts*, tank tops, ball caps, open toed shoes, athletic shoes, and sandals.

*T-shirts only may be worn when permitted by the instructor (for example, practical skills stations, drills, et cetera).

16.6 Job Shirts

The job shirt will contain block-style embroidered name, rank, and EMS level (gold for officers, white for firefighters and engineers), and sleeve patches. The job shirt may be worn over the designated UOD or department-issue T-shirt around the station, as well as during training, hydrant servicing, at fires, and other work details at the officer's discretion.

16.7 T-Shirts

Department-issued T-shirts shall be blue or white in color, and worn in accordance with this uniform policy. T-shirts featuring approved station or company logos must be navy blue in color, and may be worn in place of the standard department-issued shirt. When leaving the station, personnel shall wear the authorized UOD work shirt over their T-shirt, except in circumstances otherwise outlined in this policy.

16.8 Coats and Jackets

Only coats or jackets approved by the Fire Chief or Assistant Chief may be worn while on duty.

16.9 Uniform Shoes/Boots

All Line personnel are required to wear black uniform shoes or boots with the Class A, B, and C uniform. "Uniform shoes" are those which are professional in appearance and take a polish. Tactical shoes or boots-–specialized footwear designed primarily for military, law enforcement, fire/EMS personnel—are durable, lightweight footwear designed to provide protection, support, and mobility for professional or field environments. Personnel shall wear uniform or tactical-style shoes/boots with Class B and C, and uniform or dress shoes with Class A. Footwear deemed to be "athletic" in design, structure, or purpose will only be permitted when wearing the Class E uniform (except with shorts as indicated below). When any ambiguity exists as to the acceptability of a uniform shoe, a chief officer will make the final determination.

16.10 Shorts

Uniform shorts provided by the department may be worn as part of the Class C uniform with ambient temperatures in the Smyrna regional area are forecasted to be at or above 90° F, and/or during approved outdoor training events when deemed appropriate by the Battalion Chief. Shorts must be paired with black athletic or tactical shoes (no more than 4 inches in height) and short (black) ankle socks.

16.11 Baseball Caps

Baseball style caps bearing station or company logos may be worn on duty providing the Fire Chief has approved the design. For inspections, work orders, and other planned events, or when multiple companies are involved in an activity, the department-issued cap shall be worn.

16.12 Uniform Condition

All uniform clothing worn by line personnel shall meet department specifications. Line personnel shall wear and maintain neat and clean uniforms with shoes and brass polished. Uniforms shall be in good condition, complete with buttons, patches and accessories. Uniforms shall not be worn off duty in an official capacity without permission. Battalion Chiefs have the discretion to determine the classification of uniform to be worn. It is the company officer's responsibility to ensure that his/her crew is in compliance with this policy.

16.13 Uniform Allowance

Each Member will receive an annual uniform allowance and shall maintain the minimum issue of uniforms After any uniform order is placed with the uniform company, it shall be the member's responsibility to check uniform orders for accuracy. All uniform orders in a given fiscal year (July 1 thru June 30) must be completed no later than February 1st. Orders placed after this date will not be approved.

16.14 Relinquishing Uniforms

Line personnel leaving the employment of the Town shall surrender all department property bearing Smyrna Fire Department patches or logos to the uniform program manager or designee. Failure to do so at the time of departure by the member may result in withholding the final paycheck by the Town until such items are returned. T-shirts are exempt from this requirement.

17 Personal Appearance and Grooming Standards

The Fire Department standards for personal appearance and grooming are as specific as practical in order to establish the parameters with which personnel must comply. The grooming standards do not allow for extreme styles of hair, jewelry, or eyeglasses. This type of appearance in individuals detracts from uniformity and team identity. Because it is impossible to provide examples of every appropriate or unacceptable style of conservative or eccentric grooming and attire, the good judgment of Fire Department personnel at all levels is key to compliance with standards in this issue, as in other issues.

17.1 Hair

Personnel will keep their hair cut and trimmed to present a neat, clean, and conservative appearance. An unkept or untidy appearance will not be permitted.

Hair color will be of a natural color. No hairstyle will be permitted that interferes with the use of safety equipment.

Hair shall be arranged in such a way so it does not extend past the bottom of the uniform collar. Hair may be pinned securely up against the head or braided to meet this requirement. No ribbons or ornaments shall be worn in the hair. Non-decorative bobby pins, barrettes, clips or hair bands may be used to meet this standard. Ponytails may be worn during routine work and training exercises, providing they do not interfere with the donning of the helmet or other emergency equipment. For planned events or when wearing Class A or B uniforms, unrestrained hair in the back must be secured as indicated above and not fall below the lower edge of the uniform collar.

Personnel will keep their sideburns neatly trimmed and no longer than the bottom of the lobe of the ear. Sideburns will not be wider than 1 1/4 inch. The face will be clean-shaven, except that a mustache may be worn. Personnel will keep mustaches neatly trimmed and will not allow mustaches to extend more than ½ inch beyond the corners of the mouth. Beards or goatees of any form are not permitted.

Religious and Medical Accommodations: Personnel who require an accommodation to the grooming standards due to sincerely held religious beliefs or medical conditions should submit a written request to the Fire Chief or designee. The request should include supporting documentation (e.g., a letter from a religious leader or medical provider). The Department will engage in an interactive process to determine if a reasonable accommodation can be provided that does not create an undue hardship or compromise safety, including but not limited to the proper fit and function of respiratory protection equipment. All accommodation requests will be handled confidentially to the extent possible and evaluated on a case-by-case basis.

17.2 Jewelry

Necklaces, pendants, medallions, et cetera are not to be worn on the outside of the uniform. Only small stud earrings in silver or gold will be permitted while on duty.

Watches and medical alert bracelets may be worn if the item does not interfere with the use of gloves or turnout gear.

Rings may be worn if the ring is not overly large and does not subject the wearer to potential injury.

Sunglasses and frames are to be of neutral tones and shades. Frames should be of simple and professional design. Only athletic type restrainers should be worn.

17.3 Tattoos

"Personnel with tattoos must take measures to ensure compliance with Town policy. Recognizing that the duties of line personnel can vary between routine and occasional public contact, the following guidelines will be adhered to:

Prohibited Tattoos: Visible tattoos on the neck and face are not allowed. Tattoos that contain offensive, vulgar, racist, discriminatory, sexually explicit, or gang-related words or imagery are prohibited regardless of location and must be covered at all times while on duty or representing the Department.

Coverage Requirements: During planned public contact events (inspections, station tours, public education, ceremonies, or when wearing Class A or B uniforms), hand tattoos must be covered utilizing tattoo cover-up gloves/sleeves or professional tattoo cover-up makeup.

Determination: The Fire Chief and/or HR Director will make the final determination on whether a tattoo violates this policy. Personnel will be notified in writing if a tattoo is deemed inappropriate and given a reasonable timeframe to develop a coverage plan.

Existing Tattoos: Personnel hired before January, 2026 with visible tattoos that do not comply with this policy will be grandfathered; however, they must still cover any tattoos deemed offensive, vulgar, racist, discriminatory, sexually explicit, or gang-related."

Town of Smyrna
Town Council Meeting
Agenda Summary

Agenda Item Number 8.
Department: Grants
Date: January 6, 2026

Subject:
Approval of the terms of, an authorization for the Mayor to execute, a federal contract with the U.S. Department of Housing and Urban Development (HUD) for FY2025 CDBG Entitlement funds for a new playground at Rosenwald Hill Top Park.

Fiscal Impact:
$412,974 in CDBG Funds. No match required.

Contract Type:
Original Contract

Contract Term (if applicable):

Background:

The U.S. Department of Housing and Urban Development provides annual funding to municipalities with populations over 50,000 to support community revitalization projects. This funding is administered through the CDBG Entitlement Program. The allocation amount is determined by a formula established by HUD.

For Fiscal Year 2025, Smyrna, Tennessee, has been allocated $412,974. This is the first year the Town of Smyrna will receive this federal grant, and the town looks forward to beginning this partnership with HUD. The grant will serve as a foundational investment, allowing the town to expand programs that assist residents in low and moderate-income neighborhoods before pursuing additional CDBG opportunities.

The town's first project with this funding is the renovation of the 25-year-old playground at Hilltop-Rosenwald Park. This project was selected due to the short timeline associated with the new funding. A Grant Coordinator is required as part of the program, and the town's first Grant Coordinator was hired with just enough time to identify a shovel-ready project and complete the required Consolidated and Annual Action Plan, which is available on the town's website.

Summary:

. The grant will support community revitalization efforts, with the initial project focused on renovating the 25-year-old playground at Hilltop Rosenwald Park. The town hired its first Grant Coordinator to meet program requirements and complete the necessary planning documents. Of the total allocation, $22,974 will cover administrative costs and about $390,000 will fund the playground renovation, with a ribbon cutting expected in February or March.

Recommended Council Action:

Staff recommends approving the CDBG Grant Contract for FY25.

FEDERAL AWARD AGREEMENT

A. General Federal Award Information

1. Recipient name (must match Unique Entity Identifier name) and address: Smyrna 315 S LOWRY ST SMYRNA, TN 37167-3416	12. Assistance listing number and title: • 14.218, Community Development Block Grant Program for Entitlement Communities • 14.225, Community Development Block Grant Program for Insular Areas • 14.228, Community Development Block Grant Program for States and Non-Entitlement Grants in Hawaii
2. Recipient's Unique Entity Identifier: TF6KXLJY2126	13. Amount of federal funds obligated by this action: $412,974.00
3. Tax identification number: 626012665	14. Total amount of federal funds obligated: $412,974.00
4. Federal Award Identification Number (FAIN): B25MC470015	15. Total approved cost sharing (if applicable): N/A
5. Instrument type: Grant ☒ Cooperative agreement ☐ Loan Guarantee ☐	16. Total federal award amount, including approved cost sharing: $412,974.00
6. Period of performance start and end date: 10/1/2024 - See Addendum 2	17. Budget approved by HUD:
7. Budget period start and end date: 10/1/2024 - See Addendum 2	18. Fiscal year: 2025
8. Initial Agreement ☒ Amendment ☐ #	19. Statutory authority: 42 U.S.C. 5301 et seq.
9. Indirect cost rate (per § 200.414): Recipients must complete Addendum 3: Indirect Cost Rate Schedule	20. Applicable appropriations act(s): Public Law 119-4
10. Is this award for research and development (per 2 C.F.R. § 200.1)? Yes ☐ No ☒	21. Notice/notice of funding opportunity this award is made under (if applicable): N/A
11. Awarding official name and contact information:	22. Program regulations (if applicable): 24 C.F.R. Part 570
23. Federal award description: The CDBG program provides funding to eligible grantees for the development of viable urban communities, by providing decent housing and a suitable living environment and expanding economic opportunities, principally for persons of low and moderate income. • Addendum 1. Policy Requirements • Addendum 2. Program-Specific Requirements • Addendum 3. Indirect Cost Rate Schedule	

Authority and Agreement. This agreement between the U.S. Department of Housing and Urban Development (HUD) and the Recipient is made pursuant to the statutory authority above (box 19) and is subject to the applicable appropriations act(s) (box 20). This agreement incorporates by reference the Community Development Block Grant program statute 42 U.S.C. 5301 et seq., the program regulations at 24 C.F.R. § 570 (as now in effect and as may be

amended from time to time), Recipient's consolidated plan/action plan, the relevant funding notice (box 21), any attached Specific Terms and Conditions, and the attached addenda (box 23).

B. Terms and Conditions

1. *General terms and requirements.* The Recipient must comply with all applicable federal laws, regulations, and requirements, unless otherwise provided through HUD's formal waiver authorities. This agreement, including any attachments and addenda, may only be amended in writing executed by parties to this agreement and any addenda.

2. *Administrative requirements.* The Recipient must comply with the following requirement(s) if checked below:

   ☐ The administrative requirements in the HUD General Administrative, National, and Departmental Policy Requirements and Terms for HUD's Financial Assistance Programs 2025, as indicated in the relevant NOFO, apply to this agreement.

   ☒ The grantee shall comply with requirements established by the Office of Management and Budget (OMB) concerning the Unique Entity Identifier (UEI); the System for Award Management (SAM.gov.); the Federal Funding Accountability and Transparency Act as provided in 2 C.F.R. part 25, Universal Identifier and General Contractor Registration; and 2 C.F.R. part 170, Reporting Subaward and Executive Compensation Information.

3. *Applicability of 2 C.F.R. part 200.*

   ☒ The Recipient must comply with the applicable requirements at 2 C.F.R. part 200, as may be amended from time to time. If any previous or future amendments to 2 C.F.R. part 200 replace or renumber any part 200 section cited in HUD's regulations in Title 24 of the Code of Federal Regulations, the amended part 200 requirements will govern award activities carried out after the amendments' effective date.

   ☐ The Recipient must comply with the applicable requirements at 2 C.F.R. part 200. If any previous amendments to 2 C.F.R. part 200 replace or renumber any part 200 section cited in HUD's regulations in Title 24 of the Code of Federal Regulations, the amended part 200 requirements will govern award activities carried out after the amendments' effective date.

4. *Future budget periods.* If the period of performance spans multiple budget periods, subsequent budget periods are subject to the availability of funds, program authority, satisfactory performance, and compliance with the terms and conditions of the Federal award.

5. *Indirect Cost Rate.* If the Recipient intends to use a negotiated or de minimis rate for indirect costs, the Recipient must submit an Indirect Cost Rate form to HUD, either with its application using HUD-426 (competitive grants) or with this agreement using "Addendum #3 "Indirect Cost Rate Schedule" (formula and congressional grants). The submitted form/addendum will be incorporated into and made part of this agreement, provided that the rate information is consistent with the applicable requirements under 2 C.F.R. § 200.414. If there is any change in the Recipient's indirect cost rate, it must immediately notify HUD and execute an amendment to this agreement to reflect the change if necessary.

6. *Recipient integrity and performance matters.* If the Federal share of this award is more than $500,000 over the period of performance (box 6), the terms and conditions in 2 C.F.R. part 200 Appendix XII apply to this agreement.

7. *Recordkeeping and Access to Records.* The Recipient hereby agrees to maintain complete and accurate books of account for this award and award activities in such a manner as to permit the preparation of statements and reports in accordance with HUD requirements, and to permit timely and effective audit. The Recipient agrees to furnish HUD such financial and project reports, records, statements, subrecipient data, and documents at such times, in such form, and accompanied by such reporting data as required by HUD. HUD and its duly authorized representative shall have full and free access to all Recipient offices and facilities, and to all books, documents, and records of the Recipient relevant to the administration, receipt, and use of this award and award activities, including the right to audit and make copies. The Recipient agrees to maintain records that identify the source and application of funds, including relevant subrecipient data, in

such a manner as to allow HUD to determine that all funds are and have been expended in accordance with program requirements and in a manner consistent with applicable law.

Further, the Recipient hereby acknowledges that HUD is in the process of implementing new grants management and reporting tools, which will be made available for the Recipient's use in the future. The Recipient agrees to report on grant performance and financial activities (including vendor and cash disbursement supporting details for the Recipient and its subrecipients) using these new tools when they are released. HUD will work with the Recipient to support the Recipient's transition to this new reporting environment. Once implemented, timely reporting in this new environment will be mandatory. HUD reserves the right to exercise all of its available rights and remedies for any noncompliance with these grants management and financial reporting requirements, to include, without limitation, requiring 100% review, suspension of disbursements, and all other legally available remedies, to the furthest extent permitted by law, as amended.

8. *Noncompliance*. If the Recipient fails to comply with the provisions of this agreement, HUD may take one or more of the actions provided in program statutes, regulations or 2 C.F.R. § 200.339, as applicable. Nothing in this agreement shall limit any remedies otherwise available to HUD in the case of noncompliance by the Recipient. No delay or omissions by HUD in exercising any right or remedy available to it under this agreement shall impair any such right or remedy or constitute a waiver of or acquiescence in any Recipient noncompliance.

9. *Termination provisions.* Unless superseded by program statutes, regulations or NOFOs, the termination provisions in 2 C.F.R. § 200.340 apply.

10. *Build America, Buy America.* The Recipient must comply with the requirements of the Build America, Buy America (BABA) Act, 41 U.S.C. § 8301 note, and all applicable rules and notices, as may be amended, if applicable. Pursuant to HUD's Notice, "Public Interest Phased Implementation Waiver for FY 2022 and 2023 of Build America, Buy America Provisions as Applied to Recipients of HUD Federal Financial Assistance" (88 Fed. Reg. 17001), BABA requirements apply to any infrastructure projects HUD has obligated funds for after the effective dates, unless excepted by a waiver.

11. *Waste, Fraud, Abuse, and Whistleblower Protections.* Any person who becomes aware of the existence or apparent existence of fraud, waste, or abuse of any HUD award must report such incidents to both the HUD official responsible for the award and to HUD's Office of Inspector General (OIG). Allegations of fraud, waste, and abuse related to HUD programs can be reported to the HUD OIG hotline via phone at 1-800-347-3735 or online hotline form. The Recipient must comply with 41 U.S.C. § 4712, which includes informing employees in writing of their rights and remedies, in the predominant native language of the workforce. Under 41 U.S.C. § 4712, employees of a government contractor, subcontractor, recipient, and subrecipient—as well as a personal services contractor—who make a protected disclosure about a Federal award or contract cannot be discharged, demoted, or otherwise discriminated against if they reasonably believe the information they disclose is evidence of (1) gross mismanagement of a Federal contract or award; (2) waste of Federal funds; (3) abuse of authority relating to a Federal contract or award; (4) substantial and specific danger to public health and safety; or (5) violations of law, rule, or regulation related to a Federal contract or award.

12. *Third-Party Claims.* Nothing in this agreement shall be construed as creating or justifying any claim against the federal government or the Recipient by any third party.

13. *Rule of Construction and No Construction Against Drafter.* Notwithstanding anything contained in this agreement, the terms and conditions hereof are to be construed to have full and expansive effect in both interpretation and application, and the parties agree that the principle of interpretation that holds that ambiguities in terms or conditions are construed against the drafter shall not apply in interpreting this agreement.

C. Federal Award Performance Goals

The Recipient must meet any applicable performance goals, indicators, targets, and baseline data as required by applicable program requirements.

D. Specific Terms and Conditions Not applicable ☒ Attached ☐

For the U.S. Department of HUD (name and title of authorized official)	Signature	Date
For the Recipient (name and title of authorized official)	Signature	Date

ADDENDUM 1. POLICY REQUIREMENTS

If applicable:

1. The Recipient shall not use grant funds to promote "gender ideology," as defined in Executive Order (E.O.) 14168, Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government;

2. The Recipient agrees that its compliance in all respects with all applicable Federal anti-discrimination laws is material to the U.S. Government's payment decisions for purposes of section 3729(b)(4) of title 31, United States Code;

3. The Recipient certifies that it does not operate any programs that violate any applicable Federal anti-discrimination laws, including Title VI of the Civil Rights Act of 1964;

4. The Recipient shall not use any grant funds to fund or promote elective abortions, as required by E.O. 14182, Enforcing the Hyde Amendment; and that,

5. Notwithstanding anything in the NOFO or Application, this Grant shall not be governed by Executive Orders revoked by E.O. 14154, including E.O. 14008, or NOFO requirements implementing Executive Orders that have been revoked.

6. The Recipient must administer its grant in accordance with all applicable immigration restrictions and requirements, including the eligibility and verification requirements that apply under title IV of the Personal Responsibility and Work Opportunity Reconciliation Act of 1996, as amended (8 U.S.C. 1601-1646) (PRWORA) and any applicable requirements that HUD, the Attorney General, or the U.S. Citizenship and Immigration Services may establish from time to time to comply with PRWORA, Executive Order 14218, or other Executive Orders or immigration laws.

7. No state or unit of general local government that receives funding under this grant may use that funding in a manner that by design or effect facilitates the subsidization or promotion of illegal immigration or shields illegal aliens from deportation, including by maintaining policies or practices that materially impede enforcement of federal immigration statutes and regulations.

8. The Recipient must use SAVE, or an equivalent verification system approved by the Federal government, to prevent any Federal public benefit from being provided to an ineligible alien who entered the United States illegally or is otherwise unlawfully present in the United States.

9. Faith-based organizations may be subrecipients for funds on the same basis as any other organization. Recipients may not, in the selection of subrecipients, discriminate against an organization based on the organization's religious character, affiliation, or exercise.

ADDENDUM 2. PROGRAM-SPECIFIC REQUIREMENTS

Assistance Listing 14.218, Community Development Block Grant Program for Entitlement Communities

Assistance Listing 14.225, Community Development Block Grant Program for Insular Areas

Assistance Listing 14.228, Community Development Block Grant Program for States and Non-Entitlement Grants in Hawaii

1. *Environmental Review*. The Recipient agrees to assume all the responsibilities for environmental review, decision making, and actions, as specified and required in regulations issued by the Secretary pursuant to section 104(g) of title I of the Housing and Community Development Act of 1974 and published in 24 C.F.R. part 58; except that if the Recipient is a state, the Recipient must require the unit of general local government to assume that responsibility and must comply with the state's responsibilities under 24 C.F.R. 58.4.

2. *Public Use*. The Recipient shall ensure that no CDBG funds are used to support any Federal, State, or local projects that seek to use the power of eminent domain, unless eminent domain is employed only for public use. For the purposes of this requirement, public use shall not be construed to include economic development that primarily benefits private entities. Any use of funds for mass transit, railroad, airport, seaport, or highway projects as well as utility projects that benefit or serve the general public (including energy-, communication-, water-, and wastewater-related infrastructure), other structures designated for use by the general public or which have other common-carrier or public-utility functions that serve the general public and are subject to regulation and oversight by the government, and projects for the removal of an immediate threat to public health and safety or brownfield as defined in the Small Business Liability Relief and Brownfields Revitalization Act (Pub. Law No. 107–118) shall be considered a public use for purposes of eminent domain.

3. *Prohibition on Selling, Trading, and Transferring Funds.* The Recipient or unit of general local government that directly or indirectly receives CDBG funds may not sell, trade, or otherwise transfer all or any such portion of such funds to another such entity in exchange for any other funds, credits or non-Federal considerations, but must use such funds for activities eligible under title I of the Housing and Community Development Act of 1974.

4. *Construction of Water and Sewer Facilities.* Notwithstanding any other provision of this agreement, the Recipient may not obligate or expend award funds to plan or construct water or sewer facilities, including any new or revised activities, until after 1) it completes the review procedures required under Executive Order 12372, Intergovernmental Review of Federal Programs, and 24 C.F.R. part 52 and 2) HUD provides written notice of the release of funds.

5. *Funds for For-Profit Entities.* Under 42 U.S.C. § 5305(a)(17), CDBG funds may not be provided to a for-profit entity unless such activity or project has been evaluated and selected in accordance with Appendix A to 24 C.F.R. § 570, *Guidelines and Objectives for Evaluating Project Costs and Financial Requirements*.

6. *Violence Against Women Act*. The Recipient will comply with the right to report crime and emergencies protections at 34 U.S.C. § 12495 of the Violence Against Women Act.

7. Funding Information and Period of Performance and Budget Period End Dates

Source of Funds	Amount	Period of Performance End Date	Budget Period End Date
2025	$412,974.00	9/30/2033	9/30/2033

ADDENDUM 3. INDIRECT COST RATE SCHEDULE

As the duly authorized representative of the Recipient, I certify that the Recipient:

☐ Will not use an indirect cost rate to calculate and charge indirect costs under the grant.

☐ Will calculate and charge indirect costs under the grant by applying a *de minimis* rate as provided by 2 C.F.R. § 200.414(f), as may be amended from time to time.

☐ Will calculate and charge indirect costs under the grant using the indirect cost rate(s) listed below, and each rate listed is included in an indirect cost rate proposal developed in accordance with the applicable appendix to 2 C.F.R. part 200 and, *if required*, was approved by the cognizant agency for indirect costs.

Agency/department/major function	Indirect cost rate	Type of Direct Cost Base
	%	
	%	
	%	

Instructions for the Recipient:
The Recipient must mark the one (and only one) checkbox above that best reflects how the Recipient's indirect costs will be calculated and charged under the grant. Do not include indirect cost rate information for subrecipients.

The table following the third box must be completed only if that box is checked. When listing a rate in the table, enter both the percentage amount (e.g., 10%) and the type of direct cost base to be used. For example, if the direct cost base used for calculating indirect costs is Modified Total Direct Costs, then enter "MTDC" in the "Type of Direct Cost Base" column.

If using the Simplified Allocation Method for indirect costs, enter the applicable indirect cost rate and type of direct cost base in the first row of the table.

If using the Multiple Allocation Base Method, enter each major function of the organization for which a rate was developed and will be used under the grant, the indirect cost rate applicable to that major function, and the type of direct cost base to which the rate will be applied.

If the Recipient is a government and more than one agency or department will carry out activities under the grant, enter each agency or department that will carry out activities under the grant, the indirect cost rate(s) for that agency or department, and the type of direct cost base to which each rate will be applied.

To learn more about the indirect cost requirements, see 2 C.F.R. part 200, subpart E and Appendix VII to Part 200 (for state and local governments).

U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT
OFFICE OF COMMUNITY PLANNING AND DEVELOPMENT
Knoxville Field Office
710 Locust Street, Southwest, Suite 300
Knoxville, TN 37902

December 18, 2025

Dennis Molina, Grants Coordinator
Town of Smyrna
315 S Lowry St

Smyrna, TN 37167-3416

SUBJECT: Fiscal Year 2025 Grant Agreement Transmittal

Dear Dennis Molina:

The Knoxville Field Office would like to thank you for your continued partnership in providing quality affordable housing, a suitable living environment, and expanding economic opportunities through the Department of Housing and Urban Development (HUD) programs.

One Grant Agreement is attached for each program awarded as follows:

Community Development Block Grant Program (CDBG)	$412,974.00
Total FY 2025 Award	**$412,974.00**

Federal Award Agreement

Transmittal of a grant agreement does not constitute approval of the activities described in your Consolidated Plan or Annual Action Plan. You are reminded that you, as grantee, are responsible for ensuring that all grant funds are used in accordance with all program requirements. By executing the Federal Award Agreement, you are entering into a legally binding agreement with HUD to use the awarded funds and carry out the funded activities in accordance with all Federal statutes, regulations, Federal Register notices, and award terms and conditions that apply to those funds and activities.

Please carefully note the addenda that are part of each agreement.

HUD recognizes that federal courts including the U.S. District Court of Rhode Island in *Rhode Island Coalition Against Domestic Violence, et al. v. Kennedy, et al*., 1:25-cv-00342 (D.R.I.) have issued injunction orders which now impact all CPD Federal Award Agreements and grantees. To preserve all legal rights and defenses, the enclosed agreement contains the same conditions at issue in those orders. For grantees who are plaintiffs covered by those orders or for non-plaintiff grantees who are otherwise covered by those orders, be advised that HUD will comply with all applicable injunction orders and will not implement or enforce the

challenged conditions consistent with those orders while those orders are in effect. This will include HUD disregarding any "certifications" or "compliance" statements as covered by those orders. Accordingly, kindly return an executed copy of the Federal Award Agreement, as discussed below, and HUD will make grant funds at issue in your agreement available. Please be further advised that should the injunction order that currently prohibits HUD from enforcing the challenged conditions as to your grant or award be stayed, dissolved, or reversed, the agreement, with the challenged conditions, will become effective.

Executing the Agreement

The authorized official **must** complete Addendum 3. Indirect Cost Rate Schedule for each agreement, even if no indirect costs will be charged under the grant. Please mark one (and only one) checkbox to reflect how indirect costs will be calculated and charged under the grant. Please note that the Office of Management and Budget (OMB) issued revised Guidance and the *de minimis* indirect cost rate increased from 10 percent to up to 15 percent of Modified Total Direct Costs.

After inputting their name and title, the authorized official must execute each agreement, with a signature, and date. No other additions other than those described here should be made to the grant agreement without prior written approval. Please ensure the Chief Elected Official or authorized official signs the agreement.

You must return the entire Federal Award Agreement, including all addenda, to this office via the Field Office General Email Inbox: Knoxville.CPD@hud.gov. HUD will be signing the grant agreement second and will return to your office a copy of each signed agreement for you to maintain in your local program files.

HUD congratulates the Town of Smyrna on your grant award(s), and we look forward to assisting you in accomplishing your program goals. If you have any questions or need further information or assistance, please contact your assigned Field Office representative Alex Moore at alex.moore@hud.gov or email our Office at Knoxville.CPD@hud.gov.

Sincerely,

/s/ Erik Hoglund

Town of Smyrna
Town Council Meeting
Agenda Summary

Agenda Item Number 9.
Department: Public Works
Date: January 6, 2026

Subject:
Approval of the terms of, and authorization for the Mayor to execute, Amendment No. 1 with Gresham Smith relative to Rock Springs Road.

Fiscal Impact:
Original Contract: $ 227,350.00
Amendment No. 1: $ 249,770.00
Adjusted Agreement: $ 477,120.00

Original Contract remaining in FY-25-26 $ 94,000
FY25-26 Budget $300,000 Acct. 320-43130-936
$44,000 over if completed in FY25-26

Contract Type:
Contract Change Order /Amendment

Contract Term (if applicable):

Background:
Phase 1: From Needham Drive to Austin Lee Drive
Phase 2: From Austin Lee Drive to Cedar Grove Road
The purpose of this project is to increase capacity on Old Nashville Hwy at Rock Springs Road with additional turn lanes.

Summary:
This amendment removes Phase 2 survey from the original scope in the amount of $93,930.00 and adds design services through Right-of-Way plans for Phase 1. The $93,930.00 will be applied to the design fee for Phase 1.

Specifically, these funds are earmarked to cover the full cost of incorporating comprehensive design services, including the production of detailed Right-of-Way (ROW) plans, for **Phase 1** of the project. This reallocation ensures that Phase 1 can progress with the necessary advanced planning and detailed documentation required for future property acquisition and construction.

The decision to eliminate Phase 2 was made after a careful review of its specific requirements and potential impact on the project's complexity and financial viability. Phase 2 included several elements that were deemed fiscally and logistically prohibitive under the current project parameters:

Extensive Additional Right-of-Way Acquisition: The Phase 2 route would have necessitated the acquisition of significant additional right-of-way, dramatically increasing the soft costs associated with property appraisal, negotiation, and legal processes.

Major Water Line Relocation: A critical component of Phase 2 involved the relocation of a major, high-capacity water line. This utility relocation alone would have introduced considerable technical complexity, required extensive coordination with the municipal utility department, and resulted in a disproportionately high increase in the overall project cost.

By removing the complex and high-cost requirements associated with Phase 2, the project can maintain its critical Phase 1 objectives while remaining within a manageable budget and timeline. The focus is now on efficiently advancing Phase 1 to the ROW plan stage using the reallocated funds.

Recommended Council Action:

Staff recommends approval of the contract amendment.

AGREEMENT BETWEEN OWNER AND ENGINEER FOR PROFESSIONAL SERVICES

THIS AGREEMENT is effective as of October 10, 2024 (Effective Date) between Town of Smyrna (Owner) and **GRESHAM SMITH** (Engineer). Owner's Project, of which Engineer's services under this Agreement are a part, is generally identified as follows: Rock Springs Road Widening Survey and Design (Project).

Engineer's services for this Project are described as follows: Rock Springs Road Survey, Traffic and Functional Layouts. Owner and Engineer further agree as follows:

ARTICLE 1 - SCOPE OF ENGINEER'S SERVICES. Engineer shall provide, or cause to be provided, the services set forth herein and in Exhibit A.

ARTICLE 2 - OWNER'S RESPONSIBILITIES

2.01 General:

A. Owner shall have the responsibilities set forth herein and in Exhibit B.

B. Owner shall pay Engineer as set forth in Exhibit C.

C. Owner shall be responsible for, and Engineer may rely upon, the accuracy and completeness of all requirements, programs, instructions, reports, data, and other information furnished by Owner to Engineer pursuant to this Agreement. Engineer may use such requirements, programs, instructions, reports, data, and information in performing or furnishing services under this Agreement.

ARTICLE 3 - SCHEDULE FOR RENDERING SERVICES

3.01 Commencement: Engineer is authorized to begin rendering services as of the Effective Date.

3.02 Time for Completion:

A. Engineer shall complete its obligations within a reasonable time. Specific periods of time for rendering services are set forth or specific dates by which services are to be completed are provided in Exhibit A, and are hereby agreed to be reasonable.

B. If, through no fault of Engineer, such periods of time or dates are changed, or the orderly and continuous progress of Engineer's services is impaired, or Engineer's services are delayed or suspended, then the time for completion of Engineer's services, and the rates and amounts of Engineer's compensation, shall be adjusted equitably.

C. If Owner authorizes changes in the scope, extent, or character of the Project or Engineer's services, then the time for completion of Engineer's services, and the rates and amounts of Engineer's compensation, shall be adjusted equitably.

D. Owner shall make decisions and carry out its other responsibilities in a timely manner so as not to delay the Engineer's performance of its services.

E. If Engineer fails, through its own fault, to complete the performance required in this Agreement within the time set forth, as duly adjusted, then Owner shall be entitled, as its sole remedy, to the recovery of direct damages, if any, resulting from such failure.

ARTICLE 4 - INVOICES AND PAYMENTS

4.01 Preparation and Submittal of Invoices: Engineer shall prepare invoices in accordance with its standard invoicing practices and the terms of Exhibit C. Engineer shall submit its invoices to Owner on a monthly basis. Invoices are due and payable within 30 days of receipt.

4.02 Payments

A. Application to Interest and Principal: Payment will be credited first to any interest owed to Engineer and then to principal.

B. Failure to Pay: If Owner fails to make any payment due Engineer for services and expenses within 30 days after receipt of Engineer's invoice, then:

1. amounts due Engineer will be increased at the rate of 1.0% per month (or the maximum rate of interest permitted by law, if less) from said thirtieth day; and
2. Engineer may, after giving seven days written notice to Owner, suspend services under this Agreement until Owner has paid in full all amounts due for services, expenses, and other related charges. Owner waives any and all claims against Engineer for any such suspension.

C. Disputed Invoices: If Owner contests an invoice, Owner shall promptly advise Engineer of the specific basis for doing so, may withhold only that portion so contested, and must pay the undisputed portion subject to the terms of Paragraph 4.01.

D. Sales or Use Taxes: If after the Effective Date any governmental entity takes a legislative action that imposes sales or use taxes, fees or charges on Engineer's services or compensation under this Agreement, then the Engineer may invoice such additional sales or use taxes, fees or charges for reimbursement by Owner. Owner shall reimburse Engineer for the cost of such invoiced additional sales or use taxes, fees or charges; such reimbursement shall be in addition to the compensation to which Engineer is entitled under the terms of Exhibit C.

ARTICLE 5 - OPINIONS OF COST

5.01 Opinions of Probable Construction Cost: Engineer's opinions of probable Construction Cost are to be made on the basis of Engineer's experience, qualifications, and general familiarity with the construction industry. However, because Engineer has no control over the cost of labor, materials, equipment, or services furnished by others, or over contractors' methods of determining prices, or over competitive bidding or market conditions, Engineer cannot and does not guarantee that proposals, bids, or actual Construction Cost will not vary from opinions of probable Construction Cost prepared by Engineer. If Owner requires greater assurance as to probable Construction Cost, Owner must employ an independent cost estimator as provided in Exhibit B.

5.02 *Intentionally Omitted*

5.03 Opinions of Total Project Costs: The services, if any, of Engineer with respect to Total Project Costs shall be limited to assisting the Owner in tabulating the various categories which comprise Total Project Costs. Engineer assumes no responsibility for the accuracy of any opinions of Total Project Costs.

ARTICLE 6 - GENERAL CONSIDERATIONS

6.01 Standards of Performance:

A. Standard of Care: The standard of care for all professional engineering and related services performed or furnished by Engineer under this Agreement will be the care and skill ordinarily used by members of the subject profession practicing under similar circumstances at the same time and in the same locality. Engineer makes no warranties, express or implied, under this Agreement or otherwise, in connection with Engineer's services.

B. Technical Accuracy: Owner shall not be responsible for discovering deficiencies in the technical accuracy of Engineer's services. Engineer shall correct deficiencies in technical

accuracy without additional compensation, unless such corrective action is directly attributable to deficiencies in Owner-furnished information.

C. Consultants: Engineer may retain such Consultants as Engineer deems necessary to assist in the performance or furnishing of the services, subject to reasonable, timely, and substantive objections by Owner.

D. Reliance on Others: Subject to the standard of care set forth in Paragraph 6.01.A, Engineer and its Consultants may use or rely upon design elements and information ordinarily or customarily furnished by others, including, but not limited to, specialty contractors, manufacturers, suppliers, and the publishers of technical standards.

E. Compliance with Laws and Regulations, and Policies and Procedures:

1. Engineer and Owner shall comply with applicable Laws and Regulations.
2. Engineer shall comply with the policies, procedures, and instructions of Owner that are applicable to Engineer's performance of services under this Agreement and that Owner provides to Engineer in writing, subject to the standard of care set forth in Paragraph 6.01.A, and to the extent compliance is not inconsistent with professional practice requirements.
3. This Agreement is based on Laws and Regulations and Owner-provided written policies and procedures as of the Effective Date. Changes after the Effective Date to these Laws and Regulations or to Owner-provided written policies and procedures or the receipt by Engineer after the Effective Date of Owner-provided written policies and procedures, may be the basis for modifications to Owner's responsibilities or to Engineer's scope of services, times of performance, or compensation.

F. Certifications: Engineer shall not be required to sign any documents, no matter by whom requested, that would result in the Engineer having to certify, guarantee, or warrant the existence of conditions whose existence the Engineer cannot ascertain. Owner agrees not to make resolution of any dispute with the Engineer or payment of any amount due to the Engineer in any way contingent upon the Engineer signing any such documents.

G. General Conditions: The general conditions for any construction contract documents prepared hereunder are to be the "Standard General Conditions of the Construction Contract" as prepared by the Engineers Joint Contract Documents Committee (EJCDC C-700, 2007 Edition) unless both parties mutually agree to use other general conditions by specific reference in Paragraph 6.12 herein.

H. Contractor Work/Site Safety: Engineer shall not at any time supervise, direct, control, or have authority over any Contractor work, nor shall Engineer have authority over or be responsible for the means, methods, techniques, sequences, or procedures of construction selected or used by any Contractor, or the safety precautions and programs incident thereto, for security or safety at the Site, nor for any failure of a Contractor to comply with Laws and Regulations applicable to such Contractor's furnishing and performing of its work.

I. Contractor Performance: Engineer neither guarantees the performance of any Contractor nor assumes responsibility for any Contractor's failure to furnish and perform the Work in accordance with the Contract Documents.

J. Decisions: Engineer shall not be responsible for any decision made regarding the Construction Contract Documents, or any application, interpretation, clarification, or

modification of the Construction Contract Documents, other than those made by Engineer or its Consultants.

K. Surety: Engineer is not required to provide and does not have any responsibility for surety bonding or insurance-related advice, recommendations, counseling, or research, or enforcement of construction insurance or surety bonding requirements.

L. Compliance: While at the Site, Engineer's employees, Consultants and representatives shall comply with the specific applicable requirements of 's and Owner's safety programs of which Engineer has been informed in writing.

M. Excluded: Engineer's services do not include: (1) providing legal advice or representation; (2) serving as a "municipal advisor" for purposes of the registration requirements of Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (2010) or the municipal advisor registration rules issued by the Securities and Exchange Commission; or (3) advising Owner, or any municipal entity or other person or entity, regarding municipal financial products or the issuance of municipal securities, including advice with respect to the structure, timing, terms, or other similar matters concerning such products or issuances

6.02 Design Without Construction Phase Services: Engineer shall be responsible only for those Construction Phase services expressly required of Engineer in Exhibit A, Paragraph A1.05. With the exception of such expressly required services, Engineer shall have no design, Shop Drawing review, or other obligations during construction and Owner assumes all responsibility for the application and interpretation of the Contract Documents, review and response to Contractor claims, contract administration, processing Change Orders, revisions to the Contract Documents during construction, construction surety bonding and insurance requirements, construction observation and review, review of payment applications, and all other necessary Construction Phase engineering and professional services. Owner waives all claims against the Engineer that may be connected in any way to Construction Phase engineering or professional services except for those services that are expressly required of Engineer in Exhibit A, Paragraph A1.05.

6.03 Use of Documents:

A. All Documents prepared by Engineer and its Consultants are instruments of service in respect to this Project, and Engineer and its Consultants shall retain an ownership and property interest therein of their respective documents (including the copyright and the right of reuse at their discretion) whether or not the Project is completed. Owner shall not rely in any way on any Document unless it is in printed form and signed or sealed by the Engineer or one of its Consultants.

B. If Engineer is required to prepare or furnish Drawings or Specifications, then Engineer shall deliver to Owner at least one original printed record version of such Drawings and Specifications, signed and sealed according to applicable Laws and Regulations.

C. Owner may make and retain copies of Documents for information and reference in connection with the use of the Documents on the Project. Engineer grants Owner a limited license to use the Documents on the Project, extensions of the Project, and for related uses of the Owner, subject to receipt by Engineer of full payment due and owing for all services relating to preparation of the Documents, and subject to the following limitations: (1) Owner acknowledges that such Documents are not intended or represented to be suitable for use on the Project unless completed by Engineer, or for use or reuse by Owner or others on extensions of the Project, on any other project, or for any other use or purpose, without written verification or adaptation by Engineer; (2) any such use or reuse, or any modification of the Documents, without written verification, completion, or adaptation by Engineer, as appropriate for the specific purpose intended, will be at Owner's sole risk and without

liability or legal exposure to Engineer or to its officers, directors, members, partners, agents, employees, and Consultants; (3) Owner shall indemnify and hold harmless Engineer and its officers, directors, members, partners, agents, employees, and Consultants from all claims, damages, losses, and expenses, including attorneys' fees, arising out of or resulting from any use, reuse, or modification of the Documents without written verification, completion, or adaptation by Engineer; and (4) such limited license to Owner shall not create any rights in third parties.

D. If Engineer at Owner's request verifies the suitability of the Documents, completes them, or adapts them for extensions of the Project or for any other purpose, then Owner shall compensate Engineer at rates or in an amount to be agreed upon by Owner and Engineer.

6.04 Electronic Transmittals

A. Owner and Engineer may transmit, and shall accept, Project-related correspondence, Documents, text, data, drawings, information, and graphics, in electronic media or digital format, either directly, or through access to a secure Project website, in accordance with a mutually agreeable protocol.

B. If this Agreement does not establish protocols for electronic or digital transmittals, then Owner and Engineer shall jointly develop such protocols.

C. When transferring documents in electronic media format, the transferring party makes no representations as to long-term compatibility, usability, or readability of the items resulting from the recipient's use of software application packages, operating systems, or computer hardware differing from those used in the drafting or transmittal of the items, or from those established in applicable transmittal protocols.

D. If Owner and Engineer intend to transmit through a secure Project webiste, then Owner and Engineer agree to use Engineer's digital document management software system (Newforma-Infoexchange) to which Engineer shall provide Owner and the Contractor access. Should Owner not agree to use Engineer's document management software or, at request of Contractor, Owner directs Engineer to use a different such software for transmission and management of construction phase documentation, Engineer's fees and time schedules shall be equitably adjusted. The protocols governing such transmissions, shall be as set forth in Digital Data Transmission Exhibit or Engineer's substitute document (AIA E202) attached hereto and incorporated herein. The Digital Model Execution Plan (DMEP) will be prepared by the modling managers of the project participants, if required by the project team, but such technical document is not incorporated herein nor attached hereto as an Exhibit to this Agreement. Engineer's fee is based on the use of the Newforma software.

6.05 Insurance

A. The parties shall procure and maintain insurance as set forth herein. Engineer shall cause Owner to be included as an additional insured on any applicable general liability insurance policy carried by Engineer. Engineer shall deliver certificates of insurance evidencing the coverages indicated in Paragraph 6.05 G. Such certificates shall be furnished prior to commencement of Engineer's services and at renewals thereafter during the life of the Agreement. Engineer shall provide Certificates of Insurance for three years beyond substantial completion of the project.

B. Owner shall procure and maintain insurance as set forth herein. Owner shall cause Engineer and its Consultants to be listed as additional insureds on any general liability policies and as

loss payees on any property insurance policies carried by Owner which are applicable to the Specific Project.

C. Owner and Engineer shall each deliver to the other certificates of insurance evidencing the coverages indicated in Exhibit G. Such certificates shall be furnished promptly after the issuance of a Task Order and at renewals thereafter during the life of this Agreement.

D. Owner shall require Contractor to purchase and maintain policies of insurance covering workers' compensation, general liability, property damage (other than to the Work itself), motor vehicle damage and injuries, and other insurance necessary to protect Owner's and Engineer's interests in the Project. Owner shall require Contractor to cause Engineer and its Consultants to be listed as additional insureds with respect to such general and automobile liability and other insurance purchased and maintained by Contractor for the Project. This insurance shall be primary and non-contributory.

E. All policies of property insurance relating to the Project, including but not limited to any builder's risk policy, shall allow for waiver of subrogation rights and contain provisions to the effect that in the event of payment of any loss or damage the insurers will have no rights of recovery against any insured thereunder or against Engineer or its Consultants. Owner and Engineer waive all rights against each other, Contractor, the Consultants, and the respective officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of them, for all losses and damages caused by, arising out of, or resulting from any of the perils or causes of loss covered by any builder's risk policy and any other property insurance relating to the Project. Owner and Engineer shall take appropriate measures in other Project-related contracts to secure waivers of rights consistent with those set forth in this paragraph.

D. All policies of insurance shall contain a provision or endorsement that the coverage afforded will not be canceled without prior written notice pursuant to the policy provisions.

F. At any time, Owner may request that Engineer or its Consultants, at Owner's sole expense, provide additional insurance coverage, increased limits, or revised deductibles that are more protective than those specified in Paragraph 6.05 G. If so requested by Owner, and if commercially available, Engineer shall obtain and shall require its Consultants to obtain such additional insurance coverage, different limits, or revised deductibles for such periods of time as requested by Owner, and Paragraph 6.05 G will be supplemented to incorporate these requirements.

G. The insurance required by Paragraph 6.05.A of this Agreement are as follows:

1. By Owner and Engineer:

a.	Workers' Compensation:	Statutory
b.	Employer's Liability:	
	Each Accident	$1,000,000
	Disease, Policy Limit	$1,000,000
	Disease, Each Employee	$1,000,000
c.	General Liability:	
	Each Occurrence (Bodily Injury/Property Damage):	$1,000,000
	General Aggregate:	$2,000,000
d.	Excess or Umbrella Liability:	
	Each Occurrence	$3,000,000
	General Aggregate	$3,000,000
e.	Automobile Liability:	
	Combined Single Limit (Bodily Injury/Property Damage)	

Each Accident $1,000,000

2. By Engineer only:
   a. Professional Liability:
      Each Claim Made $1,000,000
      Annual Aggregate $1,000,000

H. Additional Insureds

1. The following persons or entities are to be included on Owner's general liability policies of insurance as additional insureds, as provided in Paragraph 6.05.A: Engineer and Engineer's Consultants, including, but not limited to, (if none, state none below):
   Click here to enter text.
2. During the term of this Agreement the Engineer shall notify Owner of any other Consultant to be included as an additional insured on Owner's general liability and property policies of insurance.

6.06 Suspension and Termination

A. Suspension:

1. By Owner: Owner may suspend the Project for up to 90 cumulative days upon seven days written notice to Engineer.
2. By Engineer: Engineer may, after giving seven (7) days written notice to Owner, suspend services under this Agreement if Engineer's performance has been substantially delayed through no fault of Engineer, Owner has failed to pay Engineer for invoiced services and expenses as set forth herein, or in response to the presence of Constituents of Concern at the Site, as set forth in Paragraph 6.11 D.

B. Termination: The obligation to provide further services under this Agreement may be terminated:

1. For cause,
   a. By either party upon seven (7) days written notice in the event of substantial failure by the other party to perform in accordance with the terms hereof through no fault of the terminating party.
   b. By Engineer:
      1) upon seven days written notice if Owner demands that Engineer furnish or perform services contrary to Engineer's responsibilities as a licensed professional; or
      2) upon seven days written notice if the Engineer's services for the Project are delayed or suspended for more than 90 cumulative days for reasons beyond Engineer's control.
      3) Engineer shall have no liability to Owner on account of such termination.
   c. Notwithstanding the foregoing, this Agreement will not terminate under Paragraph 6.06.B.1.a if the party receiving such notice begins, within seven days of receipt of such notice, to correct its substantial failure to perform and proceeds diligently to cure such failure within no more than 30 days of receipt thereof; provided, however, that if and to the extent such substantial failure cannot be reasonably cured within such 30 day period, and if such party has diligently attempted to cure the same and thereafter continues diligently to cure the same, then the cure period provided for herein shall extend up to, but in no case more than, 60 days after the date of receipt of the notice.
2. For convenience, by Owner effective upon Engineer's receipt of notice from Owner.

C. Effective Date of Termination: The terminating party under Paragraph 6.06.B may set the effective date of termination at a time up to 30 days later than otherwise provided to allow Engineer to demobilize personnel and equipment from the Site, to complete tasks whose value would otherwise be lost, to prepare notes as to the status of completed and uncompleted tasks, and to assemble Project materials in orderly files.

D. Payments Upon Termination:

1. In the event of any termination under Paragraph 6.06, Engineer will be entitled to invoice Owner and to receive full payment for all services performed or furnished in accordance with this Agreement and all Reimbursable Expenses incurred through the effective date of termination. Upon making such payment, Owner shall have the limited right to the use of Documents, at Owner's sole risk, subject to the provisions of Paragraph 6.03.C.
2. In the event of termination by Owner for convenience or by Engineer for cause, Engineer shall be entitled, in addition to invoicing for those items identified in Paragraph 6.06.D.1, to invoice Owner and to payment of a reasonable amount for services and expenses directly attributable to termination, both before and after the effective date of termination, such as reassignment of personnel, costs of terminating contracts with Engineer's Consultants, and other related close-out costs, using methods and rates for Additional Services as set forth in Exhibit C.

6.07 Lien Rights: Within 15 days after receipt of a written request from the Engineer, the Owner shall furnish any requested information as necessary and relevant for the Engineer to evaluate, give notice of, or enforce lien rights. Evaluation, notice and enforcement of lien rights shall be determined at the Engineer's discretion.

6.08 Controlling Law: This Agreement is to be governed by the law of the state or jurisdiction in which the Project is located.

6.09 Successors, Assigns, and Beneficiaries:

A. Owner and Engineer are hereby bound and the successors, executors, administrators, and legal representatives of Owner and Engineer (and to the extent permitted by Paragraph 6.09.B the assigns of Owner and Engineer) are hereby bound to the other party to this Agreement and to the successors, executors, administrators and legal representatives (and said assigns) of such other party, in respect of all covenants, agreements, and obligations of this Agreement.

B. Neither Owner nor Engineer may assign, sublet, or transfer any rights under or interest (including, but without limitation, moneys that are due or may become due) in this Agreement without the written consent of the other, except to the extent that any assignment, subletting, or transfer is mandated or restricted by law. Unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement.

C. Unless expressly provided otherwise in this Agreement:

1. Nothing in this Agreement shall be construed to create, impose, or give rise to any duty owed by Owner or Engineer to any Contractor, Subcontractor, Supplier, other individual or entity, or to any surety for or employee of any of them.
2. All duties and responsibilities undertaken pursuant to this Agreement will be for the sole and exclusive benefit of Owner and Engineer and not for the benefit of any other party.

3. Owner agrees that the substance of the provisions of this Paragraph 6.09 C shall appear in the Contract Documents.

6.10 Claims and Dispute Resolution:

A. Owner and Engineer agree to negotiate all disputes between them in good faith for a period of 30 days from the date of notice prior to invoking the procedures herein provided or exercising their rights under law. If the parties fail to resolve a dispute through negotiation, then either or both may invoke the mediation procedures provided herein.

B. Owner and Engineer agree that they shall first submit any and all unsettled claims, counterclaims, disputes, and other matters in question between them arising out of or relating to this Agreement or the breach thereof ("Disputes") to mediation in accordance with the Construction Industry Mediation Rules of the American Arbitration Association currently in effect or as mutually agreed by the parties. Request for mediation shall be filed in writing with the other party to this Agreement and shall include a list of no less than three nor more than six names, addresses and qualifications of industry-experienced mediators which the filing party will accept to conduct the mediation. The rules of mediation shall be established by the parties or the parties' counsel in conjunction with the mediator. Mediation shall proceed in advance of legal or equitable proceedings, which shall be stayed pending mediation for a period of 60 days from the date of filing, unless stayed for a longer period of agreement of the parties or court order. The parties shall share the mediator's fee and any filing fees equally. The mediation shall be held in the place where the Project is located, unless another location is mutually agreed upon. Agreements reached in mediation shall be enforceable as settlement agreements in any court having jurisdiction thereof.

C. If such mediation is unsuccessful in resolving a Dispute, then either party may seek to have the Dispute resolved by a court of competent jurisdiction. In the event of litigation arising from or related to this Agreement or the services provided under this Agreement, the prevailing party shall be entitled to recover in accordance with State law.

D. Owner and Engineer shall commence all claims and causes of action, whether in contract, tort, or otherwise, against the other arising out of or related to this Agreement in accordance with the requirements of the method of binding dispute resolution selected in this Agreement within the period specified by applicable law in effect at the time this Agreement was executed, but in any case not more than 10 years after the date of Substantial Completion of the Work. Owner and Engineer waive all claims and causes of action not commenced in accordance with this Paragraph 6.10 D.

6.11 Environmental Condition of Site:

A. Owner has disclosed to Engineer in writing the existence of all known and suspected Asbestos, PCBs, Petroleum, Hazardous Waste, Radioactive Material, hazardous substances, and other Constituents of Concern located at or near the Site, including type, quantity, and location.

B. Owner represents to Engineer that to the best of its knowledge no Constituents of Concern, other than those disclosed in writing to Engineer, exist at the Site.

C. If Engineer encounters or learns of an undisclosed Constituent of Concern at the Site, then Engineer shall notify (1) Owner and (2) appropriate governmental officials if Engineer reasonably concludes that doing so is required by applicable Laws or Regulations.

D. It is acknowledged by both parties that Engineer's scope of services does not include any services related to Constituents of Concern. If Engineer or any other party encounters an undisclosed Constituent of Concern, or if investigative or remedial action, or other

professional services, are necessary with respect to disclosed or undisclosed Constituents of Concern, then Engineer may, at its option and without liability for consequential or any other damages, suspend performance of services on the portion of the Project affected thereby until Owner: (1) retains appropriate specialist consultants or contractors to identify and, as appropriate, abate, remediate, or remove the Constituents of Concern; and (2) warrants that the Site is in full compliance with applicable Laws and Regulations.

E. If the presence at the Site of undisclosed Constituents of Concern adversely affects the performance of Engineer's services under this Agreement, then the Engineer shall have the option of (1) accepting an equitable adjustment in its compensation or in the time of completion, or both; or (2) terminating this Agreement for cause on 30 days notice.

F. Owner acknowledges that Engineer is performing professional services for Owner and that Engineer is not and shall not be required to become an "owner" "arranger," "operator," "generator," or "transporter" of hazardous substances, as defined in the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended, which are or may be encountered at or near the Site in connection with Engineer's activities under this Agreement.

6.12 Allocation of Risk:

A. Indemnification by Engineer: To the fullest extent permitted by law, Engineer shall indemnify and hold harmless Owner, and Owner's officers, directors, members, partners, consultants, and employees from costs, losses, and damages arising out of or relating to the Project, provided that any such cost, loss, or damage is attributable to bodily injury, sickness, disease, or death, or to injury to or destruction of tangible property (other than the Work itself), including the loss of use resulting therefrom, but only to the extent caused by any negligent act or omission of Engineer or Engineer's officers, directors, members, partners, employees, or Consultants.

B. Indemnification by Owner: To the fullest extent permitted by law, Owner shall indemnify and hold harmless Engineer, Engineer's officers, directors, partners, employees, and consultants from and against any and all costs, losses, and damages (including but not limited to reasonable fees and charges of all professionals, and all court or other dispute resolution costs) to the extent caused by the Owner or Owner's officers, directors, partners, employeescons, consultants or contractors with respect to this Agreement or the Project.

C. Environmental Indemnification: To the fullest extent permitted by law, Owner shall indemnify and hold harmless Engineer and its officers, directors, members, partners, employees, and Consultants from and against any and all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys and other professionals, and all court, arbitration, or other dispute resolution costs) caused by, arising out of, relating to, or resulting from a Constituent of Concern at, on, or under the Site, provided that (1) any such claim, cost, loss, or damage is attributable to bodily injury, sickness, disease, or death, or to injury to or destruction of tangible property (other than the Work itself), including the loss of use resulting therefrom, and (2) nothing in this paragraph shall obligate Owner to indemnify any individual or entity from and against the consequences of that individual's or entity's own negligence or willful misconduct.

D. No Defense Obligation: The indemnification commitments in this Agreement do not include a defense obligation by the indemnitor unless such obligation is expressly stated.

E. Percentage Share of Negligence: To the fullest extent permitted by law, a party's total liability to the other party and anyone claiming by, through, or under the other party for any cost, loss, or damages caused in part by the negligence of the party and in part by the

negligence of the other party or any other negligent entity or individual, shall not exceed the percentage share that the party's negligence bears to the total negligence of Owner, Engineer, and all other negligent entities and individuals.

F. Mutual Waiver: To the fullest extent permitted by law, Owner and Engineer waive against each other, and the other's employees, officers, directors, members, insurers, partners, and consultants, any and all claims for or entitlement to special, incidental, indirect, or consequential damages arising out of, resulting from, or in any way related to the Project or this Agreement. To the fullest extent permitted by law, and notwithstanding any other provision in the Agreement, consistent with the terms of this Paragraph, the Engineer and Engineer's officers, directors, partners, employees, agents, and Engineer's Consultants, or any of them, shall not be liable to Owner or anyone claiming by, through, or under Owner for any special, incidental, indirect, or consequential damages whatsoever arising out of, resulting from, or in any way related to the Project or the Agreement from any cause or causes, including but not limited to any such damages caused by the negligence, professional errors or omissions, strict liability, breach of contract, or warranties, express or implied, of Engineer or Engineer's officers, directors, partners, employees, agents, or Engineer's Consultants, or any of them.

G. Limitation of Liability. To the fullest extent permitted by law, and notwithstanding any other provision of this Agreement, the total liability, in the aggregate, of Engineer and Engineer's officers, directors, partners, employees, agents, and Engineer's Consultants, and any of them, to Owner and anyone claiming by, through, or under Owner for any and all claims, losses, costs, or damages whatsoever arising out of, resulting from or in any way related to the Project or the Agreement from any cause or causes, including but not limited to the negligence, professional errors or omissions, strict liability or breach of contract, or warranty express or implied of Engineer or Engineer's officers, directors, partners, employees, agents, or Engineer's Consultants, or any of them, shall not exceed the total compensation received by Engineer under this Agreement. Provided, however, if this Agreement is used as a master agreement to which separate projects are added by Task Orders, then the total liability of those named above shall not exceed the total compensation received by Engineer under such Task Order.

H. Premium Cost: If, after the construction has begun, an error or omission is discovered and the item can still be provided in the planned sequence of construction without a premium cost to the Owner; then the Owner will pay for this entire item just as if it had been included in the original contract documents. If this error or omission is discovered out of sequence with the planned construction schedule resulting in a premium cost, then the Engineer will pay the premium cost to have this item corrected or included, while the Owner will pay the value of the item as if it had been included in the original contract documents. If such premium cost falls within two percent (2%) of the defined construction cost, then such cost shall be the responsibility of the Owner.

6.13 Miscellaneous Provisions:

A. Notices: Any notice required under this Agreement will be in writing, addressed to the appropriate party at its address on the signature page and given personally, by facsimile, by

registered or certified mail postage prepaid, or by a commercial courier service. All notices shall be effective upon the date of receipt.

B. Survival: All express representations, waivers, indemnifications, and limitations of liability included in this Agreement will survive its completion or termination for any reason.

C. Severability: Any provision or part of the Agreement held to be void or unenforceable under any Laws or Regulations shall be deemed stricken, and all remaining provisions shall continue to be valid and binding upon Owner and Engineer, which agree that the Agreement shall be reformed to replace such stricken provision or part thereof with a valid and enforceable provision that comes as close as possible to expressing the intention of the stricken provision.

D. Waiver: A party's non-enforcement of any provision shall not constitute a waiver of that provision, nor shall it affect the enforceability of that provision or of the remainder of this Agreement.

E. Accrual of Claims: To the fullest extent permitted by law, all causes of action arising under this Agreement shall be deemed to have accrued, and all statutory periods of limitation shall commence, no later than the date of Substantial Completion.

F. Photographic or Artistic Representations: Engineer shall have the right to include photographic or artistic representations of the design of the Project among the Engineer's promotional and professional materials. Engineer shall be given reasonable access to the completed Project to make such representations. However, Engineer's material shall not include Owner's confidential or proprietary information if Owner has previously advised engineer in writing of the specific information considered by Owner to be confidential or proprietary. Owner shall provide professional credit for Engineer in Owner's promotional materials for the Project.

G. Confidential or Business Proprietary. If the Engineer or Owner receives information specifically designated as "confidential" or "business proprietary," the receiving party shall keep such information strictly confidential and shall not disclose it to any other person except as set forth in Section 6.13 G. This Section 6.13 G shall survive the termination of this Agreement.

1. The receiving party may disclose "confidential" or "business proprietary" information after 7 days' notice to the other party, when required by law, arbitrator's order, or court order, including a subpoena or other form of compulsory legal process issued by a court or governmental entity, or to the extent such information is reasonably necessary for the receiving party to defend itself in any dispute. The receiving party may also disclose such information to its employees, consultants, or contractors in order to perform services or work solely and exclusively for the Project, provided those employees, consultants and contractors are subject to the restrictions on the disclosure and use of such information as set forth in this Section 6.13 G. In the event either party knows or reasonably believes that the other's "confidential" or "business proprietary" information has been subject to any circumstance where the security, integrity, or confidentiality of any of the other's "confidential" or "business proprietary" information has been compromised, damaged, lost, corrupted, destroyed, or accessed, acquired, modified, used, disclosed, or rendered inaccessible, by any unauthorized person, by any person in an unauthorized manner, or for an unauthorized purpose, the party experiencing the

breach will provide written notice to the other party as soon as reasonably possible after it becomes aware of any breach.

2. "Confidential" or "business proprietary" information shall not include:
   a. information which is now in the public domain, or which later enters the public domain, through no action on the receiving party's part in violation of this Agreement;
   b. information which was already in receiving party's possession at the time of its disclosure;
   c. information already in the possession of the receiving party at the time of disclosure and was not obtained from the disclosing party previously;
   d. information later obtained by the receiving party on a non-confidential basis from a third party not known by the receiving party to be under an obligation or confidentiality to the disclosing party; or
   e. information which may be necessary for the performance of services under this Agreement that is independently developed by the receiving party's employees who had no access to or knowledge of the "confidential" or "business proprietary" information.

3. The parties agree that personally identifiable information ("PII") will not be transmitted under this Agreement, except for the names and business contact information of personnel participating in the Project. In the event a party inadvertently shares PII beyond the scope of this Section 6.13 G, the other party will provide notice of the breach as soon as possible and will not have further responsibility for the other party's breach of PII under this Agreement.

6.14 Special Provisions: Listed as follows or None as stated below:

None

ARTICLE 7 - DEFINITIONS

7.01 Defined Terms. Wherever used in this Agreement (including the Exhibits hereto) terms (including the singular and plural forms) printed with initial capital letters have the meanings indicated in the text above, in the exhibits, or in the following provisions:

1. Additional Services – The services to be performed for or furnished to Owner by Engineer in accordance with Part 2 of Exhibit A of this Agreement.
2. Agreement – This written contract for professional services between Owner and Engineer, including all exhibits identified in Paragraph 8.01 and any duly executed amendments.
3. Asbestos – Any material that contains more than one percent asbestos and is friable or is releasing asbestos fibers into the air above current action levels established by the United States Occupational Safety and Health Administration.
4. Basic Services – The services to be performed for or furnished to Owner by Engineer in accordance with Part 1 of Exhibit A of this Agreement.
5. Construction Contract – The entire and integrated written agreement between Owner and Contractor concerning the Work.
6. Construction Cost – The cost to Owner of those portions of the entire Project designed or specified by Engineer. Construction Cost does not include costs of services of Engineer or other design professionals and consultants; cost of land or rights-of-way, or compensation for damages to properties; Owner's costs for legal, accounting, insurance counseling or auditing services; interest or financing charges incurred in connection with the Project; or the cost of other services to be provided by others to Owner pursuant to Exhibit B of this Agreement. Construction Cost is one of the items comprising Total Project Costs.

7. Constituent of Concern – Asbestos, petroleum, radioactive material, polychlorinated biphenyls (PCBs), hazardous waste, and any substance, product, waste, or other material of any nature whatsoever that is or becomes listed, regulated, or addressed pursuant to (a) the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. §§9601 et seq. ("CERCLA"); (b) the Hazardous Materials Transportation Act, 49 U.S.C. §§5101 et seq.; (c) the Resource Conservation and Recovery Act, 42 U.S.C. §§6901 et seq. ("RCRA"); (d) the Toxic Substances Control Act, 15 U.S.C. §§2601 et seq.; (e) the Clean Water Act, 33 U.S.C. §§1251 et seq.; (f) the Clean Air Act, 42 U.S.C. §§7401 et seq.; or (g) any other federal, State, or local statute, law, rule, regulation, ordinance, resolution, code, order, or decree regulating, relating to, or imposing liability or standards of conduct concerning, any hazardous, toxic, or dangerous waste, substance, or material.
8. Consultants – Individuals or entities having a contract with Engineer to furnish services with respect to this Project as Engineer's independent professional associates and consultants; subcontractors; or vendors.
9. Contract Documents – Those items so designated in the Construction Contract, including the Drawings, Specifications, construction agreement, and general and supplementary conditions. Only printed or hard copies of the items listed in the Construction Contract are Contract Documents. Approved Shop Drawings, other Contractor submittals, and the reports and drawings of subsurface and physical conditions are not Contract Documents.
10. Contractor – The entity or individual with which the Owner has entered into a Construction Contract.
11. Documents – Data, reports, Drawings, Specifications, Record Drawings, and other deliverables, whether in printed or electronic media format, provided or furnished in appropriate phases by Engineer to Owner pursuant to this Agreement.
12. Drawings – That part of the Contract Documents prepared or approved by Engineer which graphically shows the scope, extent, and character of the Work to be performed by Contractor. Shop Drawings are not Drawings as so defined.
13. Effective Date – The date indicated in this Agreement on which it becomes effective, but if no such date is indicated, the date on which this Agreement is signed and delivered by the last of the parties to sign and deliver.
14. Engineer – The individual or entity named as such in this Agreement.
15. Hazardous Waste – The term Hazardous Waste shall have the meaning provided in Section 1004 of the Solid Waste Disposal Act (42 USC Section 6903) as amended from time to time.
16. Laws and Regulations; Laws or Regulations – Any and all applicable laws, rules, regulations, ordinances, codes, and orders of any and all governmental bodies, agencies, authorities, and courts having jurisdiction.
17. Owner – The individual or entity with which Engineer has entered into this Agreement and for which the Engineer's services are to be performed. Unless indicated otherwise, this is the same individual or entity that will enter into any Construction Contracts concerning the Project.
18. PCBs – Polychlorinated biphenyls.
19. Petroleum – Petroleum, including crude oil or any fraction thereof which is liquid at standard conditions of temperature and pressure (60 degrees Fahrenheit and 14.7 pounds per square inch absolute), such as oil, petroleum, fuel oil, oil sludge, oil refuse, gasoline, kerosene, and oil mixed with other non-hazardous waste and crude oils.
20. Project – The total construction of which the Work to be performed under the Contract Documents may be the whole, or a part.
21. Radioactive Material – Source, special nuclear, or byproduct material as defined by the Atomic Energy Act of 1954 (42 USC Section 2011 et seq.) as amended from time to time.

22. Record Drawings – Drawings depicting the completed Project, prepared by Engineer as an Additional Service and based solely on Contractor's record copy of all Drawings, Specifications, addenda, change orders, work change directives, field orders, and written interpretations and clarifications, as delivered to Engineer and annotated by Contractor to show changes made during construction.
23. Reimbursable Expenses – The expenses incurred directly by Engineer in connection with the performing or furnishing of Basic and Additional Services for the Project.
24. Resident Project Representative – The authorized representative of Engineer assigned to assist Engineer at the Site during the Construction Phase. As used herein, the term Resident Project Representative or "RPR" includes any assistants or field staff of Resident Project Representative agreed to by Owner. The duties and responsibilities of the Resident Project Representative, if any, are as set forth in Exhibit D.
25. Samples – Physical examples of materials, equipment, or workmanship that are representative of some portion of the Work and which establish the standards by which such portion of the Work will be judged.
26. Shop Drawings – All drawings, diagrams, illustrations, schedules, and other data or information which are specifically prepared or assembled by or for Contractor and submitted by Contractor to illustrate some portion of the Work.
27. Site – Lands or areas to be indicated in the Contract Documents as being furnished by Owner upon which the Work is to be performed, including rights-of-way and easements for access thereto, and such other lands furnished by Owner which are designated for the use of Contractor.
28. Specifications – That part of the Contract Documents consisting of written technical descriptions of materials, equipment, systems, standards, and workmanship as applied to the Work and certain administrative details applicable thereto.
29. Subcontractor – An individual or entity having a direct contract with Contractor or with any other Subcontractor for the performance of a part of the Work at the Site.
30. Substantial Completion – The time at which the Work (or a specified part thereof) has progressed to the point where, in the opinion of Engineer, the Work (or a specified part thereof) is sufficiently complete, in accordance with the Contract Documents, so that the Work (or a specified part thereof) can be utilized for the purposes for which it is intended. The terms "substantially complete" and "substantially completed" as applied to all or part of the Work refer to Substantial Completion thereof.
31. Supplier – A manufacturer, fabricator, supplier, distributor, materialman, or vendor having a direct contract with Contractor or with any Subcontractor to furnish materials or equipment to be incorporated in the Work by Contractor or Subcontractor.
32. Total Project Costs – The sum of the Construction Cost, allowances for contingencies, and the total costs of services of Engineer or other design professionals and consultants, together with such other Project-related costs that Owner furnishes for inclusion, including but not limited to cost of land, rights-of-way, compensation for damages to properties, Owner's costs for legal, accounting, insurance counseling and auditing services, interest and financing charges incurred in connection with the Project, and the cost of other services to be provided by others to Owner pursuant to Exhibit B of this Agreement.
33. Work – The entire construction or the various separately identifiable parts thereof required to be provided under the Contract Documents. Work includes and is the result of performing or providing all labor, services, and documentation necessary to produce such construction, and furnishing, installing, and incorporating all materials and equipment into such construction, all as required by the Contract Documents.

ARTICLE 8 - EXHIBITS AND SPECIAL PROVISIONS

8.01 Exhibits Included:

Exhibit A, Engineer's Services

Exhibit B, Owner's Responsibilities

Exhibit C, Payments to Engineer for Services and Reimbursable Expenses

Exhibit D, Duties, Responsibilities and Limitations of Authority of Resident Project Representative--Not Included

Exhibit E, Notice of Acceptability of Work--Not Included

Exhibit F, Not Used

Exhibit G, Amendment to Owner-Engineer Agreement

☒ Digital Data Transmission Exhibit

OR

☐ AIA E202

8.02 Total Agreement: This Agreement, (together with the exhibits identified above) constitutes the entire agreement between Owner and Engineer and supersedes all prior written or oral understandings. This Agreement may only be amended, supplemented, modified, or canceled by a duly executed written instrument based on the format of Exhibit F to this Agreement.

8.03 Designated Representatives: With the execution of this Agreement, Engineer and Owner shall designate specific individuals to act as Engineer's and Owner's representatives with respect to the services to be performed or furnished by Engineer and responsibilities of Owner under this Agreement. Such an individual shall have authority to transmit instructions, receive information, and render decisions relative to the Project on behalf of the respective party whom the individual represents.

8.04 Engineer's Certifications: Engineer certifies that it has not engaged in corrupt, fraudulent, or coercive practices in competing for or in executing the Agreement. For the purposes of this Paragraph 8.04: "corrupt practice" means the offering, giving, receiving, or soliciting of any thing of value likely to influence the action of a public official in the selection process or in the Agreement execution; "fraudulent practice" means an intentional misrepresentation of facts made (a) to influence the selection process or the execution of the Agreement to the detriment of Owner, or (b) to deprive Owner of the benefits of free and open competition; and "coercive practice" means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the selection process or affect the execution of the Agreement.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed by their duly authorized representatives, the Effective Date of which is indicated on page 1.

September 11, 2024

Mr. Charles King, P.E.
Town Engineer
Town of Smyrna
315 S. Lowry St.
Smyrna, TN 37167

Subject: **Rock Springs Road Survey, Traffic and Functional Layouts**
Smyrna, Tennessee

Dear Mr. King:

We are providing this proposal to provide functional layouts and survey for Rock Springs Road from Austin Lee Drive to Neeedham Drive. At the request of the Town the scopes and fees are provided for Phase 1 and Phase 2 for the project. The purpose of this project is to update traffic volumes to determine how many lanes are justified, complete a signal warrant, provide survey and complete functional layouts to show impacts to properties and utilities. Below please find a detailed scope of work and the estimate fee to provide these services.

Scope of Work – A detailed scope of services is attached.

Fee Summary – The fee for providing services for Phase 1 is $133,420.00. The fee for providing services for Phase 2 is $93,930.00. Both fees are lump sum and include miscellaneous expenses.

Notice to Proceed – We are available to begin work upon your Notice to Proceed (NTP) with Phase 1. Phase 2 will not be completed until the Town issues a NTP to that Phase.

We appreciate the opportunity to provide this proposal to the Town of Smyrna and to continue working with you and your staff. If you should find this proposal acceptable, you may sign this letter as your notice to proceed. The Town will execute and their own agreement with Gresham Smith for this project

222 Second Avenue South
Suite 1400
Nashville, TN 37201

Scope and fee

Town of Smyrna

Mary Esther Reed, Mayor

Gresham Smith

Scope of Work for Rock Springs Road from Austin Lee Drive to Needham Drive
Functional Layouts, Survey and Signal Warrant/Traffic Volumes
Town of Smyrna

PROJECT DESCRIPTION

The scope of this project has been divided into two phases at the request of the Town. The general scope of the project consists of the development of functional layouts for the proposed improvements to Rock Springs Road from Austin Lee Drive to Needham Drive, including the intersections of Rock Springs Road and Austin Lee Drive and Rock Springs Road and Old Nashville Highway. The development of functional layouts will include establishing the number of lanes to be constructed based on updated traffic analysis as well identifying the magnitude of potential right-of-way and utility impacts. A cost estimate will also be developed to assist the Town in budgeting for construction. In addition to the functional layouts, scopes and fees are provided for updating traffic volumes, providing a signal warrant, and obtaining survey for Phase 1 and Phase 2. Detailed scopes and fees are provided below.

DESCRIPTION OF SERVICES

A. Survey Phase 1 — $103,420

HMB will perform a full engineering design survey for approximately 0.50 miles along Rock Springs Road from southwest of Austin Lee Drive to northeast of Needham Drive. The DTM width will vary with an approximate average of 200'. Side road alignments will be included along Austin Lee Drive, Old Nashville Highway, and Needham Drive. See the attachment for a more detailed location of the survey limits.

HMB will use a combination of traditional ground survey methods along with mobile and aerial lidar to collect topographic and roadway features. Field survey services will be used to collect aboveground utilities and storm and sanitary inverts. A quality level "B" S.U.E. investigation will be included throughout the limits. Right-of way-lines will be resolved throughout the survey limits along with the resolution of 35 property tracts (see attached map for tract count). Deliverables will be in ORD formats per TDOT CADD standards.

B. Functional Layouts — $23,000

The purpose of these services is to develop functional layouts identifying the number of lanes and potential right-of-way and utility impacts associated with proposed improvements to Rock Springs Road from Austin Lee Drive to Needham Drive. We believe the following services to be provided by task as listed below will be necessary to meet the Town of Smyrna's requests:

I. **Update Roadway Layout**
Gresham Smith will modify the proposed pavement and pavement markings shown in functional layouts developed in 2018 as needed to update the number of lanes to be constructed based on the traffic analysis.

II. **Estimate ROW Impacts**
Gresham Smith will use survey and the proposed roadway layout to estimate potential ROW impacts required based on the proposed improvements. Estimated proposed ROW lines will be shown on the functional layouts to convey the magnitude of potential ROW impacts.

III. **Identify Potential Utility Impacts**
Gresham Smith will review the locations of existing utilities identified by survey and analyze potential impacts based on the proposed roadway layout and estimated proposed ROW lines. Utility locations will be added to the functional layouts to convey potential utility impacts.

IV. **Update Opinion of Probable Cost**
Gresham Smith will update the cost estimate developed in 2018 based on changes to the roadway layout and estimated right-of-way and utility impacts to assist the Town in budgeting for construction. More recent unit costs will be used to reflect increases in cost of materials since the previous cost estimate was developed.

V. **Finalize Deliverables**
Gresham Smith will internally review the developed functional layouts and submit to the Town of Smyrna for initial review. Comments received from the Town will be addressed and the following final deliverables will be submitted:

Deliverables:

- PDF Package for Functional Layouts and Cost Estimate
  - Proposed layout showing proposed pavement, pavement markings, estimated ROW lines, and utilities
  - Opinion of Probable Cost

VI. **Coordination Meeting**
Gresham Smith will prepare for and attend a single coordination meeting with the Town of Smyrna to summarize the updates to the functional layouts based on traffic analysis and the magnitude of potential right-of-way and utility impacts. The content produced as the final deliverables is assumed to be used for the presentation materials.

C. Traffic Generation **$5,000**

This scope of services describes the work necessary for Gresham Smith to assist the Town of Smyrna with the preparation of traffic analysis for the modification of the existing intersections of Rock Springs Road with Old Nashville Highway (signalized) and with Austin Lee Drive (unsignalized) in Smyrna, Tennessee. The scope of services is outlined below.

- Contract with a subconsultant to provide AM and PM peak hour traffic count data for the intersection of Rock Springs Road with Austin Lee Drive.
- Review traffic count data collected by others.
- Review two TDOT traffic count stations on Rock Springs Road and two TDOT traffic count stations on Old Nashville Highway to estimate a growth rate for traffic projections.
- Estimate future volumes at the intersection of Rock Springs Road with Old Nashville Highway for 2028 and 2048.
- Perform intersection capacity analysis at the intersection of Rock Springs Road with Austin Lee Drive based on existing volume conditions to estimate potential queue lengths for the purposes of roadway design.
- Perform intersection capacity analysis of the intersection of Rock Springs Road with Old Nashville Highway under existing and future volume conditions to determine an appropriate number of lanes for each approach and estimate potential queue lengths for the purposes of roadway design.
- Written summary of the queue length analysis and lane analysis.

D. Signal Warrant Analysis **$2,000**

Signal warrant analysis will be provided for the intersection of Rock Springs Road with Austin Lee Drive. The signal warrant analysis fee assumes the items in Section C are completed in addition to the signal warrant as the traffic volumes are needed for the signal warrant. The scope of services is provided below:

- Contract with a subconsultant to provide consecutive 12-hour approach traffic count data for the intersection of Rock Springs Road with Austin Lee Drive.
- Review traffic count data collected by others.
- Prepare a signal warrant analysis for the intersection of Rock Springs Road with Austin Lee Drive based on vehicular volume (MUTCD Warrants 1 and 2).
- Written summary of the signal warrant analysis

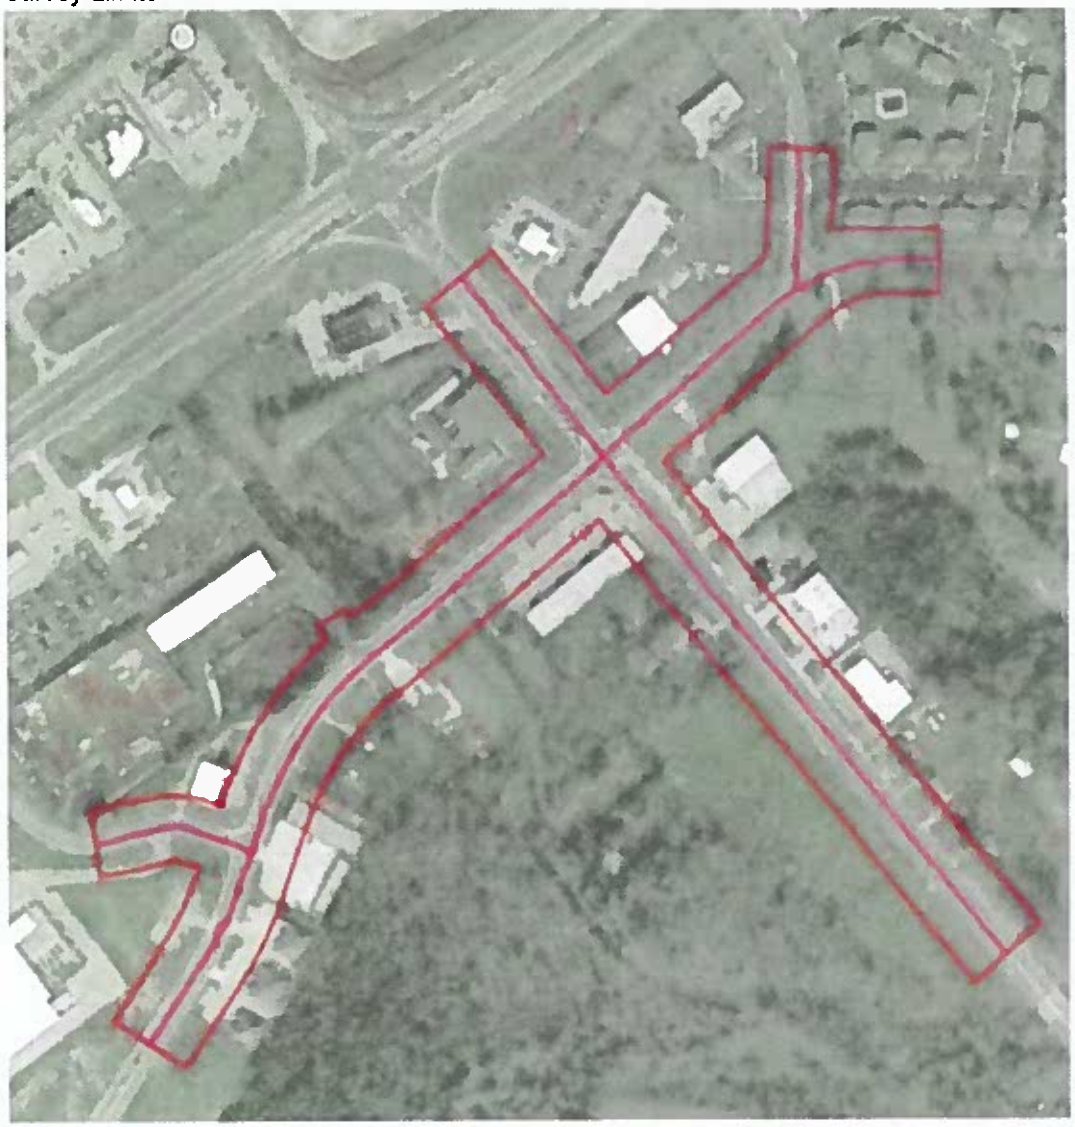

Following is a list of assumptions for the traffic portions of this scope:

- Traffic signal timing and operation information will be provided by the Town of Smyrna.
- Traffic analysis for the intersection of Rock Springs Road with Old Nashville Highway will rely on existing traffic volume data provided in the 2023 Spring Branch Townhome Development Traffic Impact Study.
    - This will include projected development volumes and trip distribution from this study.
- Projected development volumes and trip distribution from the 2020 *Harts Branch Village Development Traffic Impact Study* will be used in the Traffic analysis for the intersection of Rock Springs Road with Old Nashville Highway.
- Intersection capacity analysis will be based on the methods in the latest edition of the Highway Capacity Manual.

Our proposed fee for Phase 1 is:

Grand Total Lump Sum Phase 1: **$133,420.00**

E. Survey Phase 2 **$93,930**

HMB will perform a full engineering design survey for approximately 0.56 miles along Rock Springs Road from southwest of Cedar Grove Road to southwest of Austin Lee Drive. The DTM width will vary with an approximate average of 200'. Side road alignments will be included along Cedar Grove Drive, Potomac Place, Jim Parker Drive, and Isabella Lane/Spring Hill Drive. See the attachment for a more detailed location of the survey limits.

HMB will use a combination of traditional ground survey methods along with mobile and aerial lidar to collect topographic and roadway features. Field survey services will be used to collect aboveground utilities and storm and sanitary inverts. A quality level "B" S.U.E. investigation will be included throughout the limits. Right-of-way lines will be resolved throughout the survey limits along with the resolution of 28 property tracts (see attached map for tract count). Deliverables will be in ORD formats per TDOT CADD standards.

Grand Total Lump Sum Phase 2: **$93,930.00**

Grand Total Phase 1 and Phase 2 Lump Sum: **$227,350.00**

Additional Services that apply to Phase 1 and Phase 2:

The following services are **not** included in the scope, but may be completed at the request of the owner for additional fees.

- Roadway Design & Engineering
- Drainage Design & Engineering
- Traffic Signal Design
- Environmental Tech Studies
- Geotechnical Exploration
- Utility Coordination
- Utility Relocation Design Services
- ROW Design
- ROW or Easement Staking
- Appraisals
- Title Searches, Property Owner Negotiations, and Closings
- Public Meetings
- Analysis at additional intersections and/or additional scenarios (phases of construction)
- Analysis of alternative intersection configurations

- Traffic signal design or modification and/or associated design plans
- Crash or safety analysis
- Year-of-failure capacity analysis
- Projected volumes for future warrant analysis
- Estimated volumes for additional developments not noted in this scope
- All construction, right-of-way, and easement staking, and the creation of easement and right-of-way acquisition documents are excluded. Quality level "A" S.U.E. and a hydraulic survey along Rock Spring Branch will also be excluded.

OWNERS'S RESPONSIBILITIES/
PAYMENTS TO ENGINEER FOR SERVICES AND REIMBURSABLE EXPENSES:

Compensation for Basic Services-Lump Sum Percent Complete Basis; not to exceed $133,420.00 for Phase 1 and $93,930.00 for Phase 2:

Owner shall pay Engineer for Basic Services set forth in the Agreement, as follows:

- Under no circumstances shall the amount payable to the Engineer exceed $227,350.00 (total of all charges) without the written consent of both the Engineer and the Owner.

DIGITAL DATA TRANSMISSION EXHIBIT

Gresham Smith Project Number AND Name: Rock Springs Road ("Project")

Gresham Smith Client/Owner: Town of Smyrna

Project Agreement Date: Click or tap here to enter text. ("Project Agreement")

FROM: Gresham Smith's Representative Name: Click or tap here to enter text.

DATE: 10/10/2024

TO: Town of Smyrna (CLIENT/OWNER'S REPRESENTATIVE)

This Exhibit provides for the creation of the protocols for the development, use, transmission, and exchange of digital files ("Digital Data") for use solely on the above-named Project and to accompany the above-identified Project Agreement. If Building Information Modeling will be utilized, this Exhibit also provides for the establishment of protocols necessary to implement the use of Building Information Modeling on the Project, including protocols establishing the expected level of development for the model elements at various milestones of the Project and the associated Authorized Uses of the Building Information Model, which will be documented in an attached Digital Model Execution Plan. All project data shall be used solely for project development and coordination.

DEFINTIONS

AUTHORIZED USES - refers to the permitted uses of Digital Data authorized in the protocols established in this Exhibit and any Digital Data Model Execution Plan ("DMEP") attached hereto.

BUILDING INFORMATION MODEL – is a digital representation of the Project, or a portion thereof, and is referred to as the "Model", which term may be used herein to describe an element, a single model or multiple models used in the aggregate, as well other data sets identified in the DMEP.

CLIENT/OWNER – The party with whom Gresham Smith is contracting.

DIGITAL DATA - is information, including communications, reports, studies, drawings, specifications, and designs, created, or stored for the Project in digital form. Unless otherwise stated, the term Digital Data includes the Model.

DIGITAL MODEL EXECUTION PLAN ("DMEP") – establishes protocols for the Building Information Model, including the LOD. **If using a Model, the DMEP must be used.**

LEVEL OF DEVELOPMENT ("LOD") - describes the minimum dimensional, spatial, quantitative, qualitative, and other data included in a model element to support the Authorized Uses associated with such LOD. See Digital Model Execution Plan.

PROJECT PARTICIPANT(S) – an entity (or individual) providing services, work, equipment, or materials on the Project, including Client/Owner/Owner and Gresham Smith.

DIGITAL DATA TRANSMISSION

This Client/Owner and Gresham Smith agree that this Exhibit will be incorporated into agreements with any other Project Participants, third-party beneficiaries, who are providing services, work, equipment, or materials on this Project. No other third-party beneficiary rights are created other than those expressly stated herein.

The transmitting party makes no representation as to long-term compatibility, usability or readability of the data resulting from the use of software application packages, operating systems, or computer hardware different from

those used by the creator. Gresham Smith's fee and schedule of performance of Services are based on the use of Newforma software as the primary transmission method for the Project.

The transmitting party does not convey ownership rights in the Digital Data or in the software used to generate the Digital Data. Unless otherwise granted in a separate license, the receiving party's right to use, modify or further transmit Digital Data is specifically limited to designing, constructing, using, maintaining, altering and adding to the Project consistent with the terms of this Exhibit. Nothing contained herein conveys any other right to use the Digital Data.

The Project Participants are responsible for managing and maintaining the centralized electronic document management system. The Project Participants responsible for managing and maintaining the centralized document management system will facilitate the establishment of protocols for transmission, use, storage and archiving of the centralized Digital Data and assist in the preparation of the DMEP when required.

WAIVER:

By accepting access to Digital Data, you acknowledge acceptance of these terms and conditions, agree to make no claim and hereby waive, to the fullest extent permitted by law, any claim or cause of action of any nature against Gresham Smith, its officers, directors, employees, agents, and consultants ("Gresham Smith"), which may arise out of or in connection with your use of the Digital Data. Furthermore, you shall, to the fullest extent permitted by law, indemnify and hold Gresham Smith harmless from and against all damages, liabilities, or costs, including attorneys' fees and defense costs, arising out of or resulting from your use of the Digital Data or any usage by a firm or individual which obtained the Digital Data from you. You also agree to make known the terms and conditions contained herein to all firms or individuals which obtain the Digital Data from you.

A. It is expressly understood for BIM files that: 1) these files have been developed by Gresham Smith solely as tools in the development of the design of the Project and are issued for your convenience; 2) these files are not construction documents and that differences exist between these files and the construction documents for the Project; and 3) these files are to be read in conjunction with the construction documents for the Project and are not to be used for fabrication or construction of any kind.

B. It is expressly understood for CAD files that: 1) these files are not construction documents; 2) differences may exist between these files and existing conditions.
C. It is expressly understood for all other digital data that the data is shared solely for the purpose as defined on the project transmittal.

GRESHAM SMITH MAKES NO REPRESENTATIONS REGARDING THE ACCURACY OR COMPLETENESS OF THE INFORMATION REPRESENTED BY THE DIGITAL DATA YOU RECEIVE. GRESHAM SMITH MAKES NO REPRESENTATION AS TO THE COMPATIBILITY OF THESE DIGITAL DATA FILES WITH YOUR HARDWARE OR SOFTWARE; AND ANY USE OR REUSE BY YOU OR BY OTHERS TO WHOM YOU PROVIDE DIGITAL DATA WILL BE AT YOUR SOLE RISK AND WITHOUT LIABILITY OR LEGAL EXPOSURE TO GRESHAM SMITH. UNDER NO CIRCUMSTANCES SHALL DELIVERY OF DIGITAL DATA BE DEEMED A SALE BY GRESHAM SMITH, AND GRESHAM SMITH MAKES NO WARRANTIES, EITHER EXPRESS OR IMPLIED, OF THEIR MERCHANTABILITY AND FITNESS FOR ANY PARTICULAR PURPOSE. IN NO EVENT, WHATSOEVER, SHALL GRESHAM SMITH BE LIABLE FOR ANY COST OR DAMAGE YOU MAY INCUR AS A RESULT OF YOUR USE OR REUSE OF THIS DIGITAL DATA. TO THE EXTENT THERE ARE DISCREPANCIES BETWEEN THIS DIGITAL DATA AND THE CONSTRUCTION DOCUMENTS FOR THE PROJECT, THE PHYSICAL CONSTRUCTION DOCUMENTS MUST BE RELIED UPON.

EXHIBIT G – Amendment to Owner-Engineer Agreement

Amendment No. 1

The Effective Date of this Amendment is: November 21, 2025

Background Data

Effective Date of Owner-Engineer Agreement: October 10, 2024

Owner: Town of Smyrna

Engineer: Gresham Smith

Project: Rock Springs Road

Nature of Amendment: [Check those that are applicable and delete those that are inapplicable.]

☒ Additional Services to be performed by Engineer
☒ Modifications to services of Engineer
☐ Modifications to responsibilities of Owner
☒ Modifications of payment to Engineer
☒ Modifications to time(s) for rendering services
☐ Modifications to other terms and conditions of the Agreement

Description of Modifications: Proceed with design for the section of Rock Springs Road from Austin Lee Drive to Needham Drive.

Agreement Summary: This amendment removes Phase 2 survey from the original scope in the amount of $93,930.00 and adds design services through Right-of-Way plans for the section from Austin Lee Drive to Needham Drive. $93,930.00 will be applied to the design fee for Phase 1. The original contract is $227,350.00. The total fee for design is $343,700.00. The requested additional fee is $249,770.00 after the remaining $93,930.00 is redirected to the design phase. See attached scope of work for details of the design phase.

Original agreement amount:	$227,350.00
Net change for prior amendments:	$0
This amendment amount:	$249,770.00
Adjusted Agreement amount:	$477,120.00
Change in time for services (days or date, as applicable):	N/A

The foregoing Agreement Summary is for reference only and does not alter the terms of the Agreement, including those set forth in Exhibit C.

Owner and Engineer hereby agree to modify the above-referenced Agreement as set forth in this Amendment. All provisions of the Agreement not modified by this or previous Amendments remain in effect.

In witness whereof, the parties have caused their duly authorized representatives to execute this Amendment as of the date shown below.

Scope of Work
Rock Springs Road from Austin Lee Drive to Needham Drive
Town of Smyrna, Tennessee

PROJECT DESCRIPTION

The purpose of this project is to increase capacity on Rock Springs Road between Austin Lee Drive and Needham Drive, including improvements at the intersection of Rock Springs Road and Old Nashville Highway. The project involves widening Rock Springs Road to a five-lane typical section with curb and gutter and sidewalk.

At the intersection of Rock Springs Road and Old Nashville Highway, the design will provide dual left-turn lanes for the northbound, eastbound, and westbound approaches, along with right-turn lanes for the northbound, southbound, and westbound approaches. A new signal will also be installed at this intersection.

Right-of-way acquisition will be required for this project.

DESCRIPTION OF SERVICES

The purpose of these services is to develop Right-of-Way plans for the proposed project in accordance with Tennessee Department of Transportation (TDOT) standards. The following tasks are anticipated to be necessary to meet the Town of Smyrna's requests:

Roadway Design **$317,800.00**

The roadway design scope includes development of Right-of-Way plans and coordination with utility owners. The purpose of utility coordination to ensure that utility companies are informed of the proposed improvements as they relate to existing facilities and any planned future growth or relocation efforts. The objective is to minimize impacts to existing utilities while coordinating current utility work efforts within the project area.

Tasks included in developing Right-of-Way Plans:

a) Set horizontal and vertical alignments.
b) Develop cross sections at 50-foot intervals.
c) Create typical sections.
d) Design storm sewer systems.
e) Size drainage ditches.
f) Design box culvert extension.
g) Set proposed ROW acquisition and easements, including stakeout information.
h) Prepare exhibits and descriptions for right-of-way and easement acquisition.
i) Develop pavement marking and signing plans.
j) Prepare erosion prevention & sediment control plans.
k) Develop a traffic control plan.
l) Calculate estimated quantities.
m) Prepare an itemized cost estimate.

Tasks performed by the Utility Coordinator include:

a) Distribute copies of the ROW/Utility plans to affected utility owners.
b) Request relocation plans from utilities and facilitate discussions to minimize potential conflicts during construction. Gresham Smith will not perform deconfliction of the utilities but will facilitate coordination efforts during the design phase.

Deliverable
Final Right-of-Way plans for submittal to the Town of Smyrna for approval and distribution to utility owners.

Signal Design **$25,900.00**

Gresham Smith will provide traffic signal design services for the replacement of the existing traffic signal at the intersection of Rock Springs Road and Old Nashville Highway to accommodate the proposed roadway improvements. The signal design will be based on the survey data and roadway design plans developed under the Roadway Design scope. This work will conform to applicable Tennessee Department of Transportation (TDOT) standards, methods, and procedures.

The existing intersection currently serves two (2) approaches for Rock Springs Road and two (2) approaches for Old Nashville Highway, with pedestrian crosswalks on all approaches.

The signal design will include the following components:

a) Type and location of signal poles.
b) Signal head type and placement.
c) Controller and cabinet type and placement (replacement of existing controller and cabinet).
d) Replacement or upgrade of detection systems for stop bar and advanced vehicle detection.
e) Electrical service connection placement.
f) Wiring diagram.
g) Signal phasing diagram.
h) Pedestrian equipment type and placement.
i) Calculation of estimated quantities.
j) Preparation of a cost estimate.

As part of the design effort, Gresham Smith will coordinate with local utilities and the Town of Smyrna to confirm the proposed signal design. It is assumed no more than two (2) virtual coordination meetings, in addition to the site review, will be required. Design plans will be prepared for one (1) Right-of-Way plan phase submittal including a cost estimate.

Deliverable
Final Signal Right-of-Way plans and cost estimate for submittal to the Town of Smyrna for approval and distribution to utility owners.

Additional Services:

The following services are **not** included in the scope, but may be completed at the request of the owner for additional fees.

- Construction plans
- Title searches
- Appraisals
- ROW negotiations
- Structural design of retaining walls or special drainage structures.
- Geotechnical exploration, reporting, and/or design
- Permit fees, any application or mitigation fees (to be paid by the Town)
- Advertisement Fees
- Stream, wetland, or sinkhole mitigation design
- Lighting design and analysis
- Development and/or implementation of signal timing plans
- Construction, ROW or easement staking
- Biological assessments
- Additional survey work required due to field changes
- Subsurface Utility Engineering (SUE) Levels “A” & “B”
- FEMA map revisions
- ITS design
- As-built plans and construction surveying
- Utility relocation design services and plans
- Utility conflict resolution or deconfliction services
- Construction engineering, inspection or administration
- Review of contractor shop drawings
- Landscape design
- Traffic analysis or modeling
- Pavement design (Town standard will be used)
- Redesign due to stakeholder input or general realignment changes by the Town
- Public meeting support, including attendance, exhibits, sign in sheets, comment cards, results of public meetings
- Construction Services (assistance during construction)
- Utility Design

Our proposed fee is summarized below.

Grand Total Lump Sum:	**$343,700.00**
Minus remaining fee in conceptual phase to be redirected:	**-$93,930.00**
Total additional fee being requested:	**$249,770.00**

Agenda Summary

Agenda Item Number 10.
Department: Public Works
Date: January 6, 2026

Subject:
Approval of the terms of, and authorization for the Mayor to execute, Amendment No. 2 with Energy Land and Infrastructure relative to Lee Road Phase 1.

Fiscal Impact:

Original Contract:	$ 444,765.00
Amendment No. 1:	$ 7,700.00
Amendment No. 2:	$ 87,970.00
Adjusted Agreement:	$ 540,435.00

FY25-26 Budget $450,100 Acct. 320-43101-912
$350,000 remaining to cover Amendment No. 1 and 2 and Start Phase 1 ROW

Contract Type:
Contract Change Order /Amendment

Contract Term (if applicable):
6 months from amendment effective date

Background:
Phase 1: From .4 miles west of Lancaster Road to Bermuda Chase Street.

Summary:
This amendment is for design changes due to the potential Rutherford County School property and sidewalks on that side of the road project. Also, alignment and grading changes to accommodate environmental constraints were discovered along the roadway corridor.

Recommended Council Action:
Staff recommends approval of the contract amendment.

AGREEMENT BETWEEN OWNER AND ENGINEER FOR PROFESSIONAL SERVICES

This is an Agreement between **Town of Smyrna, TN** (Owner) and **Energy Land & Infrastructure, LLC** (Engineer). Owner's Project, of which Engineer's services under this Agreement are a part, is generally identified as **Lee Road Widening – Phase 1** (Project). Other terms used in this Agreement are defined in Article 7. Engineer's services under this Agreement are generally identified as **Survey and Design of approximately 1.33 miles of Lee Road from 4000 feet east of Cooks Lane to 3600 feet west of Rocky Fork Road**.

Owner and Engineer further agree as follows:

ARTICLE 1—SERVICES OF ENGINEER

1.01 Scope

A. Engineer shall provide, or cause to be provided, the services set forth herein and in Exhibit A.

B. All phases of service will include Management of Engineering Services as shown in Exhibit A.

ARTICLE 2—OWNER'S RESPONSIBILITIES

2.01 Project Information

A. To the extent Owner has not already provided the following, or has new, additional, or revised information from that previously provided, Owner shall provide Engineer with information and data needed by Engineer in the performance of Basic and Additional Services, including Owner's:

1. design objectives and constraints;
2. space, capacity, and performance requirements;
3. flexibility and expandability needs;
4. design and construction standards;
5. budgetary limitations; and
6. any other available information pertinent to the Project including reports and data relative to previous designs, construction, or investigation at or adjacent to the Site.

B. Following Engineer's assessment of initially-available Project information and data and upon Engineer's request, Owner shall obtain, furnish, or otherwise make available (if necessary through retention of specialists or consultants) such additional Project-related information and data as is reasonably required to enable Engineer to complete its Basic and Additional Services; or, with consent of Engineer, Owner may authorize the Engineer to obtain or provide all or part of such additional information as Additional Services. Such additional information or data may include the following:

1. Property descriptions.
2. Zoning, deed, and other land use restrictions.
3. Surveys, topographic mapping, and utility documentation.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

4. Property, boundary, easement, right-of-way, and other special surveys or data, including establishing relevant reference points.

5. Explorations and tests of subsurface conditions at or adjacent to the Site; geotechnical reports and investigations; drawings of physical conditions relating to existing surface or subsurface structures at the Site; hydrographic surveys, laboratory tests and inspections of samples, materials, and equipment; appropriate professional interpretation of such information or data.

6. Environmental assessments, audits, investigations, and impact statements, and other relevant environmental, historical, or cultural studies relevant to the Project, the Site, and adjacent areas.

7. Data or consultations as required for the Project but not otherwise identified in this Agreement.

C. Owner shall examine all alternative solutions, studies, reports, sketches, Drawings, Specifications, proposals, and other documents presented by Engineer (including obtaining advice of an attorney, risk manager, insurance counselor, financial/municipal advisor, and other advisors or consultants as Owner deems appropriate with respect to such examination) and render in writing timely decisions pertaining thereto.

D. Owner shall furnish to Engineer data as to Owner's anticipated costs for services to be provided to Owner by others (including, but not limited to, accounting, bond and financial, independent cost estimating, insurance counseling, and legal advice) so that Engineer may assist Owner in collating the various cost categories that comprise Total Project Costs.

E. Owner shall advise Engineer if any invention, design, process, product, or device that Owner has requested, required, or recommended for inclusion in the Drawings or Specifications will be subject to payment (whether by Owner or Contractor) of any license fee or royalty to others, as required by patent rights or copyrights.

F. Owner shall inform Engineer as to whether Engineer's assistance is requested with respect to Owner's evaluation of the possible use of Project Strategies, Technologies, and Techniques, as defined in Exhibit A.

G. Owner shall inform Engineer as to whether Engineer's assistance is requested in identifying opportunities for enhancing the sustainability of the Project.

2.02 Owner's Instructions Regarding Bidding/Proposal and Front-End Construction Contract Documents

A. Owner shall give instructions to Engineer regarding Owner's procurement of construction services (including instructions regarding advertisements for bids, instructions to bidders, and requests for proposals, as applicable) and Owner's construction contract practices and requirements, and furnish to Engineer (or give specific directions requesting Engineer to use copies already in Engineer's possession) the following:

1. Owner's standard contract forms, general conditions (if other than the current edition of EJCDC® C-700, Standard General Conditions of the Construction Contract), supplementary conditions, text, and related documents and content for Engineer to include in the draft Bidding/Proposal Documents, and in draft Front-End Construction Contract Documents;

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

2. insurance and bonding requirements;

3. protocols for electronic transmittals during bidding and construction;

4. Owner's safety and security programs applicable to Contractor and other Constructors;

5. diversity and other social responsibility requirements;

6. bidding and contract requirements of funding, financing, or regulatory entities;

7. other specific conditions applicable to the procurement of construction or contract documents;

8. any other information necessary for Engineer to assist Owner in preparing its Bidding/Proposal Documents and Front-End Construction Contract Documents.

B. Owner shall have responsibility for the final content of (1) such Bidding/Proposal Documents, and (2) such Front-End Construction Contract Documents, other than content furnished by Engineer concerning the design (as set forth in the Drawings, Specifications, or otherwise) or other engineering or technical matters.

1. Owner shall seek the advice of Owner's legal counsel, risk managers, and insurance advisors with respect to the drafting and content of such documents.

C. If there will be an advertisement soliciting bids for construction, Owner shall place and pay for such advertisement.

2.03 Owner-Furnished Services

A. Recognizing and acknowledging that Engineer's services and expertise do not include the following services, Owner shall obtain, as required for the Project:

1. Accounting, bond and financial advisory services (including, if applicable, "municipal advisor" services as described in Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act (2010) and the municipal advisor registration rules issued by the Securities and Exchange Commission), independent cost estimating, and insurance counseling services.

2. Legal services, including attorney review of proposed Construction Contract Documents, legal services required by Owner, legal services needed as a result of issues raised by Contractor, and Project-related legal services reasonably requested by Engineer.

3. Auditing services, including those needed by Owner to ascertain how or for what purpose Contractor has used money paid to it.

B. Owner shall provide the services of an independent testing laboratory to perform all inspections, tests, and approvals of samples, materials, and equipment required by the Construction Contract Documents (other than those required to be furnished or arranged by Contractor), or to evaluate the performance of materials, equipment, and facilities of Owner, prior to their incorporation into the Work with appropriate professional interpretation thereof. Owner shall provide Engineer with the findings and reports generated by testing laboratories, including findings and reports obtained from or through Contractor.

C. Owner shall acquire or arrange for acquisition of the Site(s) and any temporary or permanent rights of access, easements, or property rights needed for the Project.

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

D. With respect to the portions or phases of the Project designed or specified by Engineer, Owner shall provide, obtain, or arrange for:

1. all required reviews, approvals, consents, and permits from governmental authorities having jurisdiction, and

2. such reviews, approvals, and consents from others as may be necessary for completion of each portion or phase of the Project.

E. Owner may delegate to Contractor or others the responsibilities set forth in Paragraphs 2.03.C and D.

2.04 Owner's General Responsibilities

A. Owner shall inform Engineer of the policies, procedures, and requirements of Owner that are applicable to Engineer's performance of services under this Agreement.

B. Owner shall provide Engineer with Owner's budget for the Project, including type and source of funding to be used, and will promptly inform Engineer if the budget or funding sources change.

C. Owner shall inform Engineer in writing of any safety or security programs that are applicable to the personnel of Engineer, its Subconsultants, and Engineer's Subcontractors, as they visit the Site or otherwise perform services under this Agreement.

D. Owner shall arrange for safe access to and make all provisions for Engineer to enter upon public and private property as required for Engineer to perform services under this Agreement.

E. Owner shall provide necessary direction and make decisions, including prompt review of Engineer's submittals, and carry out its other responsibilities in a timely manner so as not to delay Engineer's performance of its services.

F. Owner shall be responsible for all requirements and instructions that it furnishes to Engineer pursuant to this Agreement, and for the accuracy and completeness of all programs, reports, data, and other information furnished by Owner to Engineer pursuant to this Agreement. Engineer may use and rely upon such requirements, programs, instructions, reports, data, and information in performing or furnishing services under this Agreement, subject to any express limitations or reservations applicable to the furnished items.

G. Owner shall give prompt written notice to Engineer whenever Owner observes or otherwise becomes aware of:

1. any development that affects the scope or time of performance of Engineer's services;

2. the presence at the Site of any Constituent of Concern; or

3. any relevant, material defect or nonconformance in: (a) Engineer's services, (b) the Work, (c) the performance of any Constructor, or (d) Owner's performance of its responsibilities under this Agreement.

H. Owner shall advise Engineer of the identity and scope of services of any independent consultants employed by Owner to perform or furnish services in regard to the Project, including, but not limited to, cost estimating, project peer review, value engineering, and constructability review.

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

I. If Owner designates a construction manager, site representative, or any individual or entity other than, or in addition to, Engineer to represent Owner at the Site, Owner shall define and set forth as an exhibit to this Agreement the duties, responsibilities, and limitations of authority of such other party and the relation thereof to the duties, responsibilities, and authority of Engineer.

J. Owner shall:

1. Attend and participate in the pre-bid conference, bid opening, pre-construction conferences, construction progress and other job-related meetings, and Site visits to determine Substantial Completion and readiness of the completed Work for final payment.

2. Primarily communicate with Engineer's Subcontractors and Subconsultants through the Engineer.

a. Promptly inform Engineer of the substance of any communications between Owner and Engineer's Subcontractors or Subconsultants.

b. Refrain from directing the services of Engineer's Subcontractors or Subconsultants.

3. Authorize Engineer to provide Additional Services as set forth in Article 2 of Exhibit A of the Agreement, as required.

2.05 Payment

A. Owner shall pay Engineer as set forth in Article 4 and Exhibit J.

B. Engineer's compensation is summarized as follows; if there is a conflict between the following summary and the contents of Exhibit J, then Exhibit J will prevail.

Description of Service		Amount	Basis of Compensation
1.	Basic Services (Article 1 of Exhibit A)	$ 444,765.00	Hourly Rates

1. Compensation items and totals based in whole or in part on Hourly Rates, Direct Labor, or Percentage of Construction Cost are estimates only.

2. Lump sum amounts incorporate Engineer's labor, overhead, profit, and Engineer's Subcontractor and Subconsultants' charges.

ARTICLE 3—SCHEDULE FOR RENDERING SERVICES

3.01 Commencement

A. Engineer is authorized to begin rendering services as of the Effective Date.

3.02 Time for Completion

A. Engineer shall complete its obligations within a reasonable time. Specific periods of time for rendering services, or specific dates by which services are to be completed, are provided in Exhibit B, and are hereby agreed to be reasonable.

B. If, through no fault of Engineer, such periods of time or dates are changed, or the orderly and continuous progress of Engineer's services is impaired, or Engineer's services are delayed

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

or suspended, then the time for completion of Engineer's services, and the rates and amounts of Engineer's compensation, will be adjusted equitably.

C. If Owner authorizes changes in the scope, extent, or character of the Project or Engineer's services, then the time for completion of Engineer's services, and the rates and amounts of Engineer's compensation, will be adjusted equitably.

D. If Engineer fails, for reasons within control of Engineer, to complete the performance required in this Agreement within the time set forth, as duly adjusted, then Owner shall be entitled, as its sole remedy, to the recovery of direct damages to the extent, if any, resulting from such failure by Engineer.

ARTICLE 4—INVOICES AND PAYMENTS

4.01 Invoices

A. Preparation and Submittal of Invoices: Engineer shall prepare invoices in accordance with its standard invoicing practices, the progress reporting and special invoicing requirements (if any) in Exhibit A Paragraph 1.01.A, and the terms of Exhibit J. Engineer shall submit its invoices to Owner on a monthly basis. Invoices are due and payable within 30 days of receipt.

4.02 Payments

A. Application to Interest and Principal: Payment will be credited first to any interest owed to Engineer and then to principal.

B. Disputed Invoices: If Owner disputes an invoice, either as to amount or entitlement, then Owner shall promptly advise Engineer in writing of the specific basis for doing so; may withhold only that portion so disputed; and must pay the undisputed portion, subject to the terms of Paragraph 4.01. After a disputed item has been resolved, Engineer shall include the agreed-upon amount on a new invoice.

C. Failure to Pay: If Owner fails to make any undisputed payment due Engineer within 30 days after receipt of Engineer's invoice, then:

1. amounts due Engineer will be increased at the rate of 1.0% per month (or the maximum rate of interest permitted by law, if less) from said thirtieth day, and

2. Engineer may, after giving 7 days' written notice to Owner, suspend services under this Agreement until Owner has paid in full amounts due. Owner waives any and all claims against Engineer for any such suspension.

D. Sales or Use Taxes: If after the Effective Date any governmental entity takes an action that imposes additional sales or use taxes on Engineer's services or compensation under this Agreement, then Engineer may invoice such additional sales or use taxes for reimbursement by Owner. Owner shall reimburse Engineer for the cost of such invoiced additional sales or use taxes; such reimbursement will be in addition to the compensation to which Engineer is entitled under the terms of Exhibit J.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

ARTICLE 5—OPINIONS OF COST

5.01 Opinions of Probable Construction Cost

A. Engineer's opinions of probable Construction Cost (if any) are to be made on the basis of Engineer's experience, qualifications, and general familiarity with the construction industry. However, because Engineer has no control over the cost of labor, materials, equipment, or services furnished by others, or over contractors' methods of determining prices, or over competitive bidding or market conditions, Engineer cannot and does not guarantee that proposals, bids, or actual Construction Cost will not vary from opinions of probable Construction Cost prepared by Engineer. If Owner requires greater assurance as to probable Construction Cost, then Owner agrees to obtain an independent cost estimate.

5.02 Opinions of Total Project Costs

A. The services, if any, of Engineer with respect to Total Project Costs will be limited to assisting the Owner in tabulating the various categories that comprise Total Project Costs. Engineer assumes no responsibility for the accuracy of any opinions of Total Project Costs.

ARTICLE 6—GENERAL CONSIDERATIONS

6.01 Standards of Performance

A. Standard of Care: The standard of care for all professional engineering and related services performed or furnished by Engineer under this Agreement will be the care and skill ordinarily used by members of the subject profession practicing under similar circumstances at the same time and in the same locality. Engineer makes no warranties, express or implied, under this Agreement or otherwise, in connection with any services performed or furnished by Engineer.

B. Technical Accuracy: Owner shall not be responsible for discovering deficiencies in the technical accuracy of Engineer's services. Engineer shall correct deficiencies in technical accuracy without additional compensation, unless such corrective action is directly attributable to deficiencies in Owner-furnished information.

C. Engineer's Subcontractors and Subconsultants: Engineer may retain such Engineer's Subcontractors and Subconsultants as Engineer deems necessary to assist in the performance or furnishing of the services, subject to reasonable, timely, and substantive objections by Owner.

D. Reliance on Others: Subject to the standard of care set forth in Paragraph 6.01.A, Engineer may use or rely upon design elements and information ordinarily or customarily furnished by others, including, but not limited to, specialty contractors, manufacturers, suppliers, and the publishers of technical standards.

E. Compliance with Laws and Regulations, and Policies and Procedures

1. Engineer and Owner shall comply with applicable Laws and Regulations.

2. Engineer shall comply with the policies, procedures, and instructions of Owner that are applicable to Engineer's performance of services under this Agreement and that Owner provides to Engineer in writing, subject to the standard of care set forth in

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

Paragraph 6.01.A, and to the extent compliance is not inconsistent with professional practice requirements.

3. This Agreement is based on Laws and Regulations and Owner-provided written policies and procedures as of the Effective Date. The following may be the basis for modifications to Owner's responsibilities or to Engineer's scope of services, times of performance, or compensation:

   a. changes after the Effective Date to Laws and Regulations,

   b. the receipt by Engineer after the Effective Date of Owner-provided written policies and procedures, and

   c. changes after the Effective Date to Owner-provided written policies or procedures.

F. General Conditions of Construction Contract: The general conditions for any Construction Contract Documents prepared hereunder are to be the current edition of EJCDC® C-700, Standard General Conditions of the Construction Contract, prepared by the Engineers Joint Contract Documents Committee, unless expressly indicated otherwise.

G. Copies of Drawings and Specifications: If Engineer is required to prepare or furnish Drawings or Specifications under this Agreement, Engineer shall deliver to Owner at least one complete electronic copy of such Drawings and Specifications, signed and sealed according to applicable Laws and Regulations, and one complete printed copy, duly signed and sealed.

H. Engineer shall not be required to sign any document, no matter by whom requested, that would result in Engineer having to certify, guarantee, or warrant conditions whose existence Engineer cannot ascertain within the authorized scope of Engineer's services. Owner agrees not to make resolution of any dispute with Engineer or payment of any amount due to Engineer in any way contingent upon Engineer signing any such document.

I. Engineer shall not at any time supervise, direct, control, or have authority over any Constructor's work, nor will Engineer have authority over or be responsible for the means, methods, techniques, sequences, or procedures of construction selected or used by any Constructor, or the safety precautions and programs incident thereto, for security or safety at the Site, nor for any failure of a Constructor to comply with Laws and Regulations applicable to that Constructor's furnishing and performing of its work. Engineer shall not be responsible for the acts or omissions of any Constructor.

J. Engineer neither guarantees the performance of any Constructor nor assumes responsibility for any Constructor's failure to furnish and perform the Work in accordance with the Construction Contract Documents.

K. Engineer shall not be responsible for any decision made regarding the Construction Contract Documents, or any application, interpretation, clarification, or modification of the Construction Contract Documents, other than those made by Engineer.

L. Engineer is not required to provide and does not have any responsibility for surety bonding or insurance-related advice, recommendations, counseling, or research, or enforcement of construction insurance or surety bonding requirements.

M. Engineer's services do not include providing legal advice or representation.

N. Engineer's services do not include (1) serving as a "municipal advisor" for purposes of the registration requirements of Section 975 of the Dodd-Frank Wall Street Reform and

Consumer Protection Act (2010) or the municipal advisor registration rules issued by the Securities and Exchange Commission, or (2) advising Owner, or any municipal entity or other person or entity, regarding municipal financial products or the issuance of municipal securities, including advice with respect to the structure, timing, terms, or other similar matters concerning such products or issuances.

O. While at the Site, Engineer, its Subconsultants, and Engineer's Subcontractors, and their employees and representatives will comply with the applicable requirements of Contractor's and Owner's safety programs of which Engineer has been informed in writing.

6.02 Ownership and Use of Documents

A. All Documents are instruments of service, and Engineer owns the Documents, including all associated copyrights and the right of reuse at the discretion of the Engineer. Engineer shall continue to own the Documents and all associated rights whether or not the Project is completed.

1. Owner may make and retain copies of Documents for information and reference in connection with the use of the Documents on the Project.

2. Engineer grants Owner a limited license to use the Documents on the Project, extensions of the Project, and for related uses of the Owner, subject to receipt by Engineer of full payment due and owing for all services relating to preparation of the Documents, and subject to the following limitations:

a. Owner acknowledges that such Documents are not intended or represented to be suitable for use on the Project unless completed by Engineer, or for use or reuse by Owner or others on extensions of the Project, on any other project, or for any other use or purpose, without written verification or adaptation by Engineer;

b. any such use or reuse, or any modification of the Documents, without written verification, completion, or adaptation by Engineer, as appropriate for the specific purpose intended, will be at Owner's sole risk and without liability or legal exposure to Engineer or to its officers, directors, members, partners, agents, employees, and Subconsultants;

c. Owner shall indemnify and hold harmless Engineer and its officers, directors, members, partners, agents, employees, and Subconsultants from all claims, damages, losses, and expenses, including attorneys' fees, arising out of or resulting from any use, reuse, or modification of the Documents without written verification, completion, or adaptation by Engineer; and

d. such limited license to Owner shall not create any rights in third parties.

B. If Engineer at Owner's request verifies the suitability of the Documents, completes them, or adapts them for extensions of the Project or for any other purpose, then Owner shall compensate Engineer at rates or in an amount to be agreed upon by Owner and Engineer.

C. Engineer shall inform Owner if Engineer is aware of any invention, design, process, product, or device specified in the Drawings, Specifications, or other Documents that is subject to payment (whether by Owner or Contractor) of any license fee or royalty to others, as required by patent rights or copyrights. If Engineer's good-faith inclusion in the Drawings, Specifications, or other Documents of new, innovative, or non-standard technologies, for the benefit of Owner and the Project, results in third-party claims of infringement or violation of

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

intellectual property rights, then Owner and Engineer shall share equally the costs of defending against, settling, or paying such claims.

D. Engineer will obtain Owner's consent, which will not be unreasonably withheld, prior to releasing any publicity, including news and press releases, promotional publications, award and prize competition submittals, and other advertising regarding the subject matter of this Agreement. Nothing herein will limit the Engineer's right to include information in statements of qualifications and proposals to others accurately describing its participation and participation of employees in the Project.

6.03 Electronic Transmittals

A. To the fullest extent practical, Owner and Engineer agree to transmit, and accept, Project-related correspondence, Documents, text, data, drawings, information, and graphics, in electronic media or digital format, either directly, or through access to a secure Project website, in accordance with Exhibit F, Electronic Documents Protocol (EDP).

1. Compliance with the EDP by Engineer shall be considered a Basic Service and no direct or separate compensation will be paid to Engineer for such compliance, unless provisions for separate compensation are expressly set forth in the EDP.

2. Engineer's costs directly attributable to changes in Engineer's Electronic Documents obligations, after the effective date of this Agreement, necessitated by revisions to Exhibit F, delayed adoption of Exhibit F, or implementation of other Electronic Documents protocols, will be compensated as Additional Services.

B. If this Agreement does not include Exhibit F or otherwise does not establish or include protocols for transmittal of Electronic Documents by Electronic Means, then Owner and Engineer may operate without specific protocols or may jointly develop such protocols at a later date.

C. Except as stated otherwise in Exhibit F (if included in this Agreement), when transmitting Electronic Documents by Electronic Means, the transmitting party makes no representations as to long term compatibility, usability, or readability of the Electronic Documents resulting from the recipient's use of software application packages, operating systems, or computer hardware differing from those used in the drafting or transmittal of the Electronic Documents, or from those established in applicable protocols.

D. This Agreement (including the EDP) is not intended to create obligations for Owner or Engineer with respect to transmittals to or from third parties, except as expressly stated in the EDP.

6.04 Insurance

A. Engineer shall procure and maintain insurance as set forth in Exhibit G.

B. Additional Insureds: The Engineer's commercial general liability, automobile liability, and umbrella or excess liability policies, must:

1. include and list as additional insureds Owner, and any individuals or entities identified as additional insureds in Exhibit G;

2. include coverage for the respective officers, directors, members, partners, and employees of all such additional insureds;

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

3. afford primary coverage to these additional insureds for all claims covered thereby (including as applicable those arising from both ongoing and completed operations); and

4. not seek contribution from insurance maintained by the additional insured.

C. Owner shall procure and maintain insurance as set forth in Exhibit G.

D. Owner shall require Contractor to purchase and maintain policies of insurance covering workers' compensation, general liability, motor vehicle damage and injuries, and other insurance necessary to protect Owner's and Engineer's interests in the Project. Owner shall require Contractor to cause Engineer, its Subconsultants, and Engineer's Subcontractors to be listed as additional insureds with respect to such liability insurance purchased and maintained by Contractor for the Project. Owner shall give Engineer access to any certificates of insurance and copies of endorsements and policies obtained by Owner from Contractor.

E. Owner and Engineer shall each deliver to the other certificates of insurance evidencing the coverages indicated in Exhibit G. Such certificates must be furnished prior to commencement of Engineer's services and at renewals thereafter during the life of the Agreement.

1. Upon request by Owner or any other insured, Engineer shall also furnish other evidence of such required insurance, including but not limited to copies of policies and endorsements, documentation of applicable self-insured retentions (if allowed) and deductibles, full disclosure of all relevant exclusions, and evidence of insurance required to be purchased and maintained by Subconsultants and Engineer's Subcontractors. In any documentation furnished under this provision, Engineer may redact (a) any confidential premium or pricing information and (b) any wording specific to projects or jurisdictions other than those applicable to this Agreement.

F. All construction contracts entered into by Owner with respect to the Project must require builder's risk or similar property insurance.

G. All policies of property insurance relating to the Project, including but not limited to any builder's risk or similar policy, must allow for waiver of subrogation rights and contain provisions to the effect that in the event of payment of any loss or damage the insurers will have no rights of recovery against any insured thereunder or against Engineer, its Subconsultants, or Engineer's Subcontractors. Owner and Engineer waive all rights against each other, Contractor, Engineer's Subcontractors and Subconsultants, and the respective officers, directors, members, partners, employees, agents, consultants, and subcontractors of each and any of them, for all losses and damages caused by, arising out of, or resulting from any of the perils or causes of loss covered by any such builder's risk or similar policy and any other property insurance relating to the Project. Owner and Engineer shall take appropriate measures in other Project-related contracts to secure waivers of rights consistent with those set forth in this paragraph.

H. All policies of insurance must contain a provision or endorsement that the coverage afforded will not be canceled, and that renewal will not be refused, until at least 10 days' prior written notice has been given to the primary insured. Upon receipt of such notice, the primary insured must promptly forward a copy of the notice to the other party to this Agreement and replace the coverage being cancelled or reduced to conform to the requirements of this Agreement.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

I. At any time, Owner may request that Engineer, or Engineer's Subcontractors or Subconsultants, at Owner's sole expense, provide additional insurance coverage, increased limits, or revised deductibles that are more protective than those specified in Exhibit G. If so requested by Owner, and if commercially available, Engineer shall obtain and shall require Engineer's Subcontractors or Subconsultants to obtain such additional insurance coverage, different limits, or revised deductibles for such periods of time as requested by Owner, and Exhibit G will be supplemented to incorporate these requirements.

6.05 Suspension and Termination

A. Suspension

1. By Owner: Owner may suspend Engineer's services for up to 90 days upon 7 days' written notice to Engineer.

2. By Engineer: Engineer may, after giving 7 days' written notice to Owner, suspend services under this Agreement:

a. if Owner has failed to pay Engineer for invoiced services and expenses, as set forth in Paragraphs 4.02.B and 4.02.C;

b. in response to the presence of Constituents of Concern at the Site, as set forth in Paragraph 6.09.D; or

c. if persistent circumstances beyond the control of Engineer have prevented it from performing its obligations under this Agreement.

B. Termination for Cause

1. Either party may terminate the Agreement for cause upon 30 days' written notice in the event of substantial failure by the other party to perform in accordance with the terms of the Agreement, through no fault of the terminating party.

a. Notwithstanding the foregoing, this Agreement will not terminate under Paragraph 6.05.B.1 if the party receiving such notice begins, within 7 days of receipt of such notice, to correct its substantial failure to perform and proceeds diligently to cure such failure within no more than 30 days of receipt thereof; provided, however, that if and to the extent such substantial failure cannot be reasonably cured within such 30-day period, and if such party has diligently attempted to cure the same and thereafter continues diligently to cure the same, then the cure period provided for herein will extend up to, but in no case more than, 60 days after the date of receipt of the notice.

2. In addition to its termination rights in Paragraph 6.05.B.1, Engineer may terminate this Agreement for cause upon 7 days' written notice:

a. if Owner demands that Engineer furnish or perform services contrary to Engineer's responsibilities as a licensed professional;

b. if Engineer's services for the Project are delayed or suspended for more than 90 days for reasons beyond Engineer's control; or

c. as the result of the presence at or adjacent to the Site of undisclosed Constituents of Concern, as set forth in Paragraph 6.09.E.

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

3. Engineer will have no liability to Owner on account of any termination by Engineer for cause.

C. Termination for Convenience: Owner may terminate this Agreement for convenience, effective upon Engineer's receipt of notice from Owner.

D. Extension of Effective Date of Termination: If Owner terminates the Agreement for cause or convenience, Owner may set the effective date of termination at a time up to 30 days later than otherwise provided to allow Engineer to demobilize personnel and equipment from the Site, to complete tasks whose value would otherwise be lost, to prepare notes as to the status of completed and uncompleted tasks, and to assemble Project materials in orderly files. Engineer shall be entitled to compensation for such tasks.

E. Payments Upon Termination: In the event of any termination under Paragraph 6.05, Engineer will be entitled to invoice Owner and to receive full payment for all services performed or furnished in accordance with this Agreement and all reimbursable expenses incurred through the effective date of termination. Upon making such payment, Owner will have the limited right to the use of Documents, at Owner's sole risk, subject to the provisions of Paragraph 6.02.A.

1. If Owner has terminated the Agreement for cause and disputes Engineer's entitlement to compensation for services and reimbursement of expenses, then Engineer's entitlement to payment and Owner's rights to the use of the Documents will be resolved in accordance with the dispute resolution provisions of this Agreement or as otherwise agreed in writing.

2. If Owner has terminated the Agreement for convenience, or if Engineer has terminated the Agreement for cause, then Engineer will be entitled, in addition to the payments identified above, to invoice Owner and receive payment of a reasonable amount for services and expenses directly attributable to termination, both before and after the effective date of termination, such as reassignment of personnel, costs of terminating contracts with Engineer's Subcontractors or Subconsultants, and other related close-out costs, using methods and rates for Additional Services as set forth in Exhibit J.

6.06 Successors, Assigns, and Beneficiaries

A. Owner and Engineer are hereby bound and the successors, executors, administrators, and legal representatives of Owner and Engineer (and to the extent permitted by Paragraph 6.06.B the assigns of Owner and Engineer) are hereby bound to the other party to this Agreement and to the successors, executors, administrators and legal representatives (and said assigns) of such other party, in respect of all covenants, agreements, and obligations of this Agreement.

B. Neither Owner nor Engineer may assign, sublet, or transfer any rights under or interest (including, but without limitation, claims arising out of this Agreement or money that is due or may become due) in this Agreement without the written consent of the other party, except to the extent that any assignment, subletting, or transfer is mandated by law. Unless specifically stated to the contrary in any written consent to an assignment, no assignment will release or discharge the assignor from any duty or responsibility under this Agreement.

C. Unless expressly provided otherwise in this Agreement:

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

1. All duties and responsibilities undertaken pursuant to this Agreement will be for the sole and exclusive benefit of Owner and Engineer and not for the benefit of any other party.

2. Nothing in this Agreement will be construed to create, impose, or give rise to any duty owed by Owner or Engineer to any Constructor, other third-party individual or entity, or to any surety for or employee of any of them.

3. Owner agrees that the substance of the provisions of this Paragraph 6.06.C will appear in the Construction Contract Documents.

6.07 Dispute Resolution

A. Unless otherwise required by Exhibit H, Owner and Engineer shall resolve all disputes in the following manner:

1. Owner and Engineer agree to negotiate all disputes between them in good faith for a period of 30 days from the date of notice, prior to invoking mediation.

2. Owner and Engineer agree that they shall first submit any and all unsettled claims, counterclaims, disputes, and other matters in question between them arising out of or relating to this Agreement or the breach thereof ("Disputes") to mediation. Owner and Engineer agree to participate in the mediation process in good faith. The process will be conducted on a confidential basis, and must be completed within 120 days.

3. If the parties fail to resolve a Dispute through negotiations under Paragraph 6.07.A.1 or mediation under Paragraph 6.07.A.2, then:

a. either or both may invoke the applicable dispute resolution procedures of Exhibit H for final resolution of Disputes.

b. If Exhibit H is not included, or if no final dispute resolution method is specified in Exhibit H, then the parties may exercise their rights at law.

6.08 Controlling Law; Venue

A. This Agreement is to be governed by the Laws and Regulations of the state in which the Project is located.

B. Venue for any exercise of rights at law will be the state court having jurisdiction at the location of the Project; or at the choice of either party, and if federal jurisdictional requirements can be met, in federal court in the district in which the Project is located.

6.09 Environmental Condition of Site

A. Owner represents to Engineer that, as of the Effective Date, to the best of Owner's knowledge, no Constituents of Concern, other than those disclosed in writing to Engineer, exist at or adjacent to the Site.

B. Undisclosed Constituents of Concern: For purposes of this Paragraph 6.09, the presence at or adjacent to the Site of Constituents of Concern that were not disclosed to Engineer pursuant to Paragraph 6.09.A, in such quantities or circumstances that such Constituents of Concern may present a danger to persons or property exposed to them, will be referred to as "undisclosed" Constituents of Concern.

1. The presence at the Site of materials that are necessary for the execution of the Work, or that are to be incorporated in the Work, and that are controlled and contained

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

pursuant to industry practices, Laws and Regulations, and the requirements of this Agreement or the Construction Contract, are not undisclosed Constituents of Concern.

2. Constituents of Concern that are to be located, identified, studied, removed, or remediated as part of the services under this Agreement are not undisclosed Constituents of Concern.

3. Constituents of Concern that are to be located, identified, studied, removed, or remediated as part of the services under another professional services contract for Owner, or as part of the work under a construction or remediation contract, are not undisclosed Constituents of Concern if Engineer has been informed of the general scope of such contract.

C. If Engineer encounters or learns of an undisclosed Constituent of Concern at the Site, then Engineer shall notify (1) Owner and (2) appropriate authorities having jurisdiction if Engineer reasonably concludes that doing so is required by applicable Laws or Regulations.

D. It is acknowledged by both parties that Engineer's scope of services does not include any services related to undisclosed Constituents of Concern. If Engineer or any other party encounters, uncovers, or reveals an undisclosed Constituent of Concern, or if encountered, uncovered, or revealed Constituents of Concern are present in substantially greater quantities or substantially different locations than disclosed or anticipated, or if investigative or remedial action, or other professional services, are necessary or required by applicable Laws and Regulations with respect to such Constituents of Concern, then Engineer may, at its option and without liability for direct, consequential, or any other damages, suspend performance of services on the portion of the Project adversely affected thereby until such portion of the Project is no longer so affected; and Owner shall promptly determine whether to retain a qualified expert to evaluate such condition or take any necessary corrective action.

E. If the presence at the Site of undisclosed Constituents of Concern, or of Constituents of Concern in substantially greater quantities or in substantially different locations than disclosed or anticipated, adversely affects the performance of Engineer's services under this Agreement, then:

1. if the adverse effects do not preclude Engineer from completing its Project services in general accordance with this Agreement on unaffected or marginally affected portions of the Project, Engineer may accept an equitable adjustment in its compensation or in the time of completion, or both; and the Agreement will be amended to reflect changes necessitated by the presence of such Constituents of Concern; or

2. if the adverse effects are of such materiality to the overall performance of Engineer that it cannot complete its services without significant changes to the scope of services, time of completion, and compensation, then Engineer may terminate this Agreement for cause on 7 days' written notice.

F. Owner acknowledges that Engineer is performing professional services for Owner and that Engineer is not and will not be required to become an "owner," "arranger," "operator," "generator," or "transporter" of hazardous substances, as defined in the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), as amended, which are or may be encountered at or near the Site in connection with Engineer's activities under this Agreement.

6.10 Indemnification and Mutual Waiver

A. Indemnification by Engineer: To the fullest extent permitted by Laws and Regulations, Engineer shall indemnify and hold harmless Owner, and Owner's officers, directors, members, partners, agents, and employees, from losses, damages, and judgments (including reasonable consultants' and attorneys' fees and expenses) arising from third-party claims or actions relating to the Project, provided that any such claim, action, loss, damages, or judgment is attributable to bodily injury, sickness, disease, or death, or to injury to or destruction of tangible property (other than the Work itself), including the loss of use resulting therefrom, but only to the extent caused by any negligent act or omission of Engineer or Engineer's officers, directors, members, partners, agents, employees, Subconsultants, or Engineer's Subcontractors. This indemnification provision is subject to and limited by the provisions, if any, agreed to by Owner and Engineer in Exhibit I, "Limitations of Liability."

B. Environmental Indemnification: To the fullest extent permitted by Laws and Regulations, Owner shall indemnify and hold harmless Engineer, its Subconsultants, Engineer's Subcontractors, and their officers, directors, members, partners, agents, employees, and subconsultants from all claims, costs, losses, damages, actions, and judgments (including reasonable consultants' and attorney's fees and expenses) caused by, arising out of, relating to, or resulting from a Constituent of Concern at, on, or under the Site, provided that:

1. any such claim, cost, loss, damages, action, or judgment is attributable to bodily injury, sickness, disease, or death, or to injury to or destruction of tangible property (other than the Work itself), including the loss of use resulting therefrom, and

2. nothing in this paragraph obligates Owner to indemnify any individual or entity from and against the consequences of that individual's or entity's own negligence or willful misconduct.

C. No Defense Obligation: The indemnification commitments in this Agreement do not include a defense obligation by the indemnitor unless such obligation is expressly stated.

D. Percentage Share of Negligence: To the fullest extent permitted by Laws and Regulations, a party's total liability to the other party and anyone claiming by, through, or under the other party for any cost, loss, or damages caused in part by the negligence of the party and in part by the negligence of the other party or any other negligent entity or individual, will not exceed the percentage share that the party's negligence bears to the total negligence of Owner, Engineer, and all other negligent entities and individuals.

E. Mutual Waiver: To the fullest extent permitted by Laws and Regulations, Owner and Engineer waive against each other, and the other's officers, directors, members, partners, agents, employees, subconsultants, and insurers, any and all claims for or entitlement to special, incidental, indirect, or consequential damages arising out of, resulting from, or in any way related to this Agreement or the Project, from any cause or causes. Such excluded damages include but are not limited to loss of profits or revenue; loss of use or opportunity; loss of good will; cost of substitute facilities, goods, or services; and cost of capital.

6.11 Records Retention

A. Engineer shall maintain on file in legible form, for a period of five years following completion or termination of its services, or such other period as required by Laws and Regulations, all

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

Documents, records (including cost records), and design calculations related to Engineer's services or pertinent to Engineer's performance under this Agreement. Upon Owner's request, Engineer shall provide a copy of any such item to Owner at cost.

6.12 Miscellaneous Provisions

A. Notices: Any notice required under this Agreement will be in writing, and delivered: in person (by commercial courier or otherwise); by registered or certified mail; or by e-mail to the recipient, with the words "Formal Notice" or similar in the e-mail's subject line. All such notices are effective upon the date of receipt.

B. Survival: Subject to applicable Laws and Regulations, all express representations, waivers, indemnifications, and limitations of liability included in this Agreement will survive its completion or termination for any reason.

C. Severability: Any provision or part of the Agreement held to be void or unenforceable under any Laws or Regulations will be deemed stricken, and all remaining provisions will continue to be valid and binding upon Owner and Engineer.

D. No Waiver: A party's non-enforcement of any provision will not constitute a waiver of that provision, nor will it affect the enforceability of that provision or of the remainder of this Agreement.

E. Accrual of Claims: To the fullest extent permitted by Laws and Regulations, all causes of action arising under this Agreement will be deemed to have accrued, and all statutory periods of limitation will commence, no later than the date of Substantial Completion; or, if Engineer's services do not include Construction Phase services, or the Project is not completed, then no later than the date of Owner's last payment to Engineer.

ARTICLE 7—DEFINITIONS

7.01 Defined Terms

A. Wherever used in this Agreement (including the exhibits hereto) terms (including the singular and plural forms) printed with initial capital letters have the meanings indicated in the text above, in the exhibits, or in the following definitions:

1. Addenda—Written or graphic instruments issued prior to the opening of bids which clarify, correct, or change the bidding requirements or the proposed Construction Contract Documents.

2. Additional Services—The services to be performed for or furnished to Owner by Engineer in accordance with Article 2 of Exhibit A of this Agreement.

3. Agreement—This written contract for professional services between Owner and Engineer, including all exhibits identified in Paragraph 8.01 and any duly executed amendments.

4. Application for Payment—The form acceptable to Engineer which is to be used by Contractor during the course of the Work in requesting progress or final payments and which is to be accompanied by such supporting documentation as is required by the Construction Contract.

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

5. Basic Services—The services to be performed for or furnished to Owner by Engineer in accordance with Article 1 of Exhibit A of this Agreement.

6. Bidding/Proposal Documents—Documents related to the selection of the Contractor, including advertisements or invitations to bid; requests for proposals; instructions to bidders or proposers, including any attachments such as lists of available Site-related documents; bid forms; bids; proposal forms; proposals; bidding requirements; and qualifications documents.

7. Change Order—A document which is signed by Contractor and Owner and authorizes an addition, deletion, or revision in the Work or an adjustment in the Construction Contract Price or the Construction Contract Times, or other revision to the Construction Contract, issued on or after the effective date of the Construction Contract.

8. Change Proposal—A written request by Contractor, duly submitted in compliance with the procedural requirements set forth in the Construction Contract, seeking an adjustment in Construction Contract Price or Construction Contract Times, or both; contesting an initial decision by Engineer concerning the requirements of the Construction Contract Documents or the acceptability of Work under the Construction Contract Documents; challenging a set-off against payments due; or seeking other relief with respect to the terms of the Construction Contract.

9. Constituents of Concern—Asbestos, petroleum, radioactive materials, polychlorinated biphenyls (PCBs), lead-based paint (as defined by the HUD/EPA standard), hazardous waste, and any substance, product, waste, or other material of any nature whatsoever that is or becomes listed, regulated, or addressed pursuant to Laws and Regulations regulating, relating to, or imposing liability or standards of conduct concerning, any hazardous, toxic, or dangerous waste, substance, or material.

10. Construction Contract—The entire and integrated written contract between Owner and Contractor concerning the Work.

11. Construction Contract Documents—Those items designated as "Contract Documents" in the Construction Contract, and which together comprise the Construction Contract. See also definition of "Front-End Construction Contract Documents" below.

12. Construction Contract Price—The money that Owner has agreed to pay Contractor for completion of the Work in accordance with the Construction Contract Documents.

13. Construction Contract Times—The number of days or the dates by which Contractor must: (a) achieve milestones, if any, in the Construction Contract; (b) achieve Substantial Completion; and (c) complete the Work.

14. Construction Cost—The cost to Owner of the construction of those portions of the entire Project designed or specified by or for Engineer under this Agreement, including construction labor, services, materials, equipment, insurance, and bonding costs, and allowances for contingencies. Construction Cost does not include costs of services of Engineer or other design professionals and consultants; cost of land or rights-of-way, or compensation for damages to property; Owner's costs for legal, accounting, insurance counseling, or auditing services; interest or financing charges incurred in connection with the Project; or the cost of other services to be provided by others to Owner. Construction Cost is one of the items comprising Total Project Costs.

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

15. Constructor—Any person or entity (not including the Engineer, its employees, agents, representatives, or Subconsultants, or Engineer's Subcontractors), performing or supporting construction activities relating to the Project, including but not limited to Contractors, Subcontractors, Suppliers, Owner's work forces, utility companies, other contractors, construction managers, design-builders, testing firms, shippers, and truckers, and the employees, agents, and representatives of any or all of them.

16. Contractor—The entity or individual with which Owner enters into a Construction Contract.

17. Documents—All documents expressly identified as deliverables in this Agreement, whether in printed or Electronic Document form, required by this Agreement to be provided or furnished by Engineer to Owner. Such specifically required deliverables may include, by way of example, Drawings, Specifications, data, reports, building information models, and civil integrated management models.

18. Drawings—That part of the Construction Contract Documents that graphically shows the scope, extent, and character of the Work to be performed by Contractor.

19. Effective Date—The date indicated in this Agreement on which it becomes effective, but if no such date is indicated, the date on which this Agreement is signed and delivered by the last of the parties to sign and deliver.

20. Electronic Document—Any Project-related correspondence, attachments to correspondence, data, documents, drawings, information, or graphics, including but not limited to Shop Drawings and other Submittals, that are in an electronic or digital format.

21. Electronic Means—Electronic mail (e-mail), upload/download from a secure Project website, or other communications methods that allow: (a) the transmission or communication of Electronic Documents; (b) the documentation of transmissions, including sending and receipt; (c) printing of the transmitted Electronic Document by the recipient; (d) the storage and archiving of the Electronic Document by sender and recipient; and (e) the use by recipient of the Electronic Document for purposes permitted by this Agreement. Electronic Means does not include the use of text messaging, or of Facebook, Twitter, Instagram, or similar social media services for transmission of Electronic Documents.

22. Engineer—The individual or entity named as such in this Agreement.

23. Engineer's Subcontractor—An individual, firm, vendor, or other entity having a contract with Engineer to furnish general services, equipment, or materials with respect to the Project as an independent contractor.

24. Field Order—A written order issued by Engineer which requires minor changes in the Work but does not change the Construction Contract Price or the Construction Contract Times.

25. Front-End Construction Contract Documents—Those Construction Contract Documents whose primary purpose is to establish legal and contractual terms and conditions, typically including the Owner-Contractor agreement, bonds, general conditions, and supplementary conditions. The term excludes the Drawings and Specifications, and any

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

Construction Contract Documents delivered or issued after the effective date of the Construction Contract.

26. Laws and Regulations; Laws or Regulations—Any and all applicable laws, statutes, rules, regulations, ordinances, codes, and orders of any and all governmental bodies, agencies, authorities, and courts having jurisdiction.

27. Owner—The individual or entity named as such in this Agreement and for which Engineer's services are to be performed. Unless indicated otherwise, this is the same individual or entity that will enter into any Construction Contracts concerning the Project.

28. Project—The total undertaking to be accomplished for Owner by engineers, contractors, and others, including planning, study, design, construction, testing, commissioning, and start-up, and of which the services to be performed or furnished by Engineer under this Agreement are a part.

29. Record Drawings—Drawings depicting the completed Project, or a specific portion of the completed Project, prepared by Engineer and based on Contractor's record copy of all Drawings, Specifications, Addenda, Change Orders, Work Change Directives, Field Orders, and written interpretations and clarifications, as delivered to Engineer and annotated by Contractor to show changes made during construction.

30. Resident Project Representative—The authorized representative of Engineer assigned to assist Engineer at the Site during the Construction Phase. As used herein, the term Resident Project Representative (RPR) includes any assistants or field staff of the RPR.

31. Samples—Physical examples of materials, equipment, or workmanship that are representative of some portion of the Work and that establish the standards by which such portion of the Work will be judged.

32. Shop Drawings—All drawings, diagrams, illustrations, schedules, and other data or information that are specifically prepared or assembled by or for Contractor and submitted by Contractor to illustrate some portion of the Work. Shop Drawings, whether approved or not, are not Drawings and are not Construction Contract Documents.

33. Site—Lands or areas to be indicated in the Construction Contract Documents as being furnished by Owner upon which the Work is to be performed, including rights-of-way and easements, and such other lands furnished by Owner which are designated for the use of Contractor.

34. Specifications—The part of the Construction Contract Documents that consists of written requirements for materials, equipment, systems, standards, and workmanship as applied to the Work, and certain administrative requirements and procedural matters applicable to the Work.

35. Subconsultant—An individual, design firm, consultant, or other entity having a contract with Engineer to furnish professional services with respect to the Project as an independent contractor.

36. Subcontractor—An individual or entity having a direct contract with Contractor or with any other Subcontractor for the performance of a part of the Work.

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

37. Submittal—A written or graphic document, prepared by or for Contractor, which the Construction Contract Documents require Contractor to submit to Engineer, or that is indicated as a Submittal in the Schedule of Submittals accepted by Engineer. Submittals may include Shop Drawings and Samples; schedules; product data; Owner-delegated designs; sustainable design information; information on special procedures; testing plans; results of tests and evaluations, source quality-control testing and inspections, and field or Site quality-control testing and inspections; warranties and certifications; Suppliers' instructions and reports; records of delivery of spare parts and tools; operations and maintenance data; Project photographic documentation; record documents; and other such documents required by the Construction Contract Documents. Submittals, whether or not approved or accepted by Engineer, are not Construction Contract Documents. Change Proposals, Change Orders, Claims, notices, Applications for Payment, and requests for interpretation or clarification are not Submittals.

38. Substantial Completion—The time at which the Work (or a specified part thereof) has progressed to the point where, in the opinion of Engineer, the Work (or a specified part thereof) is sufficiently complete, in accordance with the Construction Contract Documents, so that the Work (or a specified part thereof) can be utilized for the purposes for which it is intended. The terms "substantially complete" and "substantially completed" as applied to all or part of the Work refer to Substantial Completion thereof.

39. Supplier—A manufacturer, fabricator, supplier, distributor, materialman, or vendor having a direct contract with Contractor or with any Subcontractor to furnish materials or equipment to be incorporated in the Work by Contractor or a Subcontractor.

40. Total Project Costs—The total cost of planning, studying, designing, constructing, testing, commissioning, and start-up of the Project, including Construction Cost and all other Project labor, services, materials, equipment, insurance, and bonding costs, allowances for contingencies, and the total costs of services of Engineer or other design professionals and consultants, together with such other Project-related costs that Owner furnishes for inclusion, including but not limited to cost of land, rights-of-way, compensation for damages to properties and private utilities (including relocation if not part of Construction Cost), Owner's costs for legal, accounting, insurance counseling, and auditing services, interest and financing charges incurred in connection with the Project, and the cost of other services to be provided by others to Owner.

41. Underground Facilities—All active or not-in-service underground lines, pipelines, conduits, ducts, encasements, cables, wires, manholes, vaults, tanks, tunnels, or other such facilities or systems at the Site, including but not limited to those facilities or systems that produce, transmit, distribute, or convey telephone or other communications, cable television, fiber optic transmissions, power, electricity, light, heat, gases, oil, crude oil products, liquid petroleum products, water, steam, waste, wastewater, storm water, other liquids or chemicals, or traffic or other control systems. An abandoned facility or system is not an Underground Facility.

42. Work—The entire construction or the various separately identifiable parts thereof required to be provided under the Construction Contract Documents. Work includes and is the result of performing or providing all labor, services, and documentation necessary to produce such construction; furnishing, installing, and incorporating all

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

materials and equipment into such construction; and may include related services such as testing, start-up, and commissioning, all as required by the Construction Contract Documents.

43. Work Change Directive—A written directive to Contractor issued on or after the effective date of the Construction Contract, signed by Owner and recommended by Engineer, ordering an addition, deletion, or revision in the Work.

B. Terminology

1. The word "day" means a calendar day of 24 hours measured from midnight to the next midnight.

ARTICLE 8—EXHIBITS AND SPECIAL PROVISIONS

8.01 Exhibits to Agreement

The following exhibits are incorporated by reference and included as part of this Agreement:

A. Exhibit A, Engineer's Services.

B. Exhibit B, Deliverables Schedule.

C. Exhibit C, Amendment to Owner-Engineer Agreement (form).

D. Exhibit D, Duties, Responsibilities and Limitations of Authority of Resident Project Representative. **(NOT USED)**

E. Exhibit E, EJCDC® C-626, Notice of Acceptability of Work (form). **(NOT USED)**

F. Exhibit F, Electronic Documents Protocol (EDP). **(NOT USED)**

G. Exhibit G, Insurance.

H. Exhibit H, Dispute Resolution.

I. Exhibit I, Limitations of Liability.

J. Exhibit J, Payments to Engineer for Services and Reimbursable Expenses.

8.02 Total Agreement

A. This Agreement (which includes the exhibits listed above) constitutes the entire contractual agreement between Owner and Engineer and supersedes all prior written or oral understandings. This Agreement may only be amended, supplemented, modified, or canceled by a written instrument duly executed by both parties. Amendments should be based whenever possible on the format of Exhibit C to this Agreement.

8.03 Designated Representatives

A. With the execution of this Agreement, Engineer and Owner shall each designate a specific individual to act as representative under this Agreement. Such an individual must have authority to transmit instructions, receive information, and render decisions with respect to this Agreement on behalf of the party that the individual represents.

8.04 Engineer's Certifications

A. Engineer certifies that it has not engaged in corrupt, fraudulent, or coercive practices in competing for or in executing the Agreement. For the purposes of this Paragraph 8.04:

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

1. "corrupt practice" means the offering, giving, receiving, or soliciting of anything of value likely to influence the action of a public official in the selection process or in the Agreement execution;

2. "fraudulent practice" means an intentional misrepresentation of facts made (a) to influence the selection process or the execution of the Agreement to the detriment of Owner, or (b) to deprive Owner of the benefits of free and open competition;

3. "coercive practice" means harming or threatening to harm, directly or indirectly, persons or their property to influence their participation in the selection process or affect the execution of the Agreement.

8.05 Conflict of Interest

A. Nothing in this Agreement will be construed to create or impose any duty on the part of Engineer that would be in conflict with Engineer's paramount obligations to the public health, safety, and welfare under the professional practice requirements governing Engineer, its Subconsultants, and all licensed professionals employed by Engineer or its Subconsultants.

B. If during the term of this Agreement a potential or actual conflict of interest arises or is identified:

1. Engineer and Owner together will make reasonable, good faith efforts to avoid or eliminate the conflict of interest; to mitigate any adverse consequences of the conflict of interest; and, if necessary and feasible, to modify this Agreement to address the conflict of interest and its consequences, such that progress under the Agreement may continue.

2. Such efforts will be governed by applicable Laws and Regulations and by any pertinent Owner's policies, procedures, and requirements (including any conflict of interest resolution methodologies) provided to Engineer under Paragraph 2.04.A of this Agreement.

EXHIBIT A—ENGINEER'S SERVICES

The Basic Services of ENGINEER and the responsibility of the OWNER as described in the Agreement are amended or supplemental as indicated below, and the time periods for the performance of certain services as indicated in Section 4 of the Agreement are as indicated below.

The Study and Report Phase services are not included in the Basic Services and have not been included in the Basic Services fee but are available as part of the Agreement should the OWNER request such services in writing, in accordance with paragraph 5.1.2.1.

Project Understanding

The work is generally described as survey, roadway design, right-of-way acquisition assistance, and contract documents for the widening of approximately 7000 feet (1.33 miles) of Lee Road from an existing two-lane rural section to a three-lane cross section with curb & gutter and sidewalks (hereinafter called the Project). The Project Limits will generally be described from approximately 4000 feet east of Cooks Lane to approximately 3600 feet west of Rocky Fork Road.

More specifically, the work will be subdivided into the following Scope Items:

Scope Item 1: Survey

1.1. Roadway Database Survey

1.1.1. ELI will perform a roadway database survey for engineering design and right-of-way acquisition for approximately 7000 feet (1.33 miles) of Lee Road from approximately 4000 feet east of Cooks Lane to approximately 3600 feet west of Rocky Fork Road. The digital terrain model (DTM) width will be 100' centered on existing Lee Road. The survey will include 6 side roads that will extend 100 feet along the side roads from the centerline of Lee Road. ELI will employ traditional field-run ground survey methods to collect topographic and roadway features. Evidence of sub-surface utilities such valve boxes, manholes, pull boxes, meters, cabinets, and vaults along with any painted, flagged, or otherwise marked evidence of buried utility line locations as provided by TN811 or other owner provided utility locates will be collected. No quality level "A" or quality level "B" S.U.E. will be included under this scope of services. Right of way lines will be resolved throughout the survey limits along with the resolution of approximately 50 adjoining property tracts. Deliverables will include planimetrics, contours, and a digital terrain model. CAD deliverables will be in Bentley OpenRoads Designer (ORD) format per TDOT CADD standards. The utility model will be excluded from the delivery. Refer to the following pages for the survey limits.

1.2. Right-of-Way and Easement Acquisition Staking

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

1.2.1. ELI will provide a one-time staking of the proposed right-of-way and/or easement acquisition parcels including iron pins at the primary corners of the property tracts. Staking is limited to an estimated 24 parcels located primarily south of Lee Road.

1.3. Right-of-Way and Easement Acquisition Parcel Exhibits and Descriptions

1.3.1. At the Owner's request, ELI will prepare Right-of-way and/or Easement Acquisition Exhibits and Descriptions for the affected parcels, limited to an estimated 24 tracts for budgeting purposes.

Scope Item 2: Roadway Design

ELI will prepare Roadway Design Plans in accordance with TDOT's Roadway Design Guidelines and current Town of Smyrna roadway design standards. The Roadway Design Plans will be prepared to generally conform to TDOT's current MicroStation and ORD CAD standards and will be delivered in three phases including Preliminary Plans, Right-of-way Plans, and Construction Plans more particularly described as follows:

2.1 Preliminary Plans:

2.1.1 Preliminary Plans will consist of the following sheets:

- Title Sheet with Index
- Roadway Typical Sections
- Present Layout Sheets
- Proposed Layout Sheets
- Mainline/Sideroad Profiles
- Driveway Profiles
- Culvert Cross Sections
- Preliminary Signing and Marking
- Roadway Cross Sections

2.1.2 Preliminary Plans submittal and Review

ELI will submit Preliminary Plans (Electronic PDF Copy) to the Town for review and comment. ELI will meet with the Owner to discuss staff comments. Following this review meeting, ELI will revise the plans based on the comments received and direction from the review meeting. ELI will document the comments and decisions in meeting minutes that will be distributed to all attendees of the review meeting.

2.1.3 Preliminary Engineer's Opinion of Probable Construction Costs

ELI will prepare a limited opinion of the probable construction cost of the proposed improvements. Given broad variability in factors that impact construction cost, ELI can only provide limited information based on recent historical cost of similar facilities constructed in the project area. Opinions made

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

on the basis of experience and judgment do not guarantee that proposals, bids or actual costs will not vary from its opinions of cost. ELI may apply contingency at an amount desired by the Owner to opinions for probable cost.

2.2 Right-of-Way Plans

2.2.1 Following acceptance of the Preliminary Plans, ELI will begin preparation of the the Right-of-Way Plans which will include the following sheets:

- Title Sheet
- Index with Standard Drawings
- Typical Roadway Sections
- Detail Sheets
- Right-of-Way Notes
- Property Map and Right-of-Way Acquisition Table
- Present Layout
- Right-of-Way Layout
- Proposed Layout
- Mainline/Sideroad Profiles
- Culvert Cross Section
- Driveway Profiles
- Drainage Map
- Erosion Prevention and Sediment Control Plans
- Traffic Control
- Signing and Marking
- Roadway Cross Sections

2.2.2 Right-of-way Plans Submittal and Review

ELI will submit Right-of-Way Plans (Electronic PDF Copy) to the Owner for review and comment. ELI will meet with Town staff to discuss their comments. Following this review meeting, ELI will revise the plans based on the comments received and direction from the review meeting. ELI will document the comments and decisions in meeting minutes that will be distributed to all attendees of the review meeting.

2.3 Construction Plans:

2.3.1 Following Owner concurrence and acceptance of the Right-of-Way Plans, ELI will begin preparation of the Construction Plans consisting of the following sheets:

- Title Sheet
- Index and Standard Drawings
- Estimated Roadway Quantities
- Estimated Bridge Quantities
- Roadway Typical Sections
- General Notes

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

- Special Notes
- Detail Sheets
- Property Map and Right-of-Way Acquisition Table
- Present Layout
- Right-of-Way Layout
- Proposed Layout
- Mainline/Sideroad Profiles
- Culvert Cross Section(s)
- Driveway Profiles
- Drainage Map
- Erosion Prevention and Sediment Control Plans
- Traffic Control Plans
- Signing and Marking
- Roadway Cross Sections

2.3.2 Final Engineer's Opinion of Probable Construction Cost

ELI will prepare a limited opinion of the probable construction cost of the proposed improvements. Given broad variability in factors that impact construction cost, ELI can only provide limited information based on recent historical cost of similar facilities constructed in the project area. Opinions made on the basis of experience and judgment do not guarantee that proposals, bids or actual costs will not vary from its opinions of cost. ELI may apply contingency at an amount desired by the Owner to opinions for probable cost.

2.3.3 Construction Plans Submittal and Review

ELI will submit Right-of-Way Plans (Electronic PDF Copy) to the Owner for review and comment. ELI will meet with Town staff to discuss their comments. Following this review meeting, ELI will revise the plans based on the comments received and direction from the review meeting. ELI will document the comments and decisions in meeting minutes that will be distributed to all attendees of the review meeting. The final Construction Plans will be signed and sealed by a State of Tennessee Licensed Professional Engineer.

Scope Item 3: Utility Coordination and Deconfliction

3.1. Preliminary Utility Coordination

3.1.1. Early Notification

Upon receiving Project notice to proceed, ELI will provide a notification to the potentially affected utility owners along the project corridor. The notification to each utility owner will consist of a project map and a letter requesting that the utility company review the project map to determine if they own facilities within the project limits. The letter will request a written response from each utility.

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

3.1.2. Preliminary Plan Distribution

Upon completion of Preliminary Plans, ELI will distribute said plans to the identified utility owners within the project limits. The submittal to each utility owner will consist of an electronic set of plan drawings (PDF format) and a letter requesting that the utility company review the potential impacts of the proposed project on their existing facilities. The letter will request preliminary relocation plans from each utility and will also request that the utility company identify any private utility easements that fall within the project limits but are not shown on the Preliminary plans.

3.1.3. Utility Coordination Meeting

ELI will prepare for and host a utility coordination meeting as part of this task. Known impacted utility companies will be invited to attend a coordination meeting to discuss potential utility relocations within the project limits. ELI will document the discussions and decisions made during the meeting and distribute a copy to the meeting attendees. Utility Owners will be responsible for identifying utility conflicts within the project limits and the design and relocation of their facilities.

3.2. Final Utility Coordination

3.2.1. Right-of-Way Plan Distribution

Upon completion of Right-of-Way Plan preparation, ELI will distribute the approved Right-of-Way Plans to utility owners identified in task 3.1 above. The submittal to each utility owner will consist of an electronic set of plan drawings, information detailing any design changes made during Right-of-Way design, and a letter requesting that the utility company review the potential impacts of the proposed project to their facilities and prepare final utility relocation plans.

3.2.2. Final Plans Review Meeting

During the Construction Plans final design phase, if there are any changes made to the proposed design plans that will impact final utility relocation plans, ELI will submit the revised plans to the utility owners. Via this task, utility companies will also be invited to attend the Construction Plans review meeting. **ELI will not perform any utility relocation design services as part of this task.** It is understood that each utility owner will design, provide plans for, and construct their respective utility relocations.

Scope Item 4: Environmental Permitting

4.1 Storm Water Pollution Prevention Plan (SWPPP) Preparation

ELI will prepare and submit the Storm Water Pollution Prevention Plan (SWPPP) permit documents required by TDEC for the land disturbance activities associated with this project. The SWPPP will consist of drawings and a technical narrative describing erosion and sediment control measures that should be implemented during construction to

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

reduce the negative downstream impacts due to pollutant run-off related to construction activities.

ELI will submit the SWPPP document to TDEC for review. ELI will revise the SWPPP document in accordance with comments received from TDEC and will resubmit a final SWPPP document to TDEC for approval. The Town of Smyrna shall be responsible for all permitting and review fees associated with this task.

4.2 National Pollutant Discharge Elimination System (NPDES) Permit Application

Based on the assumed impact of the project improvements on the surrounding environment, it is assumed that an NPDES General Permit for Storm Water Discharges Associated with Construction Activity will be required for the project. ELI will prepare the NPDES General Permit application and will submit it to TDEC along with the approved SWPPP document for processing by TDEC.

Preparation of technical studies or applications for other project-specific environmental permits are not part of this task. If additional environmental permits are required by TDEC, USACE, or any other agency, those permits can be provided by ELI in accordance with Additional Services clause of this Agreement.

Scope Item 5: Bid Phase Services

5.1. Proposal Contract (Bid Book) Preparation

ELI will prepare a proposal contract in accordance with TDOT and Town of Smyrna standards. ELI will prepare technical specifications for those items that are not covered by TDOT or Town of Smyrna specifications. The remainder of the technical specifications will be based upon TDOT's Standard Specifications for Road and Bridge Construction or will be documented in the construction plans. The proposal contract will contain the Request for Proposals, the contract documents, bid forms, specifications, required special provisions, and an 11" x 17" plan set. The proposal contract will be submitted to the Town of Smyrna for approval. Upon authorization from the Town, ELI will proceed with bidding the project and will print and deliver 10 bound copies of the plans and Proposal Contract to the Town.

5.2. Bid Assistance

ELI will assist the Town with drafting the advertisement for bids and conduct one pre-bid meeting with potential bidders. ELI will be responsible for plans distribution during the bid phase. ELI assist the Town with requests for information (RFI) that arise during the bidding process and issue statements of clarification or bid addenda as appropriate. ELI will conduct the bid opening and meet with Town of Smyrna staff following the bid opening to assist with bid review. In addition, ELI will tabulate the bids received and evaluate the compliance of the bids with the bidding documents. ELI will prepare a

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

written summary of this tabulation and evaluation. ELI will submit the bid tabulation and other required documentation to the Town for review and approval to award the contract to the lowest responsive bidder.

ELI Scope Item 5 Deliverables:

- Draft Proposal Contract (one electronic copy in Adobe PDF format) to the Town
- Final Proposal Contract (one electronic copy in Adobe PDF format) to the Town
- Plans Package and Proposal Contract copies for bidders (ten bound copies)
- Responses to bidder questions (one electronic copy in Adobe PDF format)
- Bid tabulation and recommendation of lowest responsive bidder submittal to the Town (one electronic copy in Adobe PDF format)

Scope Item 6: Construction Engineering & Inspection Services

All Construction Administration, Construction Engineering, and Inspection Services are excluded from this Agreement until such time the Owner chooses to issue an Amendment to this Agreement to include the performance of said services. Construction Engineering & Inspection Services can be added to this Agreement in accordance with the terms included herein and approval and execution of a completed AMENDMENT TO OWNER-ENGINEER AGREEMENT included as EXHIBIT C.

EXHIBIT B—DELIVERABLES SCHEDULE

ELI understands that the Owner desires to get the Project under construction within 18 months of Notice to Proceed. ELI will endeavor to complete the services described herein with efficiency according to the following preliminary milestone schedule:

Activity	Milestones
Notice To Proceed	January 2, 2024
Survey Substantial Completion	March 28, 2024
Preliminary Plans Submittal	July 11, 2024
Right-of-Way Plans Submittal	November 7, 2024
Construction Plans Submittal	February 27, 2025
Final Construction Plans Complete	March 27, 2025
Proposal Contract (Bid Book) Submittal	April 9, 2025
Advertisement For Bids	April 23, 2025
Bids Due	May 21, 2025
Contract Award	June 4, 2025
Contractor Notice to Proceed	July 2, 2025

Exhibits to EJCDC® E-500, Agreement between Owner and Engineer for Professional Services.

EXHIBIT G—INSURANCE

ARTICLE 1—INSURANCE

Paragraph 6.04 of the Agreement, Insurance, is supplemented to include the following Exhibit G Paragraphs 1.01 and 1.02:

1.01 Insurance Policies and Limits

A. Commencing with the performance of the Services hereunder, and continuing until the termination of the Agreement including during the performance of any warranty services, Consultant (and any tier subcontractors) shall maintain or cause to be maintained occurrence form insurance policies as follows: (a) Workers' Compensation specific to the applicable statutory requirements for the Services to be performed; provided that Consultant (or its subcontractor(s)) must notify if exempt from the statutory Workers' Compensation requirements; (b) Employer's Liability Insurance of not less than $1,000,000 each accident/employee/disease; (c) Commercial General Liability Insurance having an available limit of at least $1,000,000 per occurrence/$2,000,000 in the annual aggregate for contractual liability, personal injury, bodily injury to or death of persons, and/or loss of use or damage to property, including but not limited to products and completed operations liability (which shall continue for at least three (3) years after completion), and premises and operations liability coverage (d) Commercial/Business Automobile Liability Insurance (including owned, non-owned or hired autos) having an available limit of at least $1,000,000 each accident for bodily injury, death, property damage, with any fellow employee exclusion removed, and contractual liability; (e) Umbrella/Excess Liability insurance with available limits of at least $4,000,000 per occurrence and follow form of the underlying Employer's Commercial General and Auto Liability insurance, and providing at least the same scope of coverages thereunder; (f) Professional Liability/Errors & Omissions (E&O) Insurance (claims-made form acceptable with reporting requirements of at least three (3) years after completion) with no resulting bodily injury or property damage exclusion with available limits of at least $1,000,000 each claim.

B. During the term of this Agreement the Engineer shall notify Owner of any other Subconsultant or Engineer's Subcontractor to be listed as an additional insured on Owner's and applicable Contractor's general liability policies of insurance.

C. The Owner must be listed on Engineer's general liability policy as provided in Paragraph 6.04.B.

EXHIBIT H—DISPUTE RESOLUTION

Paragraph 6.07 of the Agreement, Dispute Resolution, is supplemented to include the following Exhibit H Paragraph 1.01:

1.01 Non-Binding Mediation. If a good faith effort to resolve a dispute on terms satisfactory to both parties is unsuccessful, Engineer and Owner shall submit the dispute to non-binding mediation unless the parties mutually agree otherwise. The mediation will be conducted by a mediator acceptable to Engineer and will be governed by and conducted pursuant to a mediation agreement negotiated by the parties or, if the parties cannot so agree, by the Construction Industry Mediation Procedures of the American Arbitration Association. Each party agrees to pay its own costs in connection with the mediation and its proportionate share of the fees and costs of the mediation. Any dispute not resolved within thirty days after submission to mediation may be resolved by litigation in a court of competent jurisdiction in the State of Tennessee. If Engineer's Services relate to a Project in a state that requires venue for any action related to the Project lie within the state where the Project is located, venue may also lie in a court of competent jurisdiction within that state.

1.02 Duty to Continue Performance. Each party shall continue to perform under this Agreement pending the final resolution of any dispute or disagreement between Engineer and Owner.

EXHIBIT I—LIMITATIONS OF LIABILITY

ARTICLE 1—LIMITATIONS OF LIABILITY

Paragraph 6.10 of the Agreement is supplemented to include Exhibit I Paragraph(s) 1.01, Mutual Indemnification, and 1.02, Limitation of Engineer's Liability:

1.01 Mutual Indemnification

A. Indemnification by Owner: To the fullest extent permitted by Laws and Regulations, Owner shall indemnify and hold harmless Engineer and its officers, directors, members, partners, agents, employees, and Subconsultants, and Engineer's Subcontractors, from and against any and all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals, and all court, arbitration, or other dispute resolution costs) arising out of or relating to the Project, provided that any such claim, cost, loss, or damage is attributable to bodily injury, sickness, disease, or death or to injury to or destruction of tangible property (other than the Work itself), including the loss of use resulting therefrom, but only to the extent caused by any negligent act or omission of Owner or Owner's officers, directors, members, partners, agents, employees, or others retained by or under contract to the Owner with respect to this Agreement or to the Project.

1.02 Limitation of Engineer's Liability

A. Engineer's Liability Limited to Stated Amount, or Amount of Engineer's Compensation: To the fullest extent permitted by Laws and Regulations, and notwithstanding any other provision of this Agreement, the total liability, in the aggregate, of Engineer and Engineer's Subcontractors, officers, directors, members, partners, agents, employees, and Subconsultants, to Owner and anyone claiming by, through, or under Owner for any and all injuries, claims, losses, expenses, costs, or damages whatsoever (including but not limited to direct, indirect, special, incidental, punitive, exemplary, or consequential damages) arising out of, resulting from, or in any way related to the Project, to Engineer's or its Subconsultants' or Engineer's Subcontractor's services, or to this Agreement, from any cause or causes whatsoever, including but not limited to the negligence, professional errors or omissions, strict liability, breach of contract, indemnity obligations, or warranty express or implied, of Engineer or Engineer's officers, directors, members, partners, agents, employees, or Subconsultants, or Engineer's Subcontractors, will not exceed the total amount of **$250,000** or the total compensation received by Engineer under this Agreement, whichever is greater. Higher limits are available for an additional fee.

EXHIBIT J—PAYMENTS TO ENGINEER FOR SERVICES AND REIMBURSABLE EXPENSES

ARTICLE 1—STANDARD HOURLY RATES

Article 2 of the Agreement is supplemented to include the following Exhibit J Paragraphs 1.01, 1.02, and 1.03:

1.01 Compensation for Basic Services (other than Resident Project Representative)—Standard Hourly Rates Method of Payment

A. Owner shall pay Engineer for Basic Services set forth in Exhibit A (except for Resident Project Representative services, if any) as follows:

1. An amount equal to the cumulative hours charged to the Project by Engineer's personnel times Standard Hourly Rates for the applicable billing class, plus Reimbursable Expenses, plus Engineer's Subcontractors' and Subconsultants' charges, if any.

2. The Standard Hourly Rates charged by Engineer constitute full and complete compensation for Engineer's services, including labor costs, overhead, and profit; the Standard Hourly Rates do not include Reimbursable Expenses or Engineer's Subcontractor's and Subconsultants' charges.

3. Engineer's Reimbursable Expenses Schedule and Standard Hourly Rates are attached to this Exhibit J as Appendix 1

4. The total compensation for such services is estimated to be $**444,765.00** based on the following estimated distribution of compensation:

a.	Roadway Survey (Includes Right-of-way Staking)	$ 99,504.00
b.	Preliminary Plans	$ 135,100.00
c.	Right-of-way Plans (Includes R.O.W. Exhibits & Descriptions)	$122,536.00
e.	Construction Plans (Includes Bidding Assistance)	$ 87,625.00
f.	Construction Engineering & Inspection	TBD

5. Engineer may alter the distribution of compensation between individual phases of the work noted herein to be consistent with services actually rendered, but compensation will not exceed the total estimated compensation amount unless approved in writing by Owner. See also Exhibit J Paragraph 1.03.C.2 below.

6. The total estimated compensation for Engineer's services included in the breakdown by phases incorporates all labor, overhead, profit, Reimbursable Expenses, and Engineer's Subcontractor's and Subconsultants' charges.

7. The amounts billed for Engineer's services under Exhibit J Paragraph 1.01 will be based on the cumulative hours charged to the Project during the billing period by Engineer's employees times Standard Hourly Rates for the applicable billing class, plus Reimbursable Expenses and Engineer's Subcontractor's and Subconsultants' charges.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

1.02 Compensation for Reimbursable Expenses

A. Owner shall reimburse Engineer for Reimbursable Expenses directly related to the provision of Basic Services, using the rates set forth in Appendix 1 to this Exhibit J when applicable.

B. Reimbursable Expenses include the expenses identified in Appendix 1 and the following: transportation (including mileage), lodging, and subsistence incidental thereto; providing and maintaining field office facilities including furnishings and utilities; toll telephone calls, mobile phone charges, and courier charges; reproduction of reports, Drawings, Specifications, bidding-related or other procurement documents, Construction Contract Documents, and similar Project-related items. In addition, if authorized in advance by Owner, Reimbursable Expenses will also include expenses incurred for the use of highly specialized equipment.

C. The amounts payable to Engineer for Reimbursable Expenses will be the Project-related internal expenses actually incurred or allocated by Engineer, plus all invoiced external Reimbursable Expenses allocable to the Project, the latter multiplied by a factor of 1.10.

1.03 Other Provisions Concerning Payment

A. Whenever Engineer is entitled to compensation for the charges of Engineer's Subcontractors and Subconsultants, such compensation will be the amounts billed to Engineer by Engineer's Subconsultants times a factor of 1.10.

B. Factors: The external Reimbursable Expenses and Engineer's Subcontractors' and Subconsultants' factors include Engineer's overhead and profit associated with Engineer's responsibility for the administration of such services and costs.

C. Estimated Compensation Amounts

1. Engineer's estimate of the amounts that will become payable for specified services are only estimates for planning purposes, are not binding on the parties, and are not the minimum or maximum amounts payable to Engineer under the Agreement.

2. When estimated compensation amounts have been stated herein and it subsequently becomes apparent to Engineer that the total compensation amount thus estimated will be exceeded, Engineer shall give Owner written notice thereof, allowing Owner to consider its options, including suspension or termination of Engineer's services for Owner's convenience. Upon notice, Owner and Engineer will promptly review the matter of services remaining to be performed and compensation for such services. Owner shall either exercise its right to suspend or terminate Engineer's services for Owner's convenience, agree to such compensation exceeding said estimated amount, or agree to a reduction in the remaining services to be rendered by Engineer, so that total compensation for such services will not exceed said estimated amount when such services are completed. If Owner decides not to suspend the Engineer's services during the negotiations and Engineer exceeds the estimated amount before Owner and Engineer have agreed to an increase in the compensation due Engineer or a reduction in the remaining services, then Engineer will be paid for all services rendered hereunder.

D. The Standard Hourly Rates and Reimbursable Expenses Schedule will be adjusted annually (as of January 1st) to reflect equitable changes in the compensation payable to Engineer.

EXHIBIT J—PAYMENTS TO ENGINEER FOR SERVICES AND REIMBURSABLE EXPENSES

APPENDIX 1: STANDARD HOURLY RATES AND REIMBURSABLE EXPENSES SCHEDULE

A. Standard Hourly Rates

1. Standard Hourly Rates are set forth in this Appendix 2 to this Exhibit J and include salaries and wages paid to personnel in each billing class plus the cost of customary and statutory benefits, general and administrative overhead, non-project operating costs, and operating margin or profit.

2. The Standard Hourly Rates apply only as specified in Exhibit J.

B. Reimbursable Expenses are subject to review and adjustment per Exhibit J.

STANDARD ADDENDUM TO AGREEMENT

This standard contract addendum is executed on the 12th day of December, 20 23 by and between **THE TOWN OF SMYRNA, TENNESSEE,** a municipal corporation in the State of Tennessee, herein further referenced and identified as ("The Town") and Energy Land & Infrastructure, LLC herein further referenced and identified as ("Vendor") in order to amend the terms of the Agreement, including all attachments, exhibits, or any actual or virtual documents or writing, including, but not limited to, all any "clickwrap," "clickthrough" or "click and accept" agreement or other Terms of Service scheduled for presentation to the Town Council for approval on the 12th day of December 20 23.

WITNESSETH

WHEREAS, the parties wish to execute this addendum to the Agreement for the purposes of substituting, clarifying or inserting certain terms of or into their original Agreement executed on the 12th day of December, 20 23; and

WHEREAS, the terms of this addendum to the Agreement shall take precedence over all other terms, conditions or language to the contrary or in conflict with the language contained in the Agreement; however, any term or clause not modified by the provisions herein shall be governed by the original agreement. The parties agree that this addendum shall not be construed to create any ambiguity, it being the expressed intent of the parties that this addendum shall control;

THEREFORE, In consideration of using Vendor's form Agreement, the mutual promises set out herein, and other good and valuable consideration, the sufficiency of which is hereby acknowledged by Vendor the parties hereto agree to the following:

1. VENUE: The parties agree that venue for any legal or other dispute arising under the terms of the original agreement or this addendum to agreement shall lie exclusively in the courts of Rutherford County, Tennessee or the United States District Court, for the Middle District of Tennessee. The parties hereby waive their right to a jury trial;

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

2. CHOICE OF LAW: The Agreement shall be deemed to be entered into under Tennessee law, and the rights and obligation of the parties are governed by the laws of the State of Tennessee, without regard to its conflict of laws principles, and all obligations of the parties are performable in Smyrna, Tennessee.

3. INDEMNIFICATION: The parties hereto agree that Vendor shall indemnify The Town for any and all claims of negligence, tortious conduct or otherwise unlawful acts committed by Vendor in the performance of their obligations under the terms of the original agreement or this addendum to agreement and Vendor agrees to pay any and all costs associated with the enforcement of the terms of this indemnity agreement by The Town, including but not limited to, court costs, civil judgments, assessments or any other reasonable fees associated therewith. In addition, Article II, Section 29 of the Tennessee Constitution prohibits municipalities from lending their credit to private or public entities and, therefore, prohibits an agreement by the Town to indemnify a third party or agree to a limitation of liability provision. Any indemnity or hold harmless provision contained in the Agreement requiring the Town to indemnify or hold harmless Vendor or any other person or entity or any limitation of liability in favor of Vendor shall be deemed null, void and unenforceable against the Town under any and all circumstances.

4. NON-APPROPRIATION: Vendor acknowledges that the Town is a governmental entity, and the validity of the Agreement is based upon the availability of public funding under its authority. In the event the Town fails to appropriate funds or make monies available for any fiscal year covered by the term of the Agreement for services to be provided, the Agreement shall be terminated on the last day of the fiscal year for which funds were appropriated or monies made available for such purposes without liability to the Town, and such termination shall not be a breach of the Agreement, and any unused payment made to Vendor shall be returned to the Town.

5. TAX EXEMPTION: As a tax-exempt entity, the Town shall not be responsible for sales or use taxes incurred for products or services. The Town shall supply Vendor with its Sales and Use Tax Exemption Certificate upon Vendor's request. Vendor shall bear the burden of providing its suppliers with a copy of the Town's tax

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

exemption certificate and Vendor shall assume all liability for such taxes, if any, that should be incurred.

6. NO ATTORNEY'S FEES: The parties hereto agree that The Town shall be in no event liable for any attorney's fees which Vendor may incur due to breach of the original agreement or this addendum agreement by either party; and further, The Town shall not acquiesce to any term of the original contract/agreement that indicates or infers The Town may or shall be responsible for the fees of another party or the Vendor's attorney fees.

7. MEDIATION; NO ARBITRATION: The Town may, at its option, require the attempted resolution of any dispute arising under the original contract or this addendum to agreement by mediation prior to the filing of any lawsuit or other claim. Should any dispute arise, Vendor shall provide the Town notice of any intent to file suit by certified mail. The Town shall notify the Vendor of its intent to exercise its right to mediation within thirty (30) days of receiving such notice. If the Town does not exercise its right to mediation, Vendor may file suit. Any mediator selected under this clause shall be agreed upon by the parties and the costs of such mediation shall be divided and paid equally between the parties. The parties hereby further agree that, except as provided for in this addendum or by applicable law, the parties shall not be required to participate in any alternative dispute resolution process or procedure, including but not limited to arbitration and med-arb, relating to disputes that arise between the parties to the Agreement.

8. FAILURE TO PERFORM: The parties agree, in the event Vendor fails to perform any obligation, other than with regards to the date of delivery, set out in the Agreement/Contract, the Town shall be reimbursed by Vendor for any and all expenses associated with having to obtain a new provider to finish out the contracted term, including, but in no way limited to, any charges/fees, which are above and beyond the amount the Town would have paid to Vendor to complete the same task; provided, however, that if the failure, by its nature, is one that can be cured, the Vendor shall have fifteen (15) business days after receipt of written notice from the Town to cure said failure to perform. The parties hereby agree, unless a specific date of delivery is

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

provided in the Agreement/Contract all deliveries shall be made to the Town no later than ninety (90) days from the date of the Agreement/Contract. The parties further agree that if Vendor, in good faith, is not able to meet this ninety (90) day deadline of delivery due to forces beyond his, her or its control, that were unforeseeable at the time of signing the Agreement/Contract, then the entire Agreement/Contract shall be voidable at the sole discretion of the Town. Should the Town elect to void the Agreement/Contract due to Vendor's good faith inability, due to forces beyond his, her or its control, and which were unforeseeable at the time of signing the Agreement/Contract to meet the delivery deadline, then neither party shall be deemed to have breached the Agreement/Contract, and Vendor shall return all monies, within seven (7) business days, paid by the Town for the products/items that could not be delivered in the allotted time. This provision shall take propriety over any Force Majeure Clause contained within the Agreement/Contract.

9. USE OF TOWN's LOGO OR NAME: Vendor shall not use the Town's name or any logo in marketing or publicity materials or for marketing or publicity purposes without the prior written authorization from the Town. Vendor shall not issue, publish, or divulge any materials developed or used in the performance of this Agreement or make any statement to the media relating to this Agreement without the prior written consent of the Town.

10. WARRANTY: Vendor warrants that the product(s) herein, when used in accordance with the documentation, shall operate and conform in all material respects in conformity with this Agreement and the written representations of Vendor, including applicable user manuals and guides supplied by Vendor or with Vendor's Software. If it does not perform as warranted, Vendor shall use all commercially reasonable efforts to correct the product(s) so that it operates in all material respects in conformity with the written representations of Vendor. If Vendor cannot correct the product(s) within a reasonable period of time, Vendor shall refund the purchase price of the product(s).

11. SOFTWARE DEADLINE, TESTING AND ACCEPTANCE: If applicable to the Agreement, software provided by Vendor shall be installed for the purposes of testing, as stated herein below, no later than one hundred twenty (120) days from the

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

effective date of the Agreement and this Addendum thereto, unless the Agreement states a specific date which is before or after said deadline. In Addition, software provided by Vendor to the Town is subject to inspection and testing to verify that the software conforms to its written specifications and to ensure it meets the Town's needs. The Town shall have seven (7) business days after the software is installed to perform testing of the software using the Town's data. The Town shall provide Vendor with written notice of acceptance or rejection of the software five (5) business days or less after the end of the testing period. If the Town does not provide timely written notice of acceptance or rejection to Vendor, the software shall be deemed to be accepted by the Town. If the software is rejected, the Town may, at its sole discretion, either (1) return the software and receive a refund of all fees paid with respect thereto, or (2) allow Vendor to repair or replace the software, without charge, in a timely manner. In the event the Town elects to allow the Vendor to repair or replace the software, the Town shall have an additional (7) business days in which to accept or reject the software as laid out hereinabove.

12. NO AUTOMATIC RENEWAL: The term of the Agreement shall not be renewed or extended beyond the initial term and any provision providing for automatic or continuing renewal of the Agreement is not applicable.

13. UNILATERAL MODIFICATION OF AGREEMENT NOT PERMITTED: Vendor may make unilateral changes to its Privacy Policy, provided any such changes are subject to the provisions of this Addendum, shall not alter this Addendum, and shall not materially alter the use of the service or reduce the level of protection provided to the Town at the time of the execution of this Agreement. Except as provided in the preceding sentence, notwithstanding anything in the Agreement to the contrary, any change to the Agreement made by Vendor that is not in writing and that is not properly executed by the signatures of authorized representatives of the parties hereto, including attestation by the Town's Clerk and approved as to form by the Town Attorney are subject to the terms and conditions of this Addendum, and shall not alter this Addendum and shall not materially alter the use of the service or reduce the level of protection provided to the Town at the time of the execution of this Agreement.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

14. CHANGES TO TERMS. Except as provided in Paragraph No. 13 above pertaining to Vendor's Privacy Policy, Vendor shall provide the Town written notice, sent in care of Town Attorney's Office, Smyrna, Tennessee, 315 South Lowry Street, Tennessee 37167, of any proposed change to the Agreement at least ninety (90) days prior to being effective to the Town. The Town shall have thirty (30) days after receiving the written notice to terminate this Agreement, and such cancellation shall not be a breach of this Agreement. Vendor will refund to the Town any payment made by the Town to Vendor equal to the difference between the number of months the payment was intended for and the number of months remaining on Agreement that the fee was intended to cover.

15. PRICE ASSURANCE: Unless specifically stated in the Agreement, the price shall be valid for the full term of the Agreement. If Vendor, specifically states, in the Agreement that he, she or it cannot honor the price for the full term of the Agreement; the Agreement is voidable at the sole discretion of the Town, if at any time during the full term of the Agreement, Vendor requests to raise the contract price. If the Town elects to void the Agreement, at its sole discretion, it shall not be deemed to be a breach of the contract by either party.

16. CONFIDENTIALITY: The Town, as a Tennessee Municipal Corporation is subject to the Tennessee Open Records Act, set out in T.C.A. §10-7-503 et seq; therefore, this Addendum, the Agreement and all documents or materials, in any format, including, but not limited to paper, electronic or virtual, that are public records pursuant to law, are not confidential and are subject to disclosure, without regard to any provision contained in the Agreement declaring information confidential. The Town will respond to all proper Open Records Requests in the time allowed by law, without any requirement to disclose such request to Vendor or provide Vendor with notice or the time to obtain a protective order. The Town does not have the burden of establishing that information is not confidential information or that its release is authorized to release the records. This section 16 serves to meet such burden and authorization of disclosure.

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

17. BOYCOTT OF ISRAEL: The Vendor certifies that it is not currently engaged in, and covenants that it will not, for the duration of the Contract, engage in a Boycott of Israel, as that term is defined in Tenn. Code Ann. § 12-4-119.

18. NO PRESUMPTION AGAINST DRAFTER: The parties are both business entities having substantial experience with the subject matter of this addendum, and each has fully participated in the negotiation and drafting of this addendum. Accordingly, this addendum shall be construed without regard to the rule that ambiguities in a document are to be construed against the draftsman. No inferences shall be drawn from the fact that the final, duly executed addendum differs in any respect from any previous draft hereof.

19. SURVIVAL: This entire addendum shall survive the completion of or any termination of the Agreement or other document which may accompany the Agreement or be incorporated by reference and shall remain in full force and effect until the expiration of any applicable statute of limitation.

20. EFFECTIVE DATE: This addendum shall be deemed to have the same effective date of the Agreement.

(execution page follows)

DocuSign Envelope ID: 41355D33-FFF4-4F54-B7DF-4168A8A3A208

IN WITNESS WHEREOF, the parties hereto warrant and represent that the individual who has signed this addendum on behalf of such party is duly authorized by all necessary and appropriate corporate action to sign this addendum.

VENDOR OR AGENT

VENDOR OR AGENT

MAYOR OF SMYRNA, TENNESSEE

Energy Land & Infrastructure

AMENDMENT TO OWNER-ENGINEER AGREEMENT

Amendment No. **1**

Owner: **Town of Smyrna, Tennessee**
Engineer: **Energy Land & Infrastructure, LLC (ELI)**
Project: **Lee Road Widening – Phase 1**
Effective Date of Owner-Engineer Agreement: **December 12, 2023**

Nature of Amendment: (Check those that apply)

- ☒ Additional Services to be performed by Engineer
- ☐ Modifications to services of Engineer
- ☐ Modifications to responsibilities of Owner
- ☒ Modifications of payment to Engineer
- ☐ Modifications to time(s) for rendering services
- ☐ Modifications to other terms and conditions of the Agreement

Description of Modifications:

During the course of drainage design for the project, research and field investigations revealed the potential for unanticipated environmental impacts to regulatory streams and/or wetlands along the corridor. These potential impacts warrant a Jurisdictional Waters Determination (JWD) in accordance with protocols and guidelines of the State of Tennessee and the U.S. Army Corps of Engineers. ELI intends to subcontract with Griggs & Maloney, Inc. of Murfreesboro, Tennessee to provide the JWD for the project corridor. Refer to Exhibit 1 for Griggs & Maloney, Inc.'s Proposal for the JWD.

Agreement Summary:

Original agreement amount:	$ 444,765.00
Net change for prior amendments:	$ 0.00
This amendment amount:	$ 7,700.00
Adjusted Agreement amount:	$ 452,465.00
Change in time for services (days or date, as applicable):	

Owner and Engineer hereby agree to modify the above-referenced Agreement as set forth in this Amendment. The Effective Date of the Amendment is _____.

RE: PROPOSAL TO PROVIDE JURISDICTIONAL WATERS DETERMINATION
LEE ROAD PHASE I PROJECT
SMYRNA, RUTHERFORD COUNTY, TENNESSEE

Mr. Sain,

Thank you for requesting a proposal from Griggs & Maloney Inc. (G&M) to conduct a Jurisdictional Waters Determination (JWD). The scope of services presented herein is based on information provided to this firm and review of published maps and data for this project. G&M's proposal consists of the following:

1. **Scope of Services** – G&M proposes to conduct the following tasks associated with the referenced project;

   G&M will conduct a Jurisdictional Waters Determination (JWD) on a project area associated with the proposed Lee Road Phase I project, as depicted in maps provided to G&M on April 29, 2025, in Smyrna, Rutherford County, Tennessee.

   - The JWD consists of map evaluation, conducting field examinations, and composing a report that will detail the findings of the JWD. The JWD will be conducted by a Qualified Hydrologic Professional (QHP) and includes delineation of any identified wetlands and performing Hydrologic Determinations (HD) on any identified drainage channels within the specified project area. All work will be conducted using current regulatory protocols and guidelines for both the State of Tennessee and U.S. Army Corps of Engineers. The JWD report, which will provide details, photos, copies of the determination forms for any identified aquatic features, and a map showing the location of any identified aquatic resources located within the project area, will be composed and provided within one week upon completion of field work.

     Preliminary desktop review of the project area via U.S. Fish and Wildlife Service (USFWS) National Wetland Inventory (NWI) maps and the National Hydrography Dataset maps indicates that potential jurisdictional aquatic features are present within the project area boundaries. Review of the U.S. Department of Agriculture (USDA) National Resource Conservation Service (NRCS) Web Soil Survey map indicates that potential hydric soils may be present within the project area. Review of U.S. Geological Survey (USGS) 3D Elevation maps indicates that potential channelized features exist within the project area.

   - Upon your approval, the report will be submitted to regulatory authorities for review and concurrence to

facilitate potential future environmental permitting of the project.

2. **Performance Schedule** – G&M will begin scheduling the above-described service immediately upon receipt of the signed and dated proposal. The written report will be completed and delivered within one week upon completion of field work.

   Based on current workload and scheduling, it is anticipated that performance of the above-described scope of services can be accomplished in two to three weeks. Please note that the performance of the field work associated with the scope of services is weather dependent.

3. **Fee Schedule** - Griggs & Maloney, Inc. proposes the following fee schedule to conduct the above-described service;

   - G&M proposes to conduct the JWD for a cost of $7,000.

   Please note that the fee schedule for the above-described scope of services and associated tasks does **not** include additional items (regulatory field visit(s), requests for additional information, etc.) that may be required to facilitate concurrence of the JWD Report.

   If additional items are required to facilitate regulatory concurrence of the JWD, these items can be billed on a time and materials basis according to G&M's 2025 Standard Hourly Rates included with this proposal, or G&M can provide a proposal outlining the services and cost associated with any additional items requested by regulatory agencies.

Griggs & Maloney, Inc. sincerely appreciates the opportunity to be considered as your consultant for this project. I am confident that our knowledge, skills and experience will ensure the successful completion of this important project in a timely and cost-efficient manner. If the above-described proposal and G&M's Standard Terms and Conditions (included below) meets your approval, please sign the Proposal Acceptance statement on page 3 of this document and return via email.

If you have any questions regarding this proposal, or about Griggs & Maloney, Inc., please call me at (615) 895-8221.

Sincerely,

Conor Maloney
Griggs & Maloney, Inc.

GRIGGS & MALONEY, INC. STANDARD TERMS AND CONDITIONS

1. ACCESS TO THE SITE/JOB SITE SAFETY

Unless otherwise stated, Griggs & Maloney, Inc., hereinafter referred to as the CONSULTANT, will have access to the site for activities necessary for performance of the services. The CONSULTANT will take precautions to minimize damage resulting from these activities, but has not included in the project fee the cost of restoration of any resulting damage.

The CONSULTANT has not been retained or compensated to provide services relating to the CONTRACTOR's safety precautions or means, methods, techniques, sequences or procedures for the CONTRACTOR to perform his work. The CLIENT understands that the CONSULTANT is not responsible, in any way, for the means, methods, techniques, sequences, procedures, scheduling, or for job site safety, and will not be responsible for any loses or injuries that occur at the Project site.

2. INDEMNIFICATION

Should the CONSULTANT become involved in third party litigation as a result of its performance of work for the CLIENT under this Agreement, the CLIENT agrees, to the fullest extent permitted by law, to defend and hold harmless and pay all attorney's fees for the CONSULTANT for such litigation. If any claim is brought against the CLIENT or the CONSULTANT by any third party, relating in whole or in part to the negligence of the CLIENT or the CONSULTANT, each party , to the fullest extent permitted by law, shall indemnify the other against any loss or judgment, including Attorney's fees and costs, to the extend that such loss or expense is caused by the party negligence, the CONSULTANT's liability to the CLIENT is subject to the limitations in Paragraph 4, Risk Allocation/Limitation of Liability. To the fullest extent permitted by law, the CLIENT will reimburse the CONSULTANT for expenses related to claims, including attorney's fees and costs, if the CONSULTANT is proven not to be negligent. In addition, to the fullest extent permitted by law, the CLIENT agrees to defend, indemnify and hold harmless the CONSULTANT, its officers, directors, employees, agents and representatives from and against all liabilities, claims, demands, losses, costs, damages, actions, suits, or other proceedings by whomever made arising out of or in connection with the CONSULTANT's performance of work hereunder made or brought against the CONSULTANT (other than any employee, officer, director, agent or other representative of the CONSULTANT) for any environmental pollution or contamination, including without limitation, any actual or threatened release of toxins, irritants or pollutants, or waste gases, liquids, or solid materials, provided that the CONSULTANT performs hereunder without neglect and does not negligently create, cause contribute to, or aggravate any such pollution or contamination in existence at the Project site.

3. INSURANCE

The CONSULTANT shall secure and endeavor to maintain such insurance as will protect the CLIENT from claims of negligence, bodily injury, death, or property damage that may arise out of the performance of the CONSULTANT's services under this agreement.

4. RISK ALLOCATION/LIMITATION OF LIABILITY

In recognition of the relative risks, rewards and benefits of the Project to both the CLIENT and the CONSULTANT, the risks have been allocated such that the CLIENT agrees that, to the fullest extent permitted by law, the CONSULTANT's total liability to the CLIENT for any and all injuries, claims, losses, expenses, damages, or claim expenses, including attorney's fees, arising out of this Agreement, from any causes, shall not exceed the total amount of $50,000.00, or the amount of the CONSULTANT's fee for the project, whichever is smaller for any claim arising out of CONSULTANT's negligence, errors, or omissions; and any liability shall only apply to deficiencies discovered within one calendar year after the substantial completion of the project.

5. TERMINATION OF SERVICES:

This Agreement may be terminated by the CLIENT or by the CONSULTANT upon not less than seven days written notice should the other party fail to substantially perform in accordance with the terms of this Agreement through no fault of the party initiating termination. If this Agreement is terminated by the CLIENT, the CONSULTANT shall be paid for services performed to the termination notice date, including reimbursable expenses.

6. REIMBURSABLE EXPENSES:

Reimbursable expenses include actual expenditures made by the CONSULTANT, his employees, or his SUB-CONSULTANTS on behalf of the Project. Reimbursable expenses include, but are not necessarily limited to, the following: (a) expenses of transportation and living when traveling in connection with the Project: long distance communications; overnight mail; and fees paid for testing and/or securing approval of authorities having jurisdiction over the Project: (b) expenses of printing, reproduction, postage and handling of drawings and specifications, including duplicate sets at the completion of each phase of the

Project for the CLIENT's review and approval; (c) governmental fees of any type; and (d) expenses related to SUB-CONSULTANTS and specialists when authorized by the CLIENT. Reimbursable expenses shall be billed as cost plus 15% incurred by the CONSULTANT.

7. DISPUTES RESOLUTION:

All claims, counterclaims, disputes and other matters in question between the parties hereto arising out of or relating to this Agreement or breach thereof shall be presented to non-binding mediation, subject to the parties agreeing to a mediator.

8. OWNERSHIP OF DOCUMENTS:

It is understood by and between the parties to this agreement that all drawings, specifications, reports and other work products of the CONSULTANT for this Project shall remain the property of the CONSULTANT and are instruments of the service for this Project only and shall apply to this particular Project and any reuse of the instruments of service of the CONSULTANT by the CLIENT for any extensions of the PROJECT or for any other project without the written permission of the CONSULTANT shall be at the CLIENT's sole risk, and the CLIENT agrees, to the fullest extent permitted by law, to defend, indemnify and hold harmless the CONSULTANT from all claims, damages and expenses, including attorney's fees, arising out of any unauthorized reuse of the CONSULTANT's instruments of service by the CLIENT or by others acting through or on behalf of the CLIENT. Any reuse or adoption of the CONSULTANT's instruments of service on other projects shall entitle the CONSULTANT to additional compensation in an amount to be agreed upon by the CLIENT and the CONSULTANT.

Any electronic design documents or work products that may be provided to the CLIENT will be provided solely as a courtesy and the CONSULTANT makes no representation as to the usefulness of the documents to future or other projects. The CONSULTANT's work products are intended for the sole use of the CLIENT and are not to be used or relied upon by any other party without written consent of the CONSULTANT.

9. GOVERNING LAW:

Unless otherwise specified within this Agreement, this Agreement shall be governed by the law of the State of Tennessee. In the event any provisions of this Agreement shall be held to be invalid and unenforceable, the remaining provisions shall be valid and binding upon the parties. One or more waivers by either party of any provision, term, condition or covenant shall not be constructed by the other party as a waiver of a subsequent breach of the same by the other party.

10. PAYMENT TO THE CONSULTANT:

Payment is due upon receipt of our invoice. If payment is not received within 30 days from the invoice date, CLIENT agrees to pay a finance charge on the principal amount of the past due account of one and one-half percent per month, and all cost of collection, including attorney fees. If one and one-half percent per month exceeds the maximum allowed by law, the charge shall automatically be reduced to the maximum legal allowable. CONSULTANT reserves the right to cease all work and withdraw its services in the event of non-payment or delayed payment until full payment is completed. Until full payment is completed, CONSULTANT's work product remains the property of the CONSULTANT. Until full payment is completed, use of the CONSULTANT's work product is prohibited, unless other written arrangements have been made between CLIENT and CONSULTANT. CONSULTANT reserves the right to withhold any reports or documents until full payment is made. No deductions shall be made from the CONSULTANT's compensation on account of penalty, liquidated damages, or other sums withheld from payment(s) to CONTRACTORS.

11. CLIENT RESPONSIBILITIES:

The CLIENT shall designate a person to act with authority on his behalf in respect to all aspects of the Project, shall examine and respond promptly to CONSULTANTS submissions, and shall give prompt written notice to the CONSULTANT whenever he observes or otherwise becomes aware of any defect in or problem with the Project.

The CLIENT shall also provide to the CONSULTANT all criteria and full information as to his requirements for the Project, and shall:

- Furnish approvals and permits form all governmental authorities and/or agencies having jurisdiction over the Project.
- Provide the CONSULTANT with escorts and means of access to all areas of the Project; this being necessary for the orderly progress of the work, the CONSULTANT shall be entitled to rely upon the efficiency and completeness thereof.
- Compensate the CONSULTANT for services rendered under this Agreement and pay all costs incidental to CLIENT furnished items.
- The CONSULTANT may justifiably rely upon information supplied by the CLIENT without the need for additional verification by the CONSULTANT.

- Provide such legal, accounting, and insurance counseling services as may be required for the Project.
- Guarantee access to and make all independent cost estimating, and insurance counseling services as may be required for the Project.

12. CONFORMITY OF WASTE:

In the event that is determined that all or any part of the CLIENT'S waste does not conform with the information provided by the CLIENT on the profile sheet and/or generator waste analysis from (hereinafter "non-conforming waste") the CLIENT agrees to indemnify and hold harmless CONSULTANT against all cost including but not limited to surcharges, transportation charges, and cost fines, and any subsequent return transport and/or removal of the non-conforming waste.

13. EXTENT OF AGREEMENT:

This Agreement represents the entire and integrated Agreement between the CLIENT and the CONSULTANT and supersedes all prior negotiations, or agreements, either written or oral. This Agreement may be amended only by written instrument signed by both the CLIENT and the CONSULTANT.

The CONSULTANT intends to render services under the terms of this Agreement in accordance with generally accepted professional practices consistent with the intended use of the Project and makes no warranty either expressed or implied.

Any *opinion of construction* cost prepared by the CONSULTANT represents his judgment as a design professional and is supplied for the general guidance of the CLIENT. Since the CONSULTANT has no control over the cost of labor and material, or over competitive bidding or market conditions, the CONSULTANT does not guarantee the accuracy of such opinions as compared to CONTRACTOR bids or actual cost to the CLIENT.

14. CHANGES IN THE SCOPE OF SERVICES:

The CLIENT may request changes in the *Scope of Services* of the Agreement to be performed hereunder. Such changes, including any increase or decrease in the amount of the CONSULTANT's compensation, which are mutually agreed upon by and between the CLIENT and the CONSULTANT shall be incorporated into this Agreement by written amendment.

Any changes made to construction documents by the CLIENT, or by the CLIENT's representative's, are strictly prohibited without the knowledge and written consent of the CONSULTANT. The CONSULTANT shall be released from any liability resulting from damages, injuries, and or death from the unauthorized alteration of construction documents.

15. EXISTING AND/OR HIDDEN CONDITIONS:

A condition is hidden if it is concealed by existing finishes or features or if it cannot be investigated by reasonable visual observation. If the CONSULTANT has reason to believe that such a condition may exist, the CONSULTANT will notify the CLIENT who then shall authorize and pay for all costs associated with the investigation of such a condition and, if necessary, all costs necessary to correct said condition. If (1) the CLIENT fails to authorize such investigation or correction after due notification, or (2) the CONSULTANT has no reason to believe that such a condition exists, the CLIENT is responsible for all risks associated with this condition, and the CONSULTANT shall not be responsible for the existing condition nor any resulting damages to persons or property. Further, the CONSULTANT will not be required to execute any document that would result in certifying, guaranteeing or warranting the existence of conditions whose existence the CONSULTANT cannot reasonably ascertain.

16. STANDARD OF CARE:

Services provided by the Design Professional under this Agreement will be performed in a manner consistent with that degree of care and skill ordinarily exercised by members of the same profession currently practicing under similar circumstances.

In addition, the CLIENT agrees, to the fullest extent permitted by law, to indemnify and hold the CONSULTANT harmless from any loss, claim or cost, including reasonable attorney's fees and costs of defense, arising or resulting from the performance of such services by other persons or entities and from any and all claims arising from modifications, clarification, interpretations, adjustments or changes made to the Contract Documents to reflect changed field or other conditions, except for claims arising from the sole negligence or willful misconduct of the CONSULTANT.

17. DESIGN WITHOUT CONSTRUCTION SERVICES:

It is understood and agreed that the CONSULTANT's Basic Services under this Agreement do not include project observation or review of the CONTRACTOR's performance or any other construction phase services, and that such services will be provided by the CLIENT or by another party selected at the sole discretion of the CLIENT. Further, the CLIENT assumes all responsibility for interpretation of the Contract Documents and for construction observation and/or supervision and waives any claims against the CONSULTANT that may be in any way connected thereto.

In addition, the CLIENT agrees, to the fullest extent permitted by law, to indemnify and hold the CONSULTANT harmless from any loss, claim or cost, including reasonable attorney's fees and costs of defense, arising or resulting from the performance of such services by other persons or entities and from any and all claims arising from modifications, clarification, interpretations, adjustments or changes made to the Contract Documents to reflect changes field or other conditions, except for claims arising from the sole negligence or willful misconduct of the CONSULTANT.

If the CLIENT requests in writing that the CONSULTANT provide any specific construction phase service and if the CONSULTANT agrees in writing to provide such services, then the CONSULTANT shall be compensated for ADDITIONAL Services as provided in the Agreement.

18. COST CONTROL:

Opinions of probable construction cost, financial evaluations, feasibility studies, economic analyses of alternative solutions and utilitarian considerations of operations and maintenance costs prepared by CONSULTANT hereunder will be made on the basis of CONSULTANT's experience and qualifications and represent CONSULTANT's best judgment as an experienced and qualified professional. It is recognized, however, that CONSULTANT does not have control over the cost of labor, material, equipment or services furnished by others or over market conditions or contractors' methods of determining their prices, and that any utilitarian evaluation of any facility to be constructed or work to be performed on the basis of the report must of necessity be speculative until completion of its detailed design. Accordingly, CONSULTANT does not guarantee that proposals, bids or actual costs will not vary from opinions, evaluations or studies submitted by CONSULTANT to CLIENT hereunder.

END OF STANDARD TERMS AND CONDITIONS

Energy Land & Infrastructure

AMENDMENT TO OWNER-ENGINEER AGREEMENT
Amendment No. **2**

Owner: **Town of Smyrna, Tennessee**
Engineer: **Energy Land & Infrastructure, LLC (ELI)**
Project: **Lee Road Widening – Phase 1**
Effective Date of Owner-Engineer Agreement: **December 12, 2023**
Effective Date of Amendment No. 1: **May 28, 2025**

Nature of Amendment: (Check those that apply)

☒ Additional Services to be performed by Engineer
☐ Modifications to services of Engineer
☐ Modifications to responsibilities of Owner
☒ Modifications of payment to Engineer
☒ Modifications to time(s) for rendering services
☐ Modifications to other terms and conditions of the Agreement

Description of Modifications:

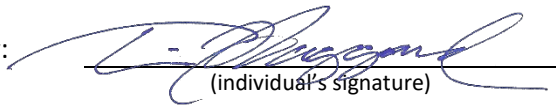

During design, unforeseen conditions and new developments along the corridor have created the need for plan modifications and additional services including the following:

- Moving and redesigning the eastern terminus of Lee Road to avoid potential design conflicts with the Lee Tract recently acquired by Rutherford County Schools
- Adding sidewalk along the southern margin of Lee Road for the entire length of the project, and
- Alignment and grading changes to accommodate environmental constraints discovered along the roadway corridor.

Agreement Summary:		
Original agreement amount:	$ 444,765.00	
Net change for prior amendments:	$ 7,700.00	
This amendment amount:	$ 87,970.00	(see attached estimate)
Adjusted Agreement amount:	$ 540,435.00	
Change in time for services (days or date, as applicable):		6 Months from the effective date of this amendment

Copyright© 2020 National Society of Professional Engineers, American Council of Engineering Companies, and American Society of Civil Engineers. All rights reserved.

Owner and Engineer hereby agree to modify the above-referenced Agreement as set forth in this Amendment. The Effective Date of the Amendment is _____.

1. Executive Summary

The Lee Road School Site development is proposed to be located on the south side of Lee Road in Rutherford County, Tennessee, just outside of the Town of Smyrna city limits. The proposed development includes a middle school with an expected enrollment of approximately 1,200 students and a high school with an expected enrollment of approximately 2,500 students. According to the current concept plan provided by the civil engineer, Barge Civil Associates, the development will have one new roadway connection to Lee Road.

In order to provide data for this study, vehicular turning movement counts were collected at the following intersections:

- Lee Road and Montgomery Way (one-way stop)
- Lee Road and Cooks Lane (one-way stop)
- Lee Road and Rocky Fork Road (all-way stop)

The data utilized for the TIS was collected on Wednesday, June 18, 2025, from 6:00 AM – 6:00 PM. It should be noted that data was collected when Rutherford County Schools were not in session; however, no schools are located in close proximity to the project site, so the effect on schools being out of session should be minimal in regards to the traffic data.

The analyses presented in this report indicate that the proposed development will generate a manageable amount of new vehicular traffic to the study area. In total, the project is expected to generate approximately 7,358 daily trips, 1,191 AM peak hour trips, and 1,098 PM peak hour trips. Capacity analyses indicate that the Site Access point will operate acceptably following completion of the proposed development.

Based on the analyses presented in this study and review of the study area and proposed development information, the following is recommended in order to accommodate the proposed development:

<u>Intersection of Lee Road and Rocky Fork Road</u>

- Install a single-lane roundabout at the intersection. The roundabout should be designed to accommodate school buses.
- Each approach to the intersection should include one vehicular travel lane.

<u>Intersection of Lee Road and Site Access</u>

- Install a single-lane roundabout at the intersection. The roundabout should be designed to accommodate school buses.
- Each approach to the intersection should include one vehicular travel lane.
- The Site Access should include one entering lane and one exiting lane.
- A secondary site access is recommended to be provided.
- The Site Access should be designed and constructed to allow for sufficient intersection sight distance, clear of any obstructions such as vegetation, landscaping, hardscaping, signs, driveway approach grades, and fencing within the departure sight triangle.

<u>School Zone Plan</u>

- A 20-mph school zone should be designated along Lee Road near the project site. A School Zone sign (S1-1) with supplemental Ahead plaque (W16-9P) should be installed at the following locations:

  - On Lee Road approximately 625 feet west of the Site Access facing eastbound traffic;
  - On Lee Road approximately 500 feet east of the Site Access facing westbound traffic.
- A School Speed Limit Assembly consisting of a School Speed Limit 20 When Flashing sign (S5-1) with a S4-3P supplemental 'School' plaque and flashing yellow beacons should be installed at the following locations:
  - On Lee Road approximately 300 feet west of the Site Access facing eastbound traffic;
  - On Lee Road approximately 300 feet east of the Site Access westbound traffic.
- End School Zone signs (S5-2) should be placed at the following locations:
  - On Lee Road approximately 300 feet west of the Site Access facing westbound traffic;
  - On Lee Road approximately 300 feet east of the Site Access facing eastbound traffic.

<u>School Arrival and Dismissal Operations</u>

- Raised crosswalks should be constructed on internal roadways where students will routinely be crossing vehicular traffic. At a minimum, a raised crosswalk should be constructed where bus riders will be crossing internal roadways from the bus staging areas to the school entrances.
- With the recommended single-lane roundabout at the intersection of Lee Road and the Site Access, traffic control officers/crossing guards are not anticipated to be required.
- Sidewalks should be constructed on the south side of Lee Road along the site frontage to facilitate students walking from adjacent neighborhoods. Internal school sidewalks should connect the school buildings and the sidewalks along Lee Road.

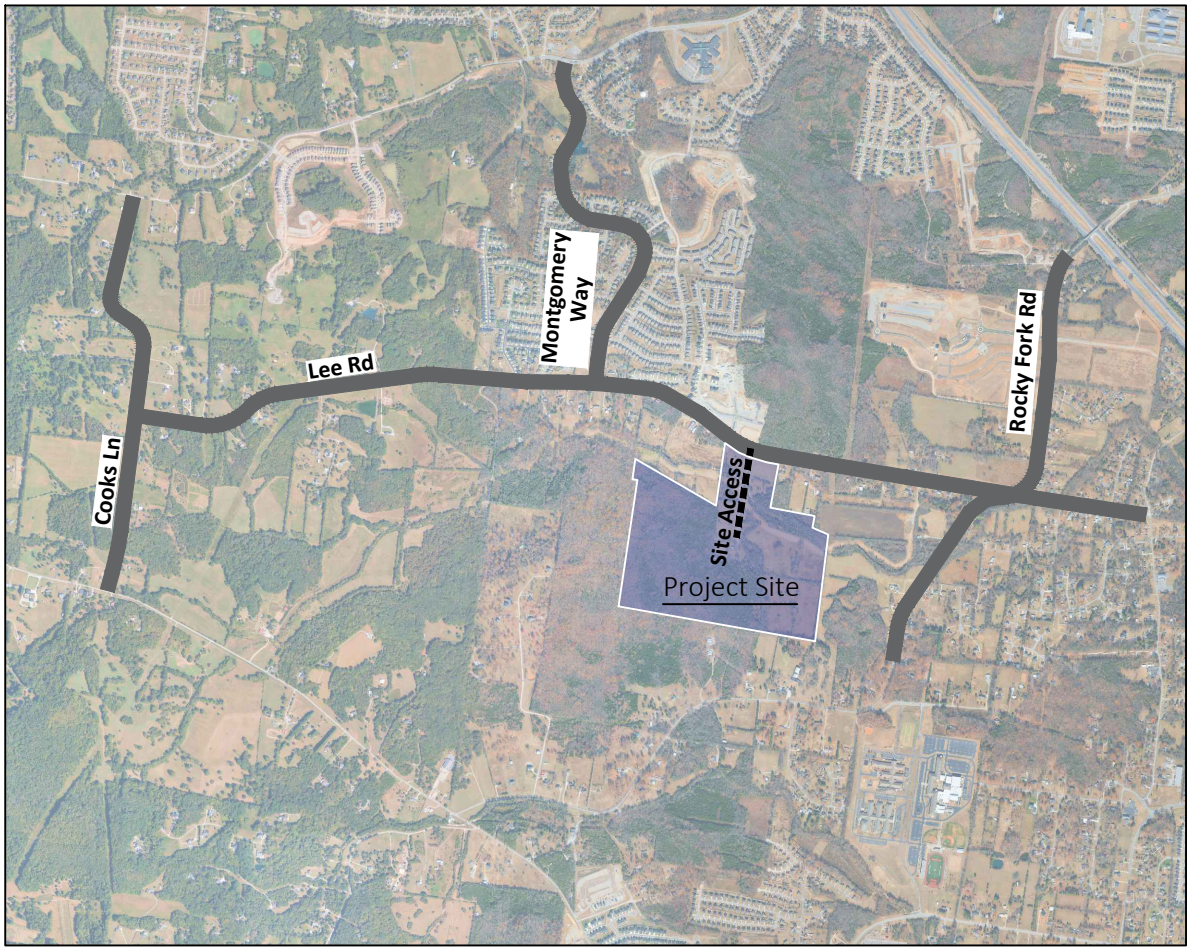

The recommendations presented above are conceptual in nature and intended for developing planning level cost estimates for necessary site improvements associated with the proposed Lee Road School Site. All roadway design details should be finalized through the design and preparation of construction documents and should be based on survey, existing roadway features, right-of-way constraints, etc. Based on the analyses presented in this report, no further improvements are recommended in association with the proposed Lee Road School Site development.

2. Introduction

The Lee Road School Site development is proposed to be located on the south side of Lee Road in Rutherford County, Tennessee, just outside of the Town of Smyrna city limits. Currently, the project site is a single-family residence and vacant land. The proposed development includes a middle school with an expected enrollment of approximately 1,200 students and a high school with an expected enrollment of approximately 2,500 students. Access to the development is planned to be provided by one driveway on Lee Road.

The project site location is presented in Figure 1. The current site plan is included in Appendix A for reference. According to the civil engineer, Barge Civil Associates, the development is expected to be complete in three years, which is a year 2028 horizon. The intention of this traffic impact study (TIS) is to identify the amount of traffic expected to be generated by the proposed development and evaluate its impact on the surrounding roadways. The TIS will also identify appropriate improvements necessary to accommodate the project's vehicular traffic.

Figure 1: Project Site Location

(Not to Scale)

3. Existing Conditions

The project site is served by Lee Road. Indirect but primary access will be provided by Montgomery Way, Cooks Lane, and Rocky Fork Road. The following provides a description of the roadways within the study area and the existing traffic data.

3.1 Roadway Description

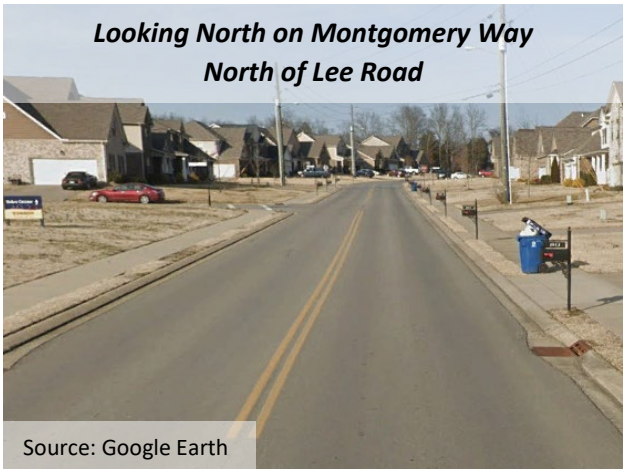

Lee Road is a collector roadway providing connection between Cooks Lane to the west and Rocky Fork Road to the east. Lee Road is classified as a collector road by the *Town of Smyrna Major Thoroughfare Plan.* The land uses along Lee Road are primarily single-family residential and vacant rural land. Lee Road is a two-way street that generally travels in an east-west direction with one 10-foot travel lane in each direction. There are no curbs, gutters, paved shoulders, or bike lanes on Lee Road. The posted speed limit on Lee Road is 30 mph. Near the project site, Lee Road is marked with a double yellow centerline and white edgelines.

Looking East on Lee Road Adjacent to the Project Site

Source: Google Earth

Montgomery Way is a collector road providing connection between Lee Road to the south and Rock Springs Road to the north. Montgomery Way is classified as a collector road by the *Town of Smyrna Major Thoroughfare Plan.* The land uses along Montgomery Way are single-family residential. In the vicinity of the project site, Montgomery Way is a two-way street that generally travels in a north-south direction with one 12-foot travel lane, curb, gutter, and sidewalk in each direction. There are no paved shoulders or bike lanes on Montgomery Way in the vicinity of the project site. The posted speed limit on Montgomery Way is 25 mph in the vicinity of the project site. Near the project site, Montgomery Way is marked with a double solid yellow centerline.

Looking North on Montgomery Way North of Lee Road

Source: Google Earth

Cooks Lane is a collector road providing connection between Rocky Fork Road to the south and Rock Springs Road to the north. Cooks Lane is classified as a collector and future minor arterial by the *Town of Smyrna Major Thoroughfare Plan.* The land uses along Cooks Lane are single-family residential and vacant rural land. In the vicinity of the project site, Cooks Lane is a two-way street that generally travels in a north-south direction with one 10-foot travel lane in each direction. There are no curbs, gutters, paved shoulders, sidewalks, or bike lanes on Cooks Lane near the project site. The posted speed limit on Cooks Lane is 35 mph. In the vicinity of the project site, Cooks Lane is marked with a double solid yellow centerline and white edgelines.

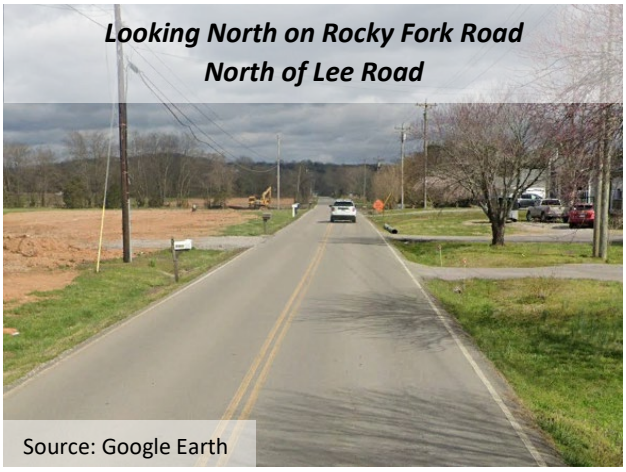

Looking North on Cooks Lane North of Lee Road

Source: Google Earth

Rocky Fork Road provides connection between Nolensville Road to the west and Old Nashville Highway to the east. In the vicinity of the project site, Rocky Fork Road is classified as a collector road by the *Town of Smyrna Major Thoroughfare Plan.* South and west of the project site, Rocky Fork Road is classified as a minor arterial road by the *Town of Smyrna Major Thoroughfare Plan.* The land uses along Rocky Fork Road are primarily single-family residential and vacant rural land. In the vicinity of the project site, Rocky Fork Road is a two-way street that generally travels in a north-south direction with one 10-foot travel lane in each direction. There are no curbs, gutters, paved shoulders, sidewalks, or bike lanes on Rocky Fork Road near the project site. The posted speed limit on Rocky Fork Road south of Lee Road is 35 mph, and north of Lee Road is 40 mph. In the vicinity of the project site, Rocky Fork Road is marked with a double solid yellow centerline and white edgelines.

3.2 Intersection Descriptions

The following three (3) intersections were studied in this analysis:

- Lee Road and Montgomery Way (one-way stop)
- Lee Road and Cooks Lane (one-way stop)
- Lee Road and Rocky Fork Road (all-way stop)

The intersection of **Lee Road and Montgomery Way** is a one-way stop-controlled intersection with three approaches. Stop control is provided for the southbound approach of Montgomery Way. The eastbound approach of Lee Road includes one shared left turn/through lane. The westbound approach of Lee Road includes one shared through/right turn lane. The southbound approach of Montgomery Way includes one shared left turn/right turn lane. The stop-controlled approach includes a stop sign but no stop line pavement marking.

Looking Southbound on Montgomery Way at Lee Road

Source: Google Earth

The intersection of **Lee Road and Cooks Lane** is a one-way stop-controlled intersection with three approaches. The westbound approach of Lee Road is stop-controlled. The northbound approach of Cooks Lane includes one shared through/right turn lane. The southbound approach of Cooks Lane includes one shared left turn/through lane. The westbound approach of Lee Road includes one shared left turn/right turn lane. The stop-controlled approach includes a stop sign but no stop line pavement marking.

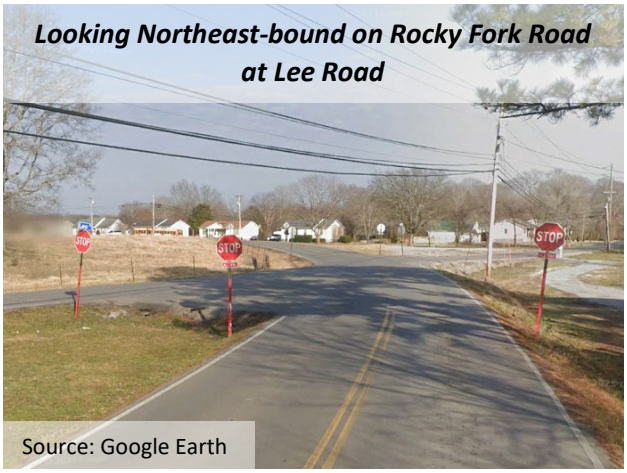

Looking Westbound on Lee Road at Cooks Lane

Source: Google Earth

The intersection of **Lee Road and Rocky Fork Road** is an all-way stop-controlled intersection with four approaches. Each approach to the intersection includes one shared lane for all turning movements. Rocky Fork Road intersects Lee Road at an angle with Rocky Fork Road travelling in a northeast/southwest direction at the intersection. All approaches to the intersection include stop signs but no stop line pavement markings.

(Not to Scale)

3.3 Existing Traffic Volumes

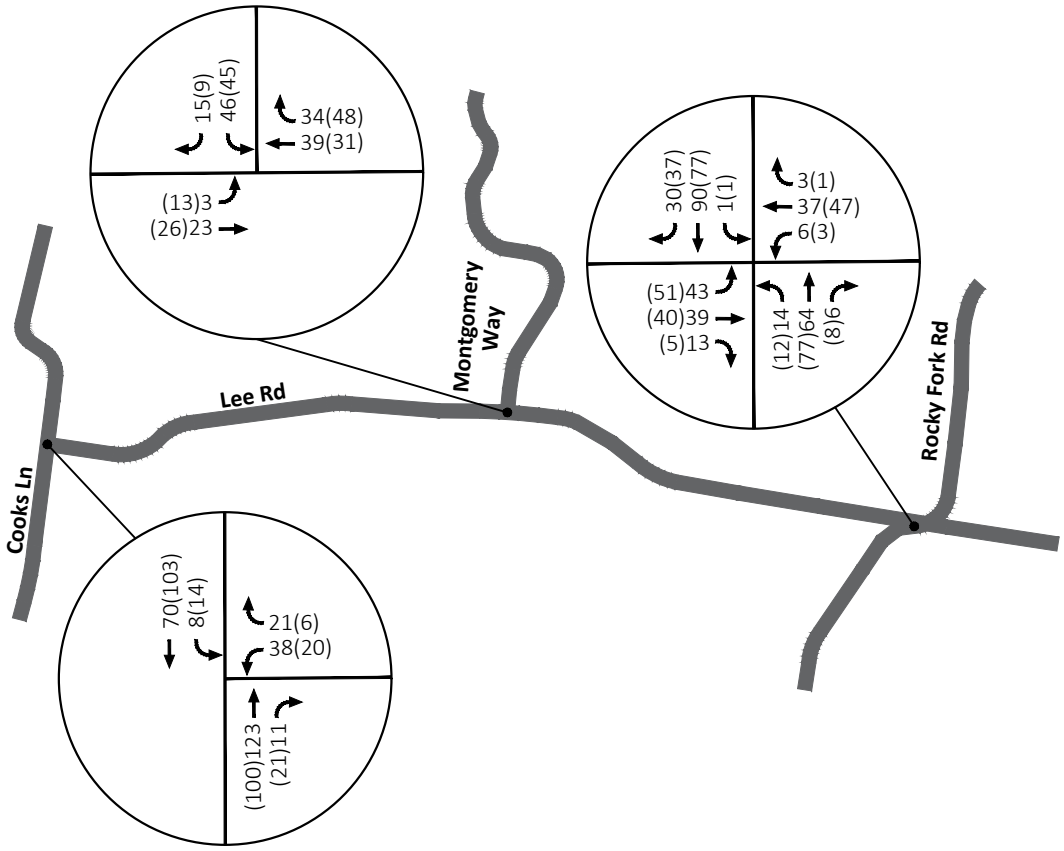

Existing traffic data on Cooks Lane and Rocky Fork Road near the project site were obtained from the Tennessee Department of Transportation (TDOT). The 2024 Annual Average Daily Traffic (AADT) are provided in Figure 3. As shown, the AADT on Cooks Lane west of the project site was approximately 3,598 vehicles per day (vpd) in 2024. The AADT on Rocky Fork Road south of the project site was approximately 3,251 vpd. The TDOT count station data is included in Appendix B.

New turning movement counts were also collected for the three study intersections on Wednesday, June 18, 2025, from 6:00 AM – 6:00 PM. It should be noted that traffic data was collected when Rutherford County Schools were not in session; however, no schools are located in close proximity to the project site, so the effect on schools being out of session should be minimal in regards to the traffic data. According to information provided by Rutherford County Schools, the school peak hours are anticipated to be 7:45 – 8:45 AM and 2:45 – 3:45 PM. The 2025 Existing Conditions Peak Hour Traffic Volumes for the school AM and PM peak hours are presented in Figure 4. The turning movement count data that was used to establish baseline conditions is included in Appendix C.

(Not to Scale)

4. Background Conditions

As previously stated, the proposed development will be completed in approximately three years, which would be in the year 2028. To account for additional traffic expected to be traveling on the study roadways in 2028 even if the development is not completed, background traffic volumes were established. A growth rate was applied to the existing peak hour traffic volumes. The historical TDOT count station traffic data in the study area was utilized to establish a growth trend. Based on this analysis, the combined average annual traffic growth in the study area over the last five years (between 2024 and 2020) was found to be 9.4% and over the last ten years (between 2024 and 2014) was found to be 8.3%. Conservatively, the 2025 Existing Peak Hour Traffic Volumes were increased by 27% (9% Annual Growth for 3 Years) to establish 2028 background traffic volumes. The TDOT count station data and historical growth is included in Appendix B. Figure 5 presents the 2028 Background Conditions Peak Hour Traffic Volumes.

Figure 5: 2028 Background Peak Hour Traffic Volumes

Legend:
XXX - AM Peak Hour Traffic Volumes
(XXX) - PM Peak Hour Traffic Volumes

(Not to Scale)

5. Projected Conditions

A trip generation process was used to estimate the amount of traffic that is expected to be generated by the proposed development, which includes a middle school with an expected enrollment of approximately 1,200 students and a high school with an expected enrollment of approximately 2,500 students. Trip generation rates were taken from ITE's *Trip Generation Manual, 11th Edition* for the Middle School/Junior High School and High School land uses for the peak hour of the generator. The trip generation calculations were based on a general urban/suburban setting. No adjustments were applied to the base trip generation to account for alternate modes, internal capture, or pass-by trips.

Table 1 below presents the new vehicular traffic expected to be generated by the proposed development. As shown, the development is expected to generate approximately 7,358 vehicle trips per day, 1,917 vehicles per hour (vph) during the AM peak hour, and 1,098 vph during the PM peak hour. Trip generation calculations are included in Appendix D.

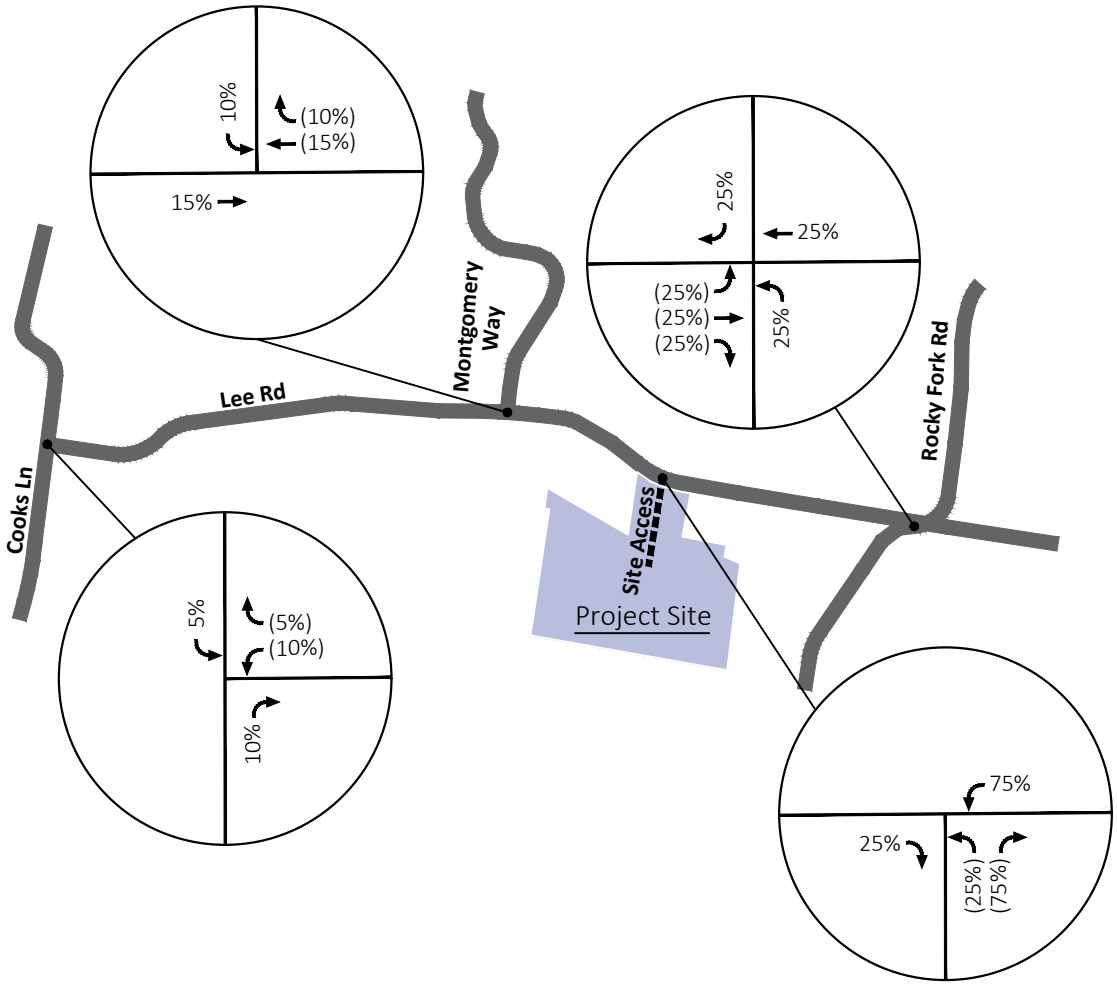

Table 1: Trip Generation

Land Use	Size	Average Daily Traffic	AM Peak Hour			PM Peak Hour		
			Total	Enter	Exit	Total	Enter	Exit
Middle School/Junior High School (LUC 522)	1,200 students	2,508	872	480	392	426	196	230
High School (LUC 525)	2,500 students	4,850	1,045	711	334	672	215	457
Total		***7,358***	***1,917***	***1,191***	***726***	***1,098***	***411***	***687***

Source: ITE *Trip Generation Manual, 11th Edition.*

A directional distribution was developed based on the existing traffic counts and street network as well as the proposed land uses. The current site plan includes one site access on Lee Road. Using this directional distribution, the traffic generated by the site was assigned to the street network. The trip distribution is presented in Figure 6, and the traffic assignment is presented in Figure 7. The site traffic was added to the background traffic volumes to obtain the 2028 Future Projected Peak Hour Traffic Volumes, which are presented in Figure 8. These volumes represent the total peak hour traffic expected at the study intersections following completion of the proposed development. The traffic calculation worksheets showing the traffic assignment and volume calculations are included in Appendix E.

6. Traffic Operational Analysis

To evaluate the study intersections under Existing, Background, and Future Projected conditions, capacity analyses were conducted for the study intersections using Synchro 12 software and HCM 7th Edition methodology. As previously mentioned, this study is analyzing the school AM and PM peak hours, which are expected to occur from 7:45 – 8:45 AM and 2:45 – 3:45 PM.

The capacity analyses result in a control delay and corresponding level of service (LOS). The LOS and control delay are used to describe how well a turning movement and/or intersection operates. LOS A operates with the least amount of delay, and LOS F the worst. Table 2 presents the descriptions of LOS for unsignalized intersections.

Table 2: Description of Unsignalized Intersection Level of Service (LOS)

LOS	Control Delay (seconds per vehicle)
A	0 – 10
B	> 10 – 15
C	> 15 – 25
D	> 25 – 35
E	> 35 – 50
F	> 50
Source: *Highway Capacity Manual 7th Edition*	

6.1 Capacity Analysis

Tables 3 and 4 present the results of the AM and PM peak hour analysis, respectively. The projected conditions include one entering lane and two exiting lanes for the Site Access. The "Projected" conditions include stop control for the northbound approach of the Site Access to Lee Road. The "Projected with Improvements" conditions include single-lane roundabouts at the intersections of Lee Road with the Site Access and with Rocky Fork Road.

As shown, the critical turning movements at the one-way stop-controlled intersection of Lee Road and Cooks Lane are expected to operate at LOS B or better during both peak hours under all scenarios. In addition, under all scenarios the critical turning movements at the one-way stop-controlled intersection of Lee Road and Montgomery Way are expected to operate at LOS C or better during the AM peak hour and LOS A during the PM peak hour.

During both peak hours, the all-way stop-controlled intersection of Lee Road and Rocky Fork Road is expected to operate at overall LOS A under existing and background conditions and is expected to deteriorate to overall LOS F under projected conditions. With the inclusion of a single-lane roundabout, the intersection is expected to operate at overall LOS C during the AM peak hour and overall LOS A during the PM peak hour.

During both peak hours, with one-way stop-control the critical turning movements of the proposed intersection of Lee Road and the Site Access are expected to operate at LOS F or better. During the AM peak hour, with one-way stop-control the 95th-percentile queue lengths are expected to be approximately 27 vehicle lengths or shorter. With the inclusion of a single-lane roundabout, the intersection is expected

to operate at overall LOS D during the AM peak hour and overall LOS A during the PM peak hour. The critical turning movements are expected to operate at LOS E or better during the AM peak hour and LOS B or better during the PM peak hour. With a single-lane roundabout, during the AM peak hour the 95th-percentile queue lengths are expected to be approximately 18 vehicle lengths or shorter. The Synchro worksheets are included in Appendix F.

Table 3: Intersection Capacity Analysis – AM Peak Hour

Note: HCM 7th Edition results reported above for all intersections.

6.2 Turn Lane Analysis

The intersections of Lee Road with Cooks Lane, Montgomery Way, and the proposed Site Access were evaluated for the need for right turn and left turn deceleration lanes under projected conditions based on methodology presented in *NCHRP Report 457, Evaluating Intersection Improvements: An Engineering Study Guide*. The turn lane analysis was based on the Future Projected peak hour traffic volumes previously presented. The turn lane analysis was based on the posted speed limit of 35 mph on Cooks Lane and 30 mph on Lee Road. Under projected conditions, no turn lanes are warranted at the intersections of Lee Road with Cooks Lane or Montgomery Way. Under projected conditions, a westbound left turn lane is warranted on Lee Road at the Site Access. However, with the provision of the recommended single-lane roundabout at the intersection of Lee Road and the Site Access, no turn lanes are recommended. Details of the turn lane analysis are included in Appendix G.

6.3 Signal Warrant Analysis

Under unsignalized conditions, the results of the capacity analyses indicate that the northbound left turning movement of the Site Access at Lee Road is expected to operate at LOS F during both peak hours under projected conditions. In addition, the all-way stop-controlled intersection of Lee Road and Rocky Fork Road is expected to operate at overall LOS F during both peak hours under projected conditions. Therefore, the intersections of Lee Road with the Site Access and Rocky Fork Road were evaluated to determine whether a traffic signal will be warranted and appropriate to accommodate vehicular traffic at the intersections based on the proposed development's trip generation.

The *Manual on Uniform Traffic Control Devices* (MUTCD) includes nine (9) warrants that should be evaluated based on an engineering study of traffic conditions prior to the installation of a new traffic signal. While there are nine warrants, only one is required to be met in order to consider the need for traffic signal control at an intersection. However, satisfaction of a traffic signal warrant or warrants shall not in itself require the installation of a traffic control signal. Each warrant sets forth the minimum criteria related to the operation and safety of an intersection that should be met in order to satisfy the warrant.

Warrants 10 software by Trafficware was utilized for the signal warrant analysis based on 2009 Federal Warrants. The traffic volume data, speed limits, and intersection geometry were utilized for the analysis. At the intersection of Lee Road and the Site Access, two exiting lanes are planned for the Site Access and a westbound left turn lane is warranted on Lee Road. Therefore, the analysis for the intersection of Lee Road and the Site Access is based on 2+ lane major street approaches and 2+ minor street approaches. The analysis for the intersection of Lee Road and Rocky Fork Road is based on 1 lane major and 1 lane minor street approaches.

In order to obtain hourly 2028 Background Conditions traffic volumes at the intersections, some assumptions were made to account for ambient and approved development traffic in the study area. Turning movement counts for 12 hours were conducted on Wednesday, June 18, 2025, from 6:00 AM – 6:00 PM at the existing intersection of Lee Road and Rocky Fork Road. Similar to the peak hour traffic volumes previously presented, a 9% annual growth was assumed and applied to the hourly 2025 turning movement data, which is a 27% background growth (representing 9% annual growth for 3 years).

Finally, the trip generation for the proposed development was assigned to the intersections based on the directional distribution presented in Figure 6. The signal warrant analysis was conducted based on the 2028 Future Projected Conditions. The hourly distributions for each land use were taken from ITE's *Trip Generation Manual, 11th Edition*. Table 5 presents the results of the signal warrant analysis.

Table 5: Signal Warrant Analysis Results - 2028 Future Projected Conditions

Warrant Description	Intersection of Lee Road and Site Access[2]		Intersection of Lee Road and Rocky Fork Road[3]	
	Met?	# Hours Met	Met?	# Hours Met
Warrant 1: 8-Hour Vehicular Volume	No	1	No	4
Warrant 2: 4-Hour Vehicular Volume	No	2	No	3
Warrant 3: Peak Hour	Yes	2	Yes	1
Warrant 4: Pedestrian Volume	N/A	--	N/A	--
Warrant 5: School Crossing	N/A	--	N/A	--
Warrant 6: Coordinated Signal System	N/A	--	N/A	--
Warrant 7: Crash Experience	N/A	--	N/A	--
Warrant 8: Roadway Network	N/A	--	N/A	--
Warrant 9: Intersection near a Grade Crossing	N/A	--	N/A	--

Notes:
1. Based on 2028 Future Projected Conditions.
2. Based on 2 Lane Major Street and 2 Lane Minor Street approaches.
3. Based on 1 Lane Major Street and 1 Lane Minor Street approaches.
4. Based on <40 mph approach speed on the Major Street.
5. Crash data was not evaluated for the warrant.

Based on these data and analyses, traffic signal warrants will be met under 2028 Future Projected Conditions for both intersections of Lee Road with the Site Access and Rocky Fork Road. Specifically, Warrant 3 (Peak Hour) is met under projected 2028 conditions for both intersections.

Although traffic signals are warranted at these two intersections along Lee Road, single-lane roundabouts will serve the school peak hour traffic during arrival and dismissal and will be a better traffic control solution during non-peak hours of the day. In addition, it should be noted that roundabout designs can accommodate school buses. Details of the signal warrant analysis are included in Appendix H.

7. Conclusions and Recommendations

The Lee Road School Site development is proposed to be located on the south side of Lee Road in Rutherford County, Tennessee, just outside of the Town of Smyrna city limits. The proposed development includes a middle school with an enrollment of approximately 1,200 students and a high school with an enrollment of approximately 2,500 students. According to the current concept plan provided by the civil engineer, Barge Civil Associates, the development will have one new roadway connection to Lee Road.

The analyses presented in this report indicate that the proposed development will generate a manageable amount of new vehicular traffic to the study area. In total, the project is expected to generate approximately 7,358 daily trips, 1,191 AM peak hour trips, and 1,098 PM peak hour trips. Capacity analyses indicate that the Site Access point will operate acceptably following completion of the proposed development.

Based on the analyses presented in this study and review of the study area and proposed development information, the following is recommended in order to accommodate the proposed development:

<u>Intersection of Lee Road and Rocky Fork Road</u>

- Install a single-lane roundabout at the intersection. The roundabout should be designed to accommodate school buses.
- Each approach to the intersection should include one vehicular travel lane.

<u>Intersection of Lee Road and Site Access</u>

- Install a single-lane roundabout at the intersection. The roundabout should be designed to accommodate school buses.
- Each approach to the intersection should include one vehicular travel lane.
- The Site Access should include one entering lane and one exiting lane.
- A secondary site access is recommended to be provided.
- The Site Access should be designed and constructed to allow for sufficient intersection sight distance, clear of any obstructions such as vegetation, landscaping, hardscaping, signs, driveway approach grades, and fencing within the departure sight triangle.

<u>School Zone Plan</u>

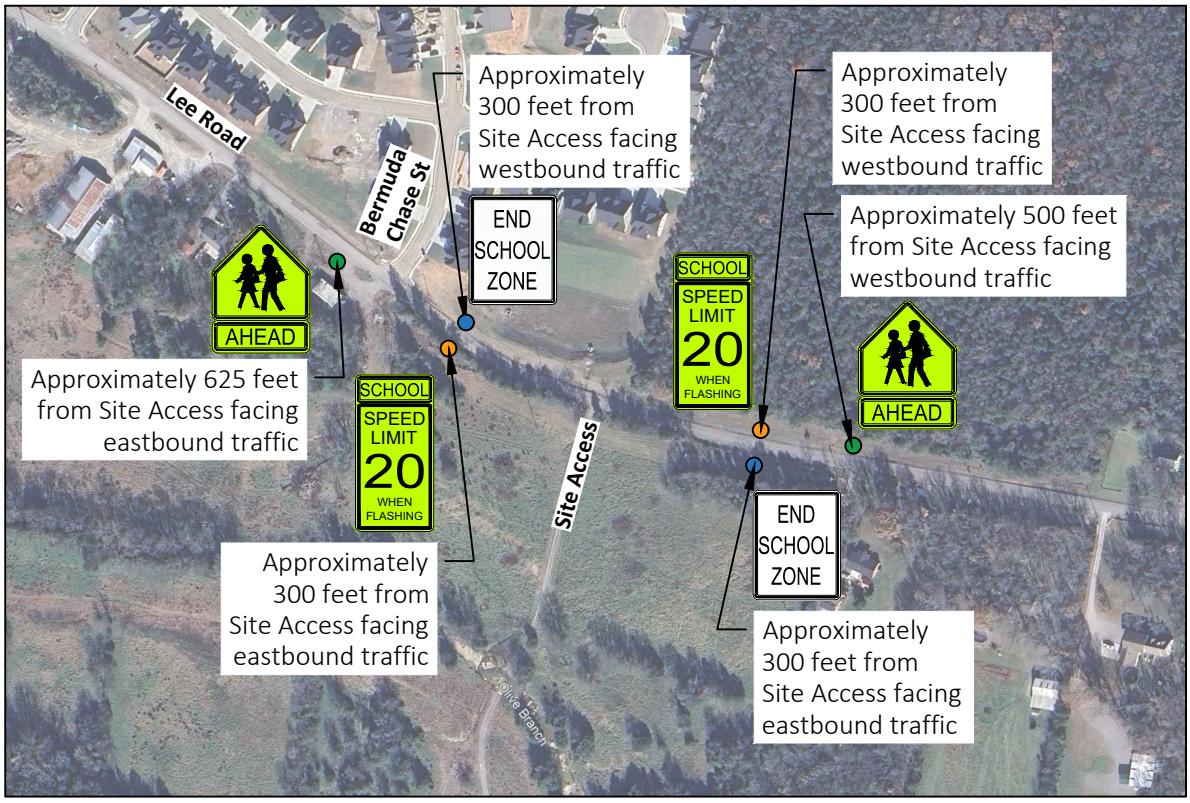

- A 20-mph school zone should be designated along Lee Road near the project site. A School Zone sign (S1-1) with supplemental Ahead plaque (W16-9P) should be installed at the following locations:
    - On Lee Road approximately 625 feet west of the Site Access facing eastbound traffic;
    - On Lee Road approximately 500 feet east of the Site Access facing westbound traffic.
- A School Speed Limit Assembly consisting of a School Speed Limit 20 When Flashing sign (S5-1) with a S4-3P supplemental 'School' plaque and flashing yellow beacons should be installed at the following locations:
    - On Lee Road approximately 300 feet west of the Site Access facing eastbound traffic;
    - On Lee Road approximately 300 feet east of the Site Access westbound traffic.
- End School Zone signs (S5-2) should be placed at the following locations:
    - On Lee Road approximately 300 feet west of the Site Access facing westbound traffic;
    - On Lee Road approximately 300 feet east of the Site Access facing eastbound traffic.

School Arrival and Dismissal Operations

- Raised crosswalks should be constructed on internal roadways where students will routinely be crossing vehicular traffic. At a minimum, a raised crosswalk should be constructed where bus riders will be crossing internal roadways from the bus staging areas to the school entrances.
- With the recommended single-lane roundabout at the intersection of Lee Road and the Site Access, traffic control officers/crossing guards are not anticipated to be required.
- Sidewalks should be constructed on the south side of Lee Road along the site frontage to facilitate students walking from adjacent neighborhoods. Internal school sidewalks should connect the school buildings and the sidewalks along Lee Road.

The recommendations presented above are conceptual in nature and intended for developing planning level cost estimates for necessary site improvements associated with the proposed Lee Road School Site. All roadway design details should be finalized through the design and preparation of construction documents and should be based on survey, existing roadway features, right-of-way constraints, etc. Based on the analyses presented in this report, no further improvements are recommended in association with the proposed Lee Road School Site development.

Figure 9: Recommended School Zone Plan

APPENDIX D
TRIP GENERATION CALCULATIONS

Middle School/Junior High School
(522)

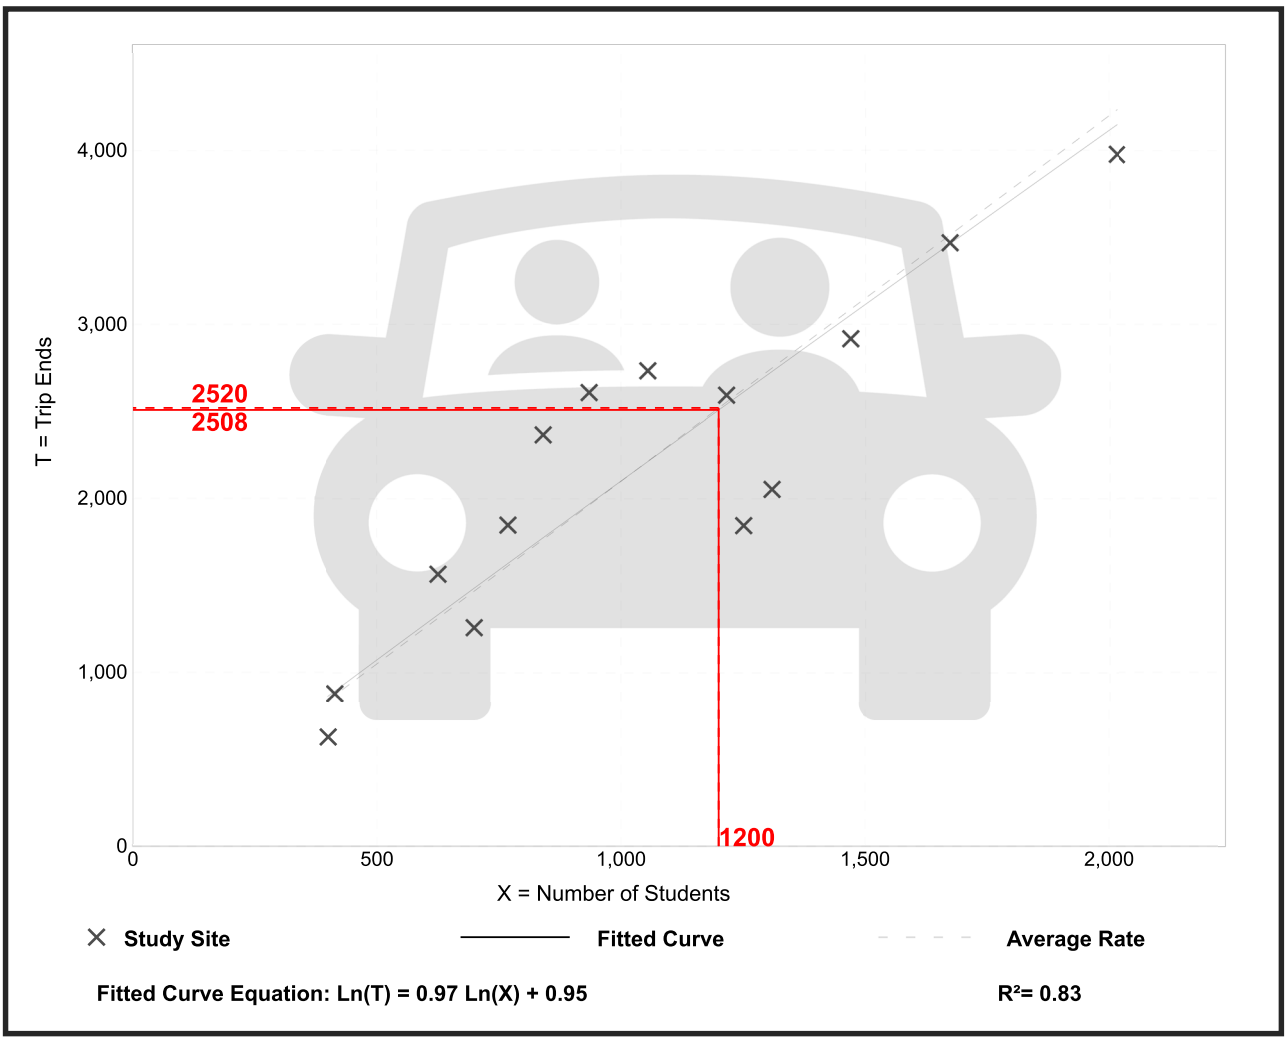

Vehicle Trip Ends vs: **Students**
On a: **Weekday**

Setting/Location: **General Urban/Suburban**
Number of Studies: 14
Avg. Num. of Students: 1048
Directional Distribution: 50% entering, 50% exiting

Vehicle Trip Generation per Student

Average Rate	Range of Rates	Standard Deviation
2.10	1.48 - 2.81	0.42

Data Plot and Equation

Middle School/Junior High School
(522)

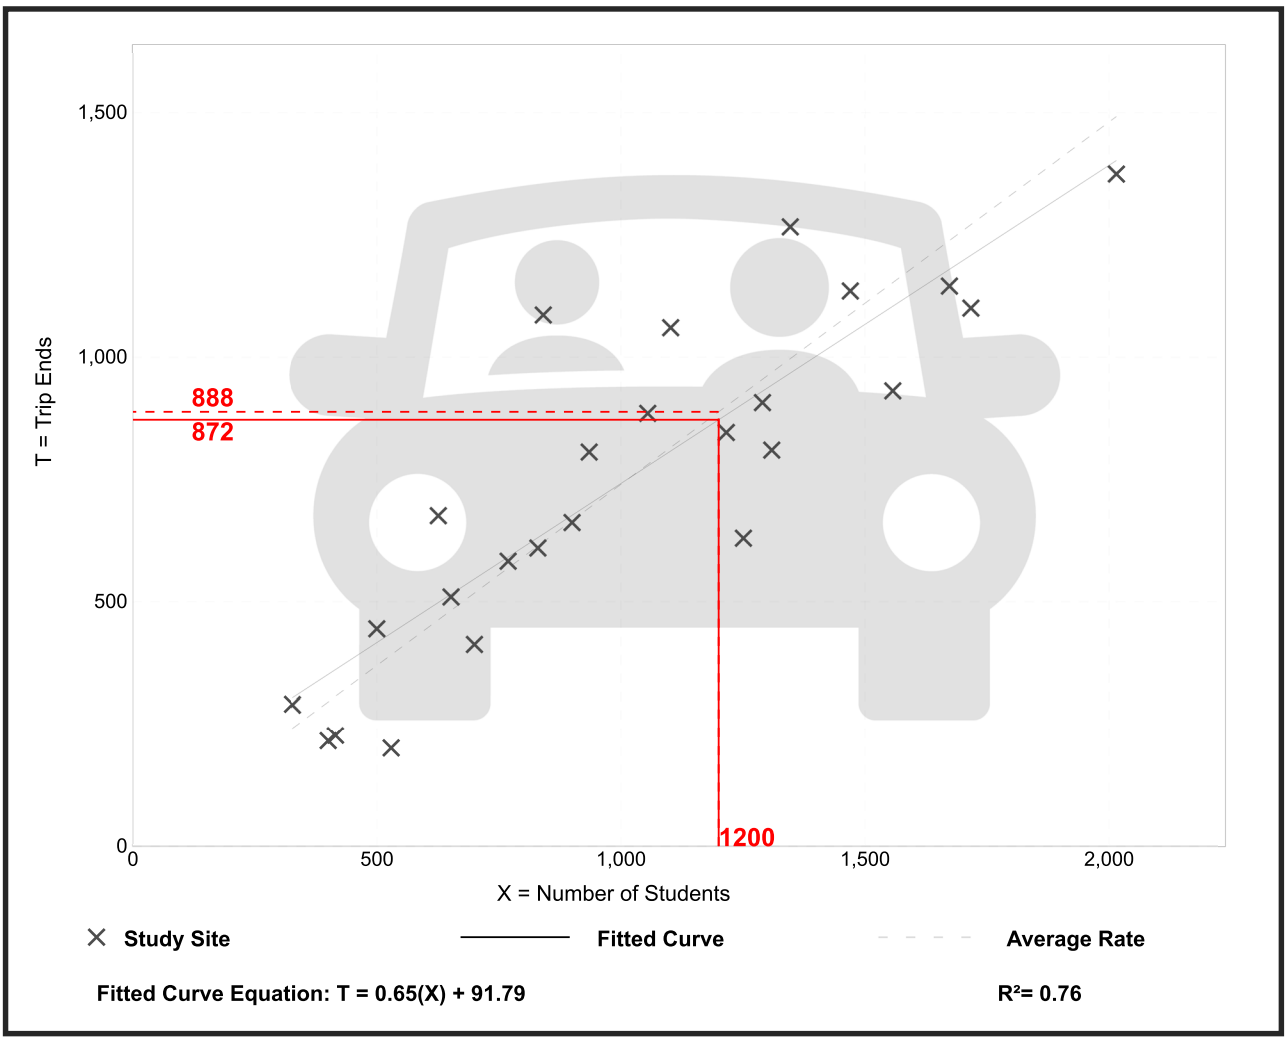

Vehicle Trip Ends vs: **Students**
On a: **Weekday,**
AM Peak Hour of Generator

Setting/Location: **General Urban/Suburban**
Number of Studies: 25
Avg. Num. of Students: 1017
Directional Distribution: 55% entering, 45% exiting

Vehicle Trip Generation per Student

Average Rate	Range of Rates	Standard Deviation
0.74	0.38 - 1.29	0.18

Data Plot and Equation

Middle School/Junior High School
(522)

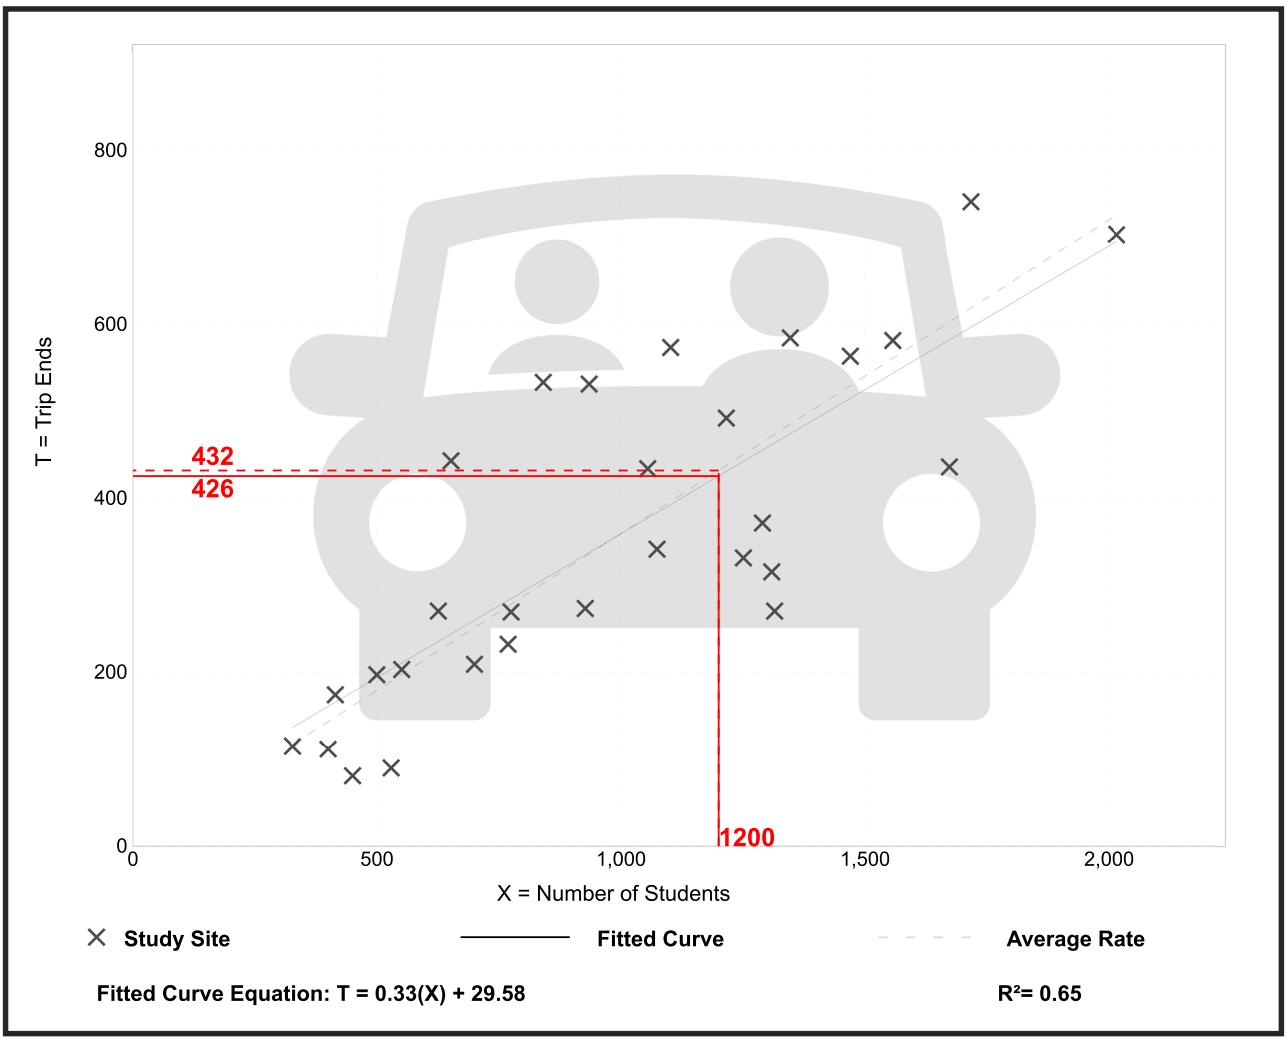

Vehicle Trip Ends vs: **Students**
On a: **Weekday,**
PM Peak Hour of Generator

Setting/Location: **General Urban/Suburban**
Number of Studies: 29
Avg. Num. of Students: 993
Directional Distribution: 46% entering, 54% exiting

Vehicle Trip Generation per Student

Average Rate	Range of Rates	Standard Deviation
0.36	0.17 - 0.68	0.11

Data Plot and Equation

High School
(525)

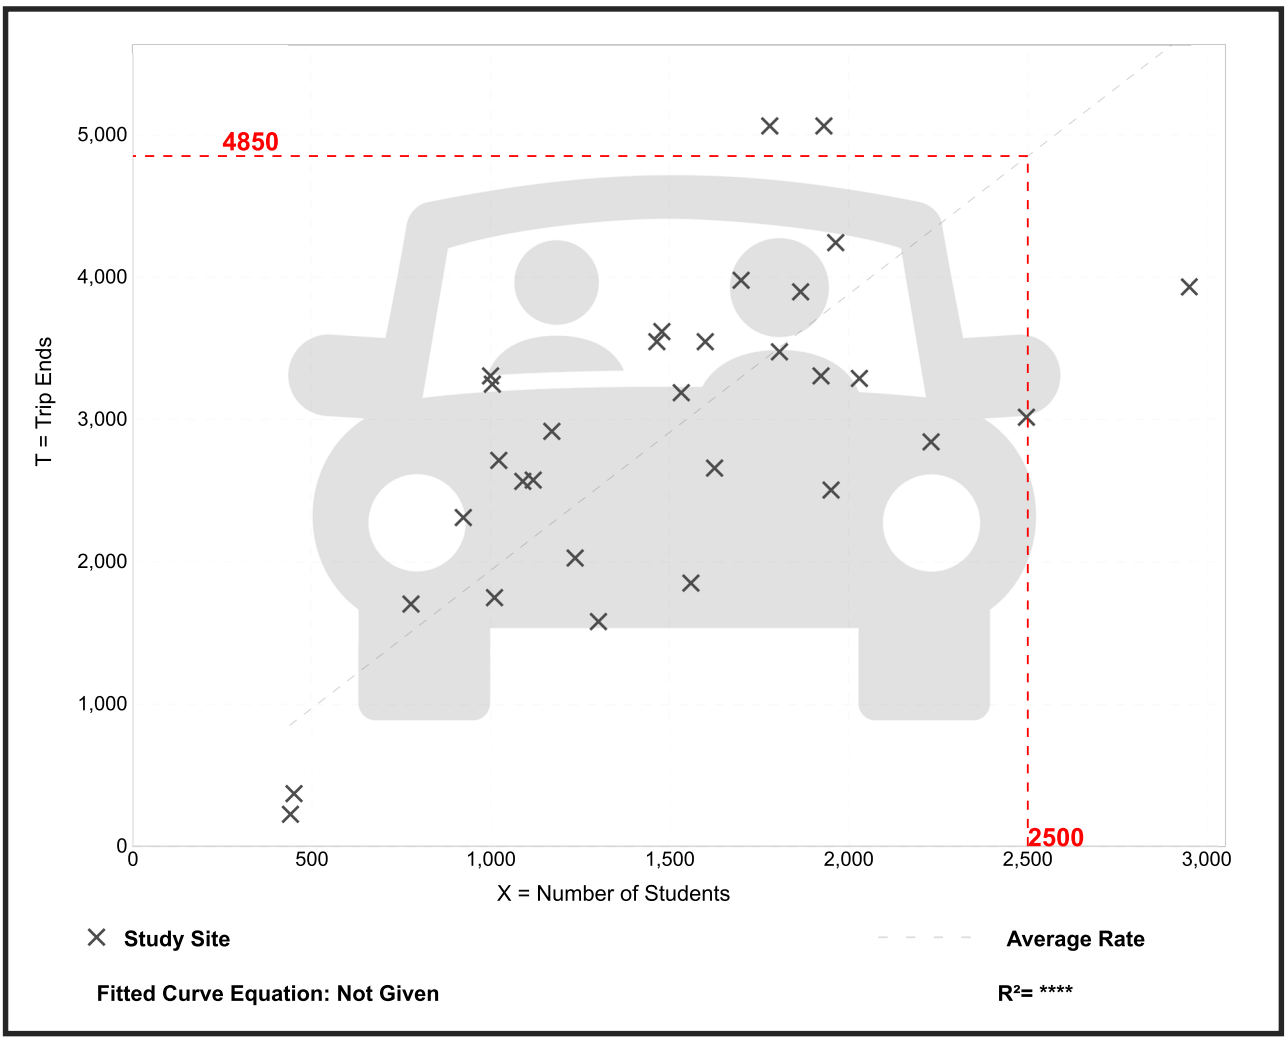

Vehicle Trip Ends vs: **Students**
On a: **Weekday**

Setting/Location: **General Urban/Suburban**
Number of Studies: 31
Avg. Num. of Students: 1498
Directional Distribution: 50% entering, 50% exiting

Vehicle Trip Generation per Student

Average Rate	Range of Rates	Standard Deviation
1.94	0.51 - 3.30	0.61

Data Plot and Equation

High School
(525)

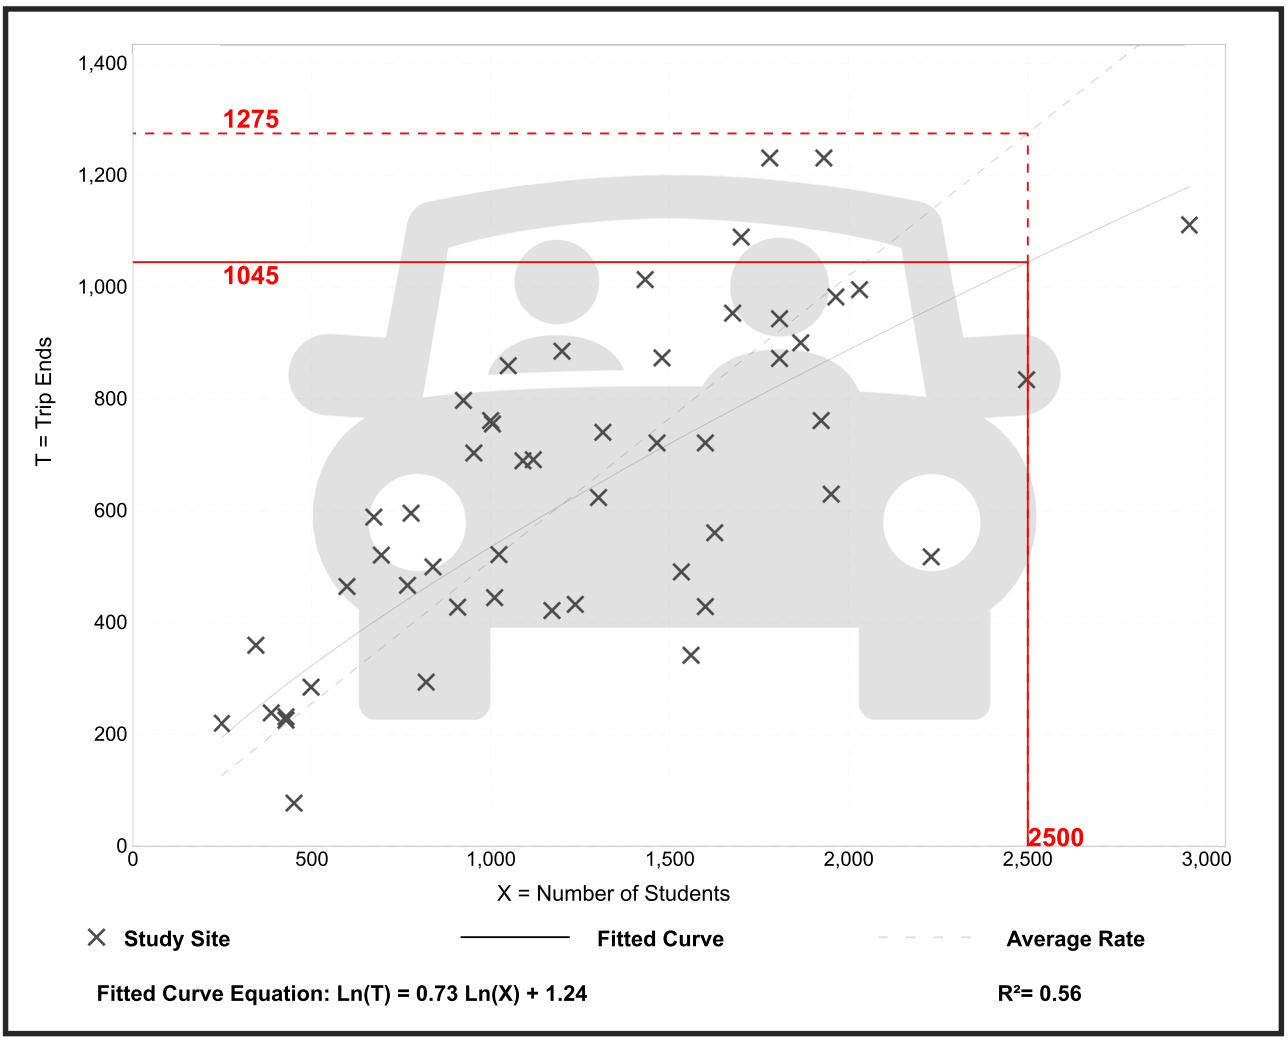

Vehicle Trip Ends vs: **Students**
On a: **Weekday,**
AM Peak Hour of Generator

Setting/Location: **General Urban/Suburban**
Number of Studies: 51
Avg. Num. of Students: 1269
Directional Distribution: 68% entering, 32% exiting

Vehicle Trip Generation per Student

Average Rate	Range of Rates	Standard Deviation
0.51	0.17 - 1.04	0.17

Data Plot and Equation

High School
(525)

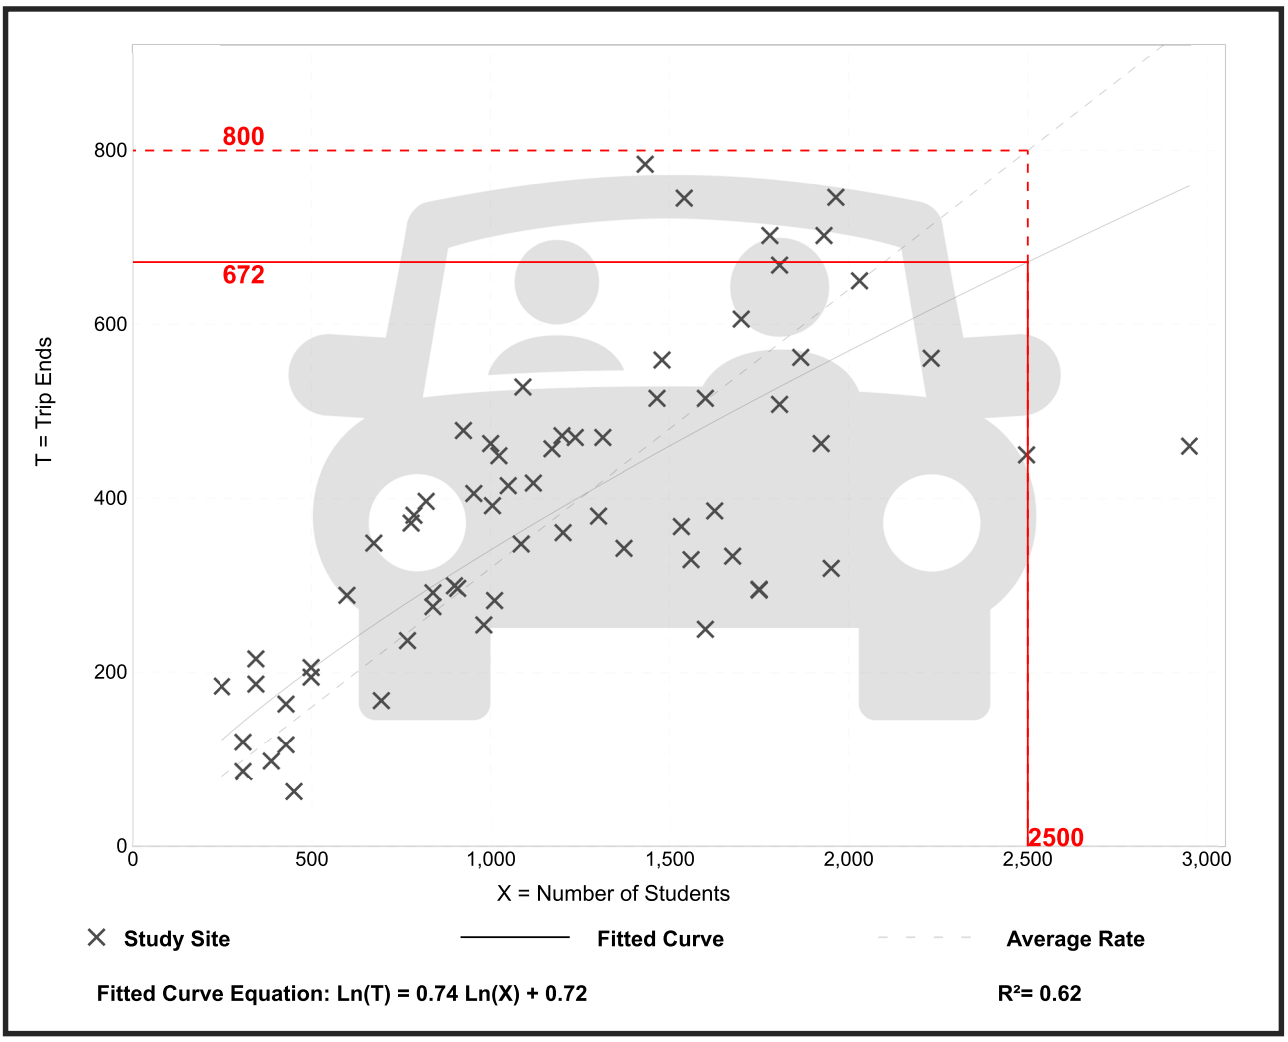

Vehicle Trip Ends vs: **Students**
On a: **Weekday,**
PM Peak Hour of Generator

Setting/Location: **General Urban/Suburban**
Number of Studies: 65
Avg. Num. of Students: 1206
Directional Distribution: 32% entering, 68% exiting

Vehicle Trip Generation per Student

Average Rate	Range of Rates	Standard Deviation
0.32	0.14 - 0.74	0.11

Data Plot and Equation

APPENDIX G
TURN LANE ANALYSIS

Left Turn Deceleration Lane Analysis (Southbound Cooks Lane at Lee Road)

Source: NCHRP Report 457: Evaluating Intersection Improvements: An Engineering Study Guide
Based on posted speed limit of 35 mph
2028 Projected Peak Hour Traffic Volumes

AM Peak Hour

Figure 2 - 5. Guideline for determining the need for a major-road left-turn bay at a two-way stop-controlled intersection.

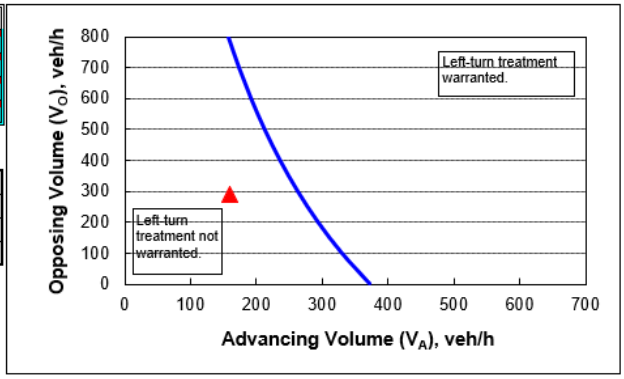

2-lane roadway (English)

INPUT

Variable	Value
85th percentile speed, mph:	35
Percent of left-turns in advancing volume (V_A), %:	44%
Advancing volume (V_A), veh/h:	159
Opposing volume (V_O), veh/h:	289

OUTPUT

Variable	Value
Limiting advancing volume (V_A), veh/h:	266
Guidance for determining the need for a major-road left-turn bay:	
Left-turn treatment NOT warranted.	

CALIBRATION CONSTANTS

Variable	Value
Average time for making left-turn, s:	3.0
Critical headway, s:	5.0
Average time for left-turn vehicle to clear the advancing lane, s:	1.9

PM Peak Hour

Figure 2 - 5. Guideline for determining the need for a major-road left-turn bay at a two-way stop-controlled intersection.

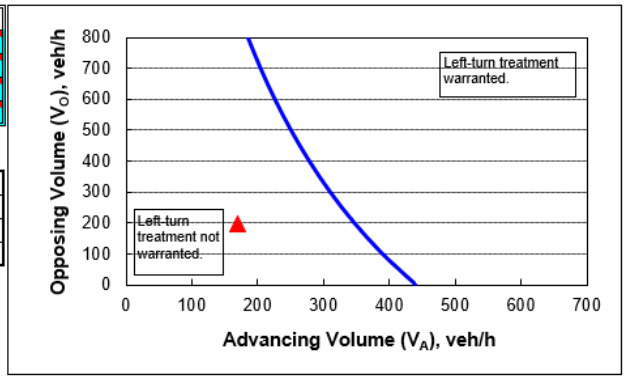

2-lane roadway (English)

INPUT

Variable	Value
85th percentile speed, mph:	35
Percent of left-turns in advancing volume (V_A), %:	23%
Advancing volume (V_A), veh/h:	170
Opposing volume (V_O), veh/h:	195

OUTPUT

Variable	Value
Limiting advancing volume (V_A), veh/h:	348
Guidance for determining the need for a major-road left-turn bay:	
Left-turn treatment NOT warranted.	

CALIBRATION CONSTANTS

Variable	Value
Average time for making left-turn, s:	3.0
Critical headway, s:	5.0
Average time for left-turn vehicle to clear the advancing lane, s:	1.9

Right Turn Deceleration Lane Analysis (Northbound Cooks Lane at Lee Road)

Source: NCHRP Report 457: Evaluating Intersection Improvements: An Engineering Study Guide
Based on posted speed limit of 35 mph
2028 Projected Peak Hour Traffic Volumes

AM Peak Hour

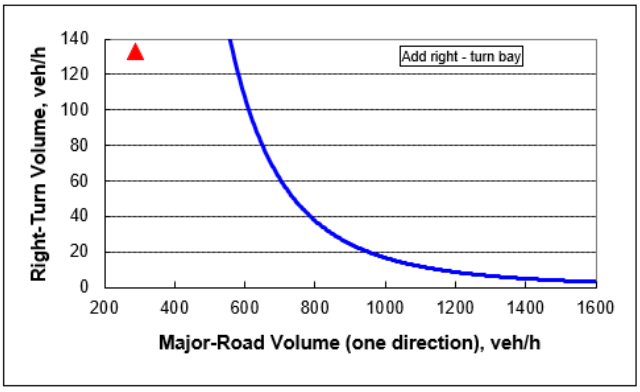

Figure 2 - 6. Guideline for determining the need for a major-road right-turn bay at a two-way stop-controlled intersection.

INPUT

Roadway geometry:	2-lane roadway
Variable	Value
Major-road speed, mph:	35
Major-road volume (one direction), veh/h:	289
Right-turn volume, veh/h:	133

OUTPUT

Variable	Value
Limiting right-turn volume, veh/h:	1508
Guidance for determining the need for a major-road right-turn bay for a 2-lane roadway:	
Do NOT add right-turn bay.	

PM Peak Hour

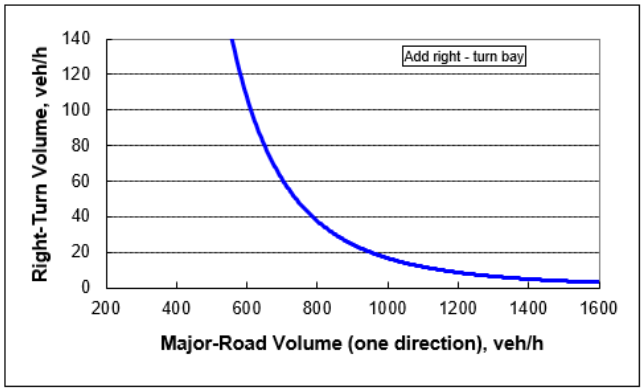

Figure 2 - 6. Guideline for determining the need for a major-road right-turn bay at a two-way stop-controlled intersection.

INPUT

Roadway geometry:	2-lane roadway
Variable	Value
Major-road speed, mph:	35
Major-road volume (one direction), veh/h:	195
Right-turn volume, veh/h:	68

OUTPUT

Variable	Value
Limiting right-turn volume, veh/h:	6307
Guidance for determining the need for a major-road right-turn bay for a 2-lane roadway:	
Do NOT add right-turn bay.	

Left Turn Deceleration Lane Analysis (Eastbound Lee Road at Montgomery Way)

Source: NCHRP Report 457: Evaluating Intersection Improvements: An Engineering Study Guide
Based on posted speed limit of 30 mph
2028 Projected Peak Hour Traffic Volumes

AM Peak Hour

Figure 2 - 5. Guideline for determining the need for a major-road left-turn bay at a two-way stop-controlled intersection.

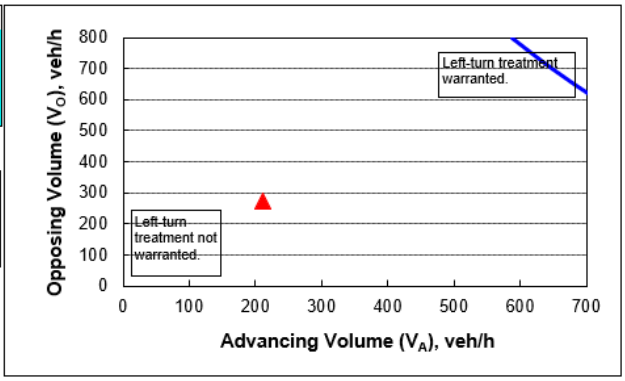

2-lane roadway (English)

INPUT

Variable	Value
85th percentile speed, mph:	30
Percent of left-turns in advancing volume (V_A), %:	2%
Advancing volume (V_A), veh/h:	212
Opposing volume (V_O), veh/h:	274

OUTPUT

Variable	Value
Limiting advancing volume (V_A), veh/h:	1010
Guidance for determining the need for a major-road left-turn bay:	
Left-turn treatment NOT warranted.	

CALIBRATION CONSTANTS

Variable	Value
Average time for making left-turn, s:	3.0
Critical headway, s:	5.0
Average time for left-turn vehicle to clear the advancing lane, s:	1.9

PM Peak Hour

Figure 2 - 5. Guideline for determining the need for a major-road left-turn bay at a two-way stop-controlled intersection.

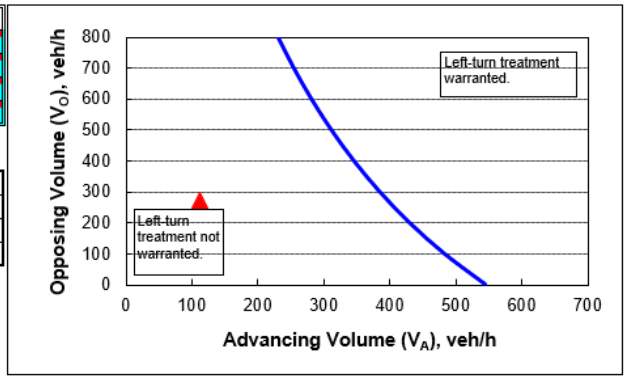

2-lane roadway (English)

INPUT

Variable	Value
85th percentile speed, mph:	30
Percent of left-turns in advancing volume (V_A), %:	15%
Advancing volume (V_A), veh/h:	112
Opposing volume (V_O), veh/h:	272

OUTPUT

Variable	Value
Limiting advancing volume (V_A), veh/h:	397
Guidance for determining the need for a major-road left-turn bay:	
Left-turn treatment NOT warranted.	

CALIBRATION CONSTANTS

Variable	Value
Average time for making left-turn, s:	3.0
Critical headway, s:	5.0
Average time for left-turn vehicle to clear the advancing lane, s:	1.9

Right Turn Deceleration Lane Analysis (Westbound Lee Road at Montgomery Way)

Source: NCHRP Report 457: Evaluating Intersection Improvements: An Engineering Study Guide
Based on posted speed limit of 30 mph
2028 Projected Peak Hour Traffic Volumes

AM Peak Hour

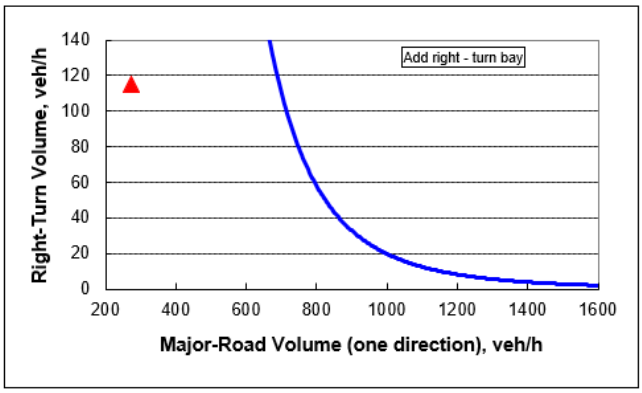

Figure 2 - 6. Guideline for determining the need for a major-road right-turn bay at a two-way stop-controlled intersection.

INPUT

Roadway geometry:	2-lane roadway
Variable	Value
Major-road speed, mph:	30
Major-road volume (one direction), veh/h:	274
Right-turn volume, veh/h:	115

OUTPUT

Variable	Value
Limiting right-turn volume, veh/h:	10009
Guidance for determining the need for a major-road right-turn bay for a 2-lane roadway:	
Do NOT add right-turn bay.	

PM Peak Hour

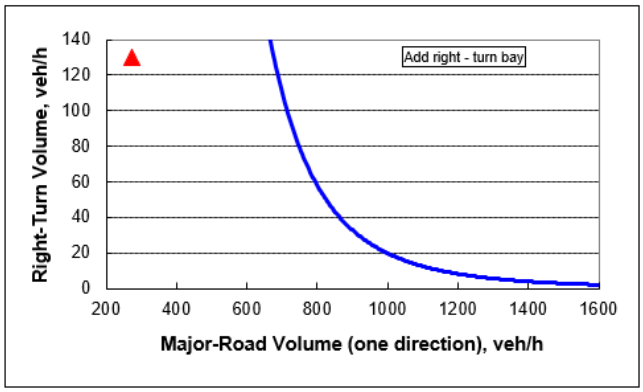

Figure 2 - 6. Guideline for determining the need for a major-road right-turn bay at a two-way stop-controlled intersection.

INPUT

Roadway geometry:	2-lane roadway
Variable	Value
Major-road speed, mph:	30
Major-road volume (one direction), veh/h:	272
Right-turn volume, veh/h:	130

OUTPUT

Variable	Value
Limiting right-turn volume, veh/h:	10369
Guidance for determining the need for a major-road right-turn bay for a 2-lane roadway:	
Do NOT add right-turn bay.	

Left Turn Deceleration Lane Analysis (Westbound Lee Road at the Site Access)

Source: NCHRP Report 457: Evaluating Intersection Improvements: An Engineering Study Guide
Based on posted speed limit of 30 mph
2028 Projected Peak Hour Traffic Volumes

AM Peak Hour

Figure 2 - 5. Guideline for determining the need for a major-road left-turn bay at a two-way stop-controlled intersection.

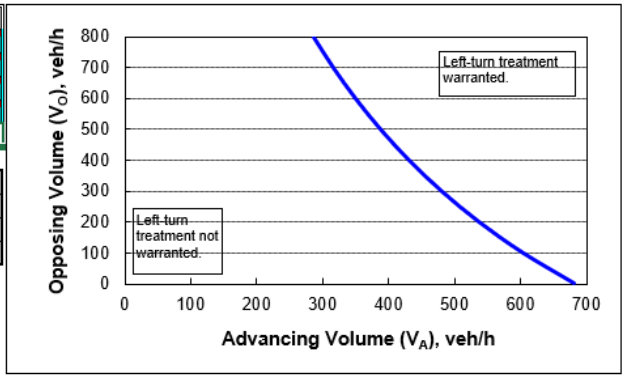

2-lane roadway (English)

INPUT

Variable	Value
85th percentile speed, mph:	30
Percent of left-turns in advancing volume (V_A), %:	91%
Advancing volume (V_A), veh/h:	986
Opposing volume (V_O), veh/h:	386

OUTPUT

Variable	Value
Limiting advancing volume (V_A), veh/h:	438
Guidance for determining the need for a major-road left-turn bay:	
Left-turn treatment warranted.	

CALIBRATION CONSTANTS

Variable	Value
Average time for making left-turn, s:	3.0
Critical headway, s:	5.0
Average time for left-turn vehicle to clear the advancing lane, s:	1.9

PM Peak Hour

Figure 2 - 5. Guideline for determining the need for a major-road left-turn bay at a two-way stop-controlled intersection.

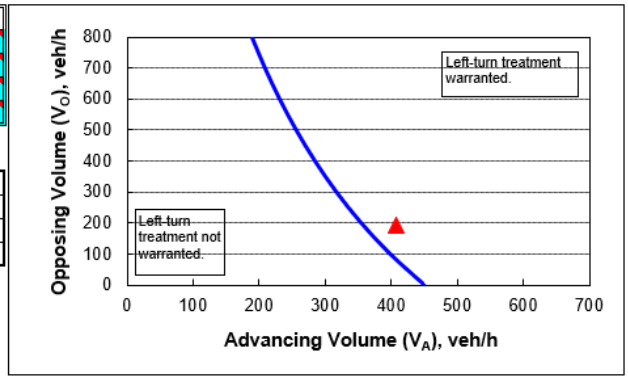

2-lane roadway (English)

INPUT

Variable	Value
85th percentile speed, mph:	30
Percent of left-turns in advancing volume (V_A), %:	75%
Advancing volume (V_A), veh/h:	408
Opposing volume (V_O), veh/h:	193

OUTPUT

Variable	Value
Limiting advancing volume (V_A), veh/h:	357
Guidance for determining the need for a major-road left-turn bay:	
Left-turn treatment warranted.	

CALIBRATION CONSTANTS

Variable	Value
Average time for making left-turn, s:	3.0
Critical headway, s:	5.0
Average time for left-turn vehicle to clear the advancing lane, s:	1.9

Right Turn Deceleration Lane Analysis (Eastbound Lee Road at the Site Access)

Source: NCHRP Report 457: Evaluating Intersection Improvements: An Engineering Study Guide
Based on posted speed limit of 30 mph
2028 Projected Peak Hour Traffic Volumes

AM Peak Hour

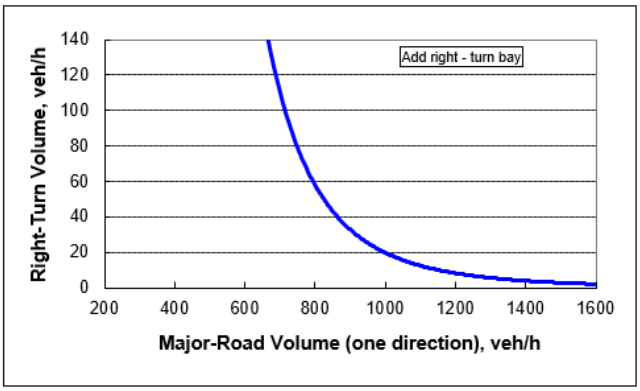

Figure 2 - 6. Guideline for determining the need for a major-road right-turn bay at a two-way stop-controlled intersection.

INPUT

Roadway geometry:	2-lane roadway
Variable	Value
Major-road speed, mph:	30
Major-road volume (one direction), veh/h:	386
Right-turn volume, veh/h:	298

OUTPUT

Variable	Value
Limiting right-turn volume, veh/h:	1919
Guidance for determining the need for a major-road right-turn bay for a 2-lane roadway:	
Do NOT add right-turn bay.	

PM Peak Hour

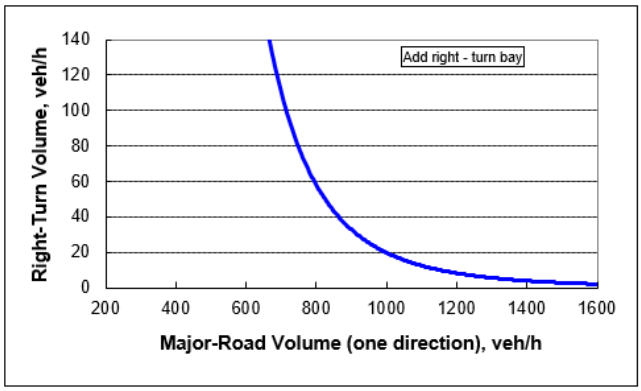

Figure 2 - 6. Guideline for determining the need for a major-road right-turn bay at a two-way stop-controlled intersection.

INPUT

Roadway geometry:	2-lane roadway
Variable	Value
Major-road speed, mph:	30
Major-road volume (one direction), veh/h:	193
Right-turn volume, veh/h:	103

OUTPUT

Variable	Value
Limiting right-turn volume, veh/h:	54176
Guidance for determining the need for a major-road right-turn bay for a 2-lane roadway:	
Do NOT add right-turn bay.	

APPENDIX H
SIGNAL WARRANT ANALYSIS

Warrants Summary Report

1: Lee Road and Rocky Fork Road

Intersection Information:

	Major Street	Minor Street
Street Name	Lee Road	Rocky Fork Road
Direction	EB/WB	NB/SB
Number of Lanes	1	1
Approach Speed	30	40

Warrant	Met?	Notes
Warrant 1, Eight-Hour Vehicular Volume		
	No	
Condition A or B Met?	No	4 Hours met (8 required)
Condition A and B Met?	No	3 Hours met (8 required)
Warrant 2, Four-Hour Vehicular Volume		
	No	3 Hours met (4 required)
Warrant 3, Peak Hour		
	Yes	
Condition A Met?	No	0 Hours met (1 required)
Condition B Met?	Yes	1 Hours met (1 required)

Warrant 1: Eight-hour Vehicular Volume

1: Lee Road and Rocky Fork Road

Intersection Information:

Major Street Name:	Lee Road
Major Street Direction:	EB/WB
Minor Street Direction:	NB/SB

Town of Smyrna
Town Council Meeting
Agenda Summary

Agenda Item Number 11.
Department: Public Works
Date: January 6, 2026

Subject:
Approval of the terms of, and authorization for the Mayor to execute, a contract with S&W Contracting Company LLC for construction of pedestrian buttons at the intersection of Old Nashville Highway and Hazelwood Drive.

Fiscal Impact:
This project was budgeted for $350,000 in the 2026 fiscal year under GL Account number 320-43100-949. The lowest responsive bidder is S&W at $105,300. This contract includes the pedestrian signals and buttons, conduit, and wiring. It excludes concrete and striping. The remaining budget will be used for the concrete islands, detectable warnings, and striping, and will be performed by a separate contractor.

Contract Type:
Original Contract

Contract Term (if applicable):
All work is expected to be complete within 150 days of Notice To Proceed which is expected to take place within 2 weeks after this contract is approved by Town Council.

Background:
This intersection at Old Nashville Highway and Hazelwood is identified in the ADA Self-Evaluation as needing to be upgraded with a pedestrian signal. Additionally, we have had calls and email requests for a pedestrian signal at this intersection. This project will help provide the required ADA compliance at this intersection.

Summary:
The lowest responsive bidder is S&W at $105,300. The contract includes the pedestrian signals and buttons, conduit, and wiring. It excludes concrete and striping. The remaining budget will be used for the concrete islands, detectable warnings, and striping, and will be performed by a separate contractor. This contract is just for the pedestrian signal at the intersection. Since this is already a signalized intersection there will not be a need for upgrades in the traffic cabinet. While the pedestrian signals and buttons are being installed, our annual concrete and striping contractor will install the remaining components.

Recommended Council Action:

Staff recommends Town Council approve the Mayor to sign the contract.

LEGAL NOTICE

INVITATION TO SUBMIT QUOTATIONS

The Town of Smyrna will accept quotations for addition of the pedestrian signal at Old Nashville Highway and Hazelwood Drive. Bidders shall submit sealed proposals in the format specified in the Invitation to Submit Quotations no later than 2:30 p.m. December 11, 2025 at which time proposals will be publicly opened and read aloud. No bid may be withdrawn after the scheduled closing time for a period of 90 days. Bidding documents may be obtained at Smyrna Town Hall during regular business hours or www.townofsmyrna.org. Quotations should be mailed or hand delivered to:

Sierra Lowry
Smyrna Town Hall
Sealed Bid for Pedestrian Signal
December 11, 2025 @ 2:30 p.m.
315 South Lowry Street
Smyrna, TN 37167

Verbal quotations or quotations received after the closing date will not be accepted. The Town of Smyrna reserves the right to reject any and all bids, to waive technicalities or informalities and to accept any bid deemed to be in the best interest of the Town.

All Bidders must be licensed Contractors in the State of Tennessee in strict accordance with State regulations. All bidders shall comply with the Tennessee Contractor' License law Section 62-6-119 (Bid documents - Required disclosure by bidders) when submitting bids. Please refer to State Licensing Board website for all applicable licensing laws, https://www.tn.gov/commerce/regboards/contractor.

The Town of Smyrna will not discriminate in the purchase of all goods and services on the basis of race, color, religion, sex, national origin, age, disability or any other lawfully protected classification.

SUBMITTED BY: SIERRA LOWRY
FINANCE DIRECTOR

TO BE RUN: DECEMBER 2, 2025

TABLE OF CONTENTS

		Page
Section I	- General Information	3
Section II	- Specifications	4
Section III	- Price Quotation	9
	Agreement & Required Forms	10-21
Section IV	- Specification Compliance	22

SECTION I - GENERAL INFORMATION

A. The Town of Smyrna desires quotations on the addition of a pedestrian signal based on the enclosed construction plans at the intersection of Old Nashville Highway and Hazelwood Drive. Contractor is required to coordinate all work with the Town of Smyrna and TDOT.

Questions should be directed to Tom Rose, Public Works Director, Office (615) 459-9742 extension 2163 or E-mail: tom.rose@townofsmyrna.org.

Smyrna Town Hall location:
315 South Lowry Street
Smyrna, TN 37167

Location of project:
Old Nashville Highway and Hazelwood Drive

B. The Town of Smyrna reserves the right to reject any and all bids, to waive technicalities or informalities and to accept any bid deemed to be in the best interest of the Town. No bid may be withdrawn after the scheduled closing time for a period of 90 days.

C. The bidder shall abide by and comply with the true intent of the specifications and not take advantage of any unintentional error or omission, but shall fully address the full intent and meaning of each aspect of the specifications.

D. Section II, III, IV, and Required Forms shall be completed and included as an integral part of each bidder's proposal.

E. Successful bidder will be expected to enter into a contract Agreement with the Town of Smyrna. Agreement shall be signed and attested (but not dated) by the proper business representative and submitted with the bid proposal.

F. Freight shall be paid by vendor and should be included in unit price bid.

G. The Town is a tax-exempt organization.

H. Mail is delivered after 11:00 a.m. Monday through Friday.

I. The Town of Smyrna, in accordance with Title VI of the Civil Rights Act of 1964 and Title 49, Code of Federal Regulations, hereby notifies all Bidders that it will affirmatively insure that in any contract entered into pursuant to this advertisement, minority business enterprises will be afforded full opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, creed, sex, handicap or national origin in consideration for an award.

J. Bid quotations *must* be submitted on the Town's quotation page(s). No exceptions.

K. By submission of this bid, each bidder/proposer and each person signing on behalf of any bidder certifies, and in the case of a joint bid each party thereto certifies as to its own organization, under penalty of perjury, that to the best of its knowledge and belief that each bidder is not on the list created pursuant to T.C.A. § 12-12-106 Iran Divestment Act. State of TN_Debarred_Vendors.pdf

SECTION II - SPECIFICATIONS FOR PEDESTRIAN SIGNAL

SCOPE OF WORK:

This project is to add a pedestrian signal at the intersection of Old Nashville Highway and Hazelwood Drive based on the enclosed construction plans and the current version of the TDOT Road and Bridge Manual.

GENERAL REQUIREMENTS

1. All vendors can visit the site at intersection of Old Nashville Highway and Hazelwood Drive in Smyrna. Call Jonathan Hemenway at 615-459-9766 to schedule an appointment if you need him on-site.
2. Contractor is responsible for locating all utilities in the work area and is responsible for repair to any damaged utilities or facilities.
3. Contractor will work with our annual concrete contractor, striping contractor, and Town of Smyrna Streets, Public Works, and Building and Grounds Departments for all other work.
4. Vendor / Contractor is responsible for clean up of any debris or damage from their work on the project.
5. The Director of Public Works or his designee will perform final inspection before last invoice is paid. Any problems will be communicated to the contractor.

CONSTRUCTION TO INCLUDE:

A. Modifications to traffic signal cabinet
B. Installation of pedestrian signals with signal wire
C. Traffic control
D. TDOT approval for work in the ROW

EXCLUDED FROM PROJECT:

A. Layout engineering
B. Electrical service connection
C. Concrete refuse islands
D. Roadway striping

QUALITY ASSURANCE

A. Fabricate members in accordance with standard industry practice.

QUALIFICATIONS

A. Contractor shall have proper licensing for work
B. Contractor shall be responsible for all materials, whether furnished by himself or a subcontractor, and proper storage of the same.

REGULATORY REQUIREMENTS

A. Contractor shall be responsible for compliance with all applicable building codes and ordinances covering the work.
B. Contractor shall cooperate with regulatory agencies or authorities to provide data as requested.

FIELD MEASUREMENTS

A. Field measurements shall be taken to verify that components match MTE details. Pole Locations will be staked by MTE.

CERTIFICATIONS

A. Certifications shall be tendered upon request.

WARRANTY

A. No Warranty is required.

INSURANCE REQUIREMENTS

The Contractor shall purchase and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the performance of the work hereunder by the Contractor, its agents, representatives, employees or subcontractors.

A. MINIMUM SCOPE AND LIMITS OF INSURANCE

1. **Workers Compensation**
   Workers Compensation insurance shall be in compliance with the State of Tennessee and shall be statutory. Employers Liability shall be included with a minimum limit of $500,000 per accident/per disease/per employee.

2. **Commercial General Liability**
   Commercial General Liability insurance shall have a minimum limit per occurrence of $1,000,000 and a minimum general aggregate of $2,000,000. It shall include completed operations, product liability and personal injury liability insurance.

3. **Automobile Liability**
   Automobile Liability Insurance shall have a minimum combined single limit per occurrence of $1,000,000. This insurance shall include third-party bodily injury and property damage liability for owned, hired, borrowed and non-owned automobiles.

B. DEDUCTIBLES AND SELF-INSURED RETENTIONS

Any deductibles or self-insured retentions must be declared to the Town of Smyrna. The Contractor shall be responsible for all deductibles and self-insured retentions.

C. OTHER INSURANCE PROVISIONS

The policies are to contain, or be endorsed to contain, the following provisions:

1. General Liability and Automobile Liability Coverages

   a. The Town, its elected and appointed officials, agents, employees and volunteers shall be named as an additional insured as regards negligence by the contractor.

   b. The Contractor's insurance shall be primary as respects the Town, its elected and appointed officials, agents, employees and volunteers. Any insurance or self-insurance maintained by the Town of Smyrna shall be excess and non-contributory of the Contractor's insurance.

2. Workers Compensation and Employers Liability Coverage

The insurer shall agree to waive all rights of subrogation against the Town, its elected and appointed officials, agents, employees and volunteers for losses arising from work performed by the Contractor for the Town of Smyrna.

3. All Coverages

   a. Coverage shall not be canceled, suspended, or voided by either party (the Contractor or the insurer) or reduced in coverage or in limits except after 30 days written notice has been given to the Town of Smyrna. Ten-day written notice of cancellation is acceptable for non-payment of premium. Notifications shall comply with the standard cancellation provisions in the Contractor's policy.

   b. Neither the acceptance of the completed work nor the payment thereof shall release the Contractor from the obligations of the insurance requirements or indemnification agreement.

   c. The insurance companies issuing the policies shall have no recourse against the Town of Smyrna for payment of premiums or for assessments under any form of the policies.

   d. Replacement certificates, policies or endorsements shall be provided to the Town for any such insurance expiring prior to the completion of services.

   e. Any failure of the Contractor to comply with reporting provisions of the policy shall not affect coverage provided to the Town, its elected and appointed officials, agents, employees and volunteers.

D. ACCEPTABILITY OF INSURERS

All required insurance shall be provided by a company or companies licensed to conduct business in the State of Tennessee. Insurance shall be underwritten by insurers with an A.M. Best Company ratings no less than an A.

E. VERIFICATION OF COVERAGE

The Contractor shall furnish the Town with Certificates of Insurance reflecting proof of required coverage. The Certificates for each insurance policy are to be signed by a person authorized by that insurer to bind coverage on its behalf. **The Certificates are to be received and approved by the Town before work commences and upon any contract renewal thereafter.**

Upon failure of the Contractor to furnish, deliver and maintain such insurance as requested, this contract, at the election of the Town, may be suspended, discontinued or terminated. Failure of the Contractor to purchase and/or maintain any required insurance shall not relieve the Contractor from any liability or indemnification under the contract.

The Certificate of Insurance naming the "Town of Smyrna" as **Additional Insured** shall be addressed to the attention of:

Town of Smyrna
Department of Safety & Risk Management
ATTN: Henry Urbina
315 S Lowry St
Smyrna, TN 37167

It can also be submitted electronically to henry.urbina@townofsmyrna.org. The subject line has to indicate the name of the project.

The Town reserves the right to request complete certified copies of all required insurance policies at any time.

F. SUBCONTRACTORS

Contractor shall include all subcontractors as insureds under its policies **OR** shall be responsible for verifying and maintaining the Certificates provided by each subcontractor. Subcontractors shall be subject to all of the requirements stated herein. The Town of Smyrna reserves the right to request copies of subcontractor's Certificates at any time.

G. WORKERS' COMPENSATION INDEMNITY

In the event Contractor is not required to provide or is exempt from providing workers' compensation coverage, the parties hereby agree that Contractor, its owners, agents and employees will have no cause of action against, and will not assert a claim against the Town of Smyrna, its elected and appointed officials, agents, employees and volunteers, under any circumstances. The parties also hereby agree that the Town of Smyrna, its elected and appointed officials, agents, employees and volunteers shall in no circumstance be, or considered as, the employer or statutory employer of Contractor, its owners, agents and employees. The parties further agree that Contractor is a wholly independent contractor and is exclusively responsible for its employees, owners, and agents. Contractor hereby agrees to protect, defend, indemnify and hold the Town of Smyrna, its elected and appointed officials, agents, employees and volunteers harmless from any such assertion or claim that may arise from the performance of this contract.

HOLD HARMLESS AND INDEMNITY REQUIREMENT:

Contractor shall indemnify and hold harmless, to the maximum extent permitted by law, the Town of Smyrna and its officers, agents, employees, volunteers, from and against any and all liability, damages, losses, (whether in contract or in tort, including personal injury, accidental death or property damage, and regardless, of whether the allegations are false, fraudulent or groundless), and costs (including reasonable attorney's fees, litigation, arbitration, mediation, appeal expenses) which in whole or in part are caused by the negligence, recklessness or intentional wrongful misconduct of the Contractor and persons employed by or utilized by the Contractor in Contractor's performance of this Agreement.

The contractor further agrees to protect, defend, and save the Town, its elected and appointed officials, agents, employees and volunteers while working in the scope of their duties as such, harmless from and against all claims, demands, and causes of action of any kind of character, including the cost of their defense, arising in favor of the contractor's employees or third parties on account of bodily or personal injuries, death or damage to

property arising out of services performed or omissions of services or in any way resulting from the acts of omissions of the contractor and/or its agents, employees, subcontractors, representative of the Town under this agreement.

Pursuant to Tennessee Attorney General Opinion 93-01, the Town will not indemnify, defend or hold harmless in any fashion the Contractor from any claims arising from any failure, regardless of any language in any attachment or other document that the Contractor may provide.

APPLICABLE LAW:

Any contract resulting from this ISQ shall be governed by and construed under the laws of the State of Tennessee.

SMYRNA BUSINESS LICENSE

Compensation of more than $100,000 from contracts performed in one county by a contractor described in Tenn. Code Ann. § 67- 4-708(4)(A) will be sourced to that county and the tax from such contracts will be distributed to that county. Compensation of $100,000 or less from contracts performed in one county by such person will be sourced to the county of the person's domicile or location. If the person does not have a domicile or location in Tennessee, such compensation will be earmarked and allocated to the state's general fund.

For purposes of distribution of the municipal business tax provided for in Tenn. Code Ann. § 67-4-705, receipts will be sourced to the municipality in which the person's established physical location, outlet, or other place of business is located. Receipts from sales made by persons operating from an established physical location, outlet, or other place of business in one municipality who extend their operations outside the boundaries of the municipality without establishing a physical location, outlet, or place of business outside the boundaries of the municipality will be sourced to the municipality in which the person's established physical location, outlet, or other place of business is located.

If the person has no established physical location, outlet, or other place of business in the state, then such receipts will not be subject to the municipal business tax. Receipts from all taxable sales of any services or tangible personal property by a provider of video programming services will be sourced to the municipality where the property or service is received by the customer regardless of whether or not the provider has a physical location, outlet, or other place of business in that municipality.

Compensation of more than $100,000 from contracts performed in one municipality by a contractor described in Tenn. Code Ann. § 67- 4-708(4)(A) will be sourced to that municipality and the tax from such contracts will be distributed to that municipality. Compensation of $50,000 or less from contracts performed in one municipality by such person will be sourced to the municipality of the person's domicile or location. If the person does not have a domicile or location in Tennessee, such compensation will not be subject to the municipal business tax. (*from Tennessee Business Tax Guide/ Tenn. Dept. of*

Revenue 2019; *See also, Tennessee Works Tax Act (2023), Public Chapter 377, 2023 Session of the 113th General Assembly*)

SECTION III – PRICE QUOTATION PEDESTRIAN SIGNAL

TOTAL LUMP SUM: $ 105,300

TOTAL LUMP SUM (WRITTEN AMOUNT): $105,300.00

NUMBER OF DAYS TO COMPLETE JOB FROM NOTICE TO PROCEED 150

LIQUIDATED DAMAGES:

Owner and contractor recognize that time is of the essence of this agreement. Work is to be completed by the number of days stated on the Price Quotation page or agreed upon a date between the contractor and the Town. Bidders must agree to pay $200 per day each calendar day thereafter. Acts of God, unusual weather, etc. will be coordinated between the contractor and the Town. The Town will be the sole judge as to whether the work has been completed within the allotted time.

AGREEMENT

This Agreement is made and entered into as of this _____ day of _____, 20____, by and between _____, a _____ _____ (the "Bidder") and the Town of Smyrna, Tennessee, a Tennessee municipal corporation (the "Town") for the purpose of _____.

WHEREAS, the Bidder has submitted a quotation for the provision of certain products and/or services to the Town, all in accordance with the terms of the Invitation to Submit Quotations attached hereto and incorporated herein by reference as if set forth at length verbatim as Exhibit A (the "ISQ"), and which Proposal from the Bidder is attached hereto and incorporated herein by reference as if set forth at length verbatim as Exhibit B (the "Quotation"); the ISQ and the Quotation, together with any and all ancillary documents thereto, shall be collectively referred to herein as the "Bid Documents"; and

WHEREAS, the Town now desires to accept the Bidder's quotation, in accordance with the terms set forth in such Bid Documents.

NOW, THEREFORE, in consideration of the mutual covenants contained herein, and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the undersigned do hereby agree as follows:

1. Acceptance of Bid Documents. The terms of the Bid Documents, as incorporated herein by reference, are hereby accepted by the parties hereto. The Bidder hereby agrees to provide the goods and/or services contemplated by such Bid Documents in accordance with the terms set forth therein. The Town hereby accepts the Bidder's quotation to provide the goods and/or services contemplated by such Bid Documents in accordance with the terms set forth therein.

2. Entire Agreement. This Agreement, including the exhibits and any other documents referred to herein or therein, which form a part hereof, contains the entire understanding of the parties with respect to its subject matter. There are no restrictions, agreements, promises, warranties, covenants or undertakings other than those expressly set forth herein or therein. This Agreement supersedes all prior written or oral agreements and understandings between the parties with respect to its subject matter and may not be altered, modified or amended, in whole or in part, except by the express written authorization and consent of the parties hereto.

3. Severability. This agreement constitutes the product of negotiations of the parties hereto and any enforcement of hereof will be interpreted in a neutral manner and not more strongly against any party based upon the source of the draftsmanship of this Agreement. If any provision of this Agreement shall be held invalid or unenforceable by a court of competent jurisdiction, the remaining provisions hereof shall continue to be fully effective.

4. Limitation of Liability. The Town of Smyrna shall not be liable for any loss, claim, expense or damage caused by, contributed to or arising out of the acts or omission of Bidder or third parties, whether negligent or otherwise.

5. Warranties. The Bidder warrants to the Town that all materials and equipment furnished under this Contract will be new unless otherwise specified, and that all work will be of good quality, free from faults and defects, suitable for the purpose for which the materials and equipment are furnished, and in conformance with the Agreement. If it does not perform as warranted, Bidder shall use all commercially reasonable efforts to correct the product(s) so that it operates in all material respects in conformity with the written representations of Bidder. If Bidder cannot correct the product(s) within a reasonable period of time, Bidder shall refund the purchase price of the product(s). All work not conforming to these requirements, including substitutions not properly approved and authorized, may be considered defective.

6. Software Deadline, Testing and Acceptance: If applicable to the Agreement, software provided by Bidder shall be installed for the purposes of testing, as stated herein below, no later than one hundred twenty (120) days from the effective date of this Agreement unless the parties, in writing, set a different specific date. In Addition, software provided by Bidder to The Town is subject to inspection and testing to verify that the software conforms to its written specifications and to ensure it meets The Town's needs. The Town shall have seven (7) business days after the software is installed to perform testing of the software using The Town's data. The Town shall provide Bidder with written notice of acceptance or rejection of the software five (5) business days or less after the end of the testing period. If the Town does not provide timely written notice of acceptance or rejection to Bidder, the software shall be deemed to be accepted by The Town. If the software is rejected, The Town may, at its sole discretion, either (1) return the software and receive a refund of all fees paid with respect thereto, or (2) allow Bidder to repair or replace the software, without charge, in a timely manner. In the event The Town elects to allow the Bidder to repair or replace the software, The Town shall have an additional (7) business days in which to accept or reject the software as laid out hereinabove.

7. Use of The Town's Logo or Name: Bidder shall not use The Town's name or any logo in marketing or publicity materials or for marketing or publicity purposes without the prior written authorization from The Town. Bidder shall not issue, publish, or divulge any materials developed or used in the performance of this Agreement or make any statement to the media relating to this Agreement without the prior written consent of The Town.

8. Indemnification. The parties hereto agree that Bidder shall indemnify The Town for any and all claims of negligence, tortious conduct or otherwise unlawful acts committed by Bidder in the performance of their obligations under the terms of this agreement, including any and all attachments or exhibits thereto and Bidder agrees to pay any and all costs associated with the enforcement of the terms of this indemnity agreement by The Town, including but not limited to, court costs, civil judgments, assessments or any other reasonable fees associated therewith. This clause shall survive the expiration or termination of this Agreement and shall remain in full force and effect until the expiration of any applicable statute of limitation. In addition, Article II, Section 29 of the Tennessee Constitution prohibits municipalities from lending their credit to private of public entities and, therefore, prohibits an agreement by The Town to indemnify a third party or agree to a limitation of liability provision.

9. Non-Appropriation: Bidder acknowledges that The Town is a governmental entity, and the validity of this Agreement is based upon the availability of public funding under its authority. In the event The Town fails to appropriate funds or make monies available for any fiscal year covered by the term of this Agreement for services to be provided, this Agreement shall be terminated on the last day of the fiscal year for which funds were appropriated or monies made available for such purposes without liability to The Town, and such termination shall not be a breach of the Agreement, and any unused payment made to Bidder shall be returned to The Town.

10. Tax Exemption: As a tax-exempt entity, The Town shall not be responsible for sales or use taxes incurred for products or services. The Town shall supply Bidder with its Sales and Use Tax Exemption Certificate upon Bidder's request. Bidder shall bear the burden of providing its suppliers with a copy of The Town's tax exemption certificate and Bidder shall assume all liability for such taxes, if any, that should be incurred.

11. Attorney Fees. The parties hereto agree that The Town shall be in no event liable for any attorney's fees which Bidder may incur due to breach of this Agreement by either party; and further, The Town shall not acquiesce to any term in any document that indicates or infers The Town may or shall be responsible for the Attorney's fees of another party or the Bidder's attorney fees.

12. Boycott of Israel. The Bidder certifies that it is not currently engaged in, and covenants that it will not, for the duration of the Contract, engage in a Boycott of Israel, as that term is defined in Tenn. Code Ann. § 12-4-119.

13. Failure to perform. The parties agree, in the event Bidder fails to perform any obligation, other than with regards to the date of delivery, set out in this Agreement, the Town shall be reimbursed by Bidder for any and all expenses associated with having to obtain a new provider to finish out the contracted term, including, but in no way limited to, any charges/fees, which are above and beyond the amount the Town would have paid to Bidder to complete the same task; provided, however, that if the failure, by its nature, is one that can be cured, the Bidder shall have fifteen (15) business days after receipt of written notice from the Town to cure said failure to perform. The parties hereby agree, unless a specific date of delivery is provided in this Agreement or other bid documents, all deliveries shall be made to the Town no later than ninety (90) days from the date of order. The parties further agree that if Bidder, in good faith, is not able to meet this ninety (90) day deadline of delivery due to forces beyond his, her or its control, that were unforeseeable at the time of signing this contract, then this entire Agreement shall be voidable at the sole discretion of the Town. Should the Town elect to void this Agreement due to Bidder's good faith inability, due to forces beyond his, her or its control, and which were unforeseeable at the time of signing this Agreement to meet the delivery deadline, then neither party shall be deemed to have breached this Agreement, and Bidder shall return all monies, within seven (7) business days, paid by the Town for the products/items that could not be delivered in the allotted time.

14. Unilateral Modification of Agreement Not Permitted: Bidder may make unilateral changes to its Privacy Policy, provided any such changes are subject to the provisions of this Agreement but shall not materially alter the use of the service or reduce the level of protection provided to the Town at the time of the execution of this Agreement. Except as provided in the preceding sentence, notwithstanding anything in this Agreement to the contrary, any change to this Agreement made by Bidder that is not in writing and that is not properly executed by the signatures of authorized representatives of the parties hereto, including attestation by The Town's Clerk and approved as to form by the Town Attorney are subject to the terms and conditions of this Agreement.

15. Changes to Terms: Except as provided in Paragraph No. 13 above pertaining to Bidder's Privacy Policy, Bidder shall provide The Town written notice, sent in care of Town Attorney's Office, Smyrna, Tennessee, 315 South Lowry Street, Tennessee 37167, of any proposed change to this Agreement at least ninety (90) days prior to being effective to The Town. The Town shall have thirty (30) days after receiving the written notice to terminate this Agreement, and such cancellation shall not be a breach of this Agreement. Bidder will refund to The Town any payment made by The Town to Bidder equal to the difference between the number of months the payment was intended for and the number of months remaining on this Agreement that the fee was intended to cover.

16. Price Assurance: Unless specifically stated in this Agreement or other bid documents, the bid price shall be valid for the full term of this Agreement. If the Bidder, specifically states that he, she or it cannot honor the bid price for the full term of this Agreement; then this Agreement is voidable at the sole discretion of the Town, if at any time during the full term of this Agreement, Bidder requests

to raise the bid price. If the Town elects to void this Agreement, at its sole discretion, it shall not be deemed to be a breach of the contract by either party.

17. Confidentiality. The Town, as a Tennessee Municipal Corporation is subject to the Tennessee Open Records Act, set out in T.C.A. §10-7-503 et seq; therefore, this Agreement and all documents or materials, in any format, including, but not limited to paper, electronic or virtual, that are public records pursuant to law, are not confidential and are subject to disclosure. The Town will respond to all proper Open Records Requests in the time allowed by law, without any requirement to disclose such request to Bidder or provide Bidder with notice or the time to obtain a protective order. The Town does not have the burden of establishing that information is not confidential information or that its release is authorized to release the records. This section 16 serves to meet such burden and authorization of disclosure.

18. Mediation. The Town may, at its option, require the attempted resolution of any dispute arising under this Agreement by mediation prior to the filing of any lawsuit or other claim. Should any dispute arise, Bidder shall provide the Town notice of any intent to file suit by certified mail. The Town shall notify the Bidder of its intent to exercise its right to mediation within thirty (30) days of receiving such notice. If the Town does not exercise its right to mediation, Bidder may file suit. Any mediator selected under this clause shall be agreed upon by the parties and the costs of such mediation shall be divided and paid equally between the parties.

19. No Presumption Against Drafter: The parties are both business entities having substantial experience with the subject matter of this Agreement, and each has fully participated in the negotiation and drafting of this Agreement. Accordingly, this Agreement shall be construed without regard to the rule that ambiguities in a document are to be construed against the draftsman. No inferences shall be drawn from the fact that the final, duly executed Agreement differs in any respect from any previous draft hereof.

20. Governing Law. This Agreement shall be deemed to have been executed and delivered within the State of Tennessee, and the rights and obligations of the parties shall be construed and enforced in accordance with, and governed by, the laws of the State of Tennessee. The parties agree that all obligations of the parties are performable in Smyrna, Tennessee.

21. Choice of Forum and Venue. The parties' choice of forum and venue shall be exclusively in the courts of Rutherford County, Tennessee or the United States District Court, for the Middle District of Tennessee. The parties hereby waive their right to a jury trial. Any provision of the Agreement held to violate a law or regulation shall be deemed void, and all remaining provisions shall continue in force.

IN WITNESS WHEREOF, the undersigned have executed this Agreement as of the date set forth above.

50-9-113. State and local government construction contracts.

(a) Each employer with no less than five (5) employees receiving pay who contracts with the state or any local government to provide construction services or who is awarded a contract to provide construction services or who provides construction services to the state or local government shall submit an affidavit stating that such employer has a drug-free workplace program that complies with this chapter, in effect at the time of such submission of a bid at least to the extent required of governmental entities. Any private employer that certifies compliance with the drug-free workplace program, only to the extent required by this section, shall not receive any reduction in workers' compensation premiums and shall not be entitled to any other benefit provided by compliance with the drug-free workplace program set forth in this chapter. Nothing in this section shall be construed to reduce or diminish the rights or privileges of any private employer who has a drug-free workplace program that fully complies with this chapter. For purposes of compliance with this section, any private employer shall obtain a certificate of compliance with the applicable portions of the Drug-free Workplace Act from the department of labor and workforce development. No local government or state governmental entity shall enter into any contract or award a contract for construction services with an employer who does not comply with the provisions of this section.

(b) For the purposes of this section, "employer" does not include any utility or unit of local government. "Employer" includes any private company and/or corporation.

(c) If it is determined that an employer subject to the provisions of this section has entered into a contract with a local government or state agency and such employer does not have a drug-free workplace pursuant to this section, such employer shall be prohibited from entering into another contract with any local government or state agency until such employer can prove compliance with the drug-free workplace program pursuant to this section. If the same employer again contracts with any local government or state agency and does not have a drug-free workplace program pursuant to this section, then such employer shall be prohibited from entering into another contract with any local government or state agency for not less than three (3) months from the date such violation was discovered and verified and shall be prohibited from entering into another contract until such employer complies with the drug-free workplace program pursuant to this section. If the same employer for a third time contracts with any local government or state agency and does not have a drug-free workplace program pursuant to this section, then such employer shall be prohibited from entering into another contract with any local government or state agency for not less than one (1) year from the date such violation was discovered and verified and shall be prohibited from entering into another contract until such employer complies with the drug-free workplace program pursuant to this section.

(d) A written affidavit by the principal officer of a covered employer provided to a local government at the time such bid or contract is submitted stating that the employer is in compliance with this section shall absolve the local government of all further responsibility under this section and any liability arising from the employer's compliance or failure of compliance with the provisions of this section.

[Acts 2000, ch.918,§§ 1,2.]

Town of Smyrna
Town Council Meeting

Agenda Summary

Agenda Item Number 12.
Department: Information Systems
Date: January 6, 2026

Subject:
Approval of the terms of, and authorization for the Mayor to execute, a quote from CDWG for a 3-year renewal of the Google Workspace agreement

Fiscal Impact:
This is a budgeted item in the Information Services Department Operating Budget. The amounts listed may increase slightly over the 3-year term, as the cost is per employee. The total 3 years of payments at current licensing rates is $358,642.50. The annual fee for the current licensing is $119,547.

Contract Type:
Contract Renewal

Contract Term (if applicable):
This is a 3-year agreement with annual payments. This renewal is at the exact same cost per employee as our current 3-year agreement. This is a favorable rate, as all Google Workspace rates were set to increase by at least 20% after they added Gemini AI to the Workspace bundle. At the end of this agreement, we will have had 6 years with zero price increase.

Background:
Google Workspace is our enterprise productivity and collaboration system providing functions including email, calendering, chat, collaboration, storage, word processing, spreadsheets, presentations, conferencing, Artifical Intelligence and many more. The town has utilized this platform since before my arrival. This is our preferred platform due to cost-effectiveness, security and functionality. This platform continues to gain market share that now exceeds 50%. Based on management request, we have compared this platform to Microsoft 365 multiple times with the decision to stay on the Workspace platform each time.

Summary:
In the market, the two major players are Google Workspace and Microsoft 365. The Workspace platform continues to gain market share and has a strong presence in the SMB and Education spaces. This trend, especially in the education space, will likely continue to propel market share gains as many entering the workforce have more experience with Google's tools, and its platform offers significant cost and security

advantages. Microsoft dominates the large-business segment, where the cost of the product and the administrative support required to manage the tools are higher.

Recommended Council Action:
Staff recommends that the Town Council approve this request, allowing the Mayor to sign the quote.

Google Workspace HIPAA Business Associate Addendum

Last modified: September 12, 2025

This HIPAA Business Associate Addendum ("BAA") is entered into between Google and the customer agreeing to the terms below ("Customer"), and supplements, amends and is incorporated into the Services Agreement(s) (defined below) solely with respect to Covered Services (defined below). "Google" has the meaning given at https://cloud.google.com/terms/google-entity. This BAA will be effective as of the date electronically accepted by Customer (the "BAA Effective Date").

Customer must have an existing Services Agreement in place for this BAA to be valid and effective. Together with the Services Agreement, this BAA will govern each party's respective obligations regarding Protected Health Information (defined below).

You represent and warrant that (i) you have the full legal authority to bind Customer to this BAA, (ii) you have read and understand this BAA, and (iii) you agree, on behalf of Customer, to the terms of this BAA. If you do not have legal authority to bind Customer, or do not agree to these terms, please do not click to accept the terms of this BAA.

1. **Definitions.**

   "Business Associate" has the definition given to it under HIPAA.

   "Breach" has the definition given to it under HIPAA.

   "Covered Entity" has the definition given to it under HIPAA.

   "Covered Services" means the Google products and/or services specifically listed in the URLs on Attachment 1, as may be updated from time to time by Google with notice to Customer. Google may only remove a Covered Service from those URLs with at least 12 months prior notice.

   "Designated Record Set" has the definition give to it under HIPAA.

   "HIPAA" means the Health Insurance Portability and Accountability Act of 1996 and the rules and the regulations thereunder, as amended.

   "HIPAA Implementation Guide" means the informational guide that Google makes available at the URL in Attachment 2, or a successor URL, describing how the Covered Services may be configured by Customer in connection with Customer's HIPAA compliance efforts.

W Admin console Contact sales Get started

Solutions Products Industries AI Pricing Resources Admin console

through the Covered Services in connection with Customer's permitted use of Covered Services.

"Required by Law" has the definition given to it under HIPAA.

"Security Incident" has the definition given to it under HIPAA.

"Services Agreement(s)" means the written agreement(s) entered into between Google and Customer for provision of the Covered Services, which agreement(s) may be in the form of online terms of service.

2. **Applicability.**

This BAA applies to the extent Customer is acting as a Covered Entity or a Business Associate to create, receive, maintain, or transmit PHI via a Covered Service and to the extent Google, as a result, is deemed under HIPAA to be acting as a Business Associate or Subcontractor of Customer. Customer acknowledges that this BAA does not apply to (a) any other Google product, service, or feature that is not a Covered Service; or (b) any PHI that Customer creates, receives, maintains, or transmits outside of the Covered Services (including Customer's use of its offline or on-premise storage tools or third-party applications).

3. **Permitted Use and Disclosure of PHI.**

a. Except as otherwise stated in this BAA, Google may use and disclose PHI only (i) as permitted or required by the Services Agreements and/or this BAA or (ii) as Required by Law.

b. Google may use and disclose PHI for its proper management and administration and to carry out its legal responsibilities, provided that any disclosure of PHI for such purposes may only occur if (i) Required by Law; or (ii) Google obtains written reasonable assurances from the person to whom PHI will be disclosed that it will be held in confidence, used only for the purpose for which it was disclosed, and that Google will be notified of any Breach or Security Incident.

4. **Customer Obligations.**

a. Customer will not request that Google or the Covered Services use or disclose PHI in any manner that would not be permissible under HIPAA if done by Customer (if Customer is a Covered Entity) or by the Covered Entity to which Customer is a Business Associate (unless expressly permitted under HIPAA for a Business Associate).

b. For End Users that use the Covered Services in connection with PHI, Customer will use controls available within the Services, including those detailed in the HIPAA Implementation Guide, to ensure its use of PHI is limited to the Covered Services. Customer acknowledges and agrees that the HIPAA Implementation Guide is provided by Google solely as an informational guide with respect to Customer's configuration options, and that Customer is

W Admin console Contact sales Get started

Solutions Products Industries AI Pricing Resources Admin console

to the Covered Services.

6. **Reporting and Related Obligations.**

a. Google will promptly notify Customer of (i) any Security Incident of which Google becomes aware, subject to Section 6(c); and (ii) any Breach that Google discovers, provided that any notice for Breach will be made promptly and without unreasonable delay, and in no case later than 60 calendar days after discovery. Notifications made under this section will describe, to the extent possible, details of a Breach, including steps taken to mitigate the potential risks and steps Google recommends Customer take to address the Breach.

b. Google will send any applicable notifications to the notification email address provided by Customer in the Agreement or via direct communication with Customer.

c. Notwithstanding Section 6(a), this Section 6(c) will be deemed as notice to Customer that Google periodically receives unsuccessful attempts for unauthorized access, use, disclosure, modification, or destruction of information, or interference with the general operation of Google's systems and the Covered Services. Customer acknowledges and agrees that even if such events constitute a Security Incident, Google will not be required to provide any notice under this BAA regarding such unsuccessful attempts other than this Section 6(c).

7. **Subcontractors.**

Google will take appropriate measures to ensure that any Subcontractors used by Google to perform its obligations under the Services Agreements that require access to PHI on behalf of Google are bound by written obligations that provide the same material level of protection for PHI as this BAA. To the extent Google uses Subcontractors in its performance of obligations hereunder, Google will remain responsible for their performance as if performed by Google.

8. **Access and Amendment.**

Customer acknowledges and agrees that Customer is solely responsible for the form and content of PHI maintained by Customer within the Covered Services, including whether Customer maintains such PHI in a Designated Record Set within the Covered Services. Google will provide Customer with access to Customer's PHI via the Covered Services so that Customer may fulfill its obligations under HIPAA with respect to Individuals' rights of access and amendment, but will have no other obligations to Customer or any Individual with respect to the rights afforded to Individuals by HIPAA with respect to Designated Record Sets, including rights of access or amendment of PHI. Customer is responsible for managing its use of the Covered Services to appropriately respond to such individual requests.

9. **Accounting of Disclosures.**

W Admin console Contact sales Get started

Solutions Products Industries AI Pricing Resources Admin console

its internal practices, books, and records concerning the use and disclosure of PHI received from Customer, or created or received by Google on behalf of Customer, available to the Secretary of the U.S. Department of Health and Human Services (the "Secretary") for the purpose of the Secretary determining compliance with this BAA.

11. **Expiration and Termination.**

a. This BAA will terminate on the earlier of (i) a permitted termination in accordance with Section 11(b), or (ii) the expiration or termination of all Services Agreements under which Customer has access to a Covered Service.

b. If either party materially breaches this BAA, the non-breaching party may terminate this BAA on 30 days' written notice to the breaching party unless the breach is cured within the 30-day period. If a cure under this Section 11(b) is not reasonably possible, the non-breaching party may immediately terminate this BAA, or if neither termination nor cure is reasonably possible under this Section 11(b), the non-breaching party may report the violation to the Secretary, subject to all applicable legal privileges.

c. If this BAA is terminated earlier than the Services Agreements, Customer may continue to use the Services in accordance with the Services Agreements, but must delete any PHI it maintains in the Covered Services and cease to further create, receive, maintain, or transmit such PHI to Google.

12. **Return/Destruction of Information.**

On termination of the Services Agreements, Google will return or destroy all PHI received from Customer, or created or received by Google on behalf of Customer; provided, however, that if such return or destruction is not feasible, Google will extend the protections of this BAA to the PHI not returned or destroyed and limit further uses and disclosures to those purposes that make the return or destruction of the PHI infeasible.

13. **Miscellaneous.**

a. Survival. Sections 12 (Return/Destruction of Information) and 13 (Miscellaneous) will survive termination or expiration of this BAA.

b. Counterparts. The parties may execute this BAA in counterparts, including facsimile, PDF, or other electronic copies, which taken together will constitute one instrument.

c. Effects of Addendum. To the extent this BAA conflicts with the remainder of the Services Agreement(s), this BAA will govern. This BAA is subject to the "Governing Law" section in the Services Agreement(s). Except as expressly modified or amended under this BAA, the terms of the Services Agreement(s) remain in full force and effect.

Town of Smyrna
Town Council Meeting
Agenda Summary

Agenda Item Number 13.
Department: Finance
Date: January 6, 2026

Subject:
Approval of and authorization of a list of items to be auctioned through online surplus sale with GovDeals.

Fiscal Impact:

Contract Type:

Contract Term (if applicable):

Background:
Consideration and authorization of a list of items to be auctioned through online surplus sale with GovDeals.

Summary:
A list is attached of surplus items that need to be sold at auction. The list includes six seized vehicles, one town vehicle and furniture no longer needed. The Town seeks permission to conduct an online auction to sell surplus items. The auction will be advertised in the Murfreesboro Post, on the town's website and Channel 3. All surplus items will be sold through GovDeals online auction company.

Recommended Council Action:
Staff seeks authorization to conduct an auction of approved items.

Attachments:

Town of Smyrna
Town Council Meeting
Agenda Summary

Agenda Item Number 14.
Department: Finance
Date: January 6, 2026

Subject:
Consideration of an Ordinance relative to a Budget Amendment for Fiscal Year 2026.

Fiscal Impact:
Net Impact of $0. The increase in expenses is offset by a combination of increased forecasted revenue and decreased forecasted expenses.

Contract Type:

Contract Term (if applicable):

Background:
Budget to Actual reports are generated and analyzed at the mid-year point. Budget amendments are calculated and recommended to Council.

Summary:
The bulk of these amendments are funding the purchase of police vehicles and the completion of an FY25 fiber network expansion project. The offsetting increases to revenue primarily consist of interest earned, which resulted from updates included in a 1-year contract extension for banking services. The offsetting decreases to expenses primarily consist of a reduction in retirement matching, which resulted from a combination of lower than budgeted employee contributions and the use of previously forfeited funds.

Recommended Council Action:
Staff recommends approval of these amendments.

Attachments:
1. Ordinance #26-6
2. Amendment #1 - Jan Workshop - Supplemental

TOWN OF SMYRNA, TENNESSEE
ORDINANCE NO. **26-6**

AN ORDINANCE to amend Ordinance **No. 25-14**, adopting the **2025-2026** Fiscal Year Budget.

ATTEST:

_____

Amber Hobbs, Town Clerk

FY26 Mid-Year Budget Amendments

Ref #	Account	Account Description	Funding Source	Amendment	Notes
9	320-41720-970	Traffic Operations	General Fund	$ 46,000.00	This project is for converting 3-head traffic signals with permissive left turns. New TDOT standards require 4-head traffic signals. Increasing the budget will allow for additional replacements.
9	320-41800-955	New Lighting	General Fund	$ (46,000.00)	The bid to replace Traffic Signal Backplates came in $46k under budget. Tom requested to transfer savings to other traffic operation projects.
			TOTAL	$ -	
41	Multiple	HR Payroll	General Fund	$ 70,400.00	Counselor position. Salary + benefits for 7/12 months.
42	Multiple	PD Payroll	General Fund	$ (70,400.00)	This position was originally budgeted in PD and has been moved under the HR Department.
			TOTAL	$ -	
19a	320-41640-941	Infrastructure Investments	General Fund	$ 275,000.00	FY25 project; completed in FY26. Network expansion to the new Fire Station.
19c	320-41640-971	Cyber Security Grant	Grant	$ 15,000.00	FY25 project; completed in FY26. Multi-Factor identification devices & implementation. 100% Grant reimbursed.
19d	320-32008	Grant Receipts	Grant	$ (15,000.00)	Cyber Security Grant Receipts
33	110-31510	TVA PILOT	General Fund	$ (70,000.00)	TVA PILOT payment was budgeted at $644,735.84; actual = $714,639.80. Actual remittance is based on the State's population estimates.
45	Multiple	Retirement Accounts	General Fund	$ (235,000.00)	Finance is using $276,274.52 in VOYA forfeitures to offset TOS contributions across 3 payrolls. Of this amount, $235k is expected to be saved in the general fund.
			TOTAL	$ (30,000.00)	
24	320-42100-984	Marked Pursuit Cars	General Fund	$ 420,000.00	During the FY26 budget process, staff thought 5 requested vehicles pertained to 5 new officers requested. Cut vehicles along with personnel request. They were actually 5 replacement cars. Veh Maint confirmed need for replacements
31	320-42100-959	Equipment under $4k	General Fund	$ 25,000.00	Additional equipment for police vehicles
37	320-42100-984	Marked Pursuit Cars	General Fund	$ 47,100.00	To replace a totaled police vehicle. Some old equip may be saved. To be offset by insurance recovery.
21	110-42100-111	Salaries	General Fund	$ (180,000.00)	Police Salary savings thru 12/15/2025.
22	110-36100	Interest	General Fund	$ (111,000.00)	Banking Services Contract extension. Estimate an additional $1mil from Nov 2025 - Nov 2026. Allocating FY26 amount to fund 110 should be around $150k. Estimate is further reduced to reflect recent rate cuts
23	110-xxxxx-143	Retirement Accounts	General Fund	$ (131,000.00)	Retirement Savings thru 12/31/2025. Finance budgets as if every full time employee contributes maximum contribution.
38	110-36350	Insurance Recoveries	General Fund	$ (40,100.00)	Estimated insurance recovery for totaled vehicle
			TOTAL	$ 30,000.00

Town Council Meeting
Agenda Summary

Agenda Item Number 15.
Department: Planning
Date: January 6, 2026

Subject:
Consideration of an Ordinance relative to the annexation and PUD zoning of property on Tax Map 11, Parcel 5.00 requested by Fall Creek Commerce, LLC containing 225.25 acres. The property is located on Mona Road east of I-840.

Fiscal Impact:

Contract Type:

Contract Term (if applicable):

Background:
The property that is the subject of this request is located on Mona Road immediately east of I-840, approximately .6 of a mile south of SR 452/Bill France Boulevard. The Land Use Plan for this request is the 840 Gateway character area, which would support hospitality, retail, restaurant, high density residential, and industrial/warehousing uses. The surrounding zoning is RM in Rutherford County. The Town would be providing all services to this area upon annexation except for water, which would be provided by Consolidated Utility District.

Summary:
The proposed zoning for this request is PUD, with approximately 34.3 acres designated to be developed utilizing the C-2 district requirements and the remaining 190.95 acres designated to be developed utilizing the I-2 district guidelines. The request has been revised based on the discussion at the 9/30 Council workshop. For the area to be developed with C-2 standards, all provisions of the C-2 district would apply except for the specific prohibition of the following uses: specialized tobacco or smoke shop, including vape shop, or any business that devotes more than 25% of its floor space to the sale of tobacco products; self-storage facilities; adult-oriented establishments; auto towing services; mobile home park; and residential activity uses with the exception of those allowed by right or special exception. The maximum square footage allowed within this area would be 350,000. For the area to be developed with I-2 standards, all provisions would apply with the request that the height limit in the I-2 area be 60' in lieu

of the 50' limit as stated in the Zoning Ordinance and the the uses of airports, air cargo terminals, heliports, and aircraft dealers not be allowed. The maximum square footage allowed in the I-2 area is 2,500,000. No pole signs would be allowed within the development. The Major Thoroughfare Plan shows a future minor arterial connecting Bill France Boulevard to Hickory Grove Road and eventually to W. Jefferson Pike. Construction of the portion of this roadway which crosses this parcel would be required as a part of this development and is shown on the concept plan as an extension of an existing County road, Coulter Court. As a part of this annexation request, staff recommended annexation of approximately 1 mile of the existing right-of-way of SR 266/W. Jefferson Pike and approximately 4.2 miles of the existing right-of-way of Mona Road to allow for the annexation to be contiguous to the existing Town limits. Sewer would be provided per a separate agreement between the Town and the developer, but would not be extended to serve any properties outside of Rutherford County. The developer has proposed donation of land for a potential fire station on the site, which would need to be evaluated and potentially relocated depending on that evaluation. Staff prepared a more in-depth look into the provision of services to this area if annexed, and this has been attached. This deeper look includes the possibility of additional property that has the same ownership which could be contemplated for annexation in the future if this parcel is annexed. I have also attached the maps and the most recent PUD plan for the current request, as well as maps that show the additional property which could be considered for annexation and zoning in the future. In addition, I have attached the traffic study which we received as a part of the submittal package for the November Planning Commission meeting.

The Planning Commission reviewed this request and recommended approval of the original request 7 for, 0 against. The revised request was heard by the Planning Commission at the November 6 meeting, and the Commission recommended approval 6 for, 1 against, with the following conditions:

1. No truck traffic shall enter Mona Road south of the development.
2. The interior roadway parallel to I-840 and roadway providing access off of Mona Road is to be completed prior to obtaining permits for Phase 3. These two roads shall connect together.
3. Adding a landscape buffer of 100 feet along the edges of the property for any boundary where an existing residence is within 1,000 feet of the property boundary.

Recommended Council Action:

Staff recommends approval of this request, but staff does have concerns about the timing of future potential annexation of the eastern parcels that are under the same ownership, due to the increased costs of provision of services for those parcels and ensuing contiguous annexation.

TOWN OF SMYRNA, TENNESSEE
ORDINANCE NO. 26-2

AN ORDINANCE relative to the annexation and PUD, C-2 and I-2 zoning of property located on Tax Map 11, Parcel 5.00, comprising a total of approximately 225.25 acres.

WHEREAS, the Town Council has determined that it would be in the best interests of its existing residents to annex the above-described property, which borders the current Town limits, and that the failure to annex said property will impede the prosperity of the Town and/or endanger the health, safety and welfare of its inhabitants;

WHEREAS, the Planning Commission has reviewed the proposed annexation and has recommended to the Town Council the proposed annexation; and

WHEREAS, the annexation is in agreement with the general plan for the Town; and

WHEREAS, it has been determined that the legal purposes for which zoning exists are not breached by the annexation and zoning; and

WHEREAS, it has been determined that there will not be an adverse effect upon any specific adjoining property owners and/or any such adverse effect would be justified by the overwhelming public good or welfare; and

WHEREAS, it has been determined that no one property owner or small group of property owners will benefit materially from the change to the detriment of the general public.

Section 1. That the property located on Tax Map 11, Parcel 5.00, comprising a total of approximately 225.25 acres, all of which is identified on Appendix I attached hereto and incorporated herein by reference as if set forth at length verbatim, be, and hereby is, annexed into the corporate limits of the Town of Smyrna, the health and welfare of the Town of Smyrna requiring it.

Section 2. That the property located on Tax Map 11, Pacel 5.00, comprising a total of approximately 225.25 acres, all of which is identified on Appendix I attached hereto and incorporated herein by reference as if set forth at length verbatim, be, and hereby is, zoned PUD, C-2 and I-2, the health and welfare of the Town of Smyrna requiring it.

Section 3. This ordinance shall take effect and become operative thirty (30) days after its adoption on second and final reading, the public health and welfare of the Town of Smyrna requiring it.

PASSED on first reading by the Town Council the ____ day of _____, 2025.

PASSED on second reading by the Town Council the ____ day of _____, 2025.

Traffic Impact Analysis
For
Fall Creek Commerce Center West
Rutherford & Wilson County, Tennessee

1. INTRODUCTION & SUMMARY

Purpose of Report and Study Objectives

This Traffic Impact Analysis (TIA) has been prepared by GMcivil in support of the proposed rezoning request within Rutherford County. This study will analyze and identify the general traffic impacts anticipated by the build out of the entire Fall Creek Commerce Center development as well as a more detailed analysis of the West Phase. Future TIA's will be provided for the Central and East phases. The objective is identify and provide recommendations for traffic impacts that may be imposed on the surrounding roadways in order to maintain a safe and efficient roadway system.

Executive Summary

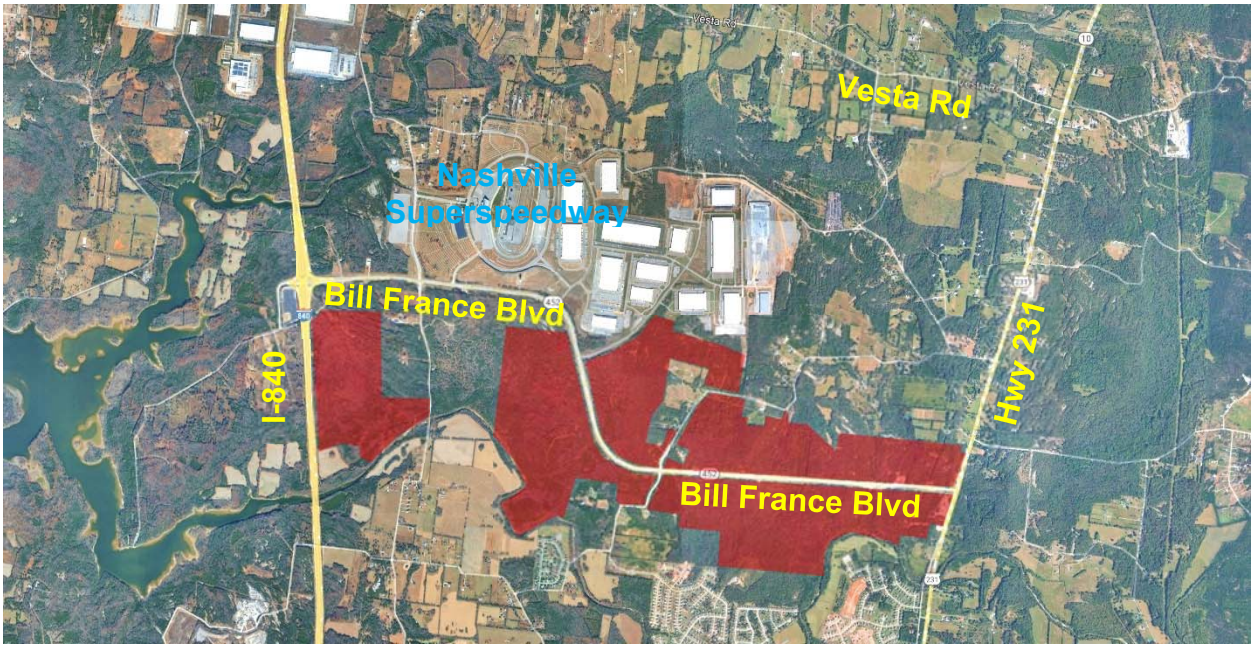

Fall Creek Commerce Center (FCCC) is a proposed development composed of thirty (30) buildings that combined will include 13,100,000 SF of light industrial warehouse facilities and a commercial/mixed use area that is expected to include hotel, retail, bank, coffee shop, and fast-food land uses. The development is located near the Nashville Superspeedway on the north and south sides of State Route 452 (Bill France Boulevard) between Interstate Highway 840 (I-840) and Murfreesboro Road (Hwy 231) in Rutherford and Wilson County, Tennessee. According to standard trip generation rates, FCCC at full build-out will contribute 31,583 vehicle trips per day, including 2,931 trips in the morning peak hour and 3,140 trips in the evening peak hour. The development will be constructed in multiple phases and the assumed build out is expected to occur in 2045. Existing traffic volumes were obtained in the field by a professional traffic count company to be used in this analysis.

FCCC has adequate access and connectivity to roadways providing convenient routes to major highways. It appears FCCC will require improvements/mitigation measures as documented in the recommendations of this report to support the transportation needs of the area and the development. No other significant negative impacts on the surrounding transportation system have been identified. Through the build out of the West Phase, the study area intersections should be monitored by site observation and/or traffic count surveys during peak hours to verify operations.

2. PROPOSED DEVELOPMENT

FCCC is a proposed 1,475-acre development including a total of 13,100,000 SF of warehouse buildings and a commercial/mixed use area that is expected to include hotel, retail, bank, coffee shop, and fast-food land uses. The development is located near the Nashville Superspeedway on the north and south sides of Bill France Boulevard between I-840 and Hwy 231 in Rutherford and Wilson County, Tennessee. It is anticipated that the property will develop in multiple phases with a build out year of 2045. The location for FCCC can be found in **RED** on **Figure 1**. A site plan for the development is included in **Appendix B**.

Figure 1: Location Map

For the purpose of the TIA, the development is split into three phases which are geographically named West, Central, and East. This TIA will focus on the initial area of development which is expected to be the West Phase. The West Phase of FCCC is located between I-840 and Mona Road and includes eight (8) warehouse buildings and the commercial/mixed use area. The Central Phase is located between Mona Road and Powells Chapel Road and the East Phase is located between Powells Chapel Road and Hwy 231. Future TIA's for FCCC will be prepared for the Central Phase and East Phase.

3. EXISTING DEVELOPMENT

The land uses in the vicinity of FCCC include residential and non-residential uses. The land adjacent to Bill France Boulevard is mostly undeveloped other than the Nashville Superspeedway and the Speedway Industrial Park located immediately to the east. Other developments in the area include agricultural land, residential estate lots, and a few single-family residential subdivisions. However, the primary traffic contributors within the study area are the Nashville Superspeedway during race events and the Speedway Industrial Park on an average weekday.

4. AREA CONDITIONS

Study Area Intersections & Roadways

The study area for this report includes the adjacent roads and intersections immediately surrounding FCCC. The critical intersections within this study area are the Bill France Boulevard intersections with I-840, Coulter Court, Mona Road, and Hwy 231. Roadway descriptions of the existing conditions of the study area roadways are listed below.

Bill France Boulevard is an existing east-west roadway that extends between I-840 and Hwy 231. The current posted speed limit is 45 MPH. The roadway has as many as 10 lanes including turn lanes on the west end close to I-840. The typical roadway section between Coulter Court and Marty Robbins Drive is a four-lane

divided roadway with a traversable center turn lane and right turn deceleration lanes at intersections.

I-840 is an existing north-south four-lane interstate freeway. The current posted speed limit is 70 MPH. The intersection of the I-840 access ramps/lanes and Bill France Boulevard is signalized with the lights programed to flashing red. The intersection is fully constructed with multiple freeway access ramps, dual turn lanes, etc. to accommodate the peak traffic for Nashville Superspeedway events.

Coulter Court is a two-lane local roadway that terminates at a cul-de-sac at I-840. It is approximately a quarter of a mile in length and serves a single residential property.

Mona Road is a north-south two-lane local roadway that extends between Bill France Boulevard and Jefferson Pike and is adjacent to FCCC along a portion of the east boundary of the West Phase. At the intersection with Bill France Boulevard, the south leg of the intersection has an existing left turn lane, through lane, and a through/right lane as well as two southbound lanes that quickly merge to a single lane south of the intersection.

Hwy 231 is a north-south two-lane highway that extends between Lebanon and Murfreesboro among others. The current posted speed limit is 55 MPH. The intersection of Hwy 231 and Bill France Boulevard is a three-way intersection with stop control on Bill France Boulevard. There are existing left and right turn lanes on all three legs of the intersection.

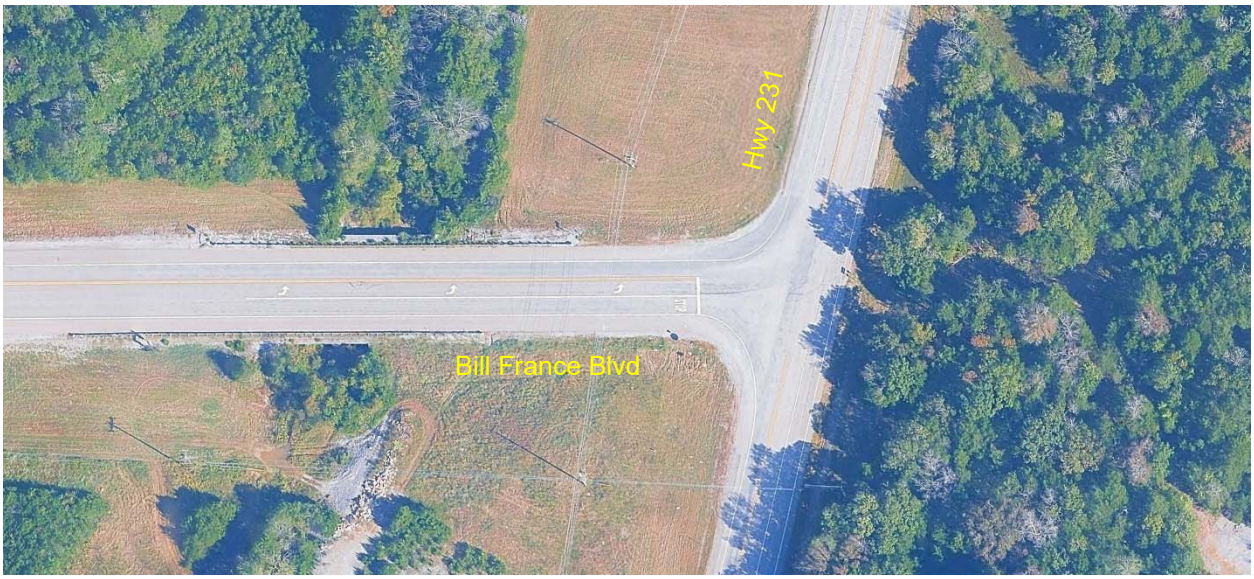

Existing Intersections

The existing intersections evaluated within this study are shown in **Figure 2**.

Figure 2: Existing Lane Configuration and Intersection Control

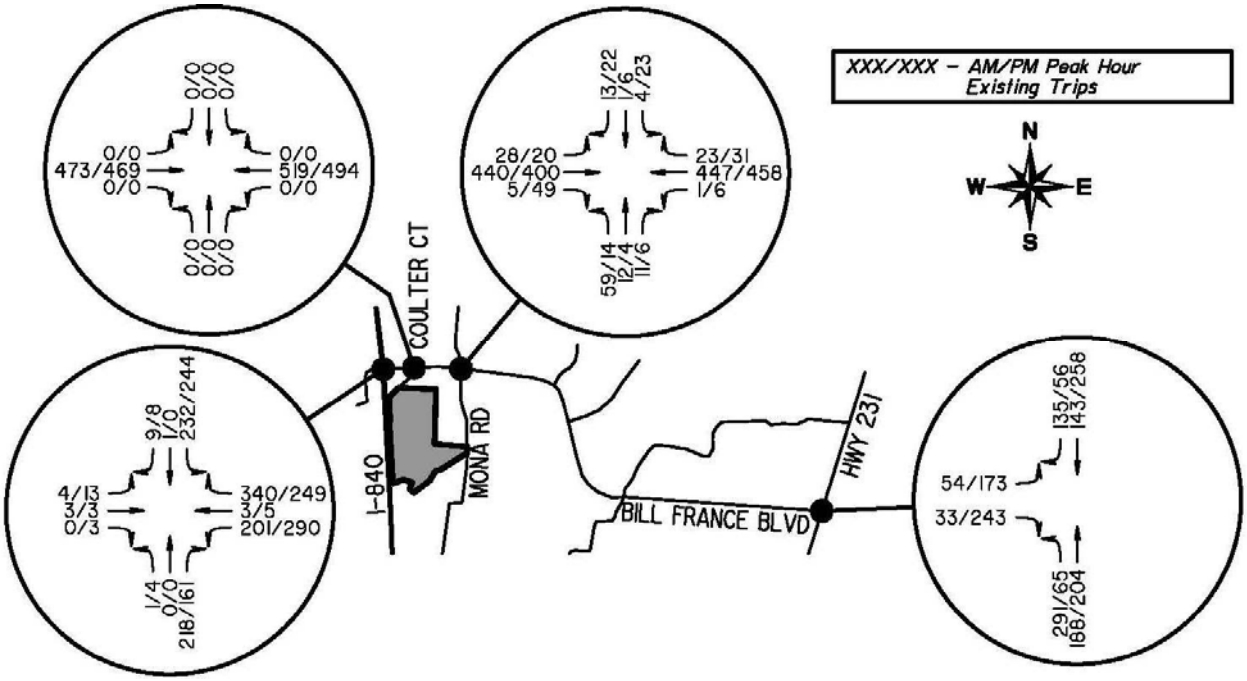

Site Accessibility

Access for FCCC West is provided by Coulter Court and Mona Road connections to Bill France Boulevard. The West Phase will have multiple connections to Coulter Court and the development will extend Coulter Court along the western boundary of the West Phase to the south property line which is just north of Fall Creek. A single roadway connection will be made to Mona Road approximately two-thirds of a mile south of Bill France Boulevard.

5. EXISTING TRAFFIC

Existing traffic volume data was obtained by Marr Traffic on Thursday, May 8, 2025 and has been included in **Appendix A** of this study. The morning and evening peak hour traffic volumes were surveyed on Bill France Boulevard at the study area intersections on a typical weekday. On Bill France Boulevard near FCCC West the morning peak hour was determined to begin at 6:00 AM and the evening peak hour was determined to begin at 4:15 PM. The existing traffic volumes are shown in **Figure 3**.

Figure 3: Existing Traffic Volumes

6. PROJECTED TRAFFIC

Site Traffic

Projected traffic volumes are established according to land use using the Institute of Transportation Engineers (ITE) publication entitled *Trip Generation*. The data provided in this document has been obtained from actual traffic count surveys of similar developments and is recognized as the standard manual for trip generation. The applicable ITE land uses for this development are land use codes 150 (Warehouse), 310 (Hotel), 821 (Retail), 912 (Bank), 934 (Fast-food), and 937

(Coffee Shop). Based on this information, it is estimated that Fall Creek Commerce Center West Phase will generate 12,521 daily trips, 1,037 trips in the morning peak hour, and 1,134 trips in the evening peak hour. **Table 1A** summarizes the trip generation according to the ITE Trip Generation rates for Fall Creek Commerce Center West Phase.

Table 1A: Trip Generation for Fall Creek Commerce Center West Phase

Phase	Land Use/ITE Code	Units	Daily	Weekday AM Peak			Weekday PM Peak		
			Trips	Enter	Exit	Hourly Trips	Enter	Exit	Hourly Trips
West Phase	Bldg 1 (150)	174.7	299	23	7	30	9	22	31
	Bldg 2 (150)	352.8	603	46	14	60	18	46	64

	Bank 1 (912)	7.5	753	43	32	75	79	79	158
	Coffee 1 (937)	2.5	1,334	109	106	215	49	48	97
	Fast Food (934)	5.0	2,337	114	109	223	86	79	165
	Total		12,521	633	404	1,037	492	642	1,134

For the future phases of Fall Creek Commerce Center, which includes warehouse buildings 9-30, the applicable ITE land use is code 150(Warehouse). Based on this information, it is estimated that the future phases of Fall Creek Commerce Center will generate 19,059 daily trips, 1,894 trips in the morning peak hour, and 2,006 trips in the evening peak hour. **Table 1B** summarizes the trip generation according to the ITE Trip Generation rates for Fall Creek Commerce Center future phases.

Table 1B: Trip Generation for Fall Creek Commerce Center Future Phases

Phase	Land Use/ITE Code	Units	Daily	Weekday AM Peak			Weekday PM Peak

	Bldg 25 (150)	256.0	438	34	10	44	13	33	46
	Bldg 26 (150)	780.0	1,334	102	31	133	39	101	140
	Bldg 27 (150)	868.0	1,484	114	34	148	44	112	156
	Bldg 28 (150)	547.8	937	72	21	93	28	71	99
	Bldg 29 (150)	403.2	689	53	16	69	20	53	73
	Bldg 30 (150)	520.0	889	68	20	88	26	68	94
	Total		19,059	1,459	435	1,894	562	1,444	2,006

The calculated number of trips from the ITE Trip Generation was used to represent the assumed vehicle trips generated from FCCC that would access the local roadway network. The distribution of these trips was estimated using the configuration of the site and the expected route selections of drivers based on existing local traffic patterns. The basic logical assumption in both cases is that drivers will tend to choose the quickest and most convenient path of ingress and egress to reach their destination. The local traffic patterns were also taken into account to determine the trip distribution on the study area roadways and

intersections. A proposed site plan with on-site traffic circulation percentages is included in **Appendix B**.

The primary traffic distribution assumption is shown in **GREEN** on the site plan. A 75/25 distribution has been assumed with the 75% of the West Phase site traffic traveling to and from the east on Coulter Court and 25% traveling to and from the east on Mona Road. All of the West Phase will access the site from Bill France Boulevard so 0% of the traffic is expected to travel to and from the south on Mona Road.

The secondary traffic distributions are shown in **BLUE** and **RED**. A 70/30 distribution was assumed on Bill France with 70% of the traffic traveling to and from I-840 and 30% to and from Hwy 231. The north/south distribution on I-840 was assumed to be 50/50. The north/south distribution on Hwy 231 was assumed to be 60/40 with the majority of traffic traveling to and from the south.

Figure 4 identifies the trip distribution and assigned trips for each lane movement at the critical study area intersections for FCCC in the year 2030 which represents the build out of the West Phase. **Figure 5** identifies the trip distribution for FCCC in the year 2045 which represents the full build out of the development.

Figure 4: FCCC Trip Distribution and Assignment (2030)

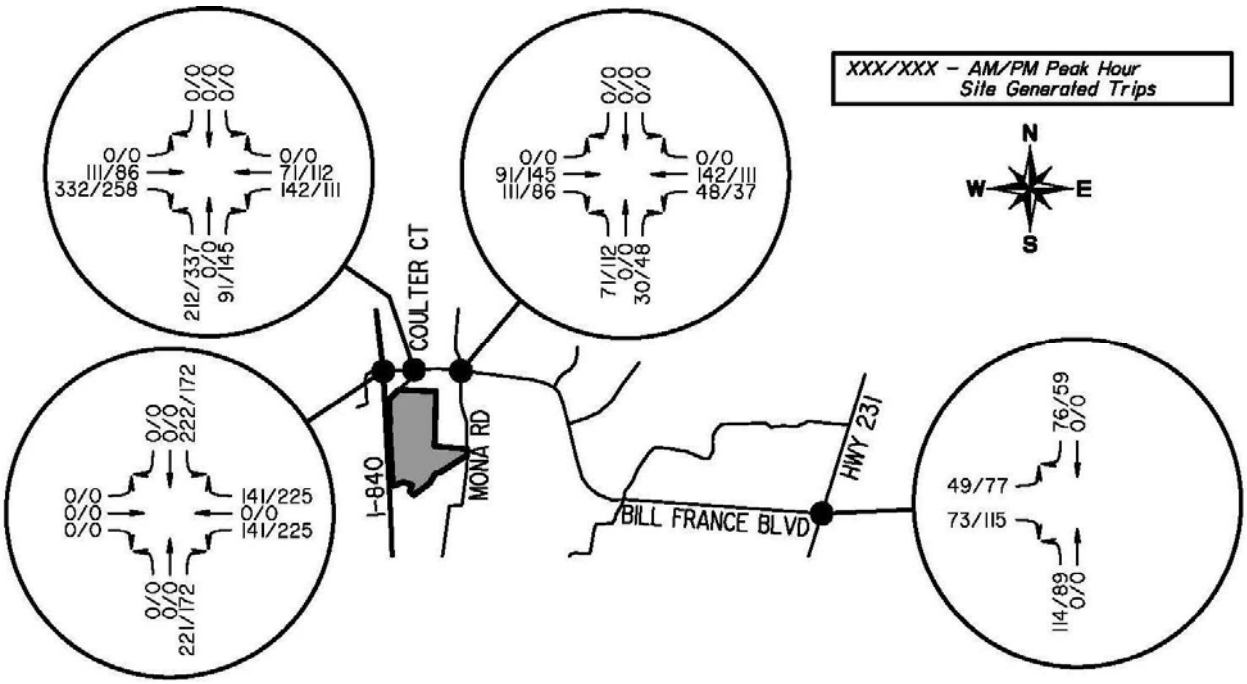

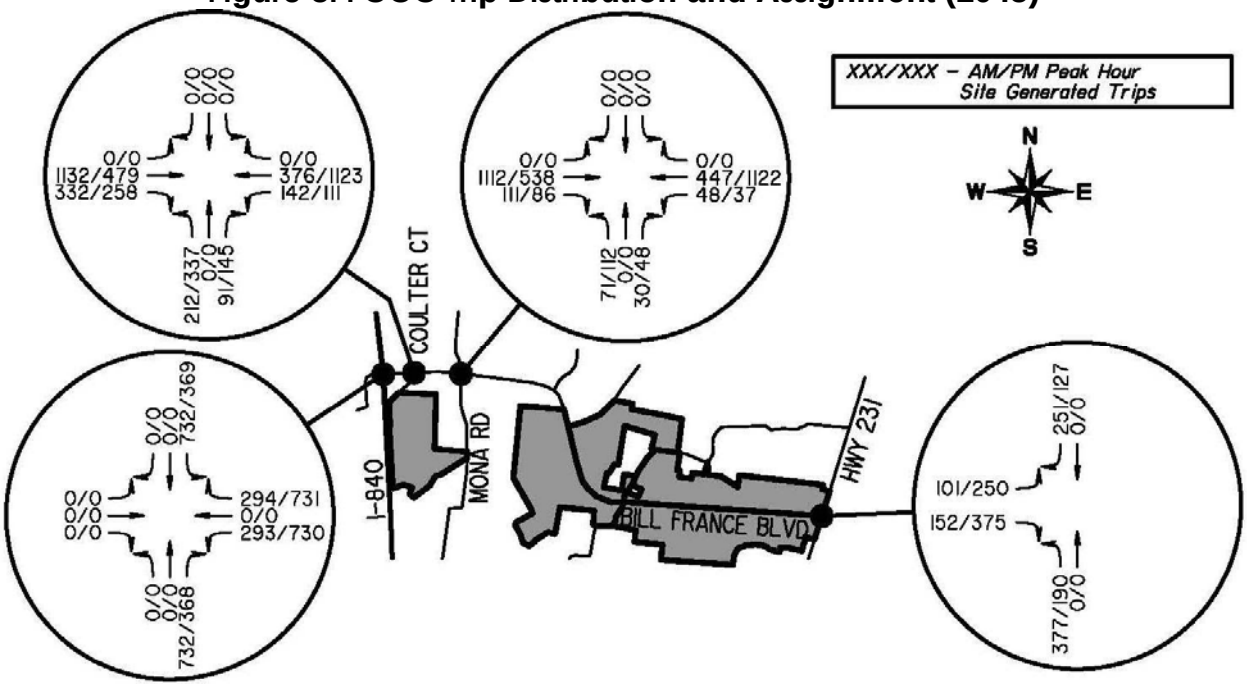

Figure 5: FCCC Trip Distribution and Assignment (2045)

Through Traffic

The through traffic or background traffic unrelated to FCCC is based on the existing traffic counts on the adjacent study area roadways. The through traffic for the future analysis years is based on an annual growth rate of 1.5% which was

applied to the existing 2025 traffic. The through traffic volumes at each study area intersection for the year 2030 are shown on **Figure 6** and the through traffic for the year 2045 is shown in **Figure 7**.

Figure 6: Through Traffic Volumes (2030)

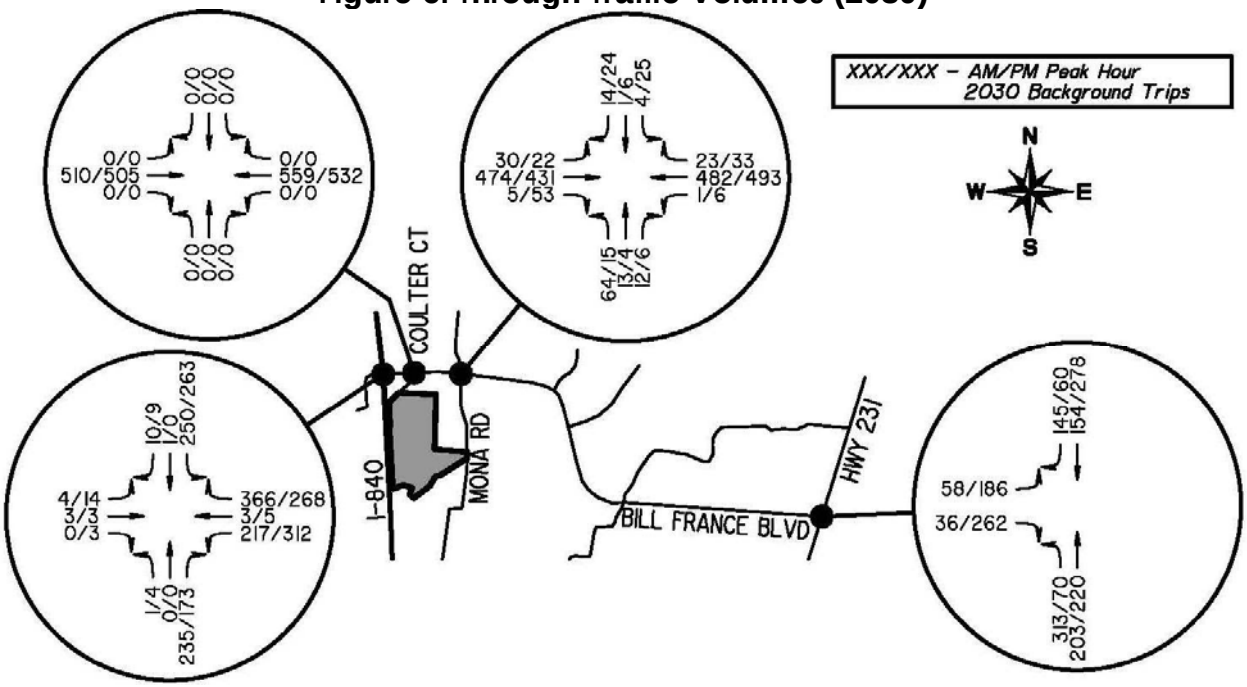

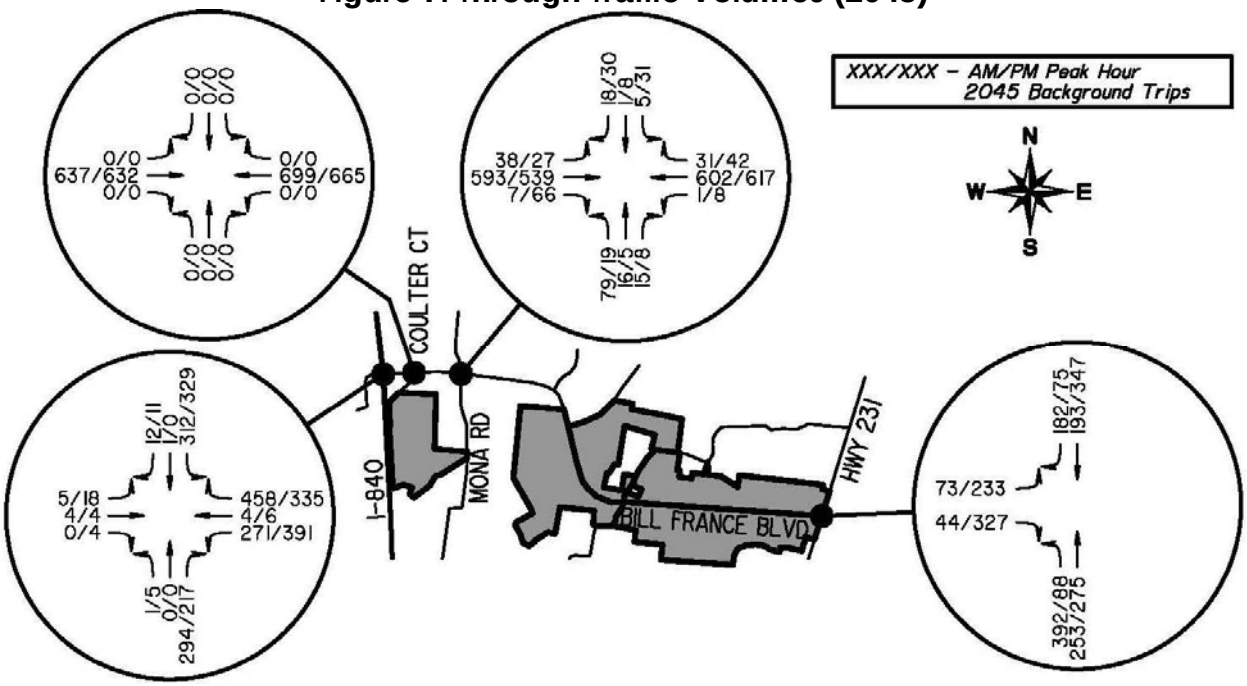

Figure 7: Through Traffic Volumes (2045)

Total Traffic

The total traffic used for this analysis is the sum of the site traffic and the corresponding background traffic. The total projected traffic for the West Phase build out year of 2030 is shown on **Figure 8** and the total projected traffic for the full build out year of 2045 is shown on **Figure 9**.

Figure 8: Total Traffic Volumes (2030)

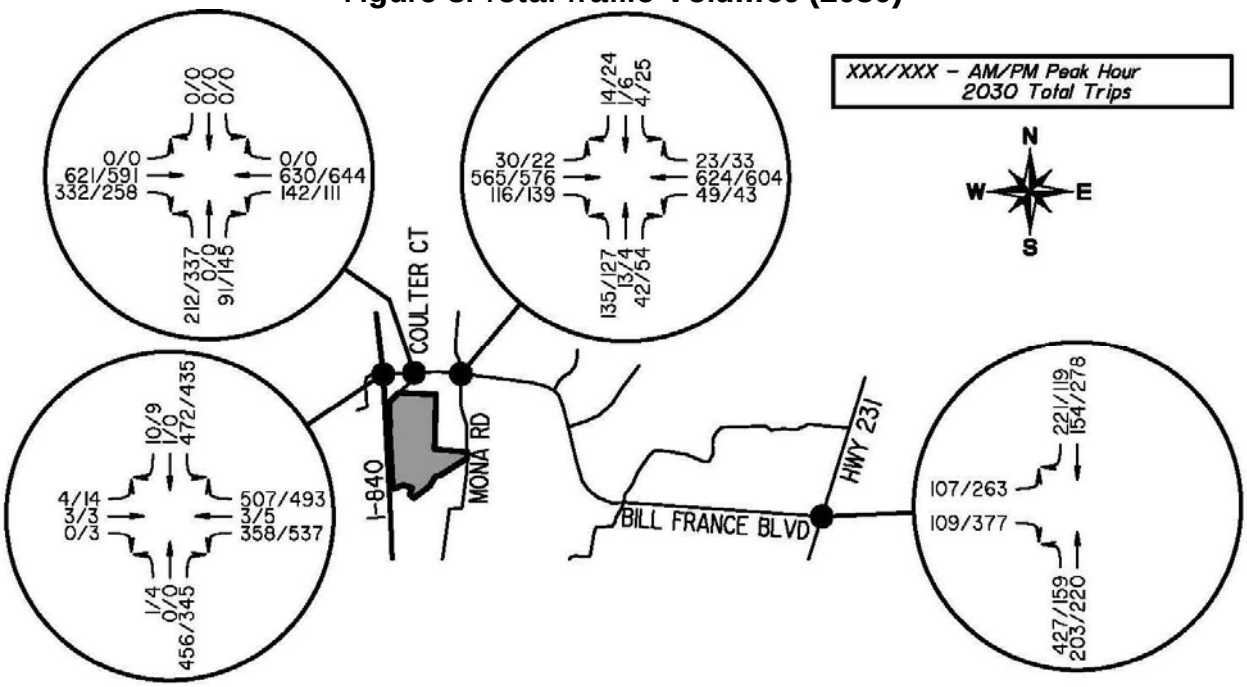

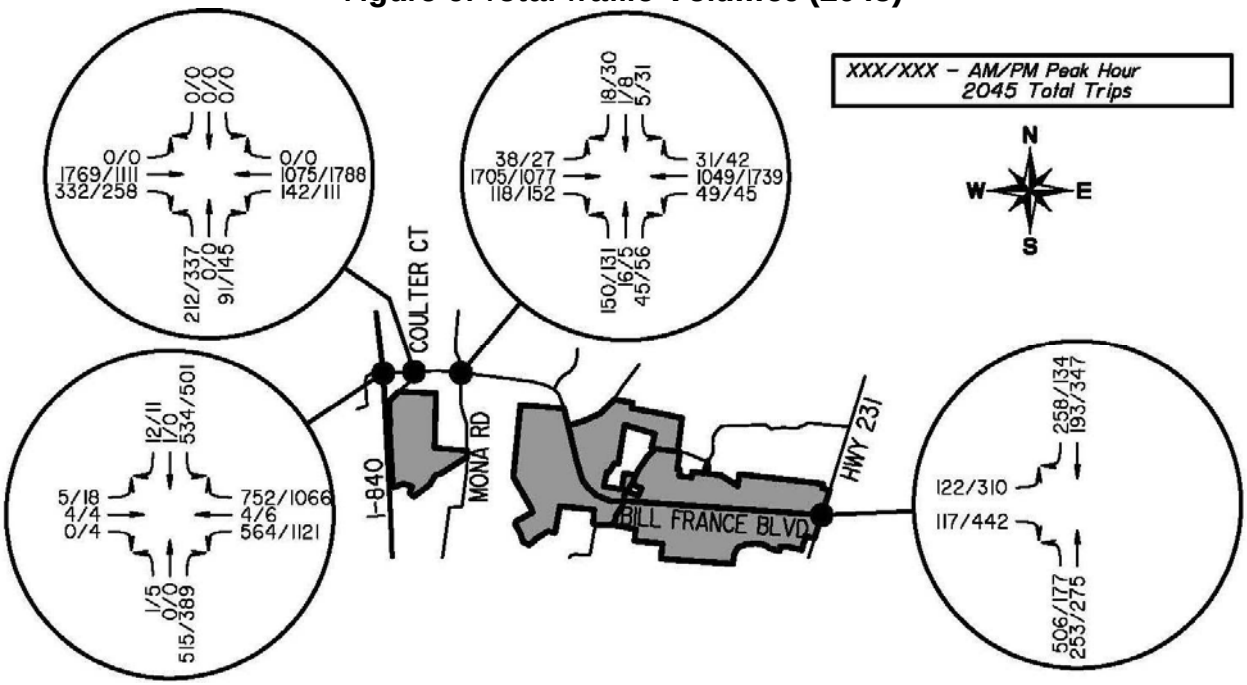

Figure 9: Total Traffic Volumes (2045)

7. TRAFFIC ANALYSIS

Capacity and Level of Service

Intersection capacity analyses were performed using *Highway Capacity Software* which is a software package that implements the techniques described in the Transportation Research Board's *Highway Capacity Manual (HCM)*. The critical study area intersections were evaluated at existing conditions (2025), the West Phase build out (2030), and the full FCCC build out (2045).

The computed Level of Service (LOS) is used to determine the effectiveness of the operating conditions of an intersection. The LOS is a measure of intersection performance in terms of how much delay is experienced by drivers. There are six LOS categories ranging from "A" to "F". Each level is used to describe traffic flow in terms of the delay experienced by motorists. A LOS of "A" represents the lowest amount of delay and congestion, and a LOS of "F" represents the highest amount of delay and congestion. A LOS of "E" is considered a representation of an intersection operating at capacity. **Table 2** shows the criteria for establishing the LOS for intersections.

Table 2: Stop-Controlled Intersection Level of Service Criteria

LOS	Delay per Vehicle (sec/veh)
A	0-10
B	>10-15
C	>15-25
D	>25-35
E	>35-50
F	>50

The all-way stop-controlled (flashing red) intersection of Bill France Boulevard and I-840 is uniquely configured to accommodate significant volumes of traffic for race events at the Nashville Superspeedway. The geometry of the intersection is designed such that right turns from all four directions are free movements with no traffic control to generate delay on right turn movements. The left turn

movements from all directions are configured with dual left turn lanes. Refer to **Figure 2** for an aerial view of the intersection. The analysis software is not configured to analyze this specific configuration, but the software can be utilized to analyze the conflicting stop-controlled movements to determine a LOS for the critical movements that experience delay. In the following analyses of this intersection the left and through movements are shared in order to accurately model the dual left turn lanes. This is possible since there are very limited (5 or less) through trips on any given leg of the intersection.

Existing Conditions

The existing conditions were evaluated on the critical study area intersections using the traffic volumes shown in **Figure 3.** The LOS results for the applicable approach movements are provided in **Table 3.** The intersections are projected to operate at a LOS of "B" or better in the morning and evening peak hour conditions. The detailed HCS intersection analysis summary reports are included in **Appendix C**.

Table 3: Existing Conditions Level of Service Intersection Analysis (2025)

Signal Warrant Analysis

A signal warrant analysis was performed on the study area intersections to determine when signal warrants might be met so that signalization needs could be considered. A preliminary traffic signal warrant analysis was performed on the intersections using the basis of estimated average daily traffic (ADT). The flashing red stop-controlled intersection of Bill France Blvd/I-840 was included to determine when full signal control may be necessary.

The analysis utilized the procedures outlined by the Manual on Uniform Traffic Control Devices (MUTCD). This document establishes nine separate, related sets of criteria termed "warrants". If none of the nine warrants are satisfied, then a signal should not be installed. If one or more of the warrants are satisfied, then the installation of a signal might be appropriate. For the purpose of this analysis and due to lack of additional information, only the four primary signal warrant indicators were analyzed. The four primary signal warrants are:

1a Minimum Vehicular Volume (Eight Hour)

1b Interruption of Continuous Traffic (Eight Hour)

2 Four Hour Vehicular Volume

3b Peak Hour Volume

The remaining signal warrants that were not evaluated in this instance include;

4 Pedestrian Volume

5 School Crossing

6 Coordinated Signal System

7 Crash Experience

8 Roadway Network

9 Intersection Near a Grade Crossing

Hourly adjustment factors were applied to the total ADT for each roadway to derive the peak hour, fourth highest hour, and eighth highest hour traffic volumes. The adjustment factors are as follows:

High Hour	Hourly Adjustment Factor*
1	0.0771
4	0.0656
8	0.0572

*Source: *Traffic Engineering: Theory and Practice*, Louis J. Pignataro

2025 ADT Volumes

Bill France Blvd (west) = 12,650 VPD
Bill France Blvd (east) = 5,547 VPD
I-840* = 3,165 VPD
Mona Rd = 1,064 VPD
Coulter Ct = 0 VPD
Hwy 231 = 9,818 VPD

2030 ADT Volumes

Bill France Blvd (west) = 22,373 VPD
Bill France Blvd (east) = 8,301 VPD
I-840* = 6,122 VPD
Mona Rd = 2,464 VPD
Coulter Ct = 3,130 VPD
Hwy 231 = 13,035 VPD

2045 ADT Volumes

Bill France Blvd (west) = 43,035 VPD
Bill France Blvd (east) = 9,754 VPD
I-840* = 13,541 VPD
Mona Rd = 2,737 VPD
Coulter Ct = 3,130 VPD
Hwy 231 = 15,693 VPD

*I-840 volumes exclude right turn volumes since they do not pass through intersection control

The results of the signal warrant analysis show that a signal may be needed at each of the study area intersections at some point. The full signal warrant analysis tables are included in **Appendix B** and a summary is provided in **Table 6**. All intersections listed in the table are roadways intersecting with Bill France Boulevard.

Table 6: Signal Warrant Analysis Summary

Intersection	Year	Warrant 1a	Warrant 1b	Warrant 2	Warrant 3b
I-840	2025	No	No	No	No
I-840	2030	No	No	No	No
I-840	2045	Yes	No	No	Yes
Coulter Ct.	2025	No	No	No	No
Coulter Ct.	2030	Yes	Yes	Yes	Yes
Coulter Ct.	2045	Yes	Yes	Yes	Yes
Mona Rd.	2025	No	No	No	No
Mona Rd.	2030	No	Yes	Yes	Yes
Mona Rd.	2045	Yes	Yes	Yes	Yes
Hwy 231	2025	No	No	No	No
Hwy 231	2030	Yes	No	Yes	Yes
Hwy 231	2045	Yes	Yes	Yes	Yes

It should be noted and emphasized that the signal warrant analysis contained in this report is speculative and includes many assumptions. The decision of whether a signal should be installed at an intersection should not be based on this preliminary analysis, but rather on actual field data and observations that would confirm the need for a signal. In some instances, even though a signal warrant may be met, the installation of a signal may not be the best solution. Additionally, the proposed warehouse buildings are speculative, and it is unknown how many trips a building will generate until a tenant occupies the building.

Roadway Capacity

A roadway capacity analysis was performed on the area roadways using a volume to capacity comparison (V/C ratio). The V/C ratio is used to compare the volumes to the capacities of the roads to determine a Level of Service (LOS). Street capacities are shown in **Table 7** and represent the limit of capacity which is defined by the Highway Capacity Manual as LOS "E". The results of the roadway capacity analysis are shown in **Table 8**.

Table 7: Annual Average Daily Traffic Service Volumes

Functional Classification	Through Lanes	LOS "E" ADT Capacity
City/County Roadway	2-Lanes	12,600
Divided Arterial	2-Lanes	15,600
Divided Arterial	4-Lanes	32,900
Divided Arterial	6-Lanes	49,300

LOS A or B: V/C Ratio is ≤ 0.45

LOS C: V/C Ratio is $0.45 < x \leq 0.65$

LOS D: V/C Ratio is $0.65 < x \leq 0.80$

LOS E: V/C Ratio is $0.80 < x \leq 1.00$

LOS F: V/C Ratio is > 1.00

Table 8: Roadway Capacity Analysis Summary

Roadway Segment	2025 Peak Hour Volume	LOS "E" Peak Hour Volume	V/C Ratio	LOS
Bill France Boulevard (West of Coulter Court)	12,650	49,300	0.26	B
Bill France Boulevard (East of Mona Road)	12,503	32,900	0.38	B
Bill France Boulevard (East of Powells Chapel)	5,547	15,600	0.36	B
Bill France Boulevard (West of Hwy 231)	5,547	15,600	0.36	B
Coulter Court	0	12,600	0	A
Mona Road	1,064	12,600	0.08	A

Roadway Segment	2030 Peak Hour Volume	LOS "E" Peak Hour Volume	V/C Ratio	LOS
Bill France Boulevard (West of Coulter Court)	22,373	49,300	0.45	B
Bill France Boulevard (East of Mona Road)	18,379	32,900	0.56	C
Bill France Boulevard (East of Powells Chapel)	8,301	15,600	0.53	C
Bill France Boulevard (West of Hwy 231)	8,301	15,600	0.53	C
Coulter Court	3,130	12,600	0.25	B
Mona Road	2,464	12,600	0.20	A

Roadway Segment	2045 Peak Hour Volume	LOS "E" Peak Hour Volume	V/C Ratio	LOS
Bill France Boulevard (West of Coulter Court)	43,035	49,300	0.87	E
Bill France Boulevard (East of Mona Road)	39,974	32,900	1.22	F
Bill France Boulevard (East of Powells Chapel)	9,754	15,600	0.63	C
Bill France Boulevard (West of Hwy 231)	9,754	15,600	0.63	C
Coulter Court	3,130	12,600	0.25	B
Mona Road	2,737	12,600	0.22	A

8. IMPROVEMENT ANALYSIS & RECOMMENDATIONS

The proposed transportation improvements associated with the FCCC development include internal drives, parking lots, and truck courts to serve the warehouse buildings. The dimensional geometry of these improvements should

be consistent with industry standards for light industrial/warehouse facilities and in accordance with Rutherford County standards. Additional roadway/traffic improvements external to the site and recommendations are as follows:

I-840 & Bill France Boulevard

- In 2030, the I-840/Bill France Boulevard intersection is predicted to have an overall LOS of "B". Additionally, no signal warrants were met for this intersection so it is expected that it can remain a flashing red signal through the build out of the West Phase. It should be monitored through the build out of the West Phase in case there is a higher percentage of southbound trips on I-840 than the 50% that was assumed in this study.

Coulter Court & Bill France Boulevard

- Coulter Court should be widened at the Bill France Boulevard intersection to allow for a left turn lane onto Bill France Boulevard. The northbound lane configuration should include a dedicated left turn lane and a through/right lane.
- In 2030, the Coulter Court/Bill France Boulevard intersection is predicted to have a LOS of "E/F" on the northbound leg of the intersection in the AM/PM peak hours respectively. The AM/PM 95th percentile queue lengths are predicted to be 6 and 12 vehicles respectively. The 2030 signal warrant analysis for this intersection indicates that warrants are met for signalization. If 100% of the West Phase is developed, it is expected that a signal will be needed at this intersection. However, 72% of the West Phase traffic is generated from the mixed use/retail portion of the development. Removing the mixed use/retail traffic from the West Phase changes this result, and the intersection improves to a LOS of "C". It is recommended that this intersection be monitored as development progresses to see when actual trips from the development warrant a signal.
- Coulter Court should be extended along the western boundary of the West Phase consistent with the site plan. The extension of this roadway to the

south property line of the West Phase allows for a future continuation of this roadway to the south where it could connect to Jefferson Pike. The roadway capacity analysis shows that a two-lane roadway is adequate to support the FCCC development through build out. The Town of Smyrna MTP shows the roadway planned as a two-lane minor arterial with a center turn lane. This is the recommended roadway cross section.

Mona Road & Bill France Boulevard

- Mona Road at Bill France Boulevard currently has a left, through, and right lane on both the north and south sides of the intersection. No additional roadway improvements are required.
- In 2030, this intersection is predicted to operate at a LOS of "B" or better. Some signal warrants were met in the 2030 signal warrant analysis, but by a small margin. It is recommended that queue lengths/delay on the north and south legs be monitored at this intersection as development progresses.
- The roadway capacity analysis confirms that Mona Road can remain as a two-lane roadway with a LOS of "A".

Hwy 231 & Bill France Boulevard

- For the build out of the West Phase, this intersection appears to have adequate turn lanes as the longest 95th percentile queue length is less than 4 vehicles in 2030. No additional roadway improvements are required.
- The Hwy 231/Bill France Boulevard intersection is predicted to operate at a LOS of "C" or better in 2030. However, the signal warrant analysis indicates that some warrants may be met so this intersection should also be monitored as development progresses.

2045 Analysis

- The results of the 2045 analysis within this study should be used as a planning tool, but this development and the conditions within this study area should be monitored as development progresses to evaluate the actual needs of

the transportation system. It appears with the full build out of FCCC that all four study area intersections may require signalization.

9. FINDINGS/CONCLUSIONS

Fall Creek Commerce Center has adequate access and connectivity to roadways providing convenient routes to major highways. It appears FCCC will require improvements/mitigation measures as documented in the recommendations of this report to support the transportation needs of the area and the development. No other significant negative impacts on the surrounding transportation system have been identified. Through the build out of the West Phase, the study area intersections should be monitored by site observation and/or traffic count surveys during peak hours to verify operations. It is anticipated that additional TIA's will be prepared for the Central and East phases of FCCC. The study area intersections will be included in the subsequent TIA's and the recommendations will be updated as needed.

TRANSPORTATION & ROADWAY IMPROVEMENTS

Major access to the Fall Creek Commerce Center PUD is provided by Interstate 840 and U.S. Hwy 231 to Bill France Boulevard - S.R. Hwy 452. The interchange at Bill France Boulevard and Interstate 840 is currently a stop controlled traffic signal condition. The intersection of Bill France Boulevard and U.S. Hwy 231 is a one-way stop controlled intersection with a north bound left turn lane and south bound right turn lane from U.S. Hwy 231. Bill France Boulevard is currently a five lane roadway with a continuous left turn lane from Interstate 840 east to Marty Robbins Drive. Bill France Boulevard is currently a three lane roadway with a continuous left turn lane along the frontage of the Fall Creek Commerce Center PUD Tracts 4 and 5 east of Marty Robbins Drive. Mona Road is currently a two lane roadway between the Fall Creek bride and Bill France Boulevard. The intersection of Mona Road is currently a two-way stop controlled intersection. Powells Chapel Road is currently a two lane roadway both north and south of Bill France Boulevard. The intersection of Bill France Boulevard and Powells Chapel Road is currently a two-way stop controlled intersection for traffic on Powells Chapel Road.

As part of the Fall Creek Commerce Center PUD conditions, no roadway connection to Powells Chapel Road will be permitted from Tracts 2, 3, 4, & 5, with the exception of an emergency vehicle access only if required by the county.

An initial Traffic Impact Study will be prepared in support of the Fall Creek Commerce Center PUD. The Initial TIS will consider Phase 1 (Buildings 1-8 and the mixed-use land uses on the north side of Tract 1. Future updates to the TIS will be prepared by the developer as additional phases of the project are planned and submitted to the County for consideration. Each TIS will be accompanied by a new Memo of Understanding scoping summary and require independent review per the County requirements. General assumptions for the Phase 1 TIS are a follows:

Trip Generation ITE Land Uses
- 150 (Warehouse) to be used for all warehouses (Buildings 1-30)
- 310 (Hotel), 821 (Retail), 912 (Bank), 934 (Fast Food), & 937 (Coffee Shop) to be used for 350,000 SF of commercial/mixed use area
- In future TIA updates, actual traffic counts from the completed/occupied buildings will replace the ITE estimates

Growth Rate - 1.5% annual growth rate to be applied to existing background traffic to estimate future background traffic

Trip Distribution/Assignment
- 100% of Site Traffic to utilize Bill France
- Distribution 70% west and 30% east on Bill France
- Distribution 35% north and 35% south on I-840
- Distribution 12% north and 18% south on Hwy 231

Analysis Years
- 2025 - Existing Conditions
- 2030 - Ph.1 Build Out (West Side of project - Buildings 1-8 & 350,000 SF of Commercial/Mixed Use)
- 2045 - Ultimate Build Out

Roadway Capacity Analysis - 2025, 2030, & 2045
- Bill France
  - West of Coulter
  - East of Mona
  - East of Powells Chapel
  - West of Hwy 231
- Coulter Court
- Mona Road
- Future TIA updates will add additional roadways that are applicable to the location of proposed development and anticipated impacts

Intersection Capacity Analysis - 2025 & 2030
- I-840/Bill France - Existing Signalized Intersection (Warrant to determine when the current flashing red condition to fully operational signal)
- Bill France/Coulter Court
- Bill France/Mona
- Bill France/Hwy 231
- Future TIA updates will incorporate more intersections that are applicable to the location of proposed development and anticipated impacts

MUTCD Signal Warrant Analysis - 2025, 2030, & 2045
- I-840/Bill France
- Bill France/Coulter Court
- Bill France/Mona
- Bill France/Hwy 231
- Future TIA updates will incorporate more intersections that are applicable to the location of proposed development and anticipated impacts

*Per MUTCD, Major Street represents total of both approaches and Minor Street represents higher volume approach

Note: ADT Volume of Bill France Blvd on approach to I-840 is 25% of roadway ADT to represent the minor street approach volume and remove westbound right turns that do no pass through the intersection. Right turns are approximately 50% of approach volume.

Note: ADT Volume of Bill France Blvd on approach to Hwy 231 is 50% of roadway ADT to represent the minor street approach volume

INTRODUCTION

The Fall Creek Commerce Center property is located in Rutherford County, Tennessee within the Town of Smyrna Urban Growth Boundary east of Interstate 840 along the south side of Bill France Boulevard - SR Hwy. 452. 452 Properties, being the applicant, is seeking to annex the subject property into the Town of Smyrna and rezone the property to a Planned Unit District (PUD) to support commercial/retail uses near the intersection of Interstate 840 and Bill France Boulevard, and industrial uses for the remaining property. The proposed Fall Creek Commerce Center PUD consists of two tracts totaling approximately 225.25 acres, and the purpose of this PUD request is to create a unique and high-quality multi-purpose development. Tract 1 will be developed with a mix of uses focused on hospitality, retail, restaurant, and commercial uses commensurate with the C-2 General Commercial District zoning regulations of the Town of Smyrna. Tract 2 will be developed for industrial uses commensurate with the I-2 Light Industrial District zoning regulations of the Town of Smyrna.

PROJECT LOCATION AND DESCRIPTION

The Fall Creek Commerce Center PUD is generally located east of the intersection between Interstate 840 and Bill France Boulevard - SR Hwy 452. Tracts 1 and 2 (Map 11, Tract 5.00) are located south of Bill France Boulevard between Interstate 840 and Mona Road. The property is currently undeveloped. Tracts 1 & 2 are bordered by Interstate 840 to the west, Fall Creek to the south, and primarily undeveloped property along Mona Road except for a single residential estate adjacent to the northeast corner of Tract 1.

COMPREHENSIVE PLAN & ZONING CONFORMANCE

A review of the Town of Smyrna Comprehensive Plan reflects the subject property is located in the 840 Gateway future land use. Currently the properties are located in Rutherford County, and the existing zoning is RM - Medium Density Residential. Based on the applicant's desire to zone and annex the properties into the Town of Smyrna, the proposed P.U.D. zoning for Tract 1 to C-2 General Commercial District and Tract 2 to I-2 Light Industrial complies with the 840 Gateway designation of the Comprehensive Plan.

COPYRIGHT 2025 - USE BY WRITTEN PERMISSION OF GMCIVIL ONLY

TRACT 1 DEVELOPMENT STANDARDS

C-2 GENERAL COMMERCIAL DISTRICT

Tract 1 is approximately 34.3 acres. The proposed C-2 General Commercial District tract will be commensurate with the Town of Smyrna Future Land Use and Comprehensive Plan for the 840 Gateway. This district will provide adequate space in appropriate locations for uses that serve the needs of the motoring public. Moderate and large sized offices, general retail, businesses, transient sleeping accommodations, and eating and drinking establishments will characterize this district. In addition, commercial trade and service uses are permitted if necessary to serve the recurring needs of persons frequenting the district. Community facilities and utilities necessary to serve the district or those which are necessary for the general community welfare are also permitted. Bulk limitations required of uses in this district, in part, are designed to maximize the compatibility with lesser intense use of land or building in proximate residential districts. The C-2 district shall be located along major traffic arteries and situated near a major transportation interchange as shown on the associated zoning documents for the PUD, in clustered development patterns. All development within Tract 1 shall conform to the following standards:

Uses Permitted

All uses permitted in C-1 Central Business District of the Town of Smyrna Zoning Ordinance are allowed in this district as well as the following uses:

1. Government administrative services.
2. Cultural and recreational services.
3. Essential public transport, communication, and utility services.
4. Building materials and farm equipment sales.
5. Contract construction services provided there is no outdoor storage.
6. Convenience retail sales and services.
7. Consumer repair services.
8. Entertainment and amusement services.
9. Financial, insurance, real estate, and consulting services.
10. Food and beverage services.
11. Food service; take out.
12. Animal care and veterinarian services provided there is no outside housing of animals.
13. General business services.
14. General personal services.
15. General retail trade.
16. Professional services - medical
17. Professional services - non medical.
18. Transient habitation; hotels, motels, tourist homes or courts.
19. Religious facilities.
20. Education facilities.
21. Signs as regulated by Town ordinance.
22. Community assembly.
23. Health care facilities.
24. Intermediate impact facilities.
25. Day Care Centers.
26. Family and Group Care Facilities.
27. Nursing Homes.
28. Retails Sales of Alcoholic Beverages.

Uses Permitted as Special Exceptions

In the C-2, General Commercial District, the following uses and their accessory uses may be permitted as special exceptions after review and approval in accordance with ARTICLE VII, Section 7.060 of the Town of Smyrna Zoning Ordinance.

1. Transient habitation; Sporting and recreational vehicle camps.
2. Group assembly, other than racetracks and drag strips.
3. Car Washes and Automobile Detailing.
4. Microbrewery/Microwinery/Microdistillery

Uses Prohibited:

Industrial uses; warehousing and storage uses, except those which are located within and incidental to permitted uses; or specifically allowed as special exceptions; truck terminals; junkyard, including automobile wrecking and salvage; specialized tobacco or smoke shop, including vape shop, or any business that devotes more than 25% of its floor space to the sale of tobacco products; self-service storage facilities; adult-oriented establishments; auto towing services; mobile home park; residential activity uses, except those listed under Uses Permitted and Uses Permitted as Special Exception; uses not specifically permitted or uses not permitted upon approval as a special exception.

Dimensional Regulations:

All uses permitted in the C-2, General Commercial District shall comply with the following requirements except as provided in ARTICLE VI of the Town of Smyrna Zoning Ordinance.

1. Minimum Lot Size: 20,000 square feet

2. Minimum Yard Requirements:

   Front Setback - 35 Feet
   Side Setback - 15 Feet
   Rear Setback - 20 Feet

3. Maximum Lot Coverage: On any area or parcel of land, the area occupied by all buildings including accessory buildings shall not exceed seventy (70) percent of the total area of such lot or parcel.

4. Height Requirements: No building shall exceed forty (40) feet in height, except as provided in Article VI, Section 6.050 Town of Smyrna Zoning Ordinance. In no case shall the F.A.A. glide path building height restrictions be exceeded.
5. Parking Space Requirement: As regulated in Article IV, Section 4.010 Town of Smyrna Zoning Ordinance.

Special Provisions:

1. All common open space, conservation areas, or areas reserved for storm water detention shall be maintained by an established property owner's association or individual lot or parcel owner.
2. A minimum of 15% of the gross acreage of Tract 1 shall be set aside as common open space. This space may be unimproved and passive in nature and could include steep slopes, floodplains, other natural features, or stormwater management areas.
3. Landscape Buffer Strips adjacent to residential uses shall comply with ARTICLE III - Section 3.110 of the Town of Smyrna Zoning Ordinance. Existing vegetation that provides a natural screen can be preserved for a minimum width of 15 feet, in lieu of the buffer strip. However, areas of the natural buffer strip should be supplemented per the Type C buffer planting requirements to achieve adequate screening for the adjacent property.

TRACT 2 DEVELOPMENT STANDARDS

I-2 LIGHT INDUSTRIAL DISTRICT

Tract 2 is approximately 190.95 acres. The proposed I-2 Light Industrial District tract will be commensurate with the Town of Smyrna Future Land Use and Comprehensive Plan for the 840 Gateway character area. This district supports a wide range of industrial and related uses which conform to a high level of performance standards. New residential development is excluded from this district. Community Facilities which provide needed services to industrial development are permitted. All development within Tract 2 shall conform to the following standards:

Uses Permitted

In the I-2 Light Industrial District, the following uses and their accessory uses are permitted:

1. Warehousing, good transport and storage (includes truck terminals and refrigerated warehousing)
2. Wholesale sales
3. Limited manufacturing
4. Intermediate manufacturing
5. Animal care and veterinary services
6. Essential public transport, communication, and utility services
7. Signs as regulated by Town ordinance
8. Plant and forest nurseries
9. Building materials and farm equipment sales
10. Dairies and truck gardens
11. Auto towing services

Uses Permitted as Special Exceptions

1. Group assembly, other than racetracks (auto, motorcycle, dog, and horse) and drag strips
2. Food and beverage service
3. Food service take-out
4. Commercial recreation
5. Contract construction services
6. Consumer repair services
7. Intermediate impact facilities
8. Government administrative services
9. Automotive service and repair, except for auto towing services
10. Convenience commercial
11. General business service
12. General personal service
13. General retail trade
14. Religious facilities

Uses Prohibited:

Uses not specifically permitted or uses not permitted upon approval as a special exception.

Dimensional Regulations:

All uses permitted in the I-2, Light Industrial District shall comply with the following requirements except as provided in ARTICLE VI, Section 6.020 (Non-conforming uses) of the Town of Smyrna Zoning Ordinance.

1. Minimum Lot Size: No minimum lot size is required in the I-2 District

2. Minimum Yard Requirements:

   Front Setback - 60 Feet
   Side Setback - 30 Feet
   Rear Setback - 30 Feet

3. Maximum Lot Coverage: On any area or parcel of land, the area occupied by all buildings including accessory buildings shall not exceed fifty (50) percent of the total area of such lot or parcel.

4. Height Requirements: No building shall exceed sixty (60) feet in height. No building shall exceed the F.A.A. glide path restrictions, except as provided in Article VI, Section 6.050 Town of Smyrna Zoning Ordinance.

5. Parking Space Requirement: As regulated in Article IV, Section 4.010 Town of Smyrna Zoning Ordinance.

Special Provisions:

1. All common open space, conservation areas, or areas reserved for storm water detention shall be maintained by an established property owner's association or individual lot or parcel owner.
2. A minimum of 15% of the gross acreage of Tract 2 shall be set aside as common open space. This space may be unimproved and passive in nature and could include steep slopes, floodplains, other natural features, or stormwater management areas.
3. Point of access for vehicles onto a street shall generally not exceed forty-five (45) feet in width, unless a site specific condition exists for a user requiring multiple lanes of ingress/egress for gated entries/exits, or as determined by a traffic impact analysis to provide adequate level of service for ingress/egress for a specific facility.
4. Landscape Buffer Strips adjacent to residential uses shall comply with ARTICLE III - Section 3.110 of the Town of Smyrna Zoning Ordinance. Existing vegetation that provides a natural screen can be preserved for a minimum width of 20 feet, in lieu of the buffer strip. However, areas of the natural buffer strip should be supplemented per the Type D buffer planting requirements to achieve adequate screening for the adjacent property. No berm is required when supplementing a natural buffer.

Fall Creek Commerce Center
Signage Guidelines

General

This document describes types and sizes of signage to be used at Fall Creek Commerce Center, including monument signs, building wall mounted Tenant/ Company identification signs, directional signs, address signage, etc. In addition to complying with the requirements of this comprehensive signage package, ALL Tenant/ Company signage must be submitted to and approved by the Developer and Architectural Committee prior to installation. **All signage is to comply with the signage regulations of the authority having jurisdiction at the time of installation, with the exceptions outlined in these guidelines.** The included exhibits are drawings showing locations and graphic descriptions of the signs covered in this signage package.

Monument Signage

Tenant monument signs (specific to each building) will be permitted but must comply with parameters described below. It shall be composed of stone and painted concrete. Pro-Fit Ledgestone (Southwest Blend) by Boral, or similar, will be acceptable. Concrete sign panel to have reveals and shall be painted to match standard buildings colors. Building address panel to be 5'-6" tall x 10'-6" long, long located at the top of the sign and up to two (2) tenant identification panels, each measuring 9" tall by 114" wide. Subject to Developer/Architectural Committee's approval, a tenant identification panel may have a sign area larger than 9" by 114" by combining both panels, provided the total area of all panels does not exceed 24" tall x 114" long. Corporate/company logos designs and national branding using multiple colors shall be allowed with Architectural Committee's approval. Signs shall be externally illuminated with ground-mounted floodlights.

The minimum setback for placement of a monument sign within a lot is 10' from public right-of-way. The location of the monument sign shall not obstruct or interfere with the visibility or effectiveness of any traffic control sign or driver vision from any access point. Refer to the visibility requirements governed by the local authority having jurisdiction. The placement of all monument signs is subject to review and approval of the Developer/Architectural Committee.

Each building is permitted one monument sign for each access drive serving that building. If an access drive is shared by two buildings, then a monument sign is allowed on each side of that shared access drive. The location of monument signs is determined by the Developer/Architectural Committee and will adhere to the guidelines in this document.

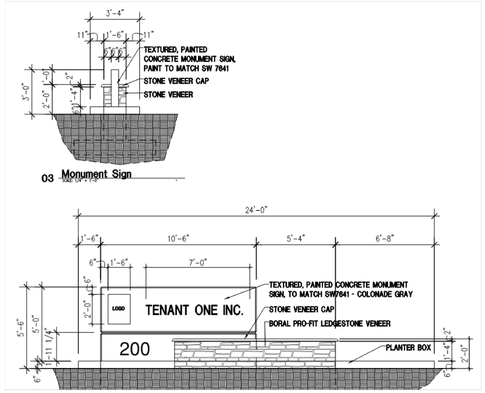

Figure 1 – Building Monument Sign with one tenant

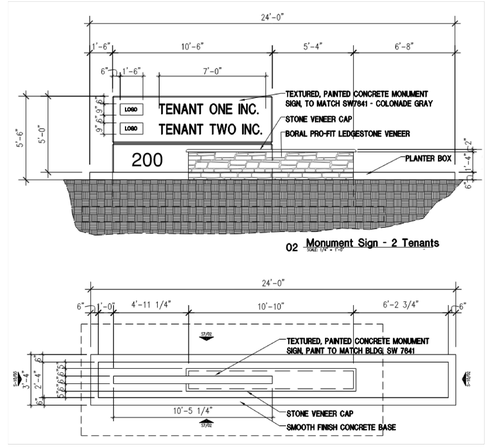

Figure 2 – Building Monument Sign with two tenants

Tenant/ Company Identification Signage- Wall Mounted

Wall mounted Tenant/ Company identification signs shall be mounted with concealed fasteners on the building wall and located above or adjacent to the entrance of the Tenant/ Company space. Identification signs shall be limited to approved Tenant/Company logos, Tenant/Company name, and/or business/3PL customer entity only. The maximum height for lettering (letters and numbers) shall be 24" unless specifically approved by Developer/Architectural Committee. Wall mounted signage in the Industrial district cannot be illuminated, either internally or externally, unless specifically approved by Developer/Architectural Committee.

If allowed by Developer/Architectural Committee, illuminated signs shall be individual channel letters and logos with minimum 0.080" thick aluminum channels and trim cap (color to be black unless approved otherwise by Developer/Architectural Committee) with 1/8" thick acrylic plastic face (color to

be approved by Developer/Architectural Committee). Box signs may be acceptable subject to Developer/Architectural Committee approval. All corners shall be continuously welded. Light source to be standard neon or LED located entirely within the channel letter or logo with concealed ballast. Weep holes must have light-blocking caps. Exterior raceways are not permitted without written approval from Developer/Architectural Committee. Wiring to signs to be run on inside face of wall panel with cored penetrations into each letter or logo. The size, color, and configuration of Tenant/ Company logos must be approved by the Developer/Architectural Committee. In no case shall the logo extend beyond the limits of the allowable signage zone shown below in Figure 3.

Within the Industrial district, Tenant/ Company Identification Signage shall be located entirely within the signage zone indicated in Figure 3 below, and the total signage area shall not exceed 125 SF or the maximum allowed by local code. Within the Commercial district, Tenant/ Company Identification Signage shall be located near/above the primary Tenant entrance, and the total signage area shall not exceed that allowed by local code.

Figure 3 – Allowable area for wall-mounted tenant/company identification signs in the Industrial district.

Directional Signs (Industrial district only)

Directional Signs shall have a concrete base and match general look of the building as shown below. Graphics shall be limited to required text and directional arrows only. Directional signage shall be at the sole cost and responsibility of individual lot owners and shall not be placed in Common Area or Public Right of Way without the prior written approval of the Architectural Committee.

Temporary signage used to promote new business location, hiring, and/or directions is prohibited without the prior written approval of the Architectural Committee. All expenses to remove unapproved temporary signage will be assessed to individual lot owners where the new business is located.

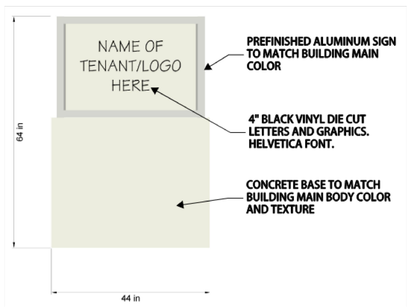

Figure 4 – Directional Signage (Industrial district only)

Address Signage

Address Signage: Each building shall have the street address number located at the building corner as shown below.

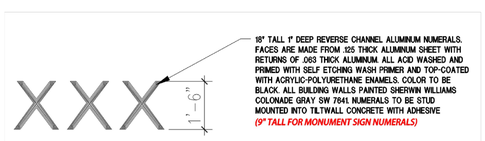

Figure 5 – Address Signage

Suite Number Signage and Business Information Signage

Suite Number Signage: Each suite shall have signage identifying the suite number assigned to that space. Suite Number Signage shall be installed on the exterior face of the glass transom above the primary entrance to the space as shown below.

Business Information Signage: Business information signage, such as business hours, etc., may be installed as shown below. Business Information Signage shall be limited to text only, in size and location shown on the exterior face of the glass adjacent to the strike side of main entrance door only.

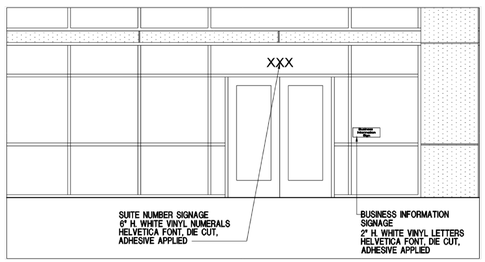

Figure 6 – Suite Number and Business Information Signage

Dock Signage, Dock Door Numbers, and Exterior Personnel Door Signage

Dock Signage: When approved by Developer/Architectural Committee, dock signage consisting of functional identification of a dock area, such as "Receiving" or "Shipping" shall be permitted as shown below. Graphics shall be limited to text only.

Figure 7 – Dock Signage

Dock Door Numbers: Each dock door shall have a number mounted on the wall or face of canopy above the door as shown below. Door numbers and sequencing shall be determined by Developer/ Architectural Committee.

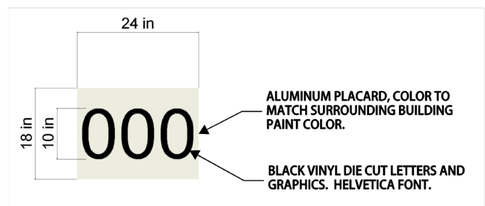

Figure 8 – Dock Door Numbers (Industrial district only)

Exterior Personnel Door Signage: Signs identifying specific rooms such as "Shipping Office" or "Fire Pump Room" shall be as shown below.

DEVELOPMENT REGULATIONS

The Subdivision Regulations, Zoning Ordinance, Land Development Handbook, and the Design Review Manual for the Town of Smyrna shall apply to development of the Property, except as modified as herein. Permitted uses shall be use-by-right; conditional uses shall require a special exception approval from the Town of Smyrna Board of Zoning Appeals in accordance with the Town of Smyrna Zoning Ordinance Article VII, Section 7.060.

MASTER DEVELOPMENT PLAN

The Fall Creek Commerce Center Planned Unit District consists of two tracts as shown in the supporting rezoning documents in Appendix A. Tract 1 and Tract 2 are sub-districts of the PUD with defined uses and bulk regulations that are intended to create an integrated development of district uses spatially located to ensure compatibility and to provide services and goods to the general public. It is anticipated that a maximum building area of 350,000 square feet will be developed for Tract 1, and a total maximum building area of 2,500,000 square feet for Tract 2.

Developer shall prepare and record Covenants, Conditions, & Restrictions (CCRs) commensurate with site plan and subdivision platting approval.

TRANSPORTATION & ROAD IMPROVEMENTS

Major access to the Fall Creek Commerce Center PUD is provided by Interstate 840 and U.S. Hwy 231 to Bill France Boulevard - S.R. Hwy 452, which is a principal arterial roadway on the Town of Smyrna Major Thoroughfare Plan. Tract 1 & Tract 2 have access to existing Coulter Court to Bill France Boulevard. Per the Town of Smyrna Major Thoroughfare Plan, Coulter Court is planned to be revised to a Minor Arterial Roadway as an eighty (80) foot wide right-of-way and thirty-six (36) feet of pavement to accommodate two lanes of traffic with a continuous turn lane. This Minor Arterial Roadway is provided on the Site Plan portion as shown on the supporting rezoning drawings. The developer of Fall Creek Commerce Center will be responsible for dedication of the right-of-way and construction of the minor arterial roadway through the subject property. An east-west collector road with a sixty (60) foot right-of-way and thirty-six (36) feet of paving is proposed to connect between existing Mona Road and the Minor Arterial.

Traffic studies shall be provided at time of site plan or subdivision plat review per the Town of Smyrna Zoning Ordinance ARTICLE III, Section 3.200.E.

The developer is sensitive to the Town of Smyrna concerns for increased traffic, specifically truck traffic on Mona Road. As part of the development, the developer commits to providing signage and other traffic control to direct trucks from the planned industrial facilities to Bill France Boulevard, and avoid truck traffic going south on Mona Road over Fall Creek towards the existing residential communities on the south side of Fall Creek. The developer has discussed the general traffic impacts for the PUD with TDOT, Rutherford County, Wilson County, and the Town of Smyrna and is committed to constructing improvements for roadway capacity and adequate level of service, such auxiliary lanes and traffic signals as determined or warranted by a traffic impact analysis.

ENTRY FEATURES/MONUMENTATION/SIGNAGE

Entry features, monumentation, and signage shall match the architecture of the development, and be coordinated with the landscaping for the project. Any freestanding sign constructed within the development shall be constructed in a monument style, that is, signs that have a skirt or dressed base enclosing the structural members that support the sign. Such skirting or dressing shall mean the enclosing of the structural members with material such as brick, stone, or decorative masonry. Any temporary sign must be approved by the proper permitting process before being installed. Any wall mounted signs will be required to be designed appropriately to match the exterior of the applicable building. The requirements for all signs within the PUD shall be governed by the requirements of the Town of Smyrna Sign Ordinance and as modified per the signage standards included in the PUD.

ARCHITECTURAL REQUIREMENTS

All construction within the Fall Creek Commerce Center PUD shall comply with the requirements of the Town of Smyrna Zoning Ordinance, Subdivision Regulations, Design Review Manual, Land Development Handbook, and the standards contained herein.

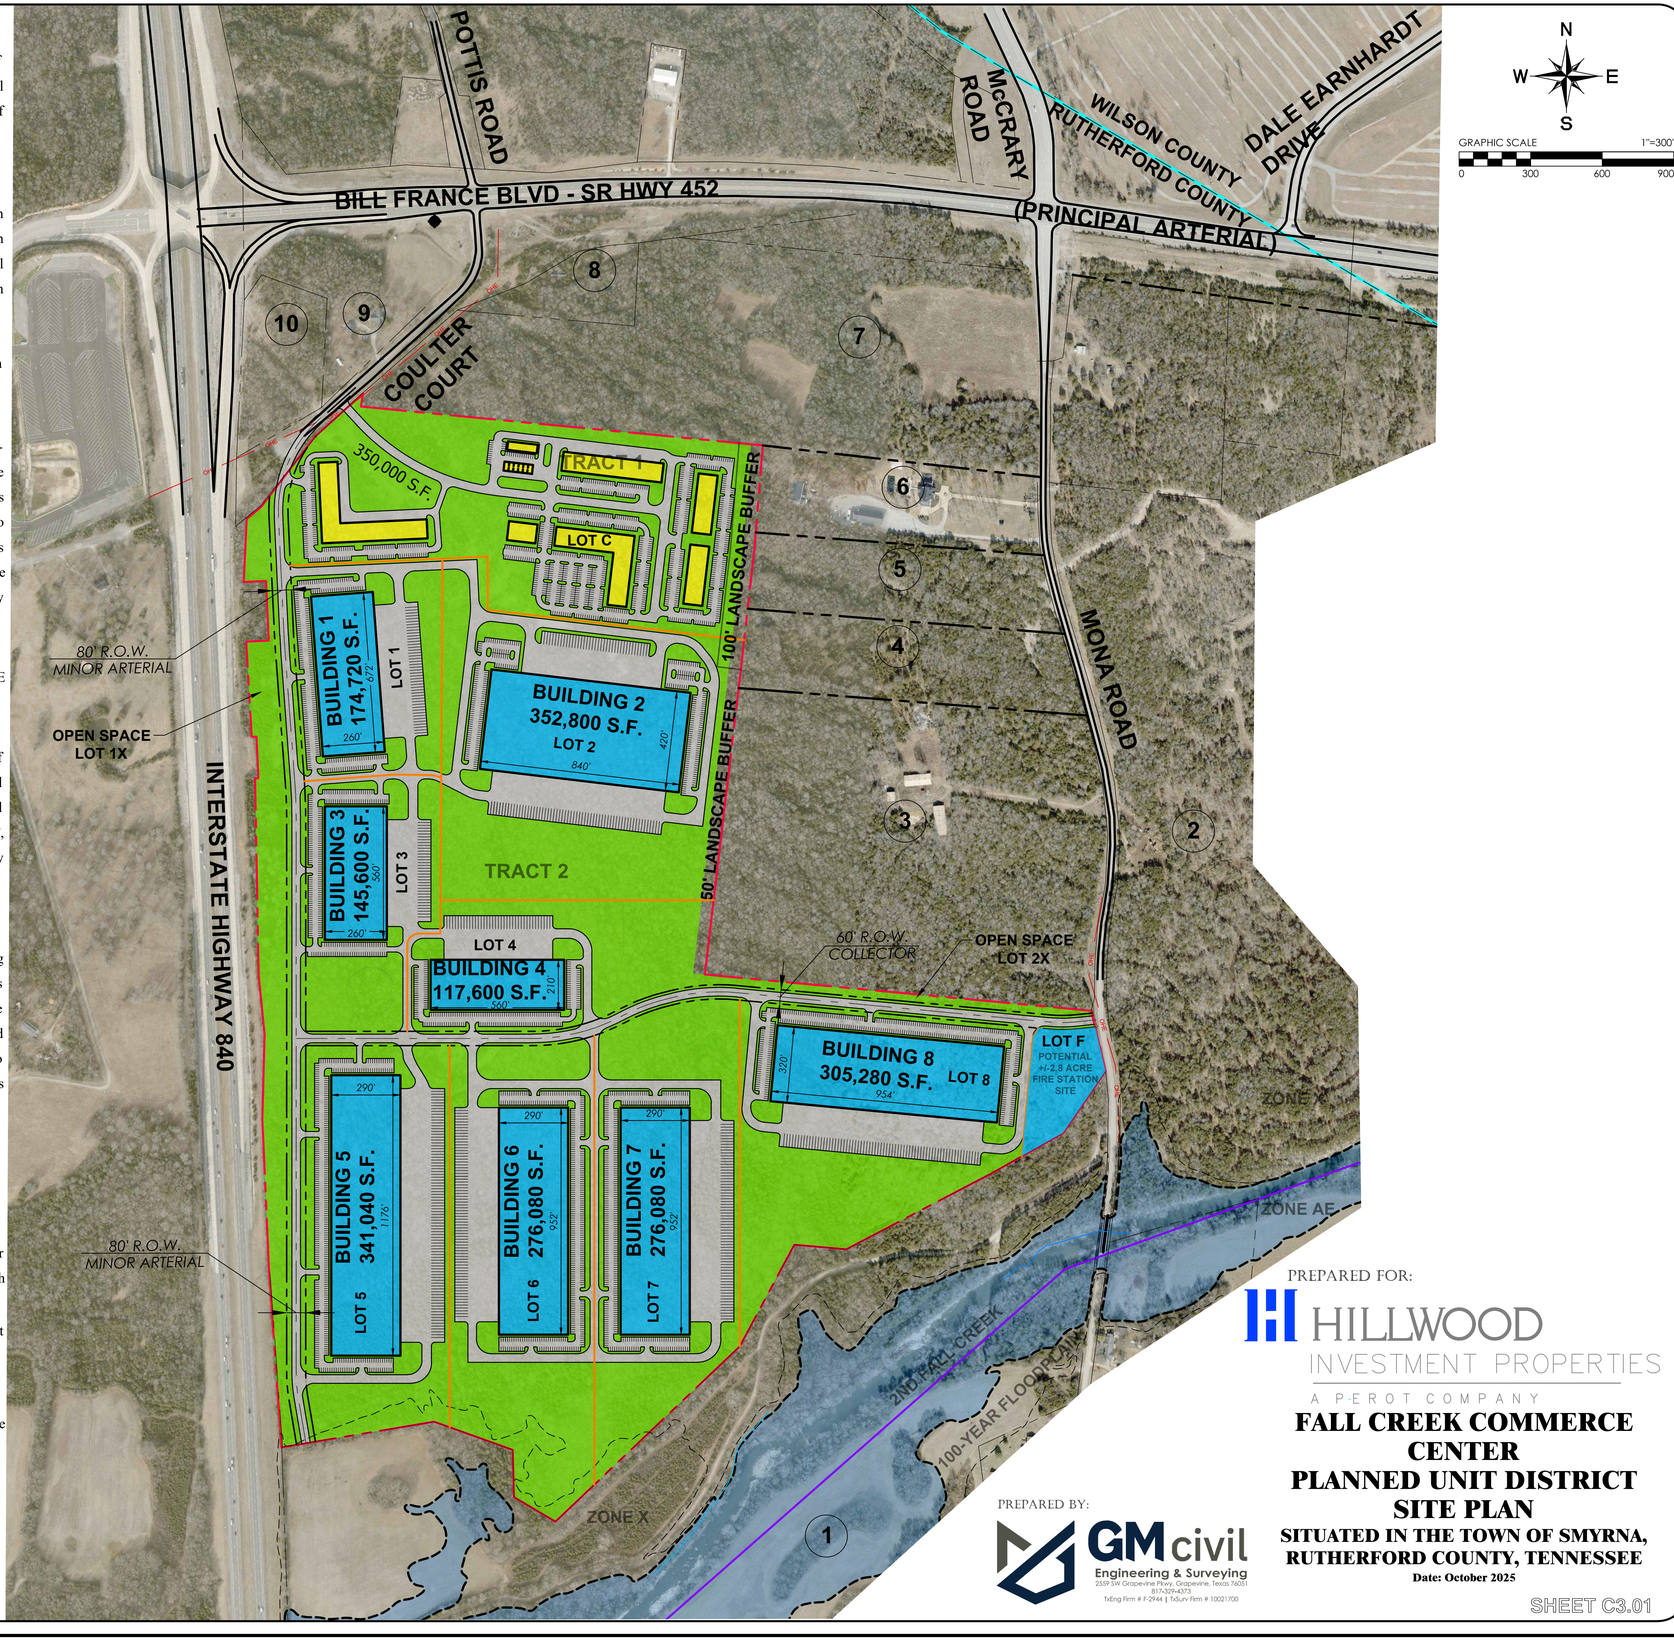

EXTERIOR LIGHTING

All exterior lighting within the Fall Creek Commercial Center PUD must conform with the Town of Smyrna lighting regulations for the I-2 Tract 2, including height of the pole mounted fixture, the use of 90-degree fixtures, and proper lighting luminaires for each area to be served. Lighting for the I-2 Tract 2 shall not exceed thirty-five (35) feet in height.

Lighting for the C-2 Tract 1 shall not exceed a pole height of twenty-two (22) feet in height. No light pollution on adjacent properties is allowed. The style of fixtures shall be compatible with the character of the commercial buildings.

EMERGENCY/FIRE SERVICES

As part of Fall Creek Commercial Center PUD, the developer will coordinate with the Town of Smyrna to provide an approximate 3.0 acre site as shown, to increase the Town of Smyrna's emergency response and fire services for the 840 Gateway.

CONSTRUCTION SCHEDULE/PHASING

Development and construction of the Fall Creek Commercial Center PUD will be dictated by market conditions, and completion of water, sewer, and gas infrastructure to serve the development. However, it is generally anticipated that the building construction schedule will be as indicated. Fall Creek Commercial Center PUD is anticipated to take ten or more years for build out, with an average 18-24 month duration between the start of each phase.

At the time of site plan for the respective phases, a traffic impact study shall be provided to demonstrate roadway capacity and level of service for intersections to determine the necessary roadway improvements. Should the results of the traffic impact study vary from the phase map provided requiring additional roadway improvements or connectivity, the traffic impact study recommendations shall govern.

STORMWATER DETENTION

NOTES:

STORMWATER IMPROVEMENTS FOR FALL CREEK COMMERCE CENTER P.U.D. SHALL BE PROVIDED PER THE TOWN OF SMYRNA STORMWATER MANAGEMENT ORDINANCE AND THE TOWN OF SMYRNA SUBDIVISION REGULATIONS.

STORMWATER DETENTION LOCATIONS SHOWN ARE APPROXIMATE AND SUBJECT TO REVISION BASED ON A FINAL DRAINAGE/DETENTION ANALYSIS AND FINAL SITE PLANS.

FLOODPLAIN AND STORM WATER

The proposed Fall Creek Commerce Center PUD development shall be responsible for the installation of storm drainage facilities to serve the subject property. Detailed design of pipe systems, storm water detention facilities, and downstream analysis shall be provided at the time of site plan or subdivision plat review to the Town of Smyrna. Any stormwater detention facilties that are determined through final design will be designed to mitigate the 100-year frequency storm event for the proposed conditions to the pre-existing conditions discharge for the subject property.

Any floodplain reclamation from Fall Creek within the property will require a detailed hydrologic/hydraulic analysis and permitting through the Town of Smyrna, Rutherford County, and FEMA.

Construction storm water permits shall be obtained from TDEC and the Town of Smyrna prior to any earthwork activities on the subject property. Phases of construction that exceed 50 acres of disturbed area shall comply with the Tennessee General NPDES Permit No. TNR10000 Part 5.5.3.3.

On-site drainage systems will be provided to convey discharge to storm water detention facilities and adequate outfall locations.

The Fall Creek Commerce Center Developer will coordinate with the local residents to identify existing storm water and flooding issues along the SR 452/Fall Creek corridor, and determine if there are additional improvements that can potentially be made within the limits of the Fall Creek Commerce Center property to mitigate or improve the conditions.

MONA ROAD SHOULDER DETAIL

MONA ROAD/COLLECTOR - TRUCK TRAFFIC RESTRICTION IMPROVEMENTS

COULTER COURT - INTERSECTION IMPROVEMENTS

TRAFFIC IMPACT STUDY RECOMMENDATIONS & ADDITIONAL ROADWAY IMPROVEMENTS

1) The intersection of Bill France Boulevard and IH-840 is predict4ed to have an overall LOS of "B" at build out of Fall Creek Commerce Center Tract 1 and Tract 2. No signal warrants were met at build out. Therefore, the intersection is expected to remain a flashing red signal.
2) Coulter Court should be widened and improved to a three lane roadway with a north bound left turn lane and a north bound through/right turn lane and extended into the Fall Creek Commerce Center development. The Coulter Court intersection and extension improvements shall be commensurate with the development of the C-2 Commercial Tract Phase 1 or the I-2 Light Industrial Tract Phase 2 (Buildings 5 & 6), or whichever occurs first.
3) At full build out (Phase 4) of Fall Creek Commerce Center, the intersection of Bill France Boulevard and Coulter Court is predicted to operate at a LOS of "E/F". The signal warrant analysis for this intersection indicates that warrants will be met at build out and a signal will be needed at the intersection. It should be noted that 72% of the traffic from Fall Creek Commerce Center is generated by the commercial/retail tract. Therefore, the intersection should be monitored as development occurs.
4) No improvements to Mona Road are recommended from the Traffic Impact Study results. However, the developer will be responsible for testing the existing pavement section to determine if any pavement section improvements are needed to support truck traffic north of Fall Creek. The developer shall construct two foot wide shoulders along Mona Road north of Fall Creek to Bill France Boulevard to support truck traffic. Mona Road improvements shall be commensurate when the first building permit is approved in Phase 1.
5) Developer shall install "No Truck Traffic" signage at the intersection of Mona Road and Jefferson Pike.

LANDSCAPE

The Subdivision Regulations, Zoning Ordinance, Land Development Handbook, and the Design Review Manual for the Town of Smyrna shall apply to the development of this Property, except as modified herein. The proposed Fall Creek Commerce Center PUD is responsible for installing landscaping in accordance with the Town landscape regulations. Detailed landscape design, including streetscape and buffering will be provided with the final site plan submittal to the Town.

A 50' wide preservation buffer shall be located around the perimeter of the property where shown on the site plan and the adjacent landscape exhibit. The buffer will consist of existing and supplemental landscaping where needed as determined by the Town, limits of grading and site work, and existing tree information. The supplemental landscaping will consist of native and well-adapted species and will be a combination of evergreen and hardwood trees and large shrubs. The selected species shall mimic the regional landscape and use native species found on-site when possible.

Site landscaping shall comply with the Town of Smyrna landscape regulations. Landscape shall screen utilities and refuse enclosures where possible. Views from the public rights-of-way shall be enhanced with landscaping when viewing the proposed buildings, parking, drives, and truck court areas.

LANDSCAPE BUFFER VEGETATION EXAMPLES

CONCEPTUAL LANDSCAPE SECTIONS

These landscape sections are provided to illustrate the 50' buffer for the project and how it will soften the views of the proposed Fall Creek Commerce Center from the neighbors. The existing vegetation will adequately buffer the proposed developments from the residential areas. The existing canopy is a mixture of hardwoods and evergreens with dense secondary growth. Additional landscape will be added if needed to provide a dense vegetative buffer. The supplemental landscape will match the existing regional plantings to insure long-term viability and buffering.

Images of proposed supplemental buffer vegetation are provided on this sheet. These plants may include the following: Arborvitae, Holly, Magnolia, Pine, Cedar, and hardwood trees. Additional species may be included. Final buffer design and supplemental landscaping will be reviewed on a site-by-site basis during the plans approval process.

RESOLUTION

A RESOLUTION ADOPTING A PLAN OF SERVICE FOR THE ANNEXATION OF CERTAIN AREAS BY THE TOWN OF SMYRNA, TENNESSEE.

WHEREAS, TCA 6-51-102 (a) (2) as amended May 19, 1998, requires that a Plan of Service be adopted by the governing body of a municipality for areas where an annexation ordinance was not final on November 25, 1997.

NOW, THEREFORE, BE IT RESOLVED BY THE TOWN OF SMYRNA, TENNESSEE, AS FOLLOWS:

SECTION 1. Pursuant to the provisions of Section 6-51-102, Tennessee Code Annotated, there is hereby adopted, for the area bounded as described below, the following plan of service:

452 Properties, LLC
W. Jefferson Pike/Mona Road

Tax Map 11, Parcel 5.00, owned and requested by 452 Properties, LLC. Bordered on the west by the right of way of I-840; on the south by the U.S. Army Corps of Engineers; on the east by the existing right-of-way of Mona Road, Parcel 4.03, owned by Nashville Speedway USA, Inc., Parcels 4.01 and 4.02, owned by CP Logistics Lebanon VI, LLC, and Parcel 4.00, owned by Fernando Martinez Mixteca; and on the north by Parcel 2.00, owned by Glendon Jay Barrett, and the right-of-way of Coulter Court. Area annexed contains approximately 226.33 acres.

The annexation includes the annexation of the existing rights-of-way of the following public roads:

SR 266/W. Jefferson Pike: approximately 5,200 linear feet from the existing Town limits to the intersection with Mona Road;

Mona Road: approximately 22,300 linear feet from the intersection with SR 266/W. Jefferson Pike northward.

A. Water

Water services will be provided by the Consolidated Utility District. Estimated costs from the will serve letter issued by CUD are included in the appendix to this plan of services.

B. Wastewater

Wastewater services will be provided by the Town of Smyrna upon extension of the wastewater mains by the property owner. Estimated costs are included in the appendix to this plan of services.

C. Streets

1. Emergency maintenance of streets (repair of hazardous chuck holes, measures necessary for traffic flow, etc.) will begin on the effective date of annexation.

2. Routine maintenance, on the same basis as in the present Town limits, will begin in the annexed areas when funds from the State gasoline tax based on the annexed population are received.

3. Reconstruction and resurfacing of streets, installation of storm drainage facilities, construction of curbs and gutters, and other such major improvements, as the need therefore is determined by the

governing body, will be accomplished under current policies of the town.

Estimated costs are included in the appendix to this plan of services.

D. Planning and Zoning

The planning and zoning jurisdiction of the Town of Smyrna will extend to the annexed area on the effective date of annexation. Town planning will thereafter encompass the annexed areas.

E. Street Lighting

Street lights will be installed in substantially developed areas within approximately 18 months after the effective date of the annexation, under the standards currently prevailing in the existing Town limits. Estimated costs are included in the appendix to this plan of services.

F. Recreation

Residents of the annexed areas may use all existing libraries and parks, etc., on and after the effective date of annexation.

G. Street Name Signs

Street name signs where needed will be installed within approximately 18 months after the effective date of annexation.

H. Fire Protection

Fire protection by the present personnel and equipment of the Smyrna Fire Department will be provided on and after the effective date of annexation. Additional personnel and equipment will be provided, if needed, to maintain current standards. Estimated costs are included in the appendix to this plan of services.

I. Police Protection

Police patrol and response to calls by the Smyrna Police Department will be provided on and after the effective date of the annexation. Police services will be provided with existing personnel and additional personnel will be provided, if needed, to maintain current standards. Estimated costs are included in the appendix to this plan of services.

J. Traffic Control

Traffic signals, traffic signs, street markings and other traffic control devices will be installed as the need is established by appropriate study and traffic standards.

K. Refuse Collection

Refuse collection and disposal services shall continue to be provided by private contracts with individual residents.

L. Inspection Services

Any inspection services now provided by the Town of Smyrna will begin in the annexed area on the effective date of the annexation.

Section 2. This Resolution shall be effective from and after its adoption.

ADOPTED THIS ____TH DAY OF OCTOBER, 2025

TOWN OF SMYRNA, TENNESSEE

_____
Mary Esther Reed, Mayor

ATTEST:

_____
Amber Hobbs, Town Clerk

452 Properties

Plan of Services Appendix

Introduction

The Town of Smyrna has received a request for annexation from 452 Properties for a parcel of land located on Mona Road, further referenced by Rutherford County Tax Map 11, Parcel 5.00, containing approximately 226.33 acres. The same owner has an additional parcel of land that is located on Bill France Boulevard and Powell's Chapel Road, further referenced by Tax Map 11, Parcel 6.00. It is anticipated that if the Town chooses to annex Parcel 5 that the portion of Parcel 6.00 that lies within the Town's Urban Growth Boundary would also be requested for annexation. The portion of that parcel that lies within the Town's UGB is 594.2 acres.

Estimated expenditures were developed through a review of the Town's FY 25-26 budget and discussions with various town department heads. Estimated revenues were based on the current Town property tax rate and a review of the records of the Rutherford County Property Assessor and current adopted impact fee rates. Table 1 provides a summary of this information.

Table 1		
Area, Street Mileage, Population, and Assessed Property Valuations		
Description	Current Request	Potential Request
Area (estimated acreage)	225.25	594.2
Street Mileage	5.2	3.9
Population	0	0
Residential and Farm Properties		
Number of Residences	0	0
Number of Vacant Properties	1	1
Total Assessed Valuation	$221,250.00	$786,775.00
Commercial and Industrial Properties		
Number of Parcels	0	0
Total Assessed Valuation	$0.00	$0.00

Municipal Costs and Services

The estimated costs for serving the proposed annexed properties are based on service to the properties with the proposed development plan when the properties are fully developed. At this time, the full development of the project is anticipated to take between fifteen (15) and twenty (20) years. Table 2 shows a summary of the annual expenditures.

General Government

There is not expected to be any increased cost in general government services to serve these properties.

Police Protection

The estimated cost to provide police protection services would include adding up to 2 additional patrol zones, which translates to 6 officers to cover 3 shifts, as well as 1 detective and 1 traffic officer. The estimated cost for 8 additional personnel would be $750,000 for salaries and benefits, and an additional $700,000 for equipment.

Fire Protection

Annexation of the currently requested parcel would not necessitate construction of an additional fire station. However, annexation of the potential additional parcel would require such construction as the distance to the nearest station would exceed 5 miles. The estimated cost to provide fire protection services in that scenario would include construction of a new station at a minimum cost of $15 million with two apparatus at a cost of $3 million. Additional personnel needed would be 3 for 3 shifts for a total of 9 at a cost of $1 million. The developer has committed to provide land for a new fire station.

Refuse Collection/Disposal

The Town does not provide this service currently, and it is not anticipated that this will change. The cost to the Town for this service would be $0, as it would be handled by private companies.

Street Maintenance

The streets proposed to be annexed will require expenditures for street maintenance and improvements. The cost to mill and resurface 7.2 miles of existing County roads would be $192,133, based on $25.27 per linear foot at 22 feet wide. This cost was derived using the current bid for milling and resurfacing. To annualize that cost, it would be $19,213 based on a 10 year resurfacing schedule. There would be an additional cost of approximately $14 million if the Town were to upgrade the existing County roads with shoulders. Rutherford County has a BRZ bridge replacement agreement with TDOT to replace a substandard bridge on Mona Road over Fall Creek. Based on discussions with TDOT, if the Town were to annex Mona Road the

grant would be transferred to the Town for the bridge replacement. The schedule from TDOT regarding this bridge replacement shows that it is expected that construction will begin in Fall 2028. An existing low-water bridge on Powell's Chapel Road would need to be replaced in the future as well.

Street Lights

The Town typically takes over lights that have been installed by a developer. The annual expense for one street light is approximately $111. For purposes of this study, the estimated expense was derived by estimating one street light for every 300' of road frontage along the existing roadways. This would translate to approximately 160 new street lights for 9.1 miles, which would mean an annual cost of $17,760.

Parks and Recreation

As there are no residential structures in the area being considered for annexation and no residential development is anticipated, it is not estimated that there will be additional expenditures for parks and recreation.

Water and Wastewater

This area lies within the service boundary of Consolidated Utility District. CUD has provided a will serve letter detailing the necessary improvements to serve the proposed development with water. These include $6.6 million for a new water storage tank, $4.9 million for a new pump station, and $26.5 million for new water main installation. The developer is responsible for up to 90% of the water tank and water main installation and up to 85% of the cost of the pump station installation. There would be no cost to the Town for these services.

The cost for wastewater services is approximately $10 million in construction costs to extend the necessary sewer mains and installation of sewer lift station along Fall Creek along with approximately $435,000 in easement acquisition cost. The developer would bear the cost of construction of the main while the Town would acquire the easements. Capacity fees would be collected based on the proposed usage of the buildings, and monthly charges would cover the annual costs to serve the area. An evaluation of this development and its' impact to the wastewater treatment plant capacity is currently being undertaken by the Utilities Department but is not complete at the time this plan of services is being written.

Table 2		
Estimated Annual Expenditures		
Function		**Estimated Cost**
General Government		$0.00
Police		$750,000.00
Fire		$1,000,000.00
Refuse Collection/Disposal		$0.00
Street Maintenance		$19,213.00
Street Lights		$17,760.00
Parks and Recreation		$0.00
Total Estimated Annual Expenditures		$1,786,973.00
Water		$0.00
Wastewater		$0.00
Total Water and Wastewater Expenditures		$0.00
Total Estimated Annual Expenditures		$1,786,973.00

Municipal Revenues

The Town of Smyrna would receive revenues from a variety of sources to apply to the costs of providing services to this area. Table 3 provides estimates of revenue sources.

Property Taxes

Property taxes were estimated by utilizing the records of the Rutherford County Property Assessor's Office. The assessed value was determined by applying the 25% percentage to the properties as they are currently vacant tracts. The Town's present property tax rate ($.5257/$100 of assessed value) was applied to arrive at the estimates shown in Table 3.

Local Sales Tax

Local sales tax revenue would be $0 until the point when the area proposed to be developed with commercial buildings becomes active. After that point, local sales tax would be collected, but it is difficult to provide an estimate until uses are identified.

State Shared Taxes

The State of Tennessee shares revenue from seven different taxes with local governments on a per capita basis. These include State Sales Tax at $125.75, Gasoline and Motor Fuel at $36.00, Special Petroleum Tax at $1.83, State Beer Tax at $.44, TVA In-Lieu at $12.70, Gaming Tax at $2.10, and Transportaton Modernization at $.47. As there is no population in the area requested for annexation, the Town would not realize any additional revenue from the State from these seven taxes.

Water and Wastewater

The Town would receive no revenue for water. Wastewater revenues would be $0 until the property develops, which would be at least 2 years. It is difficult to estimate anticipated revenues without knowing the proposed building uses, but annual revenues would cover annual operating costs.

Impact Fees

The estimated revenues from impact fees have been calculated based on the proposed square footage within the development plan. The initial request includes 350,000 square feet of commercial space and 2,500,000 square feet of industrial space. These fees would be as follows:

Industrial - using the rate for Warehouse	
Road - $839/1,000 sq. ft.	$2,097,500
Public Safety - $167/1,000 sq. ft.	417,500
	$2,515,000

Commercial - using the rate for Retail/Commercial:	
Road - $4,194/1,000 sq. ft.	$1,467,900
Public Safety - $1,685/1,000 sq. ft.	589,750
	$2,057,650

For the future parcel, the proposed development plan shows 6,000,000 square feet of industrial space. The fees for those buildings would be as follows:

Industrial - using the rate for Warehouse	
Road - $839/1,000 sq. ft.	$5,034,000
Public Safety - $167/1,000 sq. ft.	1,002,000
	$6,036,000

In addition to the estimated revenues provided herein, the developer commissioned an economic impact study performed by an independent third-party. The one page summary of this study is attached.

Table 3		
Estimated Annual Revenues		
Source	**Current Request**	**Potential Request**
Property Taxes ($.5257)	$1,163.11	$4,136.08
Local Option Sales Tax	$0.00	$0.00
Business Tax	$0.00	$0.00
Wholesale Beer Tax	$0.00	$0.00
Permits, Fines, Etc.	$0.00	$0.00
Refuse Collection Fees	$0.00	$0.00
State Shared Taxes:		
Sales Tax ($125.75 per capita)	$0.00	$0.00
Gasoline & Motor Fuel ($36.00)	$0.00	$0.00
Special Petroleum Tax ($1.83 per capita)	$0.00	$0.00
State Beer Tax ($.44 per capita)	$0.00	$0.00
TVA In-Lieu ($12.70 per capita)	$0.00	$0.00
Gaming Tax ($2.10 per capita)	$0.00	$0.00
Transportation Modernization ($.47 per capita)	$0.00	$0.00
Total Estimated Annual Revenues	$1,163.11	$4,136.08
Water	$0.00	$0.00
Wastewater	$0.00	$0.00
Total Estimated Water and Wastewater Revenues	$0.00	$0.00
Total Estimated Annual Revenues	$1,163.11	$4,136.08

BILL FRANCE BLVD DEVELOPMENT OPPORTUNITY

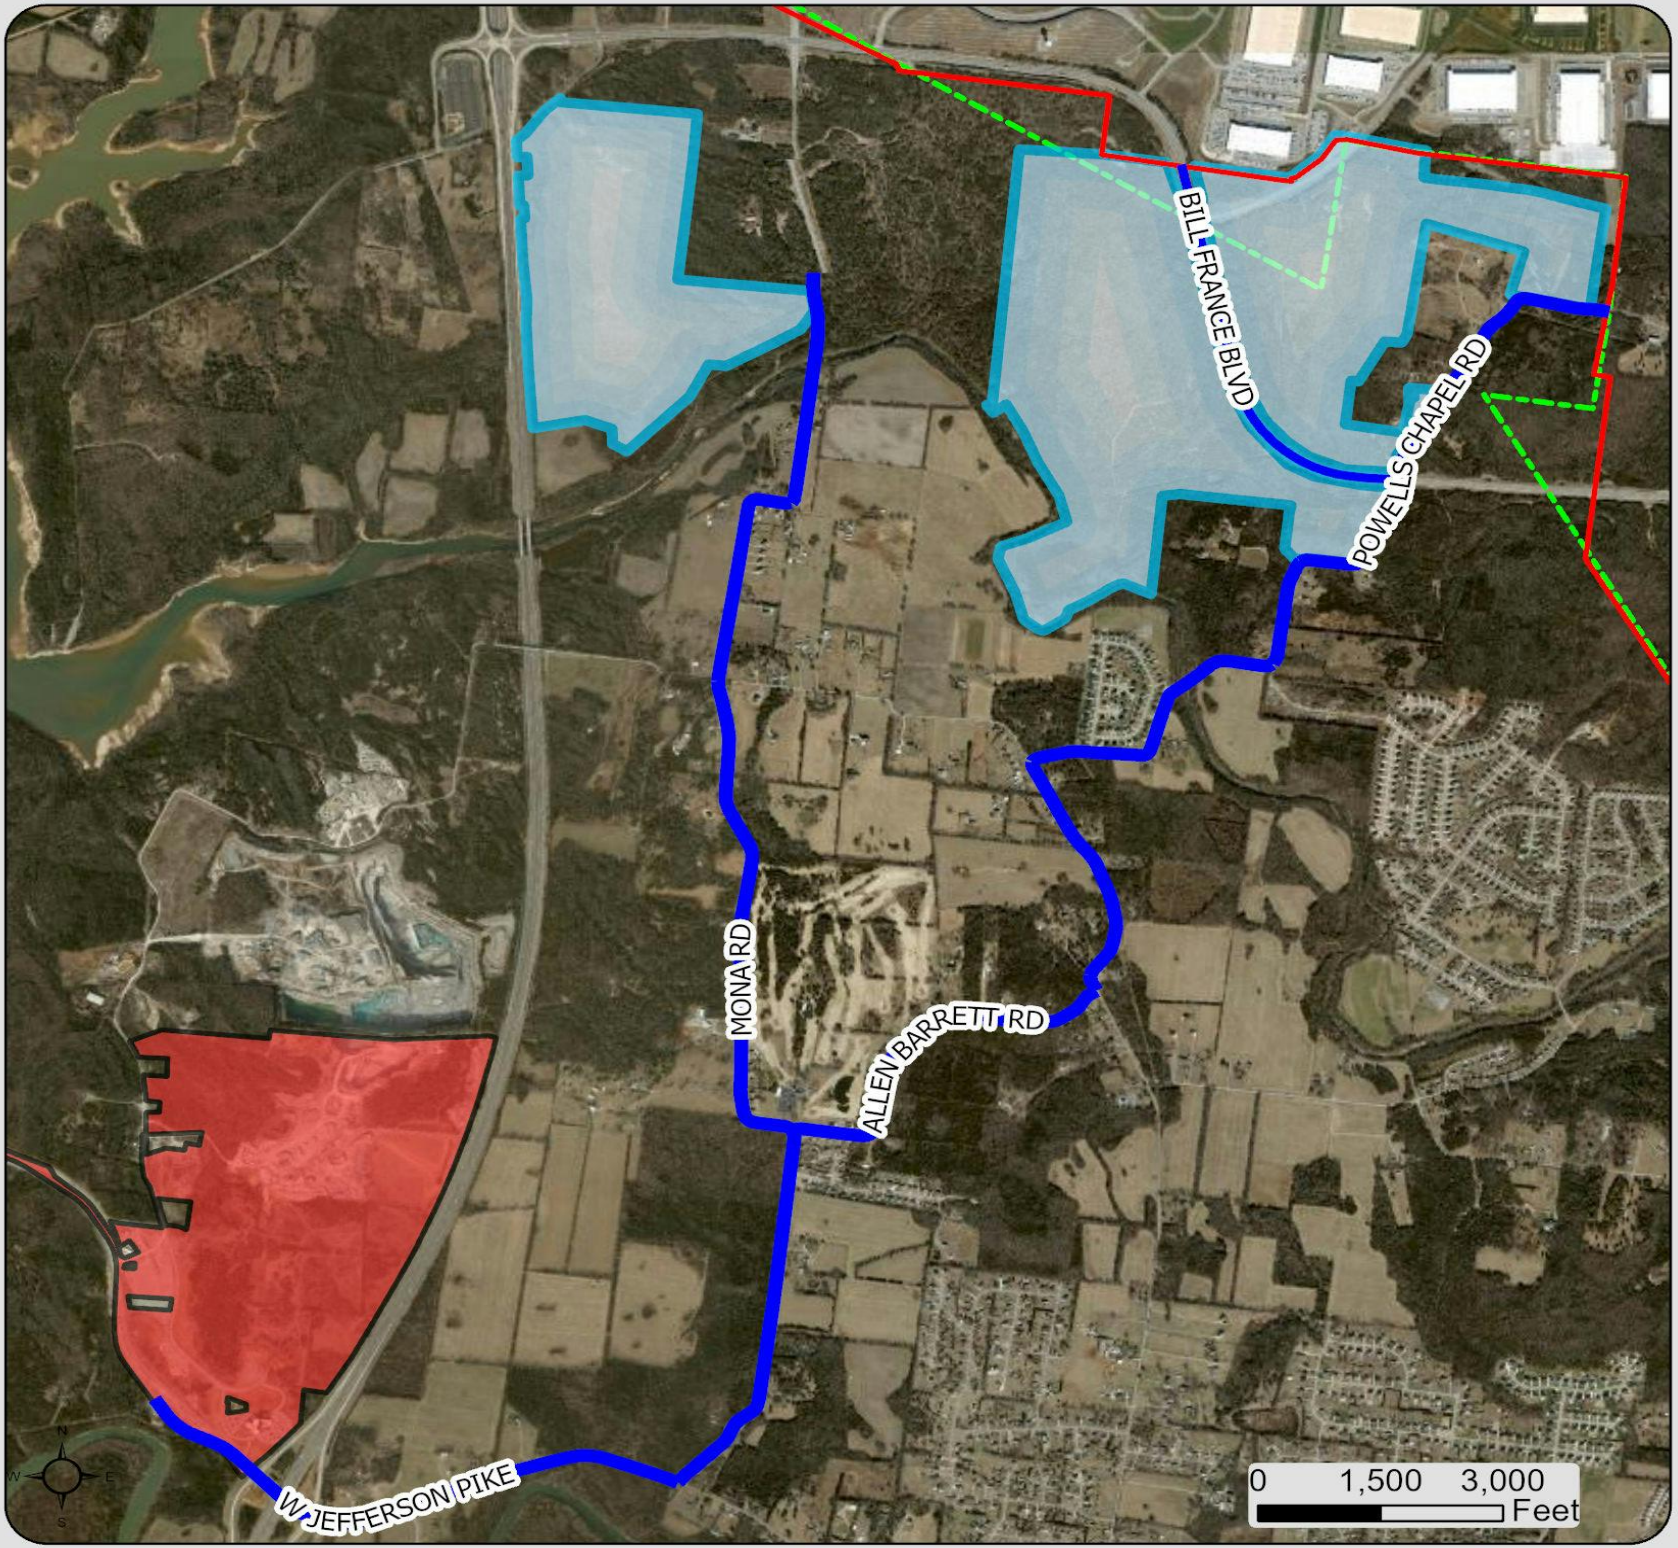

Economic Impact Analysis

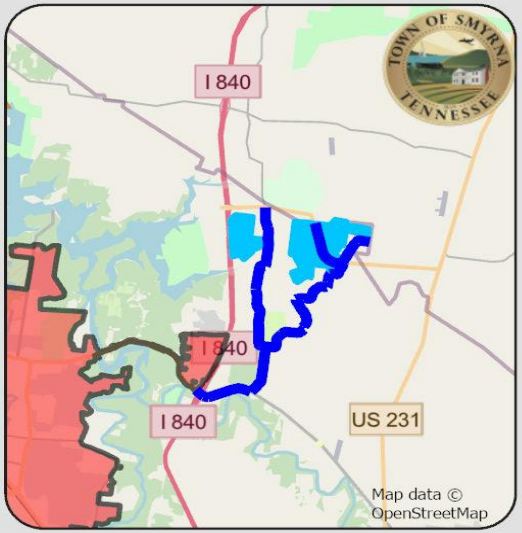

Key Findings - Town of Smyrna

Younger Associates was engaged by Hillwood to conduct an economic impact analysis of a proposed mixed-use development spanning approximately 1,435 acres located primarily in Rutherford County, TN, with a portion extending into Wilson County. The development includes industrial, warehouse, and distribution space, as well as a limited retail component. This analysis projects the economic contributions to the local economy of both the construction phase and the ongoing operations of the development. The summary below presents the projected annual impact, as well as cumulative impacts over the 25-year study period.

	Annual Impact At Full Operation	25-Year Impact
Economic Impact	$1.3 billion	$23.2 billion
Jobs Supported Direct & Indirect	5,815	5,815
Indirect Sales & Property Tax	$12.4 million	$107.3 million
Direct Sales Tax Town of Smyrna	$2.0 million	$28.5 million
Hotel Tax Town of Smyrna	$203,259	$2.9 million

Direct Property Tax	Town of Smyrna	
	Annual	25-Year
General Fund	$703,982	$12.5 million

452 Properties, LLC – Annexation and PUD Zoning Request

Tax Map 11, Parcel 5.00, owned and requested by 452 Properties, LLC. Bordered on the west by the right-of-way of I-840; on the south by the U.S. Army Corps of Engineers; on the east by the existing right-of-way of Mona Road, Parcel 4.03, owned by Nashville Speedway USA, Inc., Parcels 4.01 and 4.02, owned by CP Logistics Lebanon VI, LLC, and Parcel 4.00, owned by Fernando Martinez Mixteca; and on the north by Parcel 2.00, owned by Glendon Jay Barrett, and the right-of-way of Coulter Court.

Total area annexed contains approximately 226.33 acres.

The annexation includes the annexation of the existing rights-of-way of the following public roads:

SR 266/W. Jefferson Pike: approximately 1 mile from the existing Town limits eastward to Mona Road;

Mona Road: approximately 4.2 miles northward from SR 266/W. Jefferson Pike to the northernmost boundary line of this tract.

Notes for **Fall Creek Commerce Center** Analysis – Rutherford County:

1. U.S. Bureau of Economic Analysis RIMS II final demand aggregate output multiplier for Rutherford County, Tennessee for Construction. This multiplier represents the total dollar change in output that occurs in all industries for each additional dollar of output delivered by the specified industry.

2. Rutherford County sales tax rate of 2.75% applied to the real property improvements to determine direct sales tax from construction. Assumes that 40% of the capital investment would be subject to sales tax.

3. U.S. Bureau of Economic Analysis RIMS II final demand employment multiplier for Rutherford County, Tennessee for Construction. This multiplier represents the number of jobs supported per million dollars of output from the specified industry.

4. Projection based upon data from Tennessee Department of Labor; Annual Average Wage/Salary for all industry sectors in Rutherford County, 2023. Assumes an average wage increase of 1.5% for 2024 and 2025.

5. U.S. Department of Labor, "Consumer Expenditure Survey, Southern US" 2023; factor applied to direct and indirect wages to determine the rate of indirect or "downstream" expenditures on sales taxable goods and services at the Rutherford County local option rate of 2.75%.

6. Based upon July 2023 - June 2024 collections of business, motor vehicle and other local taxes compared to sales tax for Rutherford County.

7. Based upon 2021 DOE Commercial Building Usage Survey for Warehouse and Distribution median square footage per employee.

8. Projection based upon data from Tennessee Department of Labor; Annual Average Wage/Salary for the specified industry in Rutherford County, 2023. Assumes an average wage increase of 1.5% for 2024 and 2025.

9. U.S. Bureau of Economic Analysis RIMS II direct effect employment multiplier for Rutherford County, for truck transportation and warehousing. This multiplier represents the total change in the number of jobs supported in all industries for each additional job created by the specified industry.

10. Indirect property tax for Rutherford County is based on the new direct jobs created by the tenants of the development. For this calculation, it is assumed that 75% of the direct jobs reside in Rutherford County and represent one household per job. The 2025 median home value is utilized as a proxy for residential property value, to determine property tax generated per job. The residential assessment rate of 25% is utilized for all residences, including those in multifamily buildings assessed at 40%, and a Rutherford County and Town of Smyrna tax rate of $2.4019 per $100 of assessed value is used to project the annual tax per job. The property tax from new or expanded commercial property that is generated indirectly from economic activity associated with the jobs supported by the company is not projected.

11. U.S. Bureau of Economic Analysis RIMS II final demand aggregate earnings multiplier for Rutherford County, Tennessee for truck transportation and warehousing. This multiplier represents the total dollar change in earnings of households employed by all industries for each additional dollar of output delivered by the specified industry.

12. U.S. Bureau of Economic Analysis RIMS II direct effect aggregate earnings multiplier for Rutherford County, Tennessee for truck transportation and warehousing. This multiplier represents the total dollar change in earnings of households employed by all industries for each additional dollar of earnings paid directly to households employed by the specified industry.

13. U.S. Bureau of Economic Analysis RIMS II final demand aggregate output multiplier for Rutherford County, Tennessee for truck transportation and warehousing.

14. Average sales per square foot are based on Sales Per Square Foot Report as published by BizMiner 2019-2020 for the specified industries.

15. U.S. Bureau of Economic Analysis, RIMS II final-demand output multiplier for Rutherford County, Tennessee for the specified industries – general merchandise stores, food services and drinking places, and gasoline stations.

16. U.S. Bureau of Economic Analysis, RIMS II final demand employment multiplier for the specified industries – general merchandise stores, food services and drinking places, and gasoline stations for Rutherford County, Tennessee.

17. Projection based upon data from Tennessee Department of Labor; Annual Average Wage/Salary for the specified industry in Rutherford County, 2023. Assumes an average wage increase of 1.5% for 2024 and 2025.

18. U.S. Bureau of Economic Analysis, RIMS II final-demand aggregate output multiplier for Rutherford County, Tennessee for accommodations.

19. U.S. Bureau of Economic Analysis, RIMS II aggregate final demand employment multiplier for accommodations for Rutherford County, Tennessee.

20. Projection based upon data from Tennessee Department of Labor; Annual Average Wage/Salary for the specified industry in Rutherford County, 2023. Assumes an average wage increase of 1.5% for 2024 and 2025.

Note: All calculations are in constant 2025 dollars. No changes in tax rates are assumed.
The 2017/2022 RIMS II multipliers are utilized for this analysis.

AGREEMENT BETWEEN THE TOWN OF SMYRNA, TENNESSEE, CONSOLIDATED UTILITY DISTRICT AND INDUSTRIAL VI ENTERPRISES, LLC

This Agreement (the "**Agreement**") is made and entered into this _____ day of _____, 2025 (the "**Effective Date**") by and among the Town of Smyrna, Tennessee, a Tennessee municipal corporation (the "**Town**"), Consolidated Utility District of Rutherford County, Tennessee, a utility district organized under the laws of the State of Tennessee ("**CUD**"), and Fall Creek Commerce Center, LLC, a Tennessee limited liability company ("**Developer**").

WITNESSETH:

WHEREAS, Developer is proposing to develop certain property located at Tax Map 011, Parcels 005.00 and 006.00 (collectively, the "**Property**"), which is generally north of Fall Creek and south of Bill France Boulevard in Rutherford County, Tennessee (the "**County**"), into a commercial/industrial subdivision (the "**Project**"), requiring installation of new natural gas main, sanitary sewer main with appropriate lift stations, and upgrades to existing water utility lines; and

WHEREAS, the Town is the natural gas and sanitary sewer provider to the Property and commits to provide sewer service and natural gas service to the Project, conditional upon the infrastructure improvements outlined herein; and

WHEREAS, CUD is the water utility provider to the Property and commits to provide water service to the Project, conditional upon the completion of the infrastructure improvements provided for in this Agreement and the Agreement Regarding Improvements to Water Utilities, dated May 28, 2024, between CUD and PDC TN/FL, LLC, a Delaware limited liability company (the "**Mona Road Agreement**"), to construct a water line spanning approximately 25,150 linear feet along Mona Road (the "**Mona Road Water Line**"), in each case subject to and in accordance with the terms of the applicable agreement; and

WHEREAS, the Town, CUD, and Developer have reached agreements for improvements to the natural gas, sanitary sewer, and water utility systems necessary for the Project; and

WHEREAS, Developer has agreed to fund and construct the necessary sanitary sewer force main transmission line, wet well, pumping station, and related appurtenances to connect the Project to the Town's existing sanitary sewer collection line (the "**Sewer Improvements**") and natural gas high pressure and low-pressure mains and regulator station (the "**Gas Improvements**"); and

WHEREAS, Developer has agreed to install and partially fund the necessary water utility improvements necessary for the Project (the "**Water Improvements**"), including a pump station required to be located on Mona Road but excluding the Mona Road Water Line, which will be installed in accordance with the Mona Road Agreement; and

WHEREAS, a general depiction of the Sewer Improvements, Gas Improvements and Water Improvements (collectively, the "**Utility Improvements**") is attached as **Exhibit A**; and

WHEREAS, notwithstanding anything to the contrary in **Exhibit A**, the Utility Improvements do not include the Mona Road Water Line; and

WHEREAS, as described in more detail in **Section 30,** CUD remains a party to the Mona Road Agreement, which governs the construction of the Mona Road Water Line, which is expressly excluded from the Water Improvements under this Agreement; and

WHEREAS, Developer has submitted a written request for annexation into the Town's municipal jurisdiction of the contiguous tracts of land included within the Project that collectively abut Mona Road, depicted on **Exhibit A** as the "**Western Parcels**"; and

WHEREAS, the parties acknowledge that Developer's performance under this Agreement requires a determination of financial feasibility due to the significant capital expenditures to be made by Developer to construct the Utility Improvements of the Eastern Parcels (as defined below); and

WHEREAS, the purpose of this Agreement is to accomplish the development and conveyance of the Utility Improvements pursuant to the terms herein.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Town, CUD, and Developer agree as follows:

1. **Incorporation of Recitals and Exhibits.** The above recitals, along with all exhibits attached hereto, are incorporated by reference into this Agreement.

2. **Conditions Precedent to Parties' Obligations**. As conditions precedent to any obligation of Developer and the Town under this Agreement, all of the following must first occur unless satisfied or waived by Developer, in Developer's sole discretion:

(a) Only to the extent required by applicable law, execution of an Intergovernmental Agreement by and between the Town and the County containing the County's consent to the Town exercising eminent domain over portions of real property owned and located in the County for the purpose of acquiring easements for the public improvements necessary for the Project.

(b) Approval of the plans and specifications of the Utility Improvements by all applicable Town Departments for Sewer/Gas and County Departments (to the extent Water Improvements traverse unincorporated areas of the County) pursuant to **Section 3** and **Section 6** of this Agreement.

(c) Receipt of (i) all necessary approvals and permits issued by the Town, the County and the State required for construction of the Utility Improvements and (ii) all necessary approvals and permits issued by the County and the State for construction of the Project.

(d) Obtaining a written agreement signed by the current owner(s) of the Western Parcels (collectively, "**Current Owner**"), in form approved by the Town Attorney, requiring Current Owner or Current Owner's successors and assigns, as applicable, to consent to deannexation of the Western Parcels in the event Developer fails to purchase the Western Parcels within twelve (12) months following annexation or such later date as agreed to in writing by the Town and presented in executed form simultaneously with the approval of this Agreement. Notwithstanding anything to the contrary herein, the requirements in this **Section 2(e)** shall not be waived by Developer, unless agreed to in writing by Developer and the Town.

3. **Utility Improvement Design Responsibility**.

(a) Developer will be responsible for the hiring of a qualified civil engineering consultant licensed in the State of Tennessee (the "**State**") for the purpose of designing all Utility Improvements. Plans and specifications for the Utility Improvements conforming to the applicable provisions of Town's subdivision regulations, storm water ordinance, the Smyrna Municipal Code (the "**Code**"), the Town's sanitary sewer and natural gas construction specifications for sewer and gas design, CUD's water construction specifications for water design as well as any other applicable adopted policies

related to development in the Town or with any applicable federal, state, county and local laws, regulations and/or guidelines (collectively, the "**Utility Improvement Regulations**"), shall be prepared by Developer's consultants. The scope of work shall include, without limitation, the design of said Utility Improvements.

(b) Design of the Sewer and Gas Improvements shall include engineering reports, preliminary surveys, roadway, storm water drainage, sewer line plans, sewer line profiles, detail sheets, gas line plans and profiles, project specifications, hydraulic calculations, preparation of cost estimates, and any required support data. Developer shall coordinate all design with the Town and submit the design for review and approval to the Town. The Town shall with due speed and in good faith endeavor to review and approve the design of the sewer and gas improvements within two (2) weeks following submittal by the Developer, such approval to not be unreasonably withheld. Developer shall, upon final approval of the Town Utilities Department, submit to the Town Utilities Department electronic engineer-stamped copy of plans and calculations of Sewer Improvements which the Town Utilities Department shall forward to the appropriate State agency for approval. All applicable fees shall be the responsibility of the Developer. All Sewer and Gas Improvements will be designed and completed in compliance with applicable provisions of the Utility Improvement Regulations. All permits from other governmental agencies and utilities are the responsibility of Developer.

(c) Design of the Water Improvements shall include engineering reports, preliminary surveys, water line plans, water line profiles, detail sheets, project specifications, hydraulic calculations, preparation of cost estimates, and any required support data. Developer shall coordinate all design with CUD and submit the design for review and approval to CUD. CUD shall review and approve the design of the Water Improvements no later than thirty (30) days following submittal by the Developer, such approval to not be unreasonably withheld. Developer shall, upon final approval of the CUD Engineering Department, submit to CUD an electronic engineer-stamped copy of plans and calculations of the Water Improvements which CUD shall forward to the appropriate State agency for approval. All applicable fees shall be the responsibility of the Developer. All Water Improvements will be designed and completed in compliance with applicable provisions of the Utility Improvement Regulations and CUD requirements. All permits from other governmental agencies and utilities are the responsibility of Developer.

4. **Cost Allocation of Utility Improvements**.

(a) Developer shall fund one hundred percent (100%) of engineering, design, permitting, and construction administration costs for the Sewer Improvements and Gas Improvements, the general scope of which are identified on **Exhibit C**.

(b) Developer shall fund one hundred percent (100%) of engineering, design, permitting, and construction administration costs of the Water Improvements. CUD shall fund the following percentages of the construction costs for the Water Improvements, which shall be due from CUD and paid to Developer upon CUD's final acceptance of the Water Improvements: ten percent (10%) of the water storage tank, fifteen percent (15%) of the water pump station, and ten percent (10%) of the water mains, the general scope of which are identified on **Exhibit D**. Furthermore, Developer will pay for (i) 90% of CUD's portion of the construction cost for the 16-inch water main to be installed per the Mona Road Agreement and (ii) 90% of the construction cost to upsize the water main from 16-inch to 20-inch for the section of water main between Dinky Lane and West Jefferson Pike per the Mona Road Agreement, and (iii) Developer will pay CUD for the construction costs under subsections (i) and (ii) within fifteen (15) business days of CUD awarding the construction contract for the Mona Road Water Line.

(c) Tap Fee Credits for Oversized Infrastructure for Sewer Improvements Only. In the event the Town determines that the Sewer Improvements must be sized larger than what would otherwise be required to adequately serve the Project alone in order to provide capacity for future development within the broader service basin, Developer shall be entitled to tap fee credits against the costs of the Sewer Improvements as follows:

(i) Determination of Required Sizing. The Town's Director of Utilities, or his designee, in consultation with Developer's engineering consultant, shall determine (a) the minimum pipe sizes and related infrastructure capacity required to adequately serve the anticipated utility demands of the Project ("**Project-Required Size**"), and (b) the pipe sizes and infrastructure capacity that the Town requires Developer to install to serve the broader basin or to meet the Town's utility system planning requirements ("**Town-Required Size**").

(ii) Credit Calculation. If the Town-Required Size exceeds the Project-Required Size for any portion of the Sewer Improvements, Developer shall receive sewer tap fee credits, as applicable, equal to the incremental cost difference between installing infrastructure at the Project-Required Size versus the Town-Required Size, as documented by Developer's contractor pricing and verified by the Town.

(iii) Credit Application. Such credits shall be applied against tap fees assessed by the Town for connections to sewer within the Project, and any unused credits may be transferred to subsequent phases of development by Developer or its affiliates within the same service area, subject to the Town's standard policies regarding sewer tap fee credit transfers.

(iv) Documentation. All sizing determinations and cost calculations for Sewer Improvements shall be documented in writing and agreed upon by both the Town and Developer prior to commencement of construction of the applicable infrastructure.

5. **Coordination and Construction.**

(a) Subject to the defaults and remedies in **Section 17** and Developer's obligations in the following sentence, CUD and the Town, as applicable, shall acquire and pay for all easements required for their respective portions of the Utility Improvements, a preliminary drawing of the locations for which being attached as **Exhibit B**. Developer shall provide surveys of the easement areas to the Town and CUD, as applicable, each containing a metes and bounds description, drawing, current owner's name and source of title, and current tax map and parcel number. If Developer reasonably expects the acquisition of a possessory right to any easement required for the Utility Improvements to delay beyond the 395th day following the Effective Date, Developer will have the right but not the obligation, to redesign the route of any affected Utility Improvements, subject to the approval of the Town and/or CUD, as applicable, pursuant to **Section 3**.

(b) Developer shall be responsible for procurement of materials, construction and installation of the Sewer Improvements and the Gas Improvements prior to the expiration of the Term of this Agreement, with the Town retaining rights to inspect bids and contracts relating to sewer and gas utility scope.

(c) Developer shall be responsible for procurement of materials, construction and installation of the Water Improvements prior to the expiration of the Term of this Agreement, with CUD retaining rights to inspect and approve all bids and contracts relating to the water utility scope. Developer must obtain CUD's written approval as to all contractors for any Water Improvements and all bids,

contracts, and construction costs relating to the Water Improvements before the execution of any contracts for any Water Improvements or commencement of the construction of any Water Improvements, said approval not to be unreasonably withheld, conditioned or delayed.

(d) Developer, the Town and CUD shall, to the greatest extent possible and practical, adjust the alignment of the respective utility pipelines to share a forty (40) foot wide public utility easement, as depicted on **Exhibit A**, and provide clearance between the utility pipelines that is acceptable to both the Town and CUD.

(e) Developer, the Town and CUD each acknowledge that, for a portion of the overall alignment, the gas and sanitary sewer may be on one side of the road and the water main on the opposite side of the road. In that situation, the Town and CUD will determine the width of their respective easement(s) and the terms and conditions of said easement(s) for their respective purposes.

(f) When the Town and CUD are expected to share the same public utility easement, the terms and conditions of the public utility easement document will be revised as needed to make them acceptable to both the Town and CUD.

(g) The Town and CUD will coordinate and collaborate regarding shared easement acquisition, including by jointly meeting with the applicable property owners if needed, and utilize the same appraisal of each property to determine the value of the shared easement.

(h) The Town shall be responsible for 67% of easement acquisition and negotiation costs pertaining to any easement that contains natural gas, sanitary sewer and water line facilities. CUD shall be responsible for 33% of easement acquisition and negotiation costs pertaining to any easement that contains natural gas, sanitary sewer and water line facilities.

(i) The Town shall be responsible for 50% of the easement acquisition and negotiation costs pertaining to any easement that contains natural gas and water line facilities. CUD shall be responsible for 50% of the easement acquisition and negotiation costs pertaining to any easement that contains natural gas and water line facilities.

(j) The Town shall be responsible for 100% of the easement acquisition and negotiation costs pertaining to any easement that contains only natural gas and sanitary sewer facilities. CUD shall be responsible for 100% of the easement acquisition and negotiation costs pertaining to any easement that contains only water line facilities.

(k) The Town shall be responsible for 100% of construction inspection costs of the Gas Improvements and the Sewer improvements, and CUD shall be responsible for 100% of construction inspection costs of the Water Improvements.

(l) Developer shall cooperate with any reasonable requests of the Town or CUD in connection with easement acquisitions, and the Town, CUD and Developer shall cooperate with each other on any permit procurement required for construction of the Utility Improvements. Developer shall grant to the Town and CUD, at no cost, any utility easements and temporary construction easements for their respective utilities which Town and/or CUD determine are necessary crossing property owned or controlled by Developer or Developer's affiliates. Any such easements shall be located in areas that Developer reasonably approves in advance to avoid interference with the development and construction of improvements on the Property. Developer shall also convey property in fee simple to Town of sufficient size and location as mutually agreed upon for construction of a sewer lift station with an easement for ingress, egress and utilities thereto. Developer will also convey property to CUD in fee simple of sufficient

size and location mutually agreed upon for construction of an elevated water tank and grant an easement to CUD for ingress, egress and utilities thereto. Any necessary final easement documents shall be prepared by Developer from easement descriptions provided by Developer and shall be approved as to form by the Town Attorney and CUD legal counsel.

6. **Plan Approvals for Utility Improvements and Stormwater Controls**.

(a) Developer's engineering consultant shall provide survey layout of the Utility Improvements, including, but not limited to, roadway, storm water drainage components, water and sewer lines, which includes the field location of an appropriate benchmark(s), location of roadway layouts, drainage structures, sewer manholes, preparation of sewer line cut sheets and water line location alignments. The Town Utilities Department shall approve the plans for the Sewer and Gas Improvements, including, but not limited to, sewer cut sheets and line locations prior to construction beginning. The Town Public Works Department and Town Engineer of Record shall approve any necessary roadway plans and storm water drainage plans and calculations for the Sewer Improvements and Gas Improvements prior to beginning construction. Developer must obtain CUD's written approval of plans for the Water Improvements, including, but not limited to, water cut sheets and line locations prior to construction beginning.

(b) Developer shall provide the Town and CUD detailed site plans, road plans and profiles, storm drains, sediment control measures and detention plans, including dry detention, and other utilities including water, gas and sewer included in the Utility Improvements. Developer shall obtain approval from the applicable Town Departments and/or CUD prior to any changes to the plans after submittal for water, sewer, roadway and storm water design, and any field changes which would affect the approved design. Developer shall coordinate site plans, road plans and profiles, storm drains, sediment control measures and detention plans, including dry detention with water and sewer mains and laterals to avoid conflicts during construction of the Utility Improvements.

(c) In the event any of Developer, the Town or CUD, at any time prior to final acceptance of the Utility Improvements, identify unforeseen field conditions that require adjustment to the approved plans for the Utility Improvements in order to serve the Project in accordance with **Section 11** (which for the avoidance of doubt will be determined without consideration of requests for service from any other customer or potential customer of the Town or CUD), Developer, the Town and CUD will promptly coordinate to redesign the affected portions of the Utility Improvements, as necessary, and such redesigned plans will be reviewed and approved in accordance with the provisions of **Section 3** and **Section 6** of this Agreement, and all costs associated therewith will be allocated in accordance with **Section 4**.

7. **Financial Surety**.

(a) If Developer wishes the final plat executed prior to the completion of all Utility Improvements for the Project, in order to secure the performance of Developer's obligations under this Agreement and the Utility Improvement Regulations, Developer shall provide security in the form of an irrevocable letter of credit or cash deposit to the Town for the Sewer Improvements and the Gas Improvements (collectively, the "**Town Financial Surety**"). The Town Financial Surety amount shall be based on the percentage of the Sewer Improvements and Gas Improvements remaining to be completed, tested and accepted by the Town, in accordance with the inspector's project quantity records. The Town Financial Surety shall remain in force through the completion of the work and shall extend for a period of twelve (12) months after the completion of the work and preliminary acceptance by the respective Town Departments, except that the Town may release a portion of the Town Financial Surety during the twelve

(12) month maintenance warranty period which shall commence at the time the Town gives written acceptance by the director of the appropriate Town Department of the improvements as being complete according to the plans and in conformity with the Utility Improvement Regulations; provided however, that the portion of the Town Financial Surety retained for such warranty period shall in no event be less than twenty-five percent (25%) of the original amount of the Town Financial Surety or $10,000, whichever is higher. The Town Planner is authorized to reduce the amount of the Town Financial Surety below the aforementioned minimum in the Town Planner's sole discretion on items of little value.

Actual construction costs, as submitted to Developer from Developer's contractor, and any Town cost shall be used to establish the construction cost portion of the letter of credit or cash required by the Town's subdivision regulations or the Code. In the event the Sewer Improvements and the Gas Improvements have not been completed in the period of time beyond the original twelve (12) month letter of credit or cash bond, Developer understands and acquiesces that construction costs for labor and materials may increase over time and the Town may require an increase of value within the bond or letter of credit. Developer acknowledges and accepts the Town's right to recalculate the amount of financial surety required after the initial twelve (12) month period has expired and to provide the additional surety if required. Furthermore, in the event Developer fails to install the Sewer Improvements and the Gas Improvements, either to completion or satisfactorily, the Town shall be reimbursed by Developer for the costs to the Town, over and above the letter of credit, cash bond or other surety for completing the Sewer Improvements or the Gas Improvements, as applicable. The Town will competitively bid the unfinished, incomplete or faulty public improvements and Developer shall be responsible for the difference between the letter of credit, cash bond or other surety and the competitively bid price to the Town.

(b) If Developer wishes the final plat executed prior to the completion of all Utility Improvements for the Project, in order to secure the performance of Developer's obligations under this Agreement and the Utility Improvement Regulations, Developer shall provide security in the form of an irrevocable letter of credit or cash deposit to CUD for Water Improvements (the "**CUD Financial Surety**"). The CUD Financial Surety amount shall be based on the percentage of the Water Improvements remaining to be completed, tested and accepted by CUD, in accordance with the inspector's project quantity records. The CUD Financial Surety shall remain in force through the completion of the work and shall extend for a period of twelve (12) months after the completion of the work and preliminary acceptance by CUD, except that CUD may release a portion of the CUD Financial Surety during the twelve (12) month maintenance warranty period which shall commence at the time CUD gives written acceptance to Developer that the improvements as being complete according to the plans and in conformity with the Utility Improvement Regulations and CUD requirements; provided however, that the portion of the CUD Financial Surety retained for such warranty period shall in no event be less than twenty-five percent (25%) of the original amount of the CUD Financial Surety or $10,000, whichever is higher. CUD is authorized to reduce the amount of the CUD Financial Surety below the aforementioned minimum in its sole discretion on items of little value.

Actual construction costs, as submitted to Developer from Developer's contractor, and any CUD cost shall be used to establish the construction cost portion of the letter of credit or cash required by applicable Utility Improvement Regulations. In the event the Water Improvements have not been completed in the period of time beyond the original twelve (12) month letter of credit or cash bond, Developer understands and acquiesces that construction costs for labor and materials may increase over time and CUD may require an increase of value within the bond or letter of credit. Developer acknowledges and accepts the CUD's right to recalculate the amount of financial surety required after the initial twelve (12) month period has expired and to provide the additional surety if required. Furthermore, in the event Developer fails to install the Water Improvements, either to completion or satisfactorily, CUD

shall be reimbursed by Developer for the costs to CUD, over and above the letter of credit, cash bond or other surety for completing the Water Improvements. CUD will competitively bid the unfinished, incomplete or faulty public improvements and Developer shall be responsible for the difference between the letter of credit, cash bond or other surety and the competitively bid price to CUD.

8. **Local Building and Site Permits**. The Town agrees to use its best efforts to have any and all building and site related permits required with respect to the Utility Improvements issued or amended in an expedited manner, to the extent the permit requirements meet the Town's regulations/ordinances, so as to facilitate Developer's anticipated schedule for the commencement of site work for the construction of the Project no later than thirty (30) days following the date Developer submits its request for such permit or amended permit.

9. **Annexation and Rezoning.**

(a) Developer agrees to file a written request for annexation into the Town's municipal jurisdiction of the portion of the tracts of land, or portions thereof, within the Town's urban growth boundary and located east of Mona Road, depicted on **Exhibit A** as the "**Eastern Parcels**", no later than ninety (90) days after Developer receives written notice from the Town for annexation into the Town's municipal jurisdiction; provided that the Developer's consent to annexation of the Eastern Parcels shall be expressly contingent upon the Town rezoning the Eastern Parcels to a Planned Unit District.

(b) Developer, its successors and assigns, irrevocably consent to the annexation of the Project land located within the Town's urban growth boundary, as evidenced by its currently filed request for annexation of the Western Parcels and its agreement to request annexation of the Eastern Parcels in accordance with subsection (a) above, and agrees to use commercially reasonable efforts to assist the Town in connection with its approval of this annexation.

10. **Impact Fees and Annexation.** The Developer acknowledges that, according to Title 5, Chapter 5 of the Code, impact fees will apply to all building construction permits within the Western Tracts. If the Developer obtains building permits from Rutherford County Government for the Eastern Tracts before their annexation, the Developer agrees to pay the applicable Town impact fees for any existing structures built under these County permits. This obligation arises upon the successful annexation of the Eastern Tracts, and the fees will be calculated as if the permits had originally been issued by the Town and assessed at the time of annexation.

11. **Utility Service Commitments**.

(a) The Town commits to providing sanitary sewer and natural gas services to the Project at locations set forth on the approved plans for the Sewer Infrastructure and Gas Improvements along the boundary of the Project generally depicted on the plan attached as **Exhibit B**, conditioned on the Developer's commitment to constructing the Sewer Improvements and Gas Improvements. The Town shall apply inside-customer service rates and proportionate tap fees (relative to the requested service) to the Western Parcels. The Town shall apply outside-customer service rates and proportionate tap fees (relative to the requested service) to the Eastern Parcels unless and until Developer requests annexation of the Eastern Parcels and the Town approves the annexation in accordance with **Section 9(a)** of this Agreement, at which time the Town shall apply inside-customer service rates.

(b) CUD commits to providing water service to the Project at locations set forth on the approved plans for the Water Improvements along the boundary of the Project generally depicted on the plan attached as **Exhibit C**, conditioned on the Water Improvements provided for in this Agreement and the Mona Road Agreement being completed in accordance with the terms of this Agreement and the

Mona Road Agreement, as applicable, in each case subject to and in accordance and compliance with the terms of the applicable agreement, all applicable laws, and CUD's generally applicable requirements; and

12. **Construction in Public Right-of-Way**. In the event any construction is to be performed within existing public right-of way of the Town, Developer agrees to notify the Town at least fourteen (14) days prior to the commencement of said work in the public right-of-way, and to obtain all necessary approvals and permits from all Town departments. Developer further agrees to properly mark the construction area with barriers, barricades, fences, guards and flagmen as required by the Manual on Uniform Traffic Control Devices, Part 6 ("**MUTCD**"), in order to minimize the danger to the public. Developer agrees that in streets which are not barricaded to block all traffic, to place and maintain a drum type barricade as described in MUTCD, stabilized with sand bags on each manhole cover and/or casting which extends more than two (2) inches above the existing street surface and provide variable message boards to inform the general public of closures or construction seven (7) days prior to the work. Without limiting Developer's obligation to conform to all provisions of MUTCD, Developer agrees to place and maintain signs as provided in subsection 6B of MUTCD. Prior to any grading (as defined in the Code) of land that is within the Town's jurisdiction for the installation of the Utility Improvements, the Developer is required to submit and receive a grading permit from the Town's Public Works Department.

13**. Public Dedication and As-Built Drawings.**

(a) The Town reserves the right to designate, for the purpose of dedication to the Town, roadway, storm water drainage components, sewer lines and gas lines as public for operation and maintenance by the Town. Developer shall coordinate all Water Improvements design and installation with CUD. Developer must submit to the Town acceptable Water Improvements designs which have received approval by CUD on a scale acceptable to Town, with State approvals, prior to the Town approving any designs for Sewer Improvements. The Town will not accept or connect storm water or sewer lines which are not constructed in conformity with the approved plans and specifications submitted to and approved by the town and any applicable State agency. The Town shall require Developer to televise and record the internal portion of the line which may be suspected of not meeting the installation requirements and standards. This work shall be performed by Developer at Developer's expense. Developer is responsible for installing sewer services from the respective mains to the Project. Developer is also responsible for setting any water meter boxes in accordance with the most recently adopted CUD Water Standard Specifications.

(b) After all Utility Improvements have been installed, including, but not limited to roadway, storm water drainage, natural gas and water and sewer components have been tested and approved by the Town and CUD, but before water taps are to be set, Developer shall "record drawings" of the Utility Improvements, also known as "as-built" drawings and provide copies of the same to the Town and CUD in a form acceptable to the Town and CUD. Any Natural Gas or Water Improvements record drawings shall include at least two measurements to all line valves, domestic taps and meters, and fire tap locations. Any Sewer Improvements record drawings shall locate all sewer service, which service shall be measured from the first downstream manhole and include the length of service laterals and the depth of the end of the service lateral. All record drawings shall be submitted with one paper copy and one electronic copy to the Town and CUD. The electronic copy shall be submitted to the Town in "shape" file format and be created using the XY Coordinate System, NAD_1983_StatePlane_Tennessee_FIPS_4100_Feet.The submission of electronic copies shall be in accordance with the Town's policy related to such electronic copies. The submission of the As Built Water Improvement drawings to CUD shall be in accordance with CUD requirements. The Developer or CUD, as

applicable and agreed to by the parties, shall be responsible for setting water meter assemblies after water mains are tested, approved, and record drawings are received by CUD.

(c) Upon completion of construction and prior to acceptance, the Town may require Developer to submit a sworn statement of actual costs of labor and materials required for construction excluding sums previously billed through the Town. The Town will supply Developer with a form for this purpose.

14. **Maintenance of Utility Improvements**. Developer shall be responsible for maintenance and upkeep of the Utility Improvements constructed for a period of one (1) full year following the date of written acceptance, said maintenance and warranty to include, but not be limited to, adjustment of storm water drainage grates, repair and establishment of grass growth of detention and retention areas, repair of storm water drainage components, repair of roadways and concrete curbs, manhole frames and covers, fire hydrants, valve boxes, and all infrastructure repairs required to maintain an operable system. In the event Developer fails to properly construct the Utility Improvements required by the plans incorporated herein and approved by the applicable Town Departments, during the warranty period, Developer shall continue to be responsible for corrective work, notwithstanding the Town overlooked such defects prior to its acceptance of the Utility Improvements.

15. **Disruption of Utility Service and Street Closure**. Developer is required to provide at least fourteen (14) days' notice to the Town prior to any closure of street or disruption of any utility. Prior to any street closure or disruption of any utility, Developer shall obtain written approval from the director of the appropriate Town Department. Developer agrees to pay for and reimburse the Town for any and all costs associated with the street closure, including costs associated with the re-opening of the street, and/or the disruption of any utility, including costs associated with the re-institution or re-connection of any utility. Developer is required to provide at least fourteen (14) days' notice to CUD prior to the disruption of any water utility. Prior to disruption of any water utility, Developer shall obtain written approval from CUD. Developer agrees to pay for and CUD for any and all costs associated with the disruption to the water utility including costs associated with the re-institution or re-connection of any water utility. The Town and/or CUD shall submit an invoice not later than thirty (30) days for any such costs. Such invoice for costs shall be paid not later than 15 (fifteen) business days from the date of invoice.

16. **Proof of Insurance**. Developer agrees to provide and maintain, or require Developer's contractor to provide and maintain, commercial general liability insurance with minimum limits of $2,000,000 single limits, which names Developer, Town, CUD, and Developer's contractor as insureds. In addition, Developer agrees to hold the Town and CUD harmless and indemnify the Town and CUD for all claims of loss associated with construction by Developer. The insurance policy shall require a minimum of thirty (30) days written notice to the Town and CUD prior to cancellation. Developer shall deliver proof of insurance prior to any construction. In the event Developer fails to do so, the Town and CUD may, following fifteen (15) days prior written notice to Developer, purchase the necessary insurance and charge same to Developer together with an interest rate/service charge fee of twenty percent (20%) per annum.

17. **Event of Default**.

(a) In the event of default by Developer, Developer agrees to pay reasonable attorney's fees and court costs associated with enforcement of this Agreement. Failure to comply with this Agreement or any aspect of this agreement will result in a Stop Work Order being issued by the Town and/or CUD. Additionally, no permits or certificates of occupancy will be issued for any construction or building within the Project until all violations are corrected. Violation of a Stop Work Order will be punished and enforced as applicable under State law. Violation of a Stop Work Order is a violation of this

Agreement and in accordance with the Code may subject the violator to a fine. Furthermore, all provisions of Title 14 Chapter 8 of the Code are incorporated into this Agreement; including, but not limited to, provisions codified under Title 14 Chapter 8 Section 807 (Violation and Penalty).

(b) In the event Developer (i) abandons the Project, (ii) fails to commence substantial construction of the Utility Improvements by the expiration of the twenty-fourth (24^{th}) full calendar month following the Effective Date, as such period will be extended on a day-for-day basis for each day that the Utility Property Acquisition (as defined in **Section 22(b)**) is delayed beyond the 395^{th} day following the Effective Date, or (iii) otherwise materially defaults under this Agreement such that the Project will not be completed, Developer shall reimburse the Town and CUD for all actual out-of-pocket costs incurred by the Town and CUD, as applicable, for easement acquisition related to the Project. Such reimbursement shall include, but not be limited to, appraisal fees, legal fees, court costs, survey costs, title work, condemnation expenses, and the actual out-of-pocket cost of any acquired land or easement rights. Developer's reimbursement obligation under this provision shall not apply if the Project is successfully completed in accordance with this Agreement.

18. **Quo Warranto Action and Agreement Nullification.** In the event that the annexation of the Western Tracts becomes the subject of a quo warranto action and is judicially nullified by a court with competent jurisdiction solely as a result of such quo warranto action, this Agreement shall be rendered null and void. During the pendency of such quo warranto action, the time constraints specified within this Agreement shall be extended and/or tolled (but without excusing any party from performing any obligations in good faith that are not expressly time constrained) until a final order is issued by the court assigned to the matter. Additionally, if the Town and/or CUD files petitions for condemnation of easements to effectuate the installation of sewer, gas, and/or water utility improvements, as applicable, and is not granted possession of the applicable property by the circuit court, this Agreement shall be voidable by the Town as to easements for Sewer and Gas Improvements or CUD as to easements for Water Improvements if possession through condemnation of any alternative routes deemed mutually acceptable by the Developer and the Town and/or CUD, as applicable, similarly fails in court.

19. **Ordinance/Regulation Application**. This Agreement does not supersede or negate any building requirements, fire flow regulations, ordinance provisions, or any other regulations of the Town of Smyrna that are applicable to the commercial or industrial development and construction of the Project. All such requirements and regulations must be fully complied with by the Developer and any other parties involved in the Project.

20. **Force Majeure**. Neither the Town, CUD, nor Developer shall be liable for any failure or delay in performance under this Agreement, other than the payment of money, due to circumstances beyond its reasonable control, including, but not limited to, acts of God, natural disasters, war, terrorism, civil disturbances, government actions, labor disputes, pandemics, or any other events that are unforeseeable and unavoidable ("Force Majeure Event(s)"). No Force Majeure Event shall excuse any failure or delay in performance under this Agreement for longer than one hundred eighty (180) days unless all parties hereto enter into an amendment to this Agreement. In the event such an amendment is not entered into, this Agreement shall terminate and the parties shall have no further obligations hereunder except that Developer shall be reimburse the Town and CUD as set forth in **Section 17(b)**.

21. **Severability**. If any party is judicially precluded from carrying out any of the provisions of this Agreement, such provision shall be deemed void, but the remainder of this Agreement shall remain in full force and effect. However, if the Town and/or CUD is enjoined or precluded from proceeding with the utility installations or annexations contemplated herein under a final, non-appealable judgment from

a court of competent jurisdiction such that the core purposes of this Agreement cannot be accomplished, then this Agreement shall be deemed void in its entirety.

22. **Term and Binding Effect**.

(a) This Agreement is valid for an initial term of five (5) years (the "**Initial Term**"), which may be extended for two (2) successive two (2) year periods, in Developer's sole discretion, provided Developer is not in default of any material terms of this Agreement. The Town and CUD reserve the right to decline renewal of this Agreement beyond the Initial Term if Developer fails to demonstrate significant, observable and ongoing construction activity related to the Utility Improvements installation prior to the conclusion of the Initial Term, which activity may include but is not limited to, Developer pulling building permits for construction of the Utility Improvements, grading and earthmoving activities, on-site contractor mobilization and commencement of the installation of infrastructure improvements. If the Town or CUD elect not to renew the Initial Term based on this provision, Town or CUD, as applicable, shall provide written notice to Developer outlining the Town's or CUD's, if applicable, reasoning and support for such nonrenewal.

(b) The Initial Term will be extended in the event the Town and CUD fail to secure all property rights necessary for construction of the Utility Improvements either through easements or fee simple acquisition, as applicable (the "**Utility Property Acquisition**"), within a period of two hundred seventy-five (275) days following the Town's and CUD's receipt of Developer's list identifying all property necessary for the Utility Property Acquisition (the "**Initial Acquisition Completion Date**"). In such event, the Initial Term extension shall be for a period equal to the number of days by which completion of the Utility Property Acquisition exceeds the Initial Acquisition Completion Date, with such extension continuing until the Town and CUD have successfully completed the Utility Property Acquisition. For purposes of this provision, Utility Property Acquisition shall be deemed complete when the Town and CUD have secured all requisite property rights through voluntary agreement, eminent domain proceedings, or other legally sufficient means, and all appeal periods related thereto have expired or been exhausted. This extension of the Initial Term shall not excuse any Party's obligations unrelated to the Utility Property Acquisition in this Agreement, and Developer shall cooperate in good faith with the Town and CUD to facilitate the Utility Property Acquisition.

23. **Governing Law and Jurisdiction**. This Agreement shall be governed by the laws of Tennessee, with jurisdiction and venue over any proceedings related to this Agreement lying exclusively in Rutherford County, Tennessee.

24. **Amendments.** From and after the Effective Date, any amendments to this Agreement must be made in writing and signed by all parties, following formal review by the Town Council and CUD's Board of Commissioners.

25. **Notices.** All notices of any kind which either part may be required or may desire to serve upon the other party in connection with this Agreement shall be in writing, signed by the party or its counsel identified below, and shall be served (as an alternative to personal service) by registered or certified mail, overnight courier service at the addresses set forth below:

26. **Assignment**. Developer may assign this Agreement, in whole or in part, to any affiliate of Developer without the consent of the Town or CUD. Developer shall provide written notice of such assignment to the Town and CUD as soon as reasonably practicable following the effective date of the assignment. Any such affiliate assignee shall assume in writing all obligations of Developer under this Agreement with respect to the portion assigned, and Developer shall remain liable for all obligations under this Agreement accruing prior to the effective date of such assignment. For purposes of this provision, "affiliate" means any entity that directly or indirectly controls, is controlled by, or is under common control with Developer. Developer may also assign this Agreement, in whole or in part, to any other party with the prior written consent of the Town and CUD, which consent shall not be unreasonably withheld, conditioned, or delayed. This Agreement shall be binding upon and inure to the benefit of the Parties hereto and their respective successors and permitted assigns.

27. **PUD Design Review Requirement**. Developer agrees to seek approval of the Project as a planned unit development ("**PUD**"), pursuant to Section 4.070 of the Town Zoning Code (the "**Zoning Regulations**"). In consideration of this Agreement, Developer shall provide the Town certain information

demonstrating that the Project shall be appropriately integrated with the surrounding area and developed in accordance with the Zoning Regulations, as described in more detail on **Exhibit E**, including, but not limited to a preliminary site layout, proposed uses, maximum development square footage and minimum open space square footage, and proposed building elevations. Developer shall seek final site plan and design review approval from the Town Council for the Western Parcels and the Eastern Parcels in addition to the Planning Commission as provided in the Zoning Regulations, and the Town Council shall comply with all applicable provisions of the Town Zoning Code related to final site plan approval and design review. The Town Council shall apply the same standard of review and approval criteria as the Planning Commission in its consideration of Developer's final site plan and design review.

28. **Waiver of Jury Trial**. Each party hereby waives any right to a trial by jury in any action or proceeding arising out of or relating to this agreement, to the fullest extent permitted by law. Each party acknowledges that this waiver is made knowingly and voluntarily. If this waiver is found to be unenforceable, any dispute between the parties shall be resolved by a court without a jury.

29. **Cooperation**. The parties agree to cooperate in good faith and use reasonable efforts to fulfill their respective obligations and to achieve the objectives of this Agreement and the feasibility and success of the Project.

30. **Mona Road Agreement**. The parties acknowledge and agree that nothing in this Agreement is intended to conflict with or contradict the terms of the Mona Road Agreement. Developer and CUD agree to cooperate, to the maximum extent permitted under applicable law and the Mona Road Agreement, to ensure the design, engineering and construction of the Water Improvements are consistent and coordinated with the design of the Mona Road Water Line. CUD shall, to the maximum extent permitted under applicable law and the Mona Road Agreement, ensure that the selection of a contractor for the Mona Road Water Line considers the need for such consistency and coordination. If the Mona Road Agreement is terminated for any reason, including under Section 1(e) of the Mona Road Agreement, CUD and Developer agree to enter into a replacement agreement on the same terms as the Mona Road Agreement, adjusted to reflect necessary changes in dates and to remove any obligations previously satisfied as of the termination date (a "**Replacement Agreement**") and adjusted to provide the following: (i) Developer will pay for 90% of CUD's portion of the construction cost for the 16-inch water main (ii) Developer will pay for 90% of the construction cost to upsize the water main from 16-inch to 20-inch for the section of water main between Dinky Lane and West Jefferson Pike. Notwithstanding the above, Developer will not be required to assume any liabilities of the developer under the Mona Road Agreement arising prior to the effective date of the Replacement Agreement. Further, in the event that Developer and the developer under the Mona Road Agreement desire for all or any portion of the developer's rights and obligations under the Mona Road Agreement to be assigned to Developer, CUD hereby consents to such assignment and acknowledges that no further consent or action by the parties to the Mona Road Agreement will be required by the parties to the Mona Road Agreement to memorialize CUD's consent, but Developer must obtain CUD's written approval as to all contractors for any water utility work under the Mona Road Agreement and all bids, contracts, and construction costs relating to water utilities under the Mona Road Agreement before the execution of any contracts for any water utilities under the Mona Road Agreement or commencement of the construction of any water utilities under the Mona Road Agreement, said approval not to be unreasonably withheld, conditioned or delayed. CUD further agrees to complete easement acquisition, engineering, design and permitting pursuant to Section 4 of the Mona Road Agreement within the time frames contemplated for the easement acquisition, engineering, design and permitting of the Utility Improvements under this Agreement, and Developer agrees to use commercially reasonable efforts to ensure alignment of such time frame. CUD agrees to finalize and issue its invitation to bid the construction work under the Mona Road Agreement no later than 30 days after

the easement acquisition, engineering, design and permitting required under Section 4 of the Mona Road Agreement is complete and to use commercially reasonable efforts to select a contractor under that invitation to bid no later than 45 days after issuing the invitation to bid.

Town of Smyrna
Town Council Meeting
Agenda Summary

Agenda Item Number 16.
Department: Planning
Date: January 6, 2026

Subject:
Consideration of an Ordinance relative to the rezoning of Tax Map 28J, Group A, Parcel 1.00, from R-3 to C-4 requested by Tracye Mayolo. The property requested to be rezoned contains approximately .71 acre and is located at 1191 Rock Springs Road. Second Reading.

Fiscal Impact:

Contract Type:

Contract Term (if applicable):

Background:

Summary:
The property that is the subject of this request is located at 1191 Rock Springs Road approximately 950 feet east of the intersection with Spring Hill Drive. The Land Use Plan for this area is the Sam Ridley character area, which would support a combination of retail uses and services that provide markets for both local and regional customers. The surrounding zoning is R-3, C-2, and C-4.

The Planning Commission reviewed this request and recommended approval 7 for, 0 against.

Recommended Council Action:
Staff recommends approval.

TOWN OF SMYRNA, TENNESSEE
ORDINANCE NO. 26-3

AN ORDINANCE relative to the rezoning of property located on Tax Map 28J, Group A, Parcel 1.00, comprising a total of approximately 0.71 acres from R-3 to C-4.

WHEREAS, the Planning Commission has recommended this change based on certain conditions and considerations; and

WHEREAS, the change is in agreement with the general plan for the area; and

WHEREAS, it has been determined that the legal purposes for which zoning exists are not breached by this amendment; and

WHEREAS, it has been determined that there will not be an adverse effect upon adjoining property owners and/or any such adverse effect is justified by the overwhelming public good or welfare; and

WHEREAS, it has been determined that no one property owner or small group of property owners will benefit materially from the change to the detriment of the general public.

BE IT ORDAINED BY THE TOWN COUNCIL OF THE TOWN OF SMYRNA:

Section 1. That the property located on Tax Map 28J, Group A, Parcel 1.00, comprising a total of approximately 0.71 acres as shown on Appendix I attached hereto and incorporated herein by reference as if set forth at length verbatim, be, and hereby is rezoned from R-3 to C-4, the public health and welfare of the Town of Smyrna requiring it.

Section 2. This ordinance shall take effect immediately upon its adoption on second and final reading, the public health and welfare of the Town of Smyrna requiring it.

PASSED on first reading by the Town Council the ____ day of _____, 2025.

PASSED on second reading by the Town Council the ____ day of _____, 2025.

Area requested to be rezoned from R-3 to C-4 contains approximately .71 acre.

Town of Smyrna
Town Council Meeting
Agenda Summary

Agenda Item Number 17.
Department: Administration
Date: January 6, 2026

Subject:
Consideration of an Ordinance amending Title 1 "General Administration" Section 1-104 "Order of Business" of the Municipal Code relative to Public Comment at meetings. Second Reading.

Fiscal Impact:

Contract Type:

Contract Term (if applicable):

Background:
Public Chapter 0300 took effect July 1, 2023, amending Tennessee Code Annotated, Title 8, Chapter 44, Part 1 by adding the following as a new section:

(a) A governing body shall, for each public meeting, reserve a period for public comment to provide the public with the opportunity to comment on matters that are germane to the items on the agenda for the meeting.
(b) The governing body may put reasonable restrictions on the period for public comment, such as the length of the period, the number of speakers, and the length of time that each speaker will be allowed to provide comment. The governing body may require a person to give notice in advance of the desire to offer comments at a meeting. The governing body shall take all practicable steps to ensure that opposing viewpoints are represented fairly, if any.
(c) A notice for a public meeting shall indicate the manner in which a person may indicate the person's desire to provide public comment at the meeting.
(d) This section does not apply to:
(1) A meeting of a governing body, or a portion thereof, where the governing body is conducting a disciplinary hearing for a member of the governing body or a person whose profession or activities fall within the jurisdiction of the governing body; or
(2) A meeting for which there are no actionable items on the agenda.

It has been the practice of the Town Council to not only meet these guidelines, but

exceed them by choosing not to limit public comment at Town meetings to only meetings that have actionable items and, further, to allow public comment outside of matters that are germane to items on the agenda.

Summary:
Currently, public comment takes place at the beginning of each meeting, prior to consideration of business items. It was proposed at the 10/30/2025 workshop that we potentially modify when we address public comment throughout the meeting in order to allow the public more opportunities to attend meetings and make public comment. This amendment to Title 1 of the Municipal Code would move the Public Comment period within the Order of Business to take place after the consideration of New Business items.

Therefore, with this change, if a citizen wishes to comment on matters that are germane to the items on the agenda for the meeting, they would do so at the time of consideration of that particular agenda item. If their public comments are not germane to an item on the agenda, they would comment under the Public Comment section under the regular Order of Business, as amended. All other requirements of the Town's Public Comment policy would remain the same, including the process for signing up to speak, etc.

In addition to the update to the public comment within the Order of Business, when the Town moved to a new agenda management system, Administration saw it beneficial to combine Correspondence with Announcements at the end of the meeting. This housekeeping item is also reflected within this amendment.

Recommended Council Action:
Staff recommends consideration of this amendment to Municipal Code.

TOWN OF SMYRNA, TENNESSEE
ORDINANCE NO. 26-1

AN ORDINANCE relative to the amendment of the Town of Smyrna Municipal Code, Title 1 "General Administration" Section 1-104 "Order of Business" of the Municipal Code relative to Public Comment at meetings.

WHEREAS, in accordance with the Charter of the Town of Smyrna, Tennessee, Article 2, Section 2.01(26), Town Council shall have the power to provide and maintain charitable, educational, recreative, curative, corrective, detentive, or penal institutions, departments, functions, facilities, instrumentalities, conveniences and services; and

WHEREAS, in accordance with the Charter of the Town of Smyrna, Tennessee, Article 2, Section 2.01(32), Town Council shall have the power to plan for the orderly development of the community, including economic, physical, educational and cultural aspects, and to institute programs to effectuate such plans; and

WHEREAS, in accordance with the Charter of the Town of Smyrna, Tennessee, Article 2, Section 2.01(34), Town Council shall have the power to create and empower boards, commissions, committees and agencies to facilitate the orderly and efficient implementation of governmental tasks, regulations, and policies; and

WHEREAS, in accordance with the Charter of the Town of Smyrna, Tennessee, Article 2, Section 2.01(35), Town Council shall have the power to exercise and have all other powers, functions, rights, privileges and immunities granted by general law or necessary or desirable to promote or protect the safety, health, peace, security, good order, comfort, convenience, morals, and general welfare of the town and its inhabitants, and all implied powers necessary to carry into execution all powers granted in the Charter of the Town of Smyrna, Tennessee.

BE IT ORDAINED BY THE TOWN COUNCIL OF THE TOWN OF SMYRNA:

Section 1. That Title 1 "General Administration" Section 1-104 "Order of Business" of the Municipal Code relative to Public Comment at meetings, shall be provided in the Code as appearing in Exhibit "A" attached hereto and incorporated herein by reference as if set forth at length verbatim, the health and welfare of the Town of Smyrna requiring it.

Section 2. This ordinance shall take effect immediately upon its adoption on second and final reading, the public health and welfare of the Town of Smyrna requiring it.

PASSED on first reading by the Town Council the ____ day of _____, 2025.

PASSED on second reading by the Town Council the ____ day of _____, 2026.

Section

1101 Time and place of regular meetings
1102 Time and place of special meetings
1103 Time and place of work sessions
1104 Order of business
1105 Method for placing items on the agenda
1106 General rules of order; standing rules
1107 Adoption of ordinances
1108 Salary of Mayor and Town Council members

§ 1101 TIME AND PLACE OF REGULAR MEETINGS.

The Town Council shall, by resolution, fix the time and place at which the regular meetings of the Town Council shall be held. Unless otherwise provided by resolution, the Town Council shall hold regular monthly meetings at 5:00 p.m. on the second Tuesday of each month at Town Hall.
(2007 Code, § 1-101) (Ord. 0325, passed 7-2003)
Charter reference:
Town Council, see Art. V

§ 1102 TIME AND PLACE OF SPECIAL MEETINGS.

Whenever in the opinion of the Mayor, or any three members of the Town Council, the welfare of the town demands it, the Town Manager shall call a special meeting of the Town Council.
(2007 Code, § 1-102) (Ord. 0325, passed 7-2003)

§ 1103 TIME AND PLACE OF WORK SESSIONS.

The Town Council shall, by resolution, fix the time and place at which work sessions of the Town Council shall be held.
(2007 Code, § 1-103) (Ord. 0325, passed 7-2003)

§ 1104 ORDER OF BUSINESS.

(1) At each meeting of the Town Council, the following regular order of business shall be observed unless dispensed with by a majority vote of the members present:

(a) Call to order by the Mayor;

(b) Roll call by the Town Clerk;

(c) Approval or correction of minutes of previous meetings;

~~(d) Correspondence/communications;~~

(~~e~~d)Awards and recognitions;

(e) Consent agenda;

(~~g~~f) Old business;

(g) New business;

(h) Public Comment Period

(~~i~~i) Status reports;

(~~j~~kj) Correspondence & Announcements; and

(~~k~~l) Adjournment.

(2) Consent agenda items will be those items determined by the Town Manager to be routine matters not necessitating discussion. All consent agenda items may be voted upon simultaneously pursuant to a single motion. There will be no separate discussion of these items unless a member of the Town Council requests that discussion be held, in which case the item will be removed from the consent agenda and considered separately. Following passage of the remaining consent agenda items, discussion of any items removed from the consent agenda shall be held and separate motions and votes shall be taken for each of the items removed.

(3) Public hearings which are related to matters on the agenda will be held at the time of consideration of the agenda item upon Town Council recess for such public hearing.

(4) Citizens may sign up for public citizen comments. ~~Prior to the commencement of the regularly scheduled Town Council meeting, a citizen's comments session shall be held beginning at 5:00 p.m. Such citizens' comments session shall be open to the public and shall be held at the same location as the regularly scheduled Town Council meeting which follows.~~ To be placed on the citizens comments speaker list, an individual must call the Town Manager's office before 4:30 p.m. on the last business day before the Council meeting and

request to be added to the speaker's list, provide his or her name, address, and telephone number, and state the purpose of addressing the Council. If the comments are germane to a current agenda item under consideration, the citizen shall speak prior to consideration of the item. If the citizen comment is unrelated to a specific agenda item, the citizen will speak during the Public Comment Period on the agenda. Speakers are limited to three minutes. Additional comments may be submitted in writing. The Mayor and Town Council shall not be asked to comment on the topic presented, but will take all topics presented under advisement. (2007 Code, § 1-104) (Ord. 0534, passed 8-2005) (Ord. 24-18, July 2024.)

§ 1105 METHOD FOR PLACING ITEMS ON THE AGENDA.

(1) The Town Manager, or his or her designee, will prepare an agenda for each meeting of the Town Council.

(2) Any member of the Town Council may have any additional items placed on the agenda for a meeting by notifying the Town Manager at least five days prior to the meeting. No item may be added to the agenda after this deadline except by the affirmative vote of a majority of the members present at such meeting.
(2007 Code, § 1-105) (Ord. 0325, passed 7-2003)

§ 1106 GENERAL RULES OF ORDER; STANDING RULES.

(1) *Rules of procedure*. The rules of order and parliamentary procedure contained in the current edition of *Robert's Rules of Order, Newly Revised* shall govern the transaction of business by and before the Town Council at its meetings in all cases to which they are applicable and in which they are not inconsistent with the provisions of the Charter or this code. All speakers and members of the audience and Council shall remember that the meeting is a Council meeting. All persons are to show proper respect to each other and shall maintain the proper decorum in the meeting at all times. Persons, who fail to observe the rules as to proper decorum, to the extent that the public meeting is disrupted, shall not be permitted to speak and may be removed from the meeting.

(2) *Signs not allowed in chambers*. Signs, posters, and placards are not allowed within the meeting room of Council meetings and work sessions.

(3) *Visual aids*. PowerPoint presentations, props, and other visual aids may be used by outside individuals or groups only with the advance permission of the Town Manager.

(4) *Handouts*. Persons desiring to hand documents or other items to Council members during the meeting should pass the same to the assigned officer working the meeting, or other person designated by the Mayor or Town Manager, for delivery to Council members when appropriate.

(5) *Comment at public hearing*. Each person shall be permitted to speak for three minutes and shall not have more than one time to speak, except that the chair may allow two minutes to the proponent for rebuttal. The Town Council may amend or extend the time limits

of individual speakers at the meeting by a majority vote.

Town Council Meeting
Agenda Summary

Agenda Item Number 18.
Department: Legal
Date: January 6, 2026

Subject:
Consideration of an Ordinance amending the Smyrna Municipal Code Title 5, Chapter 2 relative to Privilege and Business Taxes.

Fiscal Impact:
Not yet known

Contract Type:

Contract Term (if applicable):

Background:

Tennessee law distinguishes between standard and minimal business license accounts based on gross receipts. The State of Tennessee sets the threshold and processes standard accounts above that threshold, while local governments are responsible for processing minimal accounts below it. The state also sets the renewal fee for minimal business licenses, which has remained $15 since 1980.

The Tennessee Works Tax Act of 2023 significantly increased the minimal account threshold from $10,000 to $100,000 in gross receipts. This change dramatically shifted administrative responsibility to local governments. In Smyrna, the number of minimal accounts increased from approximately 230 in 2024 to more than 600 in 2025.

For standard accounts processed by the state, penalties and interest begin the day after the due date. Interest accrues daily at 11.25 percent, and penalties are assessed monthly at 5 percent of the tax due, up to a maximum of 25 percent. By contrast, there is currently no late fee or penalty mechanism available to the Town for minimal accounts.

Smyrna's minimal account volume has grown steadily—from 128 accounts in 2022 to over 600 in 2025—and a conservative estimate indicates that more than 60 percent of these businesses renew late. Staff currently relies on calls, emails, and mailed notices to encourage compliance, which has substantially increased administrative workload.

While Treasury may close accounts for nonpayment, reopening an account still costs only $15. To date in the 2025 cycle, 30 accounts have been closed, with those businesses continuing to operate without a valid license.

To address compliance and administrative impacts, staff recommends that Council adopt an ordinance authorizing the assessment of a late fee for minimal business license renewals. Staff further recommends setting the 2025 late fee at $50, effective the day after the renewal due date, with future adjustments as directed by Council

Summary:
Currently, the Town Code does not explicitly authorize Treasury to assess late penalties or fees for delinquent business privilege taxes. This ordinance would provide clear authority—granted by the Town Council under the Town Charter—for Treasury to assess late penalties on delinquent business tax payments.

Recommended Council Action:
Staff recommends approval.

2. Redlined Business Tax Penalty

TOWN OF SMYRNA, TENNESSEE
ORDINANCE NO. 26-4

AN ORDINANCE relative to the amendment of the Town of Smyrna Municipal Code, Title 5 "Municipal Finance and Taxation", Chapter 2 "Privilege and Business Taxes Generally".

WHEREAS, in accordance with the Charter of the Town of Smyrna, Tennessee, Article 2, Section 2.01(a)-(b), Town Council shall have the power to assess, levy, and collect taxes for all general and special purposes on all subjects or objects of taxation and privileges taxable by law for state, county, or municipal purposes; and adopt classifications of the subjects and objects of taxation that are not contrary to law; and

WHEREAS, in accordance with the Charter of the Town of Smyrna, Tennessee, Article 2, Section 2.01(34), Town Council shall have the power to create and empower boards, commissions, committees and agencies to facilitate the orderly and efficient implementation of governmental tasks, regulations, and policies; and

WHEREAS, in accordance with the Charter of the Town of Smyrna, Tennessee, Article 2, Section 2.01(35), Town Council shall have the power to exercise and have all other powers, functions, rights, privileges and immunities granted by general law or necessary or desirable to promote or protect the safety, health, peace, security, good order, comfort, convenience, morals, and general welfare of the town and its inhabitants, and all implied powers necessary to carry into execution all powers granted in the Charter of the Town of Smyrna, Tennessee.

BE IT ORDAINED BY THE TOWN COUNCIL OF THE TOWN OF SMYRNA:

Section 1. That Town of Smyrna Municipal Code, Title 5 "Municipal Finance and Taxation," Chapter 2 "Privilege and Business Taxes Generally" shall be provided in the Code as appearing in Exhibit "A" attached hereto and incorporated herein by reference as if set forth at length verbatim, the health and welfare of the Town of Smyrna requiring it.

Section 2. This ordinance shall take effect immediately upon its adoption on second and final reading, the public health and welfare of the Town of Smyrna requiring it.

Section

5-201 Tax levied
5-202 License required

§ 5-201 TAX LEVIED.

(1) Except as otherwise specifically provided in this code, there is hereby levied on all vocations, occupations, and businesses declared by the general laws of the state to be privileges taxable by municipalities, an annual privilege tax in the maximum amount allowed by said state laws.

(2) The taxes provided for in the state's Business Tax Act are hereby expressly enacted, ordained, and levied on the businesses, business activities, vocations, and occupations carried on within the town at the rates and in the manner prescribed by the said Act.
(2007 Code, § 5-201)
Statutory reference:
Business Tax Act, see T.C.A. §§ 67-4-701 et seq.

§ 5-202 LICENSE REQUIRED.

No person shall exercise any such privilege within the town without a currently effective privilege license, which shall be issued by the Town Clerk to each applicant therefor upon the applicant's compliance with all regulatory provisions in this code and payment of the appropriate privilege or business tax. Violations of this section shall be punished under the general penalty provisions of this code of ordinances.
(2007 Code, § 5-202)

§ 5-203 WHEN DELINQUENT; PENALTY AND INTEREST.

All privilege taxes becoming delinquent shall be subject to such penalty and interest as is authorized and prescribed by the Charter.

Town of Smyrna
Town Council Meeting
Agenda Summary

Agenda Item Number 19.
Department: Legal
Date: January 6, 2026

Subject:
Consideration of an Ordinance amending the 2025-2026 Fiscal Year Fee Schedule to add a late penalty for delinquent business privilege taxes.

Fiscal Impact:
Not yet known.

Contract Type:

Contract Term (if applicable):

Background:
Currently, the Town Code does not explicitly authorize Treasury to impose late penalties or fees on delinquent business privilege taxes. This ordinance works alongside a companion ordinance that amends the Town Code to grant Treasury that authority. Under this ordinance, a late penalty of $50.00 will be assessed for each 30-day period that the minimum business privilege tax remains unpaid.

Summary:
This Ordinance would amend the 2025–2026 Fiscal Year Fee Schedule to include a $50 late penalty for every 30-day period that the minimum business privilege tax payment remains delinquent.

Recommended Council Action:
Staff recommends approval.

Attachments:
1. Ordinance #26-5 Business Tax Late Fee

TOWN OF SMYRNA, TENNESSEE
ORDINANCE NO. 26-5

AN ORDINANCE to amend Ordinance No. 25-14, adopting the 2025-2026 Fiscal Year Budget.

BE IT ORDAINED BY THE TOWN COUNCIL OF THE TOWN OF SMYRNA:

Section 1. The budget document for the 2025-2026 fiscal year, as set forth in Ordinance No. 25-14, specifically the 2025-2026 Fee Schedule, be, and it hereby is, amended as to the Treasury Department in the following manner:

FEE SCHEDULE
TREASURY DEPARTMENT

The Language "**Business License Late Fee**" shall be added. The referenced fee shall be set to **$50.00 for every 30 days late**.

Section 2. This ordinance shall take effect immediately upon its adoption on second and final reading, the public health and welfare of the Town of Smyrna requiring it.

PASSED on first reading by the Town Council the _____ day of _____, 2026.

PASSED on second reading by the Town Council the _____ day of _____, 2026.

Town of Smyrna
Town Council Meeting
Agenda Summary

Agenda Item Number 20.
Department: Administration
Date: January 6, 2026

Subject:
Consideration of a Resolution in support of a new Air Traffic Control Tower at Smyrna Airport.

Fiscal Impact:

Contract Type:

Contract Term (if applicable):

Background:
As Tennessee's busiest general aviation airport and the fourth-busiest airport overall, it supports more than 120,000 aircraft operations each year and generates an estimated $232 million in annual economic impact. The airport is home to more than 50 on-airport businesses and supports over 1,500 jobs, directly benefiting Smyrna families and reinforcing our local economy.

Despite its critical role, Smyrna Airport continues to rely on an Air Traffic Control Tower originally constructed in 1953 for the former Sewart Air Force Base. At 72 years old, it is the oldest tower in Tennessee and one of the oldest in the nation. While it has served our community well, it can no longer meet the operational demands, safety expectations, or future growth of one of the fastest-growing towns in our state.

A modern Air Traffic Control Tower is also vital to supporting the planned relocation of the Tennessee National Guard from Nashville International Airport to Smyrna Airport, including the basing of 16 military helicopters. This move will enhance military readiness while generating more than $1.9 billion in economic impact, delivering lasting benefits to Smyrna and the surrounding region.

For these reasons, the Town of Smyrna strongly and enthusiastically supports Smyrna Airport's Air Traffic Control Tower Reconstruction and Relocation project. This project represents a smart, forward-looking investment in safety, economic vitality, and the future of our community.

Summary:
Representative Stevens will be sending draft language for consideration through a Resolution to signify joint support of a new Air Traffic Control Tower at Smyrna Airport.

Recommended Council Action:
Staff recommends approval of the Resolution in support of a new Air Traffic Control tower at Smyrna Airport.

Attachments:
1. Resolution #26-3

TOWN OF SMYRNA, TENNESSEE
RESOLUTION 26-3

WHEREAS, the Town of Smyrna owns forty percent (40%) of the Smyrna/Rutherford County Airport; and

WHEREAS, the Smyrna/Rutherford County Airport is the busiest general aviation airport in the State of Tennessee, and the fourth busiest overall when commercial air traffic is included; and

WHEREAS, the Smyrna/Rutherford County Airport is a major economic driver for the Town of Smyrna, the region, and the state with great potential for future expansion; and

WHEREAS, the air traffic control tower at the Smyrna/Rutherford County Airport is 72 years old with aging air traffic control equipment and undersized to meet future growth; and

WHEREAS, the current air traffic control tower does not comply with standards outlined in the Americans with Disabilities Act; and

WHEREAS, a recent study by the Federal Aviation Administration indicated that the air traffic control tower should be relocated to a different location on the airport property and that it should also be 51 feet taller; and

WHEREAS, the Tennessee National Guard is moving from the Nashville Airport to Smyrna/Rutherford County Airport in the coming years, including military aircraft that will conduct additional operations at the Smyrna/Rutherford County Airport; and

WHEREAS, with expected future general growth, the anticipated increase in air traffic from the Tennessee National Guard, and safety concerns with the current aging air traffic control tower, the Town Council of Smyrna, Tennessee requests that the United States Congress appropriate funding in the amount of $21,500,000 for the purpose of constructing a new air traffic control tower at the Smyrna/Rutherford County Airport.

NOW, THEREFORE, BE IT RESOLVED by the Town Council of Smyrna, Tennessee that this resolution be adopted; and

BE IT FURTHER RESOLVED that a copy of this resolution be forwarded to each Member of Congress representing Tennessee and each of Tennessee's United States Senators.

ADOPTED by the Town Council the _____ day of _____, 2026.

Town of Smyrna
Town Council Meeting
Agenda Summary

Agenda Item Number 21.
Department: Administration
Date: January 6, 2026

Subject:
Consideration of an amendment to the By-Laws of the Sister City Relations Committee.

Fiscal Impact:

Contract Type:

Contract Term (if applicable):

Background:
At the October 30, 2025, meeting of the Sister City Funding Sub-committee, the committee discussed "Article VIII" of the By-Laws of the Sister City Relations Committee relative to "Reports." Revision to this By-Law article was recommended to the Sister City Committee for approval at their next meeting; specifically, that this Article be amended to revise the date of annual reporting to by October 31 and that the report subject of this Article be submitted to the Sister City Funding Sub-Committee rather than to the Town Council. Therefore, the recommended amendment shall read as follows under "Article VIII" of the By-Laws of the Sister City Relations Committee relative to "Reports:"

"An end of the year activities summary report will be submitted each year to the Sister City Funding Sub-Committee by October 31. This report will include but is not limited to:
a) Activities during the previous year.
b) The number of visitors from other countries.
c) A summary of the Student Exchange Program.
d) Funding requests of the Town of Smyrna."

Summary:
This amendment to the By-Laws of the Sister City Relations Committee was brought before the Committee for a vote and passed, which must now be approved by the Town Council per "Article X" of the By-Laws of the Sister City Relations Committee.

In addition, included in your packet for your information is an additional revision made

and approved by the Sister City Funding Sub-committee's By-Laws reflecting the amount that the Sister City Relations Committee is allowed to spend before coming to the subcommittee, along with reporting requirements. Specifically, the committee is authorized to allocate or expend up to one thousand five hundred dollars ($1,500.00) per fiscal quarter for routine, necessary, and directly related business expenses of the Sister City Program without prior approval of the Sub-Committee; provided, however, that any such expenditures shall be reported in writing to the Sub-Committee at its next regular meeting and included in the Sister City Relations Committee regular meeting minutes. Lasty, the Committee has made a recommendation to change the chaperon age requirement from 30 years of age to 27.

Recommended Council Action:

Staff recommends approval of the proposed revision to the Sister City Relations Committee By-Laws.

BY-LAWS
TOWN OF SMYRNA SISTER CITY RELATIONS COMMITTEE

ARTICLE I: NAME

The name of this organization shall be the Sister City Relations Committee of Smyrna, Tennessee as authorized by Title 2, Chapter 5, of the Town of Smyrna Municipal Code.

ARTICLE II: PURPOSE

The purpose of this organization is educational, charitable and for economic development. The organization's objectives are:

(a) To cause the citizens of the Town of Smyrna, Tennessee and the citizens of similar cities of foreign nations to acquire a consciousness of each other, and to understand one another as individuals, as members of their community, as citizens of their country and as part of the family of nations.

(b) To foster as a consequence of such knowledge and consciousness a continuing relationship of mutual concern between the citizens of the Town of Smyrna, Tennessee and the citizens of similar cities of other nations.

(c) To undertake both in seeing and in consequence of such consciousness and concern any activities and programs as will provide to one another appropriate aid and comfort, education and mutual understanding.

(d) To participate as an organization in the promoting, fostering and publicizing of local, state and national programs of international municipal cooperation organizations, and thereby to encourage other organizations and residents of American communities to engage and participate in such programs, to foster and promote friendly relations and mutual understanding between peoples of American communities and people of friendly nations outside the United States of America, and to act as a coordinating body, committee, or agency among those organizations, groups and individuals desiring to engage and engaging in the activities of such international municipal corporate organizations.

ARTICLE III: ORGANIZATION

Section 1. The Town of Smyrna Municipal Code, Title 2, Chapter 5, as the same may be amended or replaced, shall outline the manner, number and qualifications of the Sister City Committee. The ordinance shall also set the terms of the Sister City Committee. There shall be an appointed council member who shall be the Chairman. The town designee shall serve as the secretary. The Committee shall elect a Vice Chairman from among the appointed members at least once a year or more often if a member resigns of is no longer serving in one of the aforementioned positions. Said election shall occur in April of each year. The Chairman shall preside at all meetings and in his/her absence, the Vice Chairman. The Secretary is responsible to keep the minutes of each meeting. The minutes will be given to the Town Clerk or his/her designee who shall be appointed

to assist the Committee. The Town Clerk or his/her designee shall attend all board meetings but not vote and will provide monthly financial reports to be included in the minutes.

Section 2. Committees may be appointed by the Chairman as necessary to effect the necessary functions of the organization.

ARTICLE IV: MEETINGS

Section 1. Meetings will be held monthly at a regularly scheduled time. Notice of said meetings shall be published in a paper of general circulation by the Town Clerk. Meetings shall be held at Town Hall except for special event meetings.

Section 2. All meetings shall be conducted according to Robert's Rules of Order.

ARTICLE V: ACTIVITIES

Section 1. Activities undertaken by the Sister City Committee are not limited to but may include:

(a) Student exchange visits to and from Zama, Japan.
(b) Fundraising efforts.
(c) Economic development missions.
(d) Educational and cultural activities.
(e) Any other activities that supports the purpose of and is approved by the Sister City Committee.

ARTICLE VI: HOST FAMILY AND CHAPERONE CRITERIA AND SELECTION

Formatted: Left, Space After: 10 pt, Line spacing: Multiple 1.15 li, Adjust space between Latin and Asian text, Adjust space between Asian text and numbers

Section 1. Chaperones shall be selected from a pool of applicants with preference given to Sister City Committee members, parents of participants or past program participants or Town of Smyrna employees. Any remaining vacancies may be considered from citizens of Smyrna who have ongoing involvement with youth in formal or non-formal settings such as schools, churches and civic organizations.

Section 2. Chaperone applicants shall submit to a background check conducted by the Smyrna Police Department. Applicants shall be disqualified for any incident(s) resulting in convictions of a felony for a crime against another person.

Section 3. Chaperones shall be a minimum of twenty seven (27) ~~30~~ years old. A maximum age will not be established, but consideration will be given to the applicant's physical ability to adequately carry out the responsibilities of chaperone.

Section 4. Chaperones shall attend and assist in orientation and educational programs during exchanges. Chaperones shall participate in all fund-raising activities.

Section 5. Any person over the age of 18 living in the home of a Host Family at the time of a student exchange visit is required to submit to a background check through the Town of Smyrna.

ARTICLE VII: FUNDING

Section 1. The Smyrna Charity Assistance Fund Board subcommittee known as the "Sister City Funding Sub-Committee" shall exercise exclusive control over the management and distribution of all funds donated specifically for the benefit of the Sister City Program.

Section 2. The sub-committee shall authorize and direct the disbursement of funds donated specifically for the benefit of the Sister City Program. The sub-committee shall have no authority over other Charity Assistance Funds. All donations shall be marked and clearly denoted as funds for the Smyrna Sister City Program. The Director of Finance shall segregate the monies collected by the sub-committee to be segregated from those of the Charity Assistance Fund and will further provide a monthly accounting of such funds to the subcommittee's Chairman.

Section 3. The sub-committee shall consist of five (5) individuals who shall be members of by virtue of their position with the Town of Smyrna and their membership shall cease upon leaving their position:

(i) They Mayor of the Town of Smyrna, or his/her designee;
(ii) The Town Manager of the Town of Smyrna, and his/her designee;
(iii) One (1) member of the Town Council, appointed by majority vote of the Town Council, who shall serve a term of two (2) years;
(iv) One (1) Citizen member, appointed by majority vote of the Town Council, who shall serve a term of two (2) years;
(v) The Director of Finance for the Town of Smyrna, or his/her designee.

Section 4. Officers: Each July the sub-committee shall select from its membership a Chairman and Vice-Chairman of the Charity Assistance Fund Board. The Town Manager shall designate a staff member to serve as Secretary of the subcommittee whose duties shall be the same as those assigned to the Secretary of the Charity Assistance Fund Board.

ARTICLE VIII: REPORTS

An end of the year activities summary report will be submitted each year to the ~~Town Council~~ Sister City Funding Sub-Committee ~~in March.~~ by October 31st. This report will include but is not limited to:
(a) Activities during the previous year.
(b) The number of visitors from other countries.
(c) A summary of the Student Exchange Program.
(d) Funding requests of the Town of Smyrna.

Formatted: Superscript

ARTICLE IX: ADMINISTRATION

All records shall be maintained by the Town Clerk.

ARTICLE X: AMENDMENTS

Section 1. These by-laws may be altered or amended by a two-thirds vote of the entire Sister City Committee. Any member of the Sister City Committee may offer an amendment or alteration. The Committee must be advised 14 days in advance before a vote is held on the proposed amendment or revision. Voting will follow Robert's Rules of Order. Said amendment, if passed must be approved by the Town Council.

~~Adopted this _____ day of _____, 20____.~~

BY - LAWS AND RULES OF PROCEDURE
OF
SISTER CITY FUNDING COMMITTEE
A SUB-COMMITTEE OF THE CHARITY ASSISTANCE FUND BOARD
OF
THE TOWN OF SMYRNA, TENNESSEE

ARTICLE I
SISTER CITY FUNDING SUB-COMMITTEE

Section 1. **Name of Sub-Committee**. The name of the sub-committee shall be "Sister City Funding Sub-Committee" (hereinafter "the sub-committee").

Section 2. **Powers and Duties:** The sub-committee shall have the following powers and duties: To authorize and direct the disbursement of funds donated specifically for the benefit of the Sister City Program of the Town of Smyrna; the Sister City Relations Committee is authorized to allocate or expend up to one thousand five hundred dollars ($1,500.00) per fiscal quarter for routine, necessary, and directly related business expenses of the Sister City Program without prior approval of the Sub-Committee; provided, however, that any such expenditures shall be reported in writing to the Sub-Committee at its next regular meeting and included in the Sister City Relations Committee regular meeting minutes.

Section 3. **Membership**. The sub-committee shall consist of five (5) members; however, the following individuals shall be members of the sub-committee by virtue of their position with the Town of Smyrna and their membership shall cease upon leaving their position. The membership of the sub-committee shall be constituted as follows:

i. The Mayor of the Town of Smyrna, or his/her designee;
ii. The Town Manager of the Town of Smyrna, or his/her designee;
iii. One (1) member of the Town of Smyrna Town Council, appointed by majority vote of the said Town Council, who shall serve a term of two (2) years;
iv. One (1) citizen member, appointed by majority vote of the Town of Smyrna Town Council, who shall serve a term of two (2) years;
v. The Director of Finance for the Town of Smyrna, or his/her designee.

Section 4. **Order of Business**. All meetings of the sub-committee shall follow the following format:

a. Call to Order

b. Review and approval of minutes of previous meetings.

c. Old Business

d. New Business

e. Reports of officers, committees, or staff.

f. Set the next meeting date, if necessary

g. Adjournment

ARTICLE II
OFFICERS

Section 1. **Officers**. The officers of the sub-committee shall be a Chairperson and Vice-Chairperson.

Section 2. **Elections**. The sub-committee shall elect officers at its first meeting and then each July thereafter. All elected officers of the sub-committee shall serve for a term of one (1) year and shall be eligible for re-election.

Section 3. **Chairman**. The Chairperson shall preside at all meetings of the sub-committee, preserve order and decorum, enforce the rules and regulations of the sub-committee, sign all letters and documents as authorized by the sub-committee, and will otherwise perform the duties devolving upon a presiding officer.

Section 4. **Vice-Chairman**. In absence of the Chairperson, the Vice-Chairperson shall perform the duties of the Chairperson.

Section 5. **Secretary.** The Town Manager shall appoint a secretary from the staff of the Town of Smyrna who shall assume charge of all records of the sub-committee and who shall keep accurate and complete minutes of all meetings thereof.

Section 6. **Vacancies**. Should the office of Chairperson or Vice-Chair person become vacant, the sub-committee shall elect successors to these positions who shall serve for the unexpired term of said offices.

ARTICLE III
MEETINGS

Section 1. **Meetings**. The sub-committee shall determine a regular meeting schedule as necessary, provided however, that regular meetings shall be held not less than quarterly (every three months) unless the Chairperson and the sub-committee member who is a member of the Town Council concur that no meeting is necessary. Special

meetings may be called by either the Chairperson acting alone or by not less than two (2) other members of the sub-committee acting together. All meetings shall be open to the public and shall be conducted at Town Hall. Accurate minutes shall be kept of all meetings and shall be made available to the public. The Secretary shall give not less than seven (7) days' notice of each meeting to all members of the sub-committee and to the general public.

Section 2. **Advertisement of Meeting Notices**. Notice of regular meetings as to the date, time, and place of each meeting of the sub-committee shall be advertised in a newspaper of general circulation in the Smyrna area at least seven (7) days prior to the meeting.

Notice of special meetings, giving date, time, place and subject matter, shall be advertised in a newspaper of general circulation in the Smyrna area in the next edition(s) following the decision to hold a special meeting.

Section 4. **Quorum**. A majority of the membership of the sub-committee shall constitute a quorum for the purpose of conducting the business of the sub-committee. Approval of any business, including the election of officers, shall be by a favorable vote of a majority of the sub-committee members present and voting.

Section 5. **Manner of Voting**. The voting on all questions coming before the sub-committee shall be by voice vote or, if requested by a sub-committee member, by roll call. The "ayes" and the "nays" shall be entered upon the minutes of such meeting; except that when the vote of all sub-committee members present is unanimous, the record of such unanimous vote shall be sufficient.

Section 6. **Conflict of Interests**. Should any member have a personal interest in any matter before the sub-committee for a vote, they shall be excused from participating in any discussion and voting. It shall be the responsibility of the sub-committee members to disclose any conflict of interest. Minutes shall note if a member excuses himself or herself. Sub-committee members shall comply with the Code of Ethics of the Town of Smyrna at all times when conducting business in any manner associated with the member's position on the sub-committee.

Section 7. **Agenda**. The Secretary shall prepare an agenda for each meeting of the sub-committee that specifies the order in which the items of business shall appear before the sub-committee. Additional items may be placed on the agenda upon written request,

which may be by electronic means, made to the Secretary by either the Chairperson acting alone or by at least two (2) two other members of the sub-committee acting together. All items of business shall be submitted to the Secretary in writing by not later than (7) days prior to the date of the meeting at which the business is to be considered. Materials not received by the cut-off date shall be automatically placed on the next meeting's agenda.

For all meetings, both regular and special, the agenda, with all materials to be considered at the meeting, shall be delivered to all sub-committee members by not later than three (3) days prior to the meeting date.

Section 8. **Calling Recessed Meetings**. No adjournment shall be called until the discussion of the subject on the table has been completed and a vote taken on any pending motion.

ARTICLE IV
RULES OF ORDER

Section 1. **Rules of Order**. When a parliamentary matter arises that is not covered by these by-laws, then Robert's Rules of Order shall apply. The newest edition of such publication shall govern. In the event of any inconsistency between such publication and these by-laws, then the provisions of these by-laws shall control.

ADOPTED by the Sister City Funding Sub-Committee Members on this __ day of _____, 2026.

Town Council Meeting
Agenda Summary

Agenda Item Number 22.
Department: Administration
Date: January 6, 2026

Subject:
Discussion relative to the renaming of the bridge on Morton Lane.

Fiscal Impact:

Contract Type:

Contract Term (if applicable):

Background:
Councilmember Jerome Dempsey requested that the Town Manager add this item to the agenda for discussion.

Summary:
Please see the letter added as an attachment to this item for further background from the requester, Joe Gourley, Jr.

Recommended Council Action:
Discuss said request to rename the bridge on Morton Lane.

Attachments:
1. Bridge on Morton Lane

Proposal to name the bridge on Morton Lane "The Gourley Family Farm Memorial Bridge".

In 1955 my parents bought a 280 acre farm from Mary Shafer. It was off of Almaville Road and accessed by a small lane going back to the house that was built on the Land Grant of James Morton in 1792. Eventually the county helped maintain the lane but it did not connect to anywhere except by a pig path that was best traveled with a horse and wagon.

In January 1959 Benny Smith approached my parents about giving a right of way across the bottom field from their driveway to his house. The county wanted a through road to assume maintenance. He lived on the other side of the bottom field at the base of what is now that Ryan Subdivision. He had a good weather access over the hill but it would wash out during heavy rains. He owned the hill where the Ryan Subdivision is and the land where Bankside Subdivision is on the other side of what is now Morton Lane.

My parents gave a right of way, the county built the road but no bridge and we fenced along the road to keep the cows in. It was the mid 1970's before a bridge was built. When the farm was sold to the county in late 2004 and they gave property to the city for a Fire Station, it was determined that the original bridge would not support a loaded fire truck and a new one was built.

When my Mom passed away in early 2004 we began to get offers from developers and had a signed offer when the county approached us. We got the developer to agree to pause for 30 days while the county did geotech and in the end they wanted it. We sold the property to the county for what the developer had offered with the thought that since both of our parents had been school teachers at some point in their life it would be better to put the property in the public domain. A few years later the county sold the 80 acres across the road to the city for what is now Cedarstone Park.

If it were not for my Dad's desire to help a neighbor, Morton Lane and the bridge would not exist.

Joe Gourley, Jr.
